1. Extent of proposed reductions to allowances applicable during hostilities and still in force :-

(a) abolition of "Combat" pay 45 lire per day for 46,000 troops.
(b) abolition of "danger" pay 32 lire per day for 40,000 service troops in forward areas.
(c) abolition of "heavy working" pay 20 lire per day for 20,000 troops in rear areas.

Proposed to replace above by all-round addition of 20 lire per day for 250,000 but this has not yet been approved by Treasury.

2. Financial effect on a basis of 250,000, if proposals agreed.

Combat troops lose 25 lire per day.
Forward service troops lose 12 lire per day
Heavy workers - no change.
Remainder (i.e. 135,000) gain 20 lire per day.
This will cost Treasury about 1 1/2 million lire per day.

3. Psychological effect will inevitably be adverse on combat troops and to a lesser extent on forward service troops, although on grounds of law and equity this action is justified. There is a risk, however, that the very important part of the army (viz the Combat Groups), who have cost a lot to train and equip, may desert or become unreliable, particularly as it is understood that their officers who are similarly affected resent the proposed cut. Date selected for cut is 1 Dec 45, which coming just before the Christmas festivities will encourage tendency to desert. On the other hand, only 95,000 out of 250,000 will lose, while 135,000 will gain: and a percentage of the 46,000 combat troops are new entry who did not fight during the war. Moreover, Italian Navy and Air Forces lost their "Combat" pay in May last.

4. Recommend therefore for your consideration:-

1. Extent of proposed reductions to allowances applicable during hostilities and still in force :-

(a) abolition of "Combat" pay 45 lire per day for 66,000 troops.
(b) abolition of "danger" pay 32 lire per day for 49,000 service troops in forward areas.
(c) abolition of "heavy working" pay 20 lire per day for 80,000 troops in rear areas.

Proposed to replace above by all-round addition of 20 lire per day for 250,000 but this has not yet been approved by Treasury.

2. Financial effect on a basis of 250,000, if proposals agreed.

Combat troops lose 25 lire per day.
Forward service troops lose 12 lire per day
Heavy workers - no change.
Remainder (i.e. 139,000) gain 20 lire per day.
This will cost Treasury about 1 1/2 million lire per day.

3. Psychological effect will inevitably be adverse on combat troops and to a lesser extent on forward service troops, although on grounds of law and equity this action is justified. There is a risk, however, that the very important part of the army (viz the Combat troops), who have cost a lot to train and equip, may desert or become unreliable, particularly as it is understood that their officers who are similarly affected regret the proposed cut. Date selected for cut is 1 Dec 45, which coming just before the Christmas festivities will encourage bonhomy to desert. On the other hand, only 95,000 out of 250,000 will lose, while 135,000 will gain; and a percentage of the 66,000 Combat troops are new entry who did not fight during the war. Moreover, Italian Navy and Air Forces lost their "Combat" pay in May last.

4. Recommend therefore for your consideration:-

(a) Treasury be pressed to grant an extra 10 lire per day to soldiers who were present with Combat troops on 8/5/45 to continue for further three months, possibly costing approx 25 million lire. 2982
(b) Full explanation of proposals, reasons and decisions to be given to troops through LA PATRIA earliest.

Declassified E.O. 12356 Section 3.3/NND No. 785020

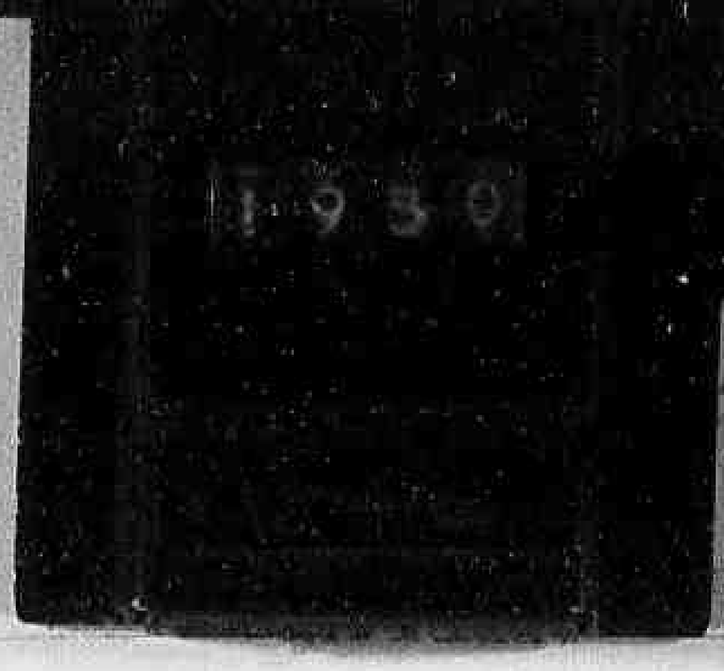

5. Serious effect of proposal already discussed with War Minister and SACMED views again represented today.

6. Adjustment of messing and other allowances affecting units of all categories but not the soldier's pocket omitted in above summary so as not to confuse the question. Probable effect will be reduction of per capita unit messing grants by 15 lire per day.

7. Agreed by Allied Commission.

1. It has been reported to M.M.I.A. that the School of Artillery BRACCIANO is losing some of its best Officer and NCO instructors at an alarming rate. Captains CITTONI and CASANOVA have already left, and Captains CAPORALI and LOLLI (Adjutant) are leaving shortly. Many good NCO's have also applied for a transfer.

Good Officer and NCO instructors are not numerous, and take a long time to train. It appears probable that still further applications for transfer from BRACCIANO may be put forward in the near future, and if this happens, the efficiency of the school may be seriously affected.

2. It has also been reported that the basic causes of these applications for transfer are lack of living accomodations and inequalities in the pay regulations. For example, an Officer or NCO stationed at BRACCIANO, where there are no suitable quarters, receives less pay than if he were stationed in ROME. It is considered that the cost of living at BRACCIANO is similar to ROME, yet the Allowance (CAROVITA) paid for ROME is higher than that for BRACCIANO. The Cost of Living allowance being based on the place of residence of the husband, and NOT the family causes hardship. An officer who, unable to obtain suitable accomodation at BRACCIANO, places his family in ROME, draws CAROVITA on the BRACCIANO scale and not the ROME scale, although his family are living in ROME. It is also noted that there is no Instructors pay in the Italian Army.

3. Will you please examine the question of the provision of accommodation and of pay and allowances for these and similarly placed instructors in other stations (particularly those who are married) and see if anything can be done to improve conditions.

1. The School of Artillery is loosing some of its best and most experienced Officers and NCOs at an alarming rate. Captain GIFFUNI (25 pr Instructor) and Captain CASAGRANDI (Chief Instructor in Anti Tank Gunnery) have already left the School and Captain CAPORALI (25 pr Instructor) and Captain LOLLI (Adjutant) are leaving shortly. Many good NCOs have also applied for a transfer from the School.

2. Good Officer and NCO Instructors are not numerous, and take a long time to train. It appears probable that still further applications for transfers from BRACCIANO may be put forward in the near future, which might seriously affect the efficiency of the School of Artillery.

3. The basic cause of these applications for transfer from BRACCIANO is the Pay Regulations of the Italian Army. For example, an Officer or NCO stationed at BRACCIANO receives less pay than if he were stationed in ROME. A table giving examples of typical rates of pay for various ranks at BRACCIANO and ROME is attached. It should also be noted that there is no additional pay for Instructors in the Italian Army.

4. At the School of Artillery it is felt that :-

(a) As the cost of living at BRACCIANO is similar to that of living at ROME, that the "Cost of living Allowance" (CAROVITA) should be the same for Officers and NCOs at both places.

(b) That Instructors Pay should be instituted to encourage the best type of Officer and NCO to instruct at the various Schools.

5. Unless inferior Instructors are to be accepted and tolerated at BRACCIANO, it is of the utmost importance that the above mentioned grievance be investigated and rectified with the minimum of delay. The existing conditions are particularly unsatisfactory from the NCO's point of view, as his financial loss is greater in relation to his pay than that of an Officer.

6. The "Cost of [illegible]

6. The "Cost of Living Allowance" (CAROVITA) paid to a married Officer or NCO is calculated on the Officer or NCO's place of residence and not on that of his wife and family. Thus, an Officer or NCO instructing at BRACCIANO with a wife and family living in ROME (probably owing to lack of suitable accommodation at BRACCIANO) will be receiving the "Cost of living allowance" applicable to BRACCIANO.

REF : 139648 Div. XVIII - 30 November 1945

SUB : War bonuses.

With decree n. 529, 7 September 1945 the "bandi di dichiarazione" for the zone of operations in the returned territories were revoked, and therefore the war bonus for military personnel of the Government Armed Forces, as per decree n. 583 of 19 May 1941, exception made for articles 12, 40-41 and 42, was cancelled.

In the said decree there was inserted the usual wording that enforces the regulations contained in it for the territories not yet returned, from the date which the A.M.G. will establish, or from the date on which the said territories will be returned to the Italian Administration.

Due to the application of the above mentioned measures, and in spite of the fact that war operations have since ceased also in Northern Italy, military personnel on duty there continue to receive the war bonus, though they are in the same condition as the personnel in the Central and Southern provinces.

This state of affairs creates dissatisfaction among the latter personnel and, to avoid this, the military Ministries insist in their proposals of continuing the payment of some indemnities or special bonuses or subsidies to military personnel.

This Ministry therefore brings the matter to your attention, begging you to examine the same and inform them whether for reasons of equanimity and reasons of budget you deem necessary to issue an ordinance to enact the above mentioned decree n. 529 7 September 1945, also in the Northern provinces.

A.

My dear Mr. Prime Minister:

In spite of my conversation with you on 11 October it appears that the Army Pay question has not yet been settled, nor, so far as I am aware, has any meeting on this subject taken place between the Ministers for War and Treasury.

You will appreciate the fact that this question has been under discussion for well over a month. On 29 September the Ministry for War was given, by letter, the views of the Supreme Allied Commander which were "that the matter be taken up again with the Treasury Minister with a view to obtaining an early favourable agreement." This letter went on to request that immediate action be taken to contradict disquieting rumours.

It appears that no agreement has been reached on this matter. In the meantime rumours and uncertainty as to the future persist among Army personnel with the inevitable result that there is a serious lowering of morale.

The Supreme Allied Commander has taken a personal interest in this matter and I should therefore be grateful if you could ensure that an early solution of the problem could be effected.

Very truly yours,

7. All AFs W3488 must be clearly marked either "ORIGINAL" or "DUPLICATE". On opening or closing an account card, the reason and date will be clearly shown, e.g. "Relegation to non-co-operator status on ..... under authority ....." "Transferred to (or from) .....on....."; "Repatriated to..... on.....", etc.

When carrying a pay balance forward to a new card, it is very important that the period for which pay has been previously credited by British authorities should be shown, as this period must be quoted in due course on the statement of account which is prepared on release.

BO/2 23 October, '45.

My dear

Thanks for your G/13/51 of 21 Oct. on the subject of Pay for Italian Army. As you say, we know all about the business this end. In fact, AFHQ and Chief Commissioner A.C. have also taken a definite hand in it! I have spoken to the War Minister personally more than once about it - the last occasion being only a few days ago. The business is, of course, mainly one for the Italian Government and has many facets. We have represented strongly the need for contentment in the Italian Army. PRIMIERI is saying nothing we don't know! There is a meeting at Ministry of War of all Territorial Commanders next week and this matter will doubtless be discussed among other items in the wide agenda arranged.

I hope all goes well with you.

In haste,

Yours L.B.

1. I agree entirely with the comments in your covering letter A 9 of 18 Oct 45.

2. However much I may sympathise, and I do sympathise with the difficulties of recruitment and pay encountered by the GRUPPI at the moment, I am bound to conclude that the factors dealt with in General Primieri's letter are matters entirely for MMA and the War Ministry to decide.

3. In the matter of promotions and appointments, - in fact in all administrative matters I am not consulted and therefore I fail to see why I should be asked to interfere over pay the arguments in the case being well known to MMA and the Ministry of War.

4. I do not regard the Gruppo Cremona as "operational" in the sense indicated by General Primieri, i.e. they are not subjected to daily moves as in war. Some units have been moved once during the past two months.

5. Regardless of the above comments I would be glad if you would inform General Primieri that

a) I am forwarding copies of his letter under personal cover to General Browning.

b) that I fully appreciate his difficulties in regard to pay of both officers and OR and that the number of moves will be kept to minimum in order to lessen hardship caused by frequent changes of station.

When I informed you that the grant of War Service Increment (Lire45) to the Gruppi had been extended to the end of November (the Ministerial Order dated 8 Sep was received by me on the 22nd) you remarked that we had obtained "a great victory". But you will also remember that on that occasion I did not share fully your enthusiasm and conviction.

In fact, on 7 Oct I received another Ministerial Order dated 15 Sep, which, as a result of the decision of the Council of Ministers to abolish the "State of War" in all Italian territory (I must believe that as far as the territory under Allied control this was decided with your consent) - it stopped with immediate effect as from 16 Sep, the war economical treatment. To those, therefore, who received this order only on the 7 Oct, it had a retroctive effect.

War economical treatment included:-

Operational Increment - Lodging Allowance for Officers and WOs - A higher rate of entertainment Allowance for Generals and Colonels - A Higher Rank Entitlement Allowance for offecers entrusted with a Command or a post above the rank held. (In your organisation, the officer who holds the command generally held by a Lt Col, if he is of a more junior rank, is promoted to the acting rank - Lt Col Slater, Comd 51 BLU is an example - and holds this rank as long as he holds the post. On the other hand, I put forward the following examples:- As Comd of Cremona I have acted as a Divisional Comd for 27 months your equivalent rank would be that of Major General - and I had as such, all the prerogatives and renumerations. Now all I shall have will be the prerogatives, with their relative duties and responsibilities).

The Ministerial order of the 15 Sepa, establishes amongst other things a temporary increase in military Pay now in force for Offecers and WOs and fixes it at Lire 120 a month for soldiers. This amount is equal

Now all I shall have will be the prerogatives, with their relative duties and responsibilities).

The Ministerial order of the 15 Sep., establishes amongst other things a temporary increase in military Pay now in force for Offecers and WOs and fixes it at Lire 120 a month for soldiers. This amount is equal (in the case of the soldier) to the War Service Increment. Appx 1, drawing comparisons between war time and peace time economical treatments, shows that, for the present and as long as this order remains in force - 30 Nov -, the War Pay of Lire 45 for the Gruppi does not suffer any decrease.

Declassified E.O. 12356 Section 3.3/NND No. 785020

Officers' Pay, however, will suffer "cuts" which are not substantial ones except in the case ofthose who will have the Higher Rank Entitlement Allowance whilst occupying the post of the rank above their own.

But the decrease which will be most felt and which is not apparent in the Appx as it is an <u>indirect increase</u> is that due to the cessation of Lodging Allowance. Whilst this was in force there was the possibility of obtaining - through the obligations imposed on the communes - billets at cheap rates. In stopping this Lodging Allowance, billets at cheap rates are no longer possible. The officer for whom it was possible to obtain a billet for a few Lire is now obliged to make his own pricate arrangements - generally costing him large sums - and thus suffering an indirect decrease.

This is a question I propose to make known to our central authority: but as the Gruppo depends operationally on Allied Comd, which arranges the Gruppos' deployment and movements, I consider this fact should also interest yourself especially so as moves are still frequent and may remain so until a definite "peace deployment" has been decided upon for the Gruppo.

Peace time economical treatment provides for a special allowance called "Displacement Allowance", which,,being a pre-war measure is very small (see Appx 2) but is an alternative to the Lodging Allowance. The Displacement Allowance was granted in peace-time to tps living in abnormal conditions, such as ours, or in the field or on manouvres. More than being on manoeuvres we are still employed in an operational role.

The competent administrative departments are of opinion that as we are living in abnormal conditions, we are entitled to the Displacement Allowance. It is my opinion, however, that this allowance will not be granted to the Gruppi for as long as they are still employed operationally, and that therefore the "lodging compensation" should be allotted in the meantime, thus having the situation unchanged.

One must not forget that the temporary increases to the military pay fixed some time ago to make up for those greater expenses that the officers and WOs must meet as compared to civil servants, must once again be gradually rendered insufficient through eventual further increases of pay to civil servants. This principle is an erroneous one as it does not recognise the difficulties of the Army who will only receive a part of many increases granted to the civil servants.

It is also worth noting that a directive which is retroactive is unwise. The payfor Sep has already been paid out, and the soldier must now refund what has already now become overpaid to him through the new decreases.

The practical difficulties to obtain reimbusement are many. Some have already been discharged and others have obviously already spent the sums that have been paid to them. Witholding the balances overpaid now means that for a at least one month the soldier is going to suffer a double cut in his pay. What is most serious, however, is the fact that allowing an order for decreases to arrive so late reveals a poor understanding on the part of our authorities of the repurcussions financial problems have at present on the morale.

DRAFT LETTER.

EX CCM TO PRIME MINISTER

In spite of my conversation with you on 11 oct it appears that the Army Pay question has not yet been settled nor so far as I am aware has ANY my meeting on this subject taken place between the Minister of War and Treasury.

You will appreciate the fact that this question has been under discussion for well over a month. On the 29 Sep the Ministry of War WAS were given, by letter, the views of the Supreme Allied Commander which were, " that the matter be taken up again with the Treasury Minister with a view to obtaining an early and favourable agreement." This letter went on to request that immediate action be taken to contradict disquieting rumours.

That no agreement will be reached until such time as a meeting between the Minister of War and Treasury takes place, is apparent. In the meantime rumours, and uncertainty as to the future, persist, amongst army personnel, with the inevitable result that there is a serious lowering of morale.

I must insist therefore that a meeting between the two Ministers takes place with a view to reaching agreement on this matter which has been out-standing too long.

Reference your A/025 dated the 29/9/45.

The Ministry of Treasury notified us that, in view of the imminent pay improvement for employees of the State, the proposal made by this Ministry to increase the soldier's rate of pay by from 20 to 25 Lire a day, and to increase the meal improvement quota by from 5 to 15 Lire, will be taken into consideration.

At the same time, however, the Ministry of the Treasury has requested that the allowances of 45 and 32 Lire cease to be paid w.e.f. the 1/10/45 instead of the 1/12/45.

In view of the said notification, the Minister of the Treasury has been personally interested so that:

- the increase proposed by this Ministry be paid immediately, independent from the question dealing with increases of pay for all employees of the State.
- the 45 and 32 Lire allowances continue to be paid up to the 1/12/45.

Whilst awaiting a reply, the allowances mentioned above, are still being paid in accordance with instructions previously issued by this Ministry and forwarded to you in letter No. 121009/1/3 dated the 7/9/45.

SUBJECT:- Pay of Italian Army

A 025 2940

Major DOBBS - Lt.Col. SILLI : Ministry of War : 1100 hrs 13 October.

He informed me that the Ministry of Treasury was inclined to grant the 20 lire Special Allowance proposed for all soldiers of the Italian Army, but wished to cut off the 45 lire Combat Allowance from 1 Nov and not 1 Dec as proposed by the Ministry of War. The Ministry of War was opposing this latter suggestion.

Folio 41.

A letter was being sent from the Ministry of War 13 Oct to MMIA with the above information. So far as Lt.Col. SILLI himself knew, the Ministers of War and the Treasury had not yet met in this connection.

FILE IN POLICY PAY III ARMY - 033

This AIDE MEMOIRE was prepared at the request of the Ex Com in Min 326 of AFHQ FILE 8251/EC VOL IV. (39)

REF: 316. AFHQ.

From July 1945 onwards Ministry of Treasury were pressing Ministry of War to comply with instructions to stop the grant of Lire 45, Combat Pay, and reduce the daily messing allowance from Lire 20 to Lire 5.

Rumours circulated to the effect that large pay cuts were to be made, and a number of British IOs supported by certain Italian Commanders expressed the view that large scale desertions would result if such a large pay cut was made.

At request of MMIA, the Chief of Cabinet sent a letter dated 7 September explaining the position. In this letter it was stated that Combat Pay and reduction in Messing Allowance would come into effect as from Dec. 1st, but that it had been proposed to the Ministry of Treasury that the pay of all soldiers "wherever located and however employed, should be increased by L. 20 a day and the supplementary messing allowance increased from L. 5 to L. 15 a day.

On 18 September A.F.H.Q. asked ALCOM for details of proposed reductions and stated that SACMED viewed with concern any measure likely to lead to reduction in efficiency of ITALIAN ARMY.

M.M.I.A. in conjunction with ALCOM replied, giving full details of proposals and recommendations, on 22 Sept.

A.F.H.Q. approved recommendations made, expressed SACMED's views that no avoidable action be taken which might affect morale, and left the degree to which such views be pressed to ALCOM.

On 29 Sept. GOC, M.M.I.A. addressed a letter to the Ministry of War giving SACMED's views and requesting that the matter be taken up again with the Treasury Minister with a view to obtaining an early and favourable agreement. The letter also requested that immediate action be taken to contradict disquieting rumours.

2931

On 2 Oct Major SALVIONI of the I CLASS DE VIL CABINET reported to MMIA that no meeting between the Ministry of War and the Ministry of Treasury had yet taken place, but that a

On 2 Oct Major SALVIONI of the I CLASS OF THE CABINET reported to MMIA that no meeting between the Ministry of War and the Ministry of Treasury had yet taken place, but that a proposal that such a meeting should take place was being made today, and that the meeting would take place this week or next.

M.M.I.A. feels that to meet SACMED's requirements that Ministry of War and Treasury should agree on a just policy and announce it immediately to allay the fears that are growing throughout the Army.

SUBJECT : Combat Pay.

On behalf of Lt/Col Gillmore, I telephoned Lt/Col SILLI, Gabinetto, Ministry of War, 1630 hrs 2 October.

1. Lt/Col. SILLI stated that Decree No 529 published in the Gazzetta Ufficiale No 111 of 15 September referred to a special allowance made to troops in operational Areas. Its discontinuance would affect only senior officers as it was pratically nothing for the lower ranks.

2. The discontinuance of the 45 Lire per day combat pay was another matter. The decree being prepared to give effect to this would not come into force in any case before 1st December.

3. The proposal for an allowance of 20 Lire to all troops of the Italian Army was still being examined. The Ministers of War and Treasury were arranging a meeting in this connexion.

To : Ministry of War.

I refer you to your letter 101005/1 dated 7th, September 45.

I am informed that there is considerable doubt as to whether the Ministry of Finance will approve the increase of pay which you have proposed for 1st.Dec.

The Supreme Allied Commander considers it most important that nothing should impair the efficiency and reliability of the Italian Army at this critical period, and that immediate action should be taken to contradict disquieting rumours.

I therefore feel it necessary to request that you will again take this matter up with the Finance Minister and obtain an early and favourable agreement.

Please keep me informed of progress in this matter.

1. Extent of proposed reductions to allowances applicable during hostilities and still in force :-

(a) abolition of "Combat" pay 45 lire per day for 46,000 troops.
(b) abolition of "danger" pay 32 lire per day for 49,000 service troops in forward areas.
(c) abolition of "heavy working" pay 20 lire per day for 20,000 troops in rear areas.

Proposed to replace above by all-round addition of 20 lire per day for 250,000 but this has not yet been approved by Treasury.

2. Financial effect on a basis of 250,000, if proposals agreed.

Combat troops lose 25 lire per day.
Forward service troops lose 12 lire per day
Heavy workers - no change.
Remainder (i.e. 135,000) gain 20 lire per day.
This will cost Treasury about 1 1/2 million lire per day.

3. Psychological effect will inevitably be adverse on combat troops and to a lesser extent on forward service troops, although on grounds of law and equity this action is justified. There is a risk, however, that the very important part of the army (viz the Combat Troops), who have cost a lot to train and equip, may desert or become unreliable, particularly as it is understood that their officers who are similarly affected resent the proposed cut. Date selected for cut is 1 Dec 45, which coming just before the Christmas festivities will encourage tendency to desert. On the other hand, only 96,000 out of 250,000 will lose, while 135,000 will gain; and a percentage of the 96,000 Combat troops are new entry who did not fight during the war. Moreover, Italian Navy and Air Forces lost their "Combat" pay in May last.

4. Recommend therefore for your consideration.

Subject : Pay of Italien Private Soldiers.

Owing to the cessation of hostilities, and ~~at the insistence~~ under pressure request of the department of the M of Treasury concerned, instructions have been issued that, w.e.f. 1 December 45, the payment of the grants of L.45 and L32 will be ceased, and that the supplementary messing allowance for fighting units will be reduced from L.20 to L.5 daily.

Therefore, as a result of this measure, the daily pay of a private soldier is L.14 for those with less than 40 months service and L.19 for those with over 40 months service (in addition to the manual labour and heavy work allowance, of L.20 daily, for those soldiers who are detailed for such work).

It has been proposed to the M of Treasury that the following measures should be adopted:

-to increase, by 20 Lire daily, the pay of all private soldiers, wherever located or however employed;
- to increase from L.5 to L.15, the supplementary messing allowance.

We are not yet in possession of sufficient information to be able to foresee the result of such proposals.

Subject: Allowances, 45 and 32 Lire - Royal Decree No. 122 date 5/4/44.

Royal Decree No. 122 of 5/4/44 lays down, as noted, for the payment of allowances of 45 and 32 Lire per day, the following conditions which are very restrictive:

a) for allowance of 45 Lire:

effective employment in a n operational theatre, in action, effective presence with a unit in action or with pack transport and bearer units effectively and directly employed with operational units.

b) for allowance of 32 Lire:

employment in an operational theatre, in duties directly connected with active service

effective presence with units employed in operational theatres, in duties connected with operational troops and located in an area 15 Kilos from the line.

With the cessation of hostilities in Europe, the legal right which can justify an entitlement of money (for soldiers who prior to the 8/5/45 were entitled to the said allowances) superior to that granted to other military personnel of the Italian Army, does not exsist.

It is considered, however, much more important that said allowance is not justified by the actual situation since the military personnel who are at present entitled to receive the allowances of 45 or 32 Lire, are employed on similar duties and often in the same area as others who are entitled to a maximum daily allowance of 20 L ire as laid down in Royal Decree No. 121 dated the 23/3/44.

It is therefore impossible at present (not only because of the complaints made on the matter) to continue both the legal and economical claims by the financial branchesof the Government and the comparision with Army personnel those of the Navy and Air Force who fought just as much and to whom the allowance of 45 or 32 Lire where stopped auto-

Bearing in mind the material and moral conditions of troops and of all the regions which were mentioned to me and which might be mentioned by commanders concerned, I have refrained to date, from enforcing the normal and legal proceedure, temporarily postponing the payment of allowances in question. I cannot therefore, further the actual situation because of the difference in financial treatment which creates same in the army and in the Armed Forces and which increases daily.

P.T.O.

Declassified E.O. 12356 Section 3.3/NND No. 785020

Since the financial balance of the state does not permit the equalizing of rates of pay of military of the three Armed Forces in accordance with the actual highest rate of pay, it is, therefore, necessary to cease to comply with the Royal Decree No. 122 dated 5/4/44.

For obvious reasons I have planned to give a certain graduality to such allowances as shown below, and for which, before enforcing same I would like to have the addressees' opinion:

- continuation ofthe payment of allowances of 45 and 32 Lire per Man (until the 30/11/45) to military personnel who were entitled to receive same on the 9/5/45. Such allowances are granted in recognition of the services rendered by these men during the operational cycle which ended on the said date (i.e. 9/5/45).

- with effect from 1/9/45 postponment of the allowances in question for military personnel who were entitled to them after the 9/5/45.

- no grant of said allowances will be made to military personnel assigned to units after the 1/8/45.

Instead of the said allowances, a daily grant (as laid down in Royal Decree No. 121 dated 23/3/44) of 20 Lire will be paid to men, Junior and Senior N.C.Os and W.Os, only when these are entitled to same.

With effect from 3/9/45, for similar reasons, we shall be compeled to stop the payment of the quota " meal extras 20 Lire per day" and the double ration of tobacco.

To compensate such reductions I shall still insist towards the financial branches of the state to increase the actual quota for "meal improvement" ~~fexax~~ from 5 to 10 Lire.

I await for your opinions and possible proposals which will have to be sent to me urgently.

L'inconveniente lamentato nei riguardi della 212ª Colonna Trasporti, deriva, come cotesta Sottocommissione ha osservato, dalla attuale sperequazione delle paghe nell'Esercito Italiano.

Per eliminare tale sperequazione si ha intenzione di attuare i provvedimenti contenuti nella allegata lettera n.117540/I/3 in data 28 luglio c.a.

Prima però di dare disposizioni esecutive date le prevedibili ripercussioni morali e disciplinari è stato richiesto, con la lettera stessa, il parere dei comandi dipendenti.

Il R.D.L. 5 aprile 1944 n.122, richiede, come è noto, per la corresponsione delle indennità di £.45 e 32 giornaliere le seguenti condizioni, invero assai restrittive:

a) - per l'indennità di £.45:

2918

- impiego effettivo, nella zona delle operazioni, in azioni di guerra;
- effettiva presenza presso unità impiegate in azioni di combattimento oppure presso reparti salmerie e portatori adibiti ad effettivo ed immediato servizio di reparti operanti;

b) - per l'indennità di £. 32:

- impiego, nella zona delle operazioni, in servizi direttamente connessi con azioni di guerra;

..//..

Declassified E.O. 12356 Section 3.3/NND No. 785020

- effettiva presenza presso reparti impiegati, nella zona delle operazioni, in servizi connessi con le truppe operanti e dislocati in una fascia di 15 chilometri di profondità dalla linea di combattimento.-

Con la cessazione delle ostilità in Europa manca quindi il presupposto di diritto che possa giustificare un trattamento economico, per i militari che prima dell'8 maggio c.a. fruivano delle indennità su citate, superiore a quello degli altri militari dell'Esercito Italiano.-

Molta più importanza ha però la considerazione che detto trattamento non è giustificato dalla situazione di fatto in quanto i militari che attualmente percepiscono le ripetute indennità di £.45 o 32 sono adibiti a servizi analoghi, e frequentemente nelle stesse località, a quelli cui sono adibiti gli altri militari che percepiscono al massimo l'indennità di £.20 giornaliera prevista dal R.D. 23 marzo 1944 n.121.-

Non è quindi più possibile, oltre che per la lamentata disparità, continuare nell'attuale situazione sia per i richiami alla legalità ed all'economia da parte degli organi finanziari del Governo sia per il confronto con i militari della Marina e dell'Aeronautica, che come quelli dell'Esercito hanno combattuto, ai quali le indennità di £.45 o 32 sono venute a mancare automaticamente con il cessare della navigazione marittima o dopo quindici giorni dalla sospensione dell'attività aerea.-

Rendendomi conto delle particolari condizioni materiali o morali delle truppe e di tutte le ragioni che mi hanno esposto, ed ancora potrebbero espormi i comandanti interessati, ho desistito fino ad oggi dal rientrare nella normalità e nella legalità facendo sospendere la corresponsione delle due indennità in questione; non posso però più oltre far continuare la situazione attuale a causa della disparità di trattamento che essa crea nell'Esercito e fra le tre Forze Armate e che diventa sempre più sentita e stridente di giorno in giorno.-

Non consentendo le condizioni del bilancio di livellare tutti gli assegni dei militari delle tre Forze Armate sulla base della misura più alta oggi percepita, è quindi necessario far cessare l'applicazione del R.D.L. 5 aprile 1944 n.122.-

Per ovvie ragioni di opportunità ho progettato di dare una certa gradualità a tale cessazione secondo il piano seguente sul quale, prima di darne definitiva applicazione, desidero conoscere il parere degli Enti in indirizzo:

- continuazione della corresponsione delle indennità di £.45 e 32, ad personam, ai militari che percepivano le indennità stesse alla data del 9 maggio 1945, fino al 30 novembre p.v. - a titolo di riconoscimento dell'opera da essi svolta durante il ciclo operativo chiusosi alla predetta data del 9 maggio -;

..//..

Declassified E.O. 12356 Section 3.3/NND No. 785020

- cessazione, a datare dal 1° settembre p.v. della corresponsione della indennità in questione ai militari che cominciarono a percepirla dopo il 9 maggio 1945;

- nessuna corresponsione delle indennità ai militari assegnati ai reparti dopo il 1° agosto p.v..-

In luogo delle soppresse indennità sarà corrisposta quella di £.20 giornaliere (limitatamente ai soldati,gruaduati, sergenti e sergenti maggiori) prevista dal R.D.L. 23 marzo 1944 n.121, nei casi in cui ne sorgerà il diritto.-

Per analoghe ragioni, a datare dal 1° settembre p.v. si dovrà far cessare la corresponsione della quota miglioramento rancio di £.20 giornaliere e della doppia razione di tabacchi.-

A compenso di tale riduzione insisterò ancora presso gli organi finanziari per elevare la quotà attuale di miglioramento rancio da £.5 a £.10.-

Rimango in attesa dei pareri e di eventualiccontro proposte che dovranno essermi inviati con la massima urgenza.-

1. Transportation Sub Comm.A.C. has drawn this HQ attention to the fact that 212 Transport Column, which was under Command of 231 Adm Division, has now been transferred to command of 209 Adm Division, as a result of which transfer the men concerned lose the bonus of 45 Lire per day which was paid to them prior to the transfer.

2. Please give this matter your attention.

3. It is considered that this typical example of the inequalities in the present system of pay in the Italian Army, can only serve to add weight to the suggestion contained in the above quoted letter, that urgent consideration should be given to the introduction of a uniform rate of pay throughout the Italian Army.

Subject : Certificates for family allowances to relatives of military personnel drafted by the pseudo Republican government.

This Ministry has been informed that relatives of military personnel enrolled by the pseudo Republican government have asked Army agencies for certificates attesting to the military status of their kin, in order to be able to draw family allowances at Social Security institutions.

Since service in the Republican Fascist Army, even if compulsory, cannot be regarded by this Ministry as service in the Royal Italian Army, it is prostately forbidden to issue to the military personnel in question any certificate in connection with their past service with the said Republican Fascist Army.

The above Commands are requested to issue proper instructions in the matter.

1. Annexed is copy letter RCE.48G/9/2 dated 4th April 45 received from Commanding Officer, Railway Constr Engrs, S.A.E.C. for your information and action as considered desirable.

2. I fully concur with this recommendation, since I have personally seen the work-site and the Italian Pnrs on duty with the S.A.E.C. personnel. The site has every appearance of being very hazardous and the men frequently appear to be strained.

3. There has so far been no difficulty in getting the men to work, and it is considered that any possibility of such a situation arising may well be averted if some tangible recognition is immediately made of the exceptional type of work these Pnrs are performing in conditions of ever-present danger.

4. It is requested therefore that authority may be given for an immediate grant of Danger Pay of six (6) Lire per day to all men certified by R.C.E.-S.A.E.C. as being duly entitled.

2. The conditions of work in the caved portion of the SERRAVALLE Tunnel are attended by the utmost danger and several heavy falls of rock from the 'domed' roof have already occurred. The fact that no personnel have as yet been injured is in a measure due to the experience of and precautions taken by the controlling N.C.Os, but when falls do occur they are so heavy that all ordinary timber supports offers no protection.

3. Under these conditions, it is not surprising that details of the I.P.C. Coy on these special jobs are beginning to feel the strain, and unless some incentive is given for this dangerous work it is certain that the keeness hitherto shown will continue to drop away.

4. It is considered that these conditions are comparable with those in the front lines of supply as regards danger, and application is therefore made for the grant of Danger Pay of 6 lire per day to those men actually working in the danger areas. It is understood that approximately 300 total details will be likely to qualify for this allowance, and, as every effort is directed towards the completion of this work, your early approval will be appreciated.

SUBJECT: Increase in Pay for Italian Parachutists

TO: Supreme Allied Commander
Allied Forces
APO 512

1. The recent successful Operation HERRING was carried out by volunteer parachutists from the Nembo Regiment of the Folgore Gruppo and from F Recce Squadron. All the officers and men engaged in this operation came forward eagerly in response to the call for volunteers for this hazardous task. There were in fact many more volunteers than it was possible to train in the time available, which shows the high morale existing in these two units.

The actual numbers involved were:

5 Officers and 100 ORs from Nembo Regiment
142 all ranks from F Recce Squadron.

2. It is strongly recommended that the above officers and men should receive the extra pay that it is normal to grant to parachute troops. If there is no recognized scale in the Italian Army, then it is suggested that the increase in pay should be in the same ratio as that existing in the British Army. This step would be in keeping with the policy of extending to the Italian troops now serving in the Allied cause the same treatment and benefits as those extended to other Allied troops.

3. It is worthy of note that the F Recce Squadron, which operated in front of the axis of Eighth Army, alone brought into the Allied lines over 500 prisoners of war and that they accounted for another 43 enemy killed.

4. It is requested that every effort be made to obtain for these officers and men the reward which they undoubtedly deserve.

SUBJECT:- Increased pay for Italian Parachutists

1. GOC Eighth Army has brought to notice the fine work and high morale shown by the volunteer parachutists from the Nembo Regiment of Folgore Gruppo and from F Recce Squadron during the recent successful parachute operation.

The actual numbers involved were - 5 Officers and 100 ORs from the Nembo Regiment and 142 all ranks from F Recce Squadron.

2. The Army Comd considers, and is strongly supported by Chief of Staff and CAO, AFHQ, that these officers and men should receive the extra pay that it is normal to grant to parachute troops.

If there is no recognised scale in the Italian Army, then it is suggested that the increase in pay should be in the same ratio as that existing in the British Army - details of which are attached.

It is further considered that the duration of this pay should be from the date when the volunteers were first accepted until completion of the mission, which is understood to be about a month.

3. It is requested that urgent action be taken to obtain for these officers and men the reward which they undoubtedly deserve.

Oggetto: Concessione sussidi straordinari famiglie bisognose militari richiamati.

A seguito circolare pari numero in data 14 febbraio c. a., si precisa che il Consiglio dei Ministri, con lo stesso provvedimento legislativo istitutivo del sussidio straordinario di cui alla circolare stessa, ha approvato la concessione di sussidi straordinari di misura variabile da attribuirsi — in aggiunta ai soccorsi giornalieri già percepiti a norma della legge 2 gennaio 1934 n. 115 e successive modificazioni — alle famiglie in condizioni di bisogno di tutti indistintamente i militari richiamati.

Pertanto le famiglie bisognose dei militari richiamati anteriormente al 15 novembre 1944 possono beneficiare della concessione dei predetti sussidi straordinari nella misura che le apposite commissioni comunali riterranno più appropriata.

Si pregano i comandi in indirizzo di portare quanto sopra a conoscenza degli enti dipendenti affinchè ne vengano edotti i militari interessati e rilascino agli stessi, dietro semplice richiesta, la apposita dichiarazione di cui è cenno nella predetta circolare.
