2. Units are therefore requested to forward to Officer i/c [illegible] Records Leicester, the regimental details of [illegible] other ranks volunteering for Territorial Army duties who fulfil the qualifications laid down below.

(a) Engagement.
(i) Regular soldiers with at least 12 months to serve.
OR
(ii) Regular soldiers serving on short service engagements.
OR
(iii) Non-regular soldiers who have deferred their release and in consequence, have at least 12 months to serve.
(Note- only in cases where a WO or NCO is specially recommended should he be of the latter category).

(b) Technical Qualifications. Experience in the maintenance and repair of the equipments appropriate to their type of Armament Artificer or trade.

(c) Aptitudes. Of self re-liant type, suitable to act as instructors and desirous of undertaking this type of duty.

3. It should be clearly understood that this action is additional to the quota of R.E.M.E. tradesmen already called for, and that registration of names under this instruction will imply no guarantee that the men concerned will be employed with the Territorial Army. Similarly, no posting restrictions of any kind will be applied to any men who volunteer.

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

4. COURSES FOR ARMT ARTS - TELECOMMUNICATIONS DUTIES.

Due to the fact that these courses are of approx 12 mont duration, applicants must be Regular Soldiers who have at least two years unexpired Colour Service on their present engagements or are Soldiers serving on non-regular engagements who have deferred their release and from whom there is a reasonable likelihood of at least two years further service.

Reference should be made to this Directorate letter ME/D/2474/5 dated 5 Apr 46 as amended by ME/1C/2474/3 dated 2 June 46.

5. APPOINTMENT OF SUBSTANTIVE ARMT ART S/SGTS - REME.

GRO 361 of 1946 details the circumstances under which Regular and Non-Regular Armt Arts may apply for appointments as Substantive Armt Arts on the Interim Peace Establishment of REME. Such applicants must be interviewed by a board of officers appointed by DDME for that purpose.

6. LDG ART S/SGTS.

(a) Appointment - General.

The relevant ACI dealing with the appointment of Ldg Art S/Sgt is ACI 1001 of 1944 as amended by ACI 125 of 1946. GRO 919 of 1944 also refers. Appointments may be made after completion of a course or by immediate appointment.

(b) Appointment after completion of a Course.

1882

REME tradesmen are eligible to take a Course for Ldg Art S/Sgt provided they are recommended by a REME officer not below the rank of Lt. Col. Applications, suitably completed, are forwarded this Directorate to 'G' (Trg) GHQ, CMF. Before an application in respect of a Fitter type candidate is submitted to this Directorate the REME officer concerned should consider in the first instance the suitability of the candidate for a Ldg Art S/Sgt vehicle course.

(c) Immediate Appointment.

Personnel may be recommended for immediate appointment as Ldg Art S/Sgt by a board of officers convened in accordance with this Directorate letter ME/A1/2474/8 dated 5 Oct 45 as amended by letters of same reference dated 28 Nov 45, 7 Feb 46, and 26 July 46.

Such personnel must have the following qualifications :

Candidates must hold the minimum rank of W/S Corporal, be Class I tradesmen, have not less than two months to serve, be recommended in all grades by their CO's as fit for immediate upgrading without a course at the REME school.

Applications in this case are forwarded by this Directorate to GHQ 2nd Echelon, CMF requesting immediate promotion to S/Sgt.

1) With ref. to the present deficiencies in the R.E.M.E. Trg. Incr. to 7 B.L.U. and to Italian Base W/Shops O.A.R.E. details of which are given below, as instructed by ADME I have personally referred this matter to DDME GHQ. who has promised assistance but has pointed out that instructions have been received from 'A' Branch that replacements for M.M.I.A. are to be discontinued.

2) Confirmation of the above from HQ. M.M.I.A. would be appreciated as the addition of the new 'A' Veh commitment in the Bologna Area requires the assistance of a REME Incr. and with the present serious deficiencies in personnel it is quite impossible for this work to be effectively carried out.

1. The Italian Army are moving their Training School (S.M.C.A.) for Armourers and Artillery Fitters to Terni, this comes within the sphere of 12 BIU.

2. In order to see that this important school is developed on sound lines the BADWS of 12 BIU has a definite need of a senior N.C.O. fitter who can speak Italian fluently.

3. The S/S N.C.O. has this qualification and it would be greatly appreciated by this H.Q. if he could be posted to 12 BIU, MAIA.

4. It is understood that this N.C.O. is at present with the 1st Armoured Division.

Capt. Adams who used to be with 2 Disctrict is now responsible for posting in G.H.Q. and I feel certain would arrange a cross posting for this N.C.O.

3) Considerable Telecom test equipment has been obtained and once the L/Cpl. 1843 Telemech. arrives it will be possible in conjunction with the Italian Radio Personnel being supplied to the O.A.R.E. to make practical arrangements for the overhaul of Wireless equipment of Staghounds etc.

Further to this Directorate letter ME/1A/1861/6 dated 16 Oct '46.

1. Upon closer examination into the Tel Mech position in C.M.F., it has become obvious that the overall numbers in Age and Service Groups 44 and 45 are greater than was anticipated, in fact over 40% of the existing Tel Mechs in the Theatre.

2. The Tel Mechs in Age and Service Groups 46 and above only fill 35% of the total C.M.F. War Establishments in this trade and it is the opinion of this Directorate that this is a minimum figure below which operational efficiency can not be maintained.

3. It is considered that ALL Tel Mech personnel in Age and Service Groups 46 and above must be warned forthwith that they are liable to be D.C.V. in order that should D.C.V. action be taken they are fully aware of the situation.

4. At present D.C.V. applications are not reaching this Directorate in sufficient time for the decision of the D.C.V. Committee to be made known before the initial date on which the individual is due to leave his unit. Therefore with immediate effect all applications for D.C.V. will be initiated in time to reach this Directorate at least three weeks before the date on which the person concerned would leave his unit if he was proceeding on normal Class "A" release with the first party. It is pointed out that it is the duty of all concerned to see that this is strictly adhered to in order that no undue hardship is caused to the individual should D.C.V. not be approved. All necessary applications to D.C.V. personnel in Age and Service Group 46 will therefore be initiated forthwith.

1841

5. Instances have been reported to this Directorate where Tel Mechs are not being employed full time in their trade on essential work. In view of the Theatre shortage all addressees will ensure that ALL Tel Mechs will be employed in their trade only and will NOT be used for any other purpose, such as N.C.O i/c transport, Regimental Police, repairing Welfare Radio Sets etc.

1. The manpower position of the following REME categories is such that compulsory deferment of release must be considered by Os.C.

Telecommunication Officers.

Armament Artificers (Radio & Wireless).

Telecommunication Mechanics (All Types).

Clerks (All Types).

Storemen.

2. Information has been received from War Office that reinforcements are unlikely to be available in large numbers.

3. Whilst it is realised that application to DOV must only be initiated when an officer or OR is doing a job which is genuinely operationally vital, Os.C. must consider before allowing personnel in the above-mentioned trades to proceed on release that the chance of getting a replacement is slight.

4. As heretofore, every possible source of replacement and economising by re-organisation must be explored before the individual is held to be indispensable.

5. It is suggested that initial D.O.V. action should be considered in these categories commencing with Age and Service Groups 44 and 45 for a period of three months and if necessary later groups may have to be deferred (D.O.V.) for a similar period.

With reference to the points raised at the REME conference at Bologna on 6th. inst. The a/m O.R. is held on strength to this unit.

He has only been overseas a very short time, and his knowledge of Italian is nil. His standard of training is limited to Rifles and Bren guns and he therefore requires practical instruction in all other weapons.

Could this man be attached to REME Inc. at CARE until such time as he is fully conversant with all types of small arms in use by the Italian Army, and has a working knowledge of the Italian language which he should acquire if he is working continually with British and Italian armourers.

PADUA 22645

Subject: Substantive Armament Artificers RAME. — ME/10/2360/2

To: List A. — 21 Oct '46

1. Instructions have been received from War Office regarding the standard of technical and regimental proficiency required of candidates for appointment to substantive Armament Artificers RAME and the following information is forwarded for the guidance of Boards of Officers convened for the purpose of examining candidates.

2. The standards required of a candidate for training as an Armament Artificer prior to the War are described in Paras 306 and 307 King's Regulations 1940.

3. Selected candidates were then trained at the Military College of Science for twelve months or longer and on completion of this technical training were posted to the R.A.O.C. Depot for two months training in regimental duties and workshop organization.

4. On completion of training the N.C.O. was considered to have an expert knowledge of the guns and carriages, vehicles, instruments and other equipments appropriate to his type of Armament Artificer, to be proficient in diagnosing faults in the operation of the equipments and to be skilled in their repair. He had a working knowledge of ancillary trades such as blacksmithing, sheet metal work and carpentry and was regarded as proficient in the day to day duties of a senior N.C.O.

5. It is not possible to lay down hard and fast standards to determine the selection of "War trained" Armament Artificers for appointment as substantive Armament Artificer. By and large the candidate should match the specification given in para. 4 but as the sources from which the men were drawn for initial training & appointment as Armament Artificers during the War varied so widely and training was carried out in so many different centres, to different standards, each case must be judged on individual merit. The type of employment performed by the individual since his appointment is an important factor; it is known that many N.C.O's have been employed for long periods on Administrative duties not connected with their trades. A further matter for consideration, particularly in the case of non-regular soldier applicants, is the type and extent of training and experience gained in civilian life. 1814

6. With a view to giving the members of the interviewing Boards a picture of the candidates trade history and experience it is recommended that a questionnaire (specimen attached at Appendix 'A' to this letter) be completed by the applicant when submitting his application.
