Subject:- Armaments for drivers travelling alone. -

1. - The Florence Military Territorial Command has informed us that the military personnel of the 530 Central American Military Police Station recently withdrew from a driver of the Folgore Division (travelling to Leghorn) a Thompson Sub Machine Gun which was on his charge, stating that military vehicles were not allowed to circulate whilst carrying arms on board.
2. - The SMG was later returned to an officer of the Folgore Division by the Captain commanding the above station.
The American Captain, whilst returning the weapon, reconfirmed that it was prohibited to carry arms in the Leghorn zone.
3. - As what has been explained above is contrary to the instructions issued by this SM (instructions according to which drivers travelling alone must be armed with an automatic weapon) the Florence Military Territorial Command has asked an explanation of what has happened from 7 BLU, which has reserved its reply until having consulted your AMIA.
4. - Neither is this S.M. aware of the instructions issued by the Allied Authorities which restrict carrying of arms in the city of Leghorn.
Therefore in order to avoid the repetition of similar incidents, we beg your AMIA to clarify the reason for the action taken by the American military Police at Leghorn. -

Subject:- Arming Italian Army Drivers.

1. Reference is made to letter 7th Territorial Command, Italian Army, FLORENCE, 2 December 1946, Subject: "Arming of Drivers", copy of translation attached.

2. Italian military formations have been armed in accordance with AFHQ directives. The Italian War Ministry has issued orders that drivers of Italian military vehicles carry arms while on duty. Since the driver in the case cited was operating in Italian government territory not under Allied military government the action of the US Military Police would appear to be an infringement of the sovereignty restored to the Italian Government by the terms of the hand back to it of territorial jurisdiction and of control of the Italian Army.

3. May this Headquarters please be informed of any instructions to Military Police to disarm Italian military personnel are current.

ref: 3287/3 Prot.2 December 1946Subject: Arms of drivers.To : 7 E.L.U.

On 28th November a lorry of the "POLICIE" Div. proceeding on duty through LAMON, was stopped by policemen of the 530 Central Station of the American M.P. They collected the Thompson rifle in the drivers possession stating that the Italian Military vehicles are not allowed to carry weapons.

The rifle has been returned to an Officer of the Division by the Capt. Commander of that station, who confirmed that the Italian Military personnel are not allowed to carry arms in the 530 Area without authority of the Divisional Commander, countersigned by an Officer of the P.M.

As this is in contradiction to the instructions issued by the Ministry of War with circular 5175/2 CA dated 5 May 1946, in which it states that the drivers must carry arms on duty, will you, please let us know if there is any amendment to the a.m. circular.
