To : Allied Commission.

I the undersigned, Giulio CADDEO, of the Class of 1900, and resident in the village of Siapiccia Villaurbana, Cagliari, ~~am~~ the father of six children, and have a wife unable to perform any heavy work whatever. It is not without great sacrifice that I manage to provide for my family's needs, especially in these times which present so much difficulty to the living of the normal life.

I humbly apply to the Allied Commission, as father of ~~the~~ Private Alfonso CADDEO, Class of 1923, who reported for military service on the 14 January 1943. Up to the present, he has been serving with the 927 Port Unit, Brindisi.

I am applying to the Allied Commission in order that the daily allowance due from my son may be granted to me. Various requests to various HQ's for the said allowance, have met with no positive answers. In this Commune there are many families who are treated unfairly, because of the inefficient functioning to satisfy requests made. Hoping that the Allied Commission will, with the greatest haste, arrange for the making of the grants due to these families ^{who hope for aid} from their own sons in military service.

The Requester,
signed. Giulio Caddeo.

Subject: Statements to be issued by the Military Hq's to their dependants in respect of the payment of the special allotments referred to in D.L.L. dtd. 8 February 1945, No. 107.

- a) By ruling of the D.L.L. No. 107 ~~xxx~~ (articles 1, 2 and 3), in addition to the daily allowances ^{stipulated} by existing laws, special allowances of ~~xxxxxx~~ variable amounts, may be granted by the Communes to the ^{next of kin} of military personnel (conscripts, volunteers, retained by recalled) under arms, who are in extremely needy circumstances.
- b) Such benefits are also extended to the families of P.O.W.'s or "missing" personnel who receive the daily military allowance, and ⁵⁷⁹¹ are in the same needy circumstances mentioned in para a) above.
- c) The said D.L.L. ^{establishes} in article 4, that the relatives (in the said needy circumstances) of military personnel who have ^{enlisted} ~~xxxxxx~~ ^{on or after the} 15 November 1944, are granted, once in a while, by the communes in which they reside, a special allowance of L.3000 for families of recalled men or volunteers, and L.2000 for families of men called to arms to comply with the conscription laws.

Therefore, as a result of this measure, the daily pay of a private soldier is L.14 for those with less than 40 months service and L.19 for those with over 40 months service (in addition to the manual labour and heavy work allowance, of L.20 daily, for those soldiers who are detailed for such work).

It has been proposed to the M of Treasury that the following measures should be adopted:

- to increase, to 20 Lire daily, the pay of all private soldiers, wherever located or however employed;
- to increase from L.5 to L.15, the supplementary messing allowance.

We are not yet in possession of sufficient information to be able to ~~force~~ the result of such proposals.

1. The HQ Section of the above mentioned Unit is now being formed, and Major MASSIMO PARETI (ex CREME Cremona Combat Group) has been appointed Senior Inspector Italian Increments by the Italian War Ministry.
2. The location of the HQ of the new Unit will be at MILAN as this is considered to be the most central point from which to direct the work of the Inspecting Increments, and is also adjacent to HQ., 2 District, the British formation most concerned.

3. In order to clear up certain administrative difficulties Major PARETI is visiting the Italian War Ministry on or about August 17th to discuss the following points :-

(a) Whether it is intended that the Inspectorate should be an autonomous Unit.

Owing to the extra administrative work that would be thereby entailed it is suggested that the Unit and its dependents, 881 - 884. Inspecting Increments, should be posted to ("effettivo") some suitable formation, such as the R.T.C., I.C.F., CESANO, or even one of the Combat Groups if this is possible, and then be attached for admin purposes ("aggregato") to a Unit in the MILAN area.

(b) The scale of pay to which members of the Inspecting Increments are entitled.

At present the Inspectorate is quoted as BRIT - ITI Service Unit Category 3 - see Italian Army Strength State as at 8 Jun. '45 (page 39). The service Units do not at present receive the same emoluments as Combat Units.

As however, the greater part of the personnel for the Italian Inspecting Increments served previously in Combat Groups, and as moreover by far the greater part of the work of the Inspectorate is carried out in the Combat Groups, it does not appear an unreasonable request that the Inspecting Increments should receive the same status as Combat Units from which they may have been drawn, and with whom the greater part of their work is performed.

1. The questions raised in your above quoted letter have been passed to the Ministry of War for consideration and action.

2. The Ministry of War has now informed this HQ of a proposal made by them to all Italian Commanders, with a view to eliminating these inequalities in rates of pay.

3. It will be appreciated however, that under present circumstances the Ministry of Finance is unable, on grounds of economy, to agree to the proposal that the Ministry of War would like to make in order to obtain an equitable standard rate of pay throughout the Italian Army. However, it is hoped that conditions will improve in the future when this can be dealt with more effectively.

L'applicazione rigida del decreto istitutivo delle indennità di lire 45 e 32 per i militari combattenti o addetti ai servizi strettamente connessi con le operazioni di guerra (Regio Decreto Legge 5 aprile 1944 n. 122) prevede, con la cessazione delle ostilità, la immediata cessazione della corresponsione delle predette indennità.

Rendendosi conto della inopportunità di applicare immediatamente il suddetto provvedimento, per la sfavorevole ripercussione fra truppe che, in sostanza, sono ancora sul piede di guerra si è continuato, e si continua tutt'ora, a corrispondere le indennità in questione.

Tenuto però conto della cessazione delle ostilità e della precaria situazione del bilancio dello Stato si ha intenzione di corrispondere a datare dal 1° luglio p.v. l'indennità di lire 32 a tutti i reparti che attualmente percepiscono quella di lire 45 o 32.

It is realised that Danger Pay as such does
not exist in the Italian Army, but might not some
form of special grant be made similar to the rewards
received by Mine Clearance Units ?

To: H.Q.215 Sub Area.

1. Annexed is copy letter RCE/48G/9/2 dated 4th April 45 received from Commanding Officer, Railway Constr: Engrs, S.A.E.C. for your information and action as considered desirable.

2. I fully concur with this recommendation, since I have personally seen the work site and the Italian Pnrs on duty with the S.A.E.C. personnel. The site has every appearance of being very hasardous and the men frequently appear to be strained.

3. There has so far been no difficulty in getting the men to work, and it is considered that any possibility of such a situation arising may well be averted if some tangible recognition is immediately made of the exceptional type of work these Pnrs are performing in conditions of ever present danger.

4. It is requested therefore that authority may be given for an immediate grant of Danger Pay of six (6) lire per day to all men certified by R.C.E. S.A.E.C. as being duly entitled.

5. Might this matter please be treated as Most Urgent.

1. Conversation of Lt Col George and Lt Col Browne on 3 April 45 refers.
2. The conditions of work in the caved portion of the SERRAVALLE Tunnel are attended by the utmost danger and several heavy falls of rock from the "domed" roof have already occurred. The fact that no personnel have as yet been injured is in a measure due to the experience of and precautions taken by the controlling N.C.Os but when falls do occur they are so heavy that all ordinary timber support offers no protection.
3. Under these conditions, it is not surprising that details of the I.P.C. Coy on these special jobs are beginning to feel the strain and unless some incentive is given for this dangerous work it is certain that the keenness hitherto shown will continue to drop away.
4. It is considered that these conditions are comparable with those in the front lines of supply as regards danger, and application is therefore made for the grant of Danger Pay of 6 Lire per day to those men actually working in the danger areas. It is understood that approximately 300 total details will be likely to qualify for this allowance and, as every effort is directed towards the completion of this work, your early approval will be appreciated.
