(M.M.I.A.) *SD/2.*

Ref. your SD 1872 of 2 December 1944.

1. Herewith first return requested.
2. The screening position here requires reviewing. To date we have been working on following List 2 serials:
 - 25 (Signallers): Produced 25, despatched 21.
 - 30 (Drivers) : Serial complete. Produced 105, despatched 29.
 - 47A (Five ~~QM~~ Truck Co's.): Understand fourth coy not required.
 - 107 (Three Ry Eng Coys): Has been "odd bodies" serial. 90 selected men awaiting movement.
 - 137 (EME personnel): Produced 112, despatched 24. Moving 9 Dec., 30. AFHQ Signal FX 63811 of 6 December (not to this office) seems to require movement of some tradesmen not available in this serial. 30 men will be sent, but they will not be as in the AFHQ Signal.
 - 151/236 (Pack Tpt. personnel): Hitherto, potential muleteers (i.e. peasants) have been selected: not physically very suitable in many cases (see para 3 below). Is this type of man now no longer required?

Please state on what lines screening is to go ahead, with particular reference to serials 30, 47 A, 107, and 151/236.

3. The men received in the camp for screening have till now come entirely from the Combat Groups i.e. "rejectees" on medical grounds. It has therefore been impossible to find specialists for the Gruppi from here, nor are the men selected as "muleteers" likely to have proved very successful for this reason.

A complete check-over of the ex IW (from France) has not yet been made but the majority appear to be old men ("anziani") with homes in the north of Italy. These will not make good muleteer material, but there may be some valuable specialists amongst them. The young men all seem to have "Volunteered" for TEANO and been despatched direct from AVERSA. Many, whose homes are in Southern Italy have been sent on leave (30 days); how many will return is difficult to ascertain.

The men from 31 Depot are a poor lot and mainly "Sottufficiali".
