Subject: Radar Material for Italian Army

(85)

Reference your letter AG/400/Army of 10 Jan 47.

1. This HQ is of the opinion that it will require two experts to give you the necessary advice and assistance.

(a) An Artillery officer expert in the employment of Radar Equipment.

(b) A RAOC officer or RCO expert in the inspection maintenance and repair of Radar Equipment.

2. A signal has been sent to GHQ Italy asking for two experts, as above, to be made available as early as convenient. You will be informed if and when these individuals or equivalent to arrive in Rome and it is requested that you will arrange for the necessary survey to be carried out immediately following their arrival.

3. Transport for these two officers and accomodation in Rome and Naples will be arranged by this Headquarters and arrangements will be made for Major Kimble RAOC (not a Radar expert) of 10 BAD to accompany these officers during the visit to the depot to act as liaison between them and the Italian members of the surveying party.

4. On the completion of the inspection of equipment a conference could be arranged in Rome, if necessary, at which any points or interest or doubt arising as a result of the survey of equipment could be discussed between members of your S.C. and the Radar experts.

SUBJECT: Radar material for Italian Army

NI

Reference your letter SD/109/1 of 10 Dec 46.

This S.M. is of the opinion that it would be convenient that the Radar material existing in stores of 357 BOD released to A.R.A.R. be purchased by the Italian Army even considering that:

many sets are inefficient and can be utilised as a stock of spare parts;

The S.M.s of the Navy and Air Force are also interest in the Radar material, in agreement with them a further survey will be carried out to examine the thre situation of the said material.

Furthermore we would be grateful for the attendance of an Allied officer, with a knowledge of said material, to examine and discuss the questions relative to the employment of same equipment.

5. To avoid political difficulties arising from Italian train guards entering Austria and incidents which might result from their being obliged to use fire-arms the War Ministry wish to provide military guards from the frontier (TARVISIO) only.

They accept the disadvantage of accepting the stores at GRAZ and propose that a conductor be detailed from their representatives at GRAZ to accompany the trains to the frontier.

You are therefore requested to reconsider the possiblity of escorting the trains as far as the Italian border.

6. The War Ministry request that all trains be routed via TARVISIO to VERONA whence the waggons will be taken under control of War Ministry Movements Staffs and diverted to the appropriate Depots.

7. AFHQ in signal FX 73941 of 24 Dec 46 addressed this HQ, copy to GHQ authorise the direct transfer to the Italian Army of equipment declared globally surplus.

EXTRACTS FROM PAMPHLET "CLASSIFICATION AND HANDLING OF PROTECTED DOCUMENTS, 1944.

---

1. Para 5(e)
It is imperative that transmission and custody of such matter be covered by a receipt system. When more than one copy of a " TOP SECRET " document is made, such documents will be given copy numbers.

2. Para 12(a)
"List will be kept of all " TOP SECRET " and " SECRET " documents to which a copy number has been given, and at least quarterly checks will be instituted, to bring any deficiencies to light at an early date."

3. Para 12(b)
"As soon as possible after 1st December in each year, officers commanding formations, units, etc, will check the list of " TOP SECRET " and " SECRET " documents on their charge issued by the War Office (C2c), and will render the certificate required by King's Regulations, 1940, para, 1667 (a). "

4. Para 18(d)
"When an officer who has charge of any protected documents is about to vacate his appointment on tranfer or retirement, he will have the list of such documents verified, and will then hand over both the list and the documents to his successor, obtaining the necessary receipt for the documents."

5. Para 18(e)
"Should it be necessary to transfer a registered document from one headquarter formation or unit to another, a proper handing over certificate must be obtained and forwarded to the issuing authority."

5. Bookings.

It was agreed by the Committee that all applications for bookings be made by the individual personally to DADAWS. HQ. RAAC. 48hrs in advance. A ticket would then be issued to be handed to the Hotel Manager.

6. Instructors.

Air Force Sub Commission stated that two Italian Ski Instructors were standing by. One was to be allocated to the Officers Lodge and one to the ORs Villa.

7. Equipment Domestic

Major Flanagan stated that bedding and all other equipment would be provided, and it was planned to start to move this to TERMINILLO at the end of this week or the beginning of next.

8. Equipment. SKI.

The secretary said there was a shortage of ski equipment, but more has been asked for and it was hoped that additional equipment would arrive in the very near future.

9. Major Charrington said that he thought it would be difficult to equip ladies and children because of the Army equipment being rather heavy. In view of this it was decided to ask ladies to bring their own equipment if possible.

10. Distribution of equipment.

It was decided that the distribution of equipment available would be as follows:-

To Officers Lodge	27 Sets of Ski & Sticks and proportionated number of other items
To ORs Lodge	23 Sets of Skis and Sticks and proportionated numbes of other items

11. Staff. .. 2682

Major Flanagan stated that civilian and Military Staff totalling 22 for both establishments were standing by, and had been instructed to report to TERMINILLO on THURSDAY 12th Dec 46.

12. Publicity.

Details were to be sent out to units within the next few days.

Notes on Conference Held at
Bologna on 5th and 6 th November 1946

Those attending were

Lt Col R.A. CURTIES	AQMG	HQ MMIA	(5 Nov.)
Lt Col A. BLUNT	ADME	HQ MMIA	
Major C.R.F. SAMPSON	DADME	12 BLU	
Capt R.L. NORTHEY	EME	1 BLU	
Capt F.D. THUNDERCLIFFE	EME	3 BLU	
Capt A.L. WHITE	EME	4 BLU	
Capt J.L. ALDRIDGE	EME	5 BLU	(5 Nov.)
Capt P.H. NELSON	EME	7 BLU	
Capt W.S. RINDL	EME	10 BLU	
Magg D. BELLUZZI	Actg. Director	OARE	(part of) Bologna (6 Nov.)

5 November

1. Lt Col BLUNT opening the conference outlined the objects of the conference which were primarily to afford a means of exchanging more information than could be done by means of letters etc., and to provide an opportunity for discussion of the problems confronting REME officers.

He pointed out that the Ministry of War had lately shown an increasing tendency to delay giving decisions on points of major importance, and that he felt this might be due to political influences.

Lt Col CURTIES outlined MMIA's major difficulties in organising the Italian Army controlled by a War Ministry which by our standards is top heavy and not organised in the same way as the Infantry Divisions.

He pointed out that since the Ministry of War assumed control of the Italian Army, opposition to re-organising has been experienced from certain senior Italian officers who are not in agreement with British ideas.

2. Lt Col BLUNT said that he was not receiving sufficient information from BLUs regarding the serviceability of guns and particularly small arms with units, and emphasised the need for Terr. Comds and Divisions to organise regular technical inspections. He circulated some "Notes on

1. Lt Col BLUNT opening the conference outlined the objects of the conference which were primarily to afford a means of exchanging more information than could be done by means of letters etc., and to provide an opportunity for discussion of the problems confronting REME officers.

He pointed out that the Ministry of War had lately shown an increasing tendency to delay giving decisions on points of major importance, and that he felt this might be due to political influences.

He pointed out that since the Ministry of War assumed control of the Italian Army, opposition to re-organising has been experienced from certain senior Italian officers who are not in agreement with British ideas.

2. Lt Col BLUNT said that he was not receiving sufficient information from BLUs regarding the servicability of guns and particularly small arms with units, and emphasised the need for Terr. Comds and Divisions to organise regular technical inspections. He circulated some "Notes on Inspection" which had already been sent to Ministry of War so that EMEs in discussing the subject with Terr. Comds would be advising a uniform procedure as regards the nature and frequency of such inspections and the system of reporting on these inspections.

On this point EMEs said that unsuitable British armourers and veh. mechanics had been sent to BLUs for . . assisting the Italians in carrying out these inspections and Lt Col BLUNT promised to try to get them replaced.

2/.....

Declassified E.O. 12356 Section 3.3/NND No. 785020

EMEs 1 and 4 BLUs mentioned that the recent issue of cars to their BLUs had not been accompanied by instructions that these were for use of armourers, although intended for their use (amdt N°2 of 19 August 1946 to WE CM1112/2 refers). Consequently O's C BLU had ordered these cars should be pooled for general BLU duties. In view of minor rank of EMEs in BLUs, difficulty was usually experienced in obtaining transport for these armourers and veh. mechanics.

Capt NORTHEY enquired whether there was any intention to form an Italian Corps equivalent to British REME.

Lt Col BIUNT pointed out that if this were done, the formation of the equivalent of RASC and RAOC must also be considered. The suggestion must have the support of Ministry of War (see para. 1) and of HQ MMIA, and is under consideration at the moment.

3. Lt Col BIUNT enquired whether during the last twelve months OCs of BLUs when visiting units had taken their EME with them to advise on REME matters such as unit M.T. workshops, armourers shops and battery gun fitters.

Capt NORTHEY said that he had accompanied OC 1 BLU on several such visits.

Capt ALDRIDGE said that when at 3 BIU he had once accompanied the GSOII on such a visit, and had also "followed up" visits made by OC 3 BLU.

Capt WHITE said that he had once accompanied OC 4 BLU to the CAR.

Capt NELSON said that he had three times accompanied OC 7 BIU on visits but pointed that his own commitment was largely in 6 BLU territory.

Capt RINDL said that he had not accompanied his OC on visits.

Lt Col CURTIS said that EMEs should invite their OCs to visit different units where REME advise would be useful, and pointed out that the RASC officer of the BLU rather than the REME officer should be concerned with the system of vehicle maintenance used by units; the REME officer should more concerned with unit fitters than with driver maintenance.

2663

4. Capt NELSON requested copies of letters from MInistry of War to Terr. Comds. involving changes in organisation

Declassified E.O. 12356 Section 3.3/NND No. 785020

Lt Col BLUNT pointed out that if this were done, the formation of the equivalent of RASC and RAOC must also be considered. The suggestion must have the support of Ministry of War (see para. 1) and of HQ MMIA, and is under consideration at the moment.

4. Capt NELSON requested copies of letters from MInistry of War to Terr. Comds. involving changes in organisation or procedure. Lt Col BLUNT explained that Ministry of War, in spite of close liaison, were becoming more independent and some officers, for fear of being thought pro-British, were loathe to disclose such information unless it was asked for. Without prior hints that changes were being considered it was not easy to obtain such advance information from Ministry of War.

5. Lt Col BLUNT raised the point of EMEs acting as Camp Comdt for BLUs. 10 BLU appears to be the most heavily committed in this respect.

3/.....

Declassified E.O. 12356 Section 3.3/NND No. 785020

6. Lt Col BLUNT stated that LADs in Infantry Divisions owing to release of trained personnel and to withdrawal of British Training Increments were seriously exceeding the scope of repairs they should undertake. A specimen list of repairs was being prepared and would be circulated to EMEs after submission to Ministry of War.

A similiar list has been submitted to Ministry of War on the scope of repairs that should be undertaken by Terr. Comd. Repair Units of 2nd and 3rd class. It was not proposed to circulate this, but, in brief, it advised the execution in these Repair Units of 2nd echelon repairs and certain of the easier 3rd echelon repairs described in Permissive Repair Schedules, and included Scale I engine overhaul.

7. Lt Col BLUNT stated that Ministry of War had ordered an unknown quantity of Bedford vehicles to CAPRONI for repair and pointed out that as the spares supply was mainly to be from ARAR, the output was likely to be limited by difficulty in obtaining all the necessary spares. In addition since this order appears to have been initiated by political motives, the Italian Government might not have an influence on the disposal of the repaired vehicles and at present there was no guarantee that all would come back to the Army.

Capt NELSON stated that CAPRONI engineers had seen the condition of vehicles backloaded by Infantry Divisions and had expressed their inability to repair vehicles in such a state of disrepair.

8. Lt Col BLUNT raised the question of the quality of oils supplied by CIP and informed the conference that the Ministry of War had been advised to reduce the mileages run between changes of oil on account of the inferior oil supplied. In the meantime EMEs must suggest to Directors of Repairs at Terr. Comd. the advisability of more frequent changes, pointing out that the mileages detailed in the booklet "Norme per L'Ispezione e la Manutenzione dell'Automotoveicolo" assumed that good quality oil (equivalent to Allied oils) was in use.

2662

9. Lt Col BLUNT informed the meeting that the Ministry of War had been reminded about issuing an order calling for frost precautions to be put into effect and suggested that EMEs remind Terr. Comds about this important matter if they

engine overhaul.

7. 2662

9. Lt Col BLUNT informed the meeting that the Ministry of War had been reminded about issuing an order calling for frost precautions to be put into effect and suggested that EMEs remind Terr. Comds about this important matter if they have not already done so.

10. Lt Col BLUNT stated that the bulk of the output from the OARE had gone to "Folgore" Division on the orders of SME, and that "Friuli" Division might be the next to receive some vehicles from OARE. He suggested that OsC BLUs should discuss with Div. Comds. the advisability of holding these repaired vehicles as a Divisional reserve in an attempt to improve the quantity of efficient vehicles in the Division.

4/.....

Declassified E.O. 12356 Section 3.3/NND No. 785020

11. The meeting was informed that Ministry of War had been recommended to effect transfers of Allied vehicles (other than special types) so as to group these vehicles in the North of Italy where repair facilities are better. It is likely that many of these vehicles on arrival will not be in a good state of repair.

12. The situation regarding the release of stores from 557 BOD was discussed so as to bring EMEs up to date with the arrangements being made by HQ MAIA to assist the Ministry of War in this matter.

Major SAMPSON recommended the reclaiming of buffer oil (now in short supply from Italian sources) from demilitarised guns and it was agreed that the Ministry of War should be recommended to do this, so that, after filtering, this oil could be used by them in an emergency.

6 November

13. On the subject of tyre repairs all EMEs said that facilities existed in Terr. Comds only for vulcanising and small repairs to tyres. As regards retreading of tyres, Capt NORTHEY reported one case of an Allied size tyre being retreaded by Pirelli (Milan). Lt Col BLUNT pointed out that this firm possessed moulds for retreading of the more important Allied sizes and the Ministry of War had been so advised in the summer. No other EMEs had found examples of Pirelli retreading Allied sizes of tyre and it seemed that Ministry of War were not pressing for retreading of these sizes.

It was reported by all EMEs that both new and retreaded Italian tyres in small quantities were being obtained by Ministry of War from Pirelli. Capt NELSON also reported that retreading facilities were used by Ministry of War in small firms in Modena and Bologna.

14. Capt RINDL raised the difficulty in obtaining spares for SPA vehicles in Southern Italy and was advised to urge the Director of Repairs concerned to effect better liaison with the UAARS in Turin.

2661

15. Lt Col BLUNT asked if EMEs were satisfied that efficient repairs could be carried out to BEF vehicles when

Declassified E.O. 12356 Section 3.3/NND No. 785020

demilitarised guns and it was agreed that the Ministry of War should be recommended to do this, so that, after filtering, this oil could be used by them in an emergency.

14. Capt RIDDL raised the difficulty in obtaining spares for SPA vehicles in Southern Italy and was advised to urge the Director of Repairs concerned to effect better liaison with the UAARE in Turin.

2661

15. Lt Col BLUNT asked if EMEs were satisfied that efficient repairs could be carried out to BLU vehicles when Allied wksps. had disbanded. HQ MMIA, 12 BLU and 4 BLU all expect trouble in this respect, and all EMEs emphasised that without a proper spares supply they could not guarantee a good repair service.

16. Capt NORTHEY asked if the local repair form T/R issued by HQ MMIA could be used to request manufacture of racking for 1 BLU and Lt Col BLUNT advised that this form should not be used.

5/.....

Declassified E.O. 12356 Section 3.3/NND No. 785020

17. Capt NELSON asked for information regarding the M.T. Base Stores Depot for Allied M.T. spares and pointed out that since it served OFPs and units accustomed to RAOC procedure, the Depot must also use the RAOC system of identifying stores and RAOC procedure generally.

Lt Col BLUNT informed the meeting that Ministry of War had decided to site the Depot in Bologna and that the site had been given (verbally) as the Caserma Tagliamento which still required a lot of repair. As yet no WE had been considered for this Depot so far as he was aware, but when one was approved it was possible that a number of storemen familiar with RAOC methods of identifying stores might be withdrawal from OFPs to form a nucleus of trained personnel for this Depot, and one or more OFPs might even be reduced to a mere rear party remaining with the Div. OFP.

Capt WHITE suggested and it was agreed that it would be harmful to disband any OFPs to form this Depot.

18. Capt NELSON pointed out that under Italian administration spares cannot be purchased by wksps to repair a vehicle until the vehicle enters workshops and that this restriction on holding useful spares seriously delayed repairs and affected wksp. output. Lt Col BLUNT replied that this point together with comments on de-centralisation of responsibility to junior officers and on the powers of C s C wksps to engage suitable personnel and dismiss unsuitable ones had been put to the Ministry of War at a high level.

19. Capt NELSON pointed out that production of vehicles by OARE was being impeded by a heavy servicing and 2nd echelon repair load of carriers and Staghounds on Allied Veh. Pks. In addition after repair distribution of these carriers is slow, and as no covered accn. is available they deteriorate rapidly in the open without tarpaulins.

Lt Col BLUNT promised to take up with Ministry of War the speedier collection of carriers and provision of tarpaulirs for them, but pointed out that OARE must try to find cover for these vehicles and also endeavour to set aside a portion of the workshop space as a 2nd line workshop, even though sufficient personnel are not at present held to staff this workshop properly.

It was pointed out that the servicing and 2nd line repair of these vehicles might have to be carried out by

stores might be withdrawal from OFPs to form a [illegible] trained personnel for this Depot, and one or more OFPs might even be reduced to a mere rear party remaining with the Div. OFP.

Capt WHITE suggested and it was agreed that it would be harmful to disband any OFPs to form this Depot.

18. Capt NEISON pointed out that under Italian administration spares cannot be purchased by wksps to repair a vehicle until the vehicle enters workshops and that this restriction on holding useful spares seriously delayed repairs and affected wksp. output. Lt Col BLUNT replied that this point together with comments on de-centralisation of responsibility to junior officers and on the powers of O s C wksps to engage suitable personnel and dismiss unsuitable ones had been put to the Ministry of War at a high level.

19. Capt NEISON pointed out that production of vehicles by OARE was being impeded by a heavy servicing and 2nd echelon repair load of carriers; and Staghounds awaiting Veh. Pks. In addition after repair distribution of these carriers is slow, and as no covered accn. is available they deteriorate rapidly in the open without tarpaulins.

Lt Col BLUNT promised to take up with Ministry of War the speedier collection of carriers and provision of tarpaulirs for them, but pointed out that OARE must try to find cover for these vehicles and also endeavour to set aside a portion of the workshop space as a 2nd line workshop, even though sufficient personnel are not at present held to staff this workshop properly.

It was pointed out that the servicing and 2nd line repair of these vehicles might have to be carried out by the receiving unit if the output of B vehicles from the OARE was not to be reduced, though this would be avoided where possible.

20. Major SAMPSON outlined the progress being made in organising Central Schools and referred to the impending change in the training of gun fitters and armourers. He pointed out the urgent need of wall diagrams dealing with Allied vehicles and weapons, which are now difficult to obtain and also for drivers handbooks of Italian vehicles.

6/.....

Declassified E.O. 12356 Section 3.3/NND No. 785020

He pointed out that the output of gun fitters and armourers from the SMOA was likely to be much reduced until the new arrangements were functioning properly and Lt Col BLUNT warned EMEs that Terr. Comds and Divs. would have to consider training their own personnel for the time being.

Opinion was unanimous that officers concerned with using the output from Central Schools should be taken round the Schools to gauge for themselves the progress made and the extent of the training given.

The conference was unanimous that the courses at present were too short to produce capable tradesmen from the personnel sent there, who vary according to the area from which they come, but generally include a high proportion of men with no mechanical aptitude or experience.

It was also pointed out by EMEs 1 and 4 BLUs that personnel normally arrived at units from the Schools by way of their parent C.A.R., and that they reached units without any accompanying nominal roll describing their trade qualifications. The conference suggested that students should be posted by the Schools to Units and that a nominal roll showing trade qualifications should accompany the students to their units.

21. Major BELLUZZI, Acting Director of the OARE by invitation then joined the conference and outlined the Italian plan for base overhaul of Allied vehicles.

He pointed out the difficulties experienced by the OARE in the past and the present handicap of being prevented from employing suitable personnel. If he is granted the personnel within WE that he has requested he hoped to double present output by the end of the year and that, if his plans are not impeded by unforeseen events, he hopes to overhaul 1000 vehicles by May of next year.

He stated that Ministry of War were sending Bedford vehicles to CAPRONI whose output could be 150 a month if spares were available, but he doubted if this output could be obtained for some time as spares from ARAR did not comprise all the items needed.

He plans to continue with overhaul of Dodge vehicles at OARE and to commence there the overhaul of special types of vehicle. Other types of B vehicles (particularly the less common types) he plans to have overhaul by civilian firms who will draw their spares from accredited manufacturers so that a check can be kept on quality of spares used.

In addition he is arranging to co-ordinate engine repairs of various types of engines so that the civilian firms doing this work are subject to inspection of the finished product (including bench test) and are subject to his control in the spares they use which will be provided only by firms approved by him. He has been given authority to conclude contracts with such firms for the provision of the necessary spares and is pressing on with this task, but before large scale production can commence, samples must be tested and proved.

7/.....

Declassified E.O. 12356 Section 3.3/NND No. 785020

When the existing "backlog" of base overhaul has been reduced considerably he hopes to abolish repairs by civilian firms, which are costly, and to centralise all engine overhaul and vehicle overhaul in the OARE for Allied types.

Lt Col BLUNT remarked that the felt the OARE would have to continue working mainly on Dodge and Bedford vehicles for some time yet, using CAPRONI as a supplementary workshop for Bedford vehicles only, and that it was not very sound at present to introduce too many types of vehicle into the OARE for overhaul. Major BELLUZZI agreed.

Lt Col BLUNT pointed out that Divisions could be greatly helped by speeding up the overhaul of engines for issue to them and enquired if the possibility of using Turin Arsenal as an engine overhaul shop had been considered.

Major BELLUZZI replied that he considered the Arsenal better suited to the manufacture of certain kinds of spares (gears, king pins, bushes, for example) but not for manufacturing engine bearings, pistons or crankshafts. He did not see how they could ever undertake an engine overhaul programme as they had so few engine mechanics and he could not agree to use the Arsenal for engine overhaul unless it was controlled by the Motorisation service.

Lt Col BLUNT asked Major BELLUZZI what arrangements he was making regarding re-treading of Allied sizes of tyres. He replied that Divisions were making their own arrangements with various civilian firms for this, and that he wished to instal a retreading plant in the OARE for handling the tyres that came in on vehicles for overhaul. He agreed that it would be his responsibility to co-ordinate with civilian firms on behalf of Ministry of War the re-treading of these tyres, but owing to shortage of officers he had not been able to make much progress, and in any case the supply of rubber and solution for re-treading was non-existent and not under his control.

Lt Col BLUNT stressed to him the importance of this question pointing out that PIRELLI in Milan had moulds for the commoner Allied sizes and were capable of a good output.

22. The conference then closed.

Subject: MESSAGES.

1. The Italian signal system involves the use of one copy only of a message for several addressees.

2. In future, therefore since all traffic for the BLUs is being cleared through the Ministry of War, only one TRANSMISSION COPY of a message for any number of BLUs will be required. A copy will also be required, of course, for retention in HQ MMIA despatch office, and another for retention by the R. Signals NCO on registration duty at the Ministry of War.

EXAMPLES.

(1) Message for all BLUs.

Three copies required. One for retention by MMIA despatch office, one for retention by R. Signals NCO on registration duty, and one for transmission by the Italian Signals.

(2) Message for GHQ and 1,2,3 and 4 BLUs.

Five copies required. One for retention at MMIA despatc office, Two for the Ministry of War (one for retention by R, Signals NCO on registration duty and one for Transmission) and two for RAAC Message Centre (one for filing and one for transmission to GHQ).

3. In future, also, the H. MMIA despatch clerk will append a ticket to the copies of a message sent to RAAC Message Centre which has amongst its addressees one or more of the BLUs and two copies of which have consequently also been sent to the Ministry of War.
This ticket will bear the following information:-

b. Only Commanders of separate commands or their specifically designated authorities are authorized use of MOST IMMEDIATE (Br) or URGENT (Am) precedence. Unusual isolated examples may be queried to Signal Officer for necessary authorization. It is emphasized that the precedence "URGENT" is an American classification comparable to British "MOST IMMEDIATE".

2. Signal Officer, this Command, has been instructed to bring to personal attention of Commanding Officer, any future violations.

3. Due to present acute shortage of personnel, signals can only be processed efficiently if justifiable precedences are affixed to outgoing messages. In no instance will unwarranted precedence be given to compensate for administrative delays.

4. It is the direct responsibility of Commanding Officer, each Unit, to bring this letter to the personal attention of all Officers and other ranks involved in the handling or processing of outgoing signals.

Enquiries have been made from EFI who state they have heard nothing about future closing of Married Families Shop NAPLES.

In fact they stated that the scope of this shop would probably be increased in the near future to include scheme 'B' Families.

Subject:- Translation of Publications for Training.

1. In order to co-ordinate the work of translation of British Training Publications for Italian Army and to make easier the work at Ministry of War the following procedure will be adopted.

2. Addressees will prepare Lists showing those British publications which are considered suitable for translation. Such lists should be rendered monthly to Trg Branch on 1st of Month. Nil returns are requested.

3. Trg Branch will then collate Lists and if necessary procure the publications recommended from Pubs Depot, subsequently passing them on to Ministry of War.

4. In cases of special urgency demands for translations may be rendered at any time with an "urgent" chit attached, and those will receive priority over all other requests from the Branch rendering the request.

5. It is pointed out that special permission has to be obtained by MMIA HQ from War Office for the translation of every pamphlet and that rendition of collated lists enables a check to be kept and should also speed up the receipt of Authorities and consequently of translation.

6. Addressees will be responsible for ensuring that they are on suitable GHQ or other automatic distribution lists of publications for their Arms or Service.

7. G Trg MMIA has a large library of Trg Publications for all Arms and Services. This library may be inspected at any time. General Staff Publications list is also available in G Trg.

1. The attached specimen lay-out of correspondence which has been prepared by BGS and Col A/Q will be introduced forthwith.

2. The following points are particularly emphasized:-

(a) All correspondence to War Ministry, higher or equivalent formations will be prepared for signature of the GOC.

(b) All correspondence to subordinate formations, ie BLUs, will be prepared for the signature of the senior staff officer in the Branch, ie: G Branch - BGS; A Branch - AAG: Q Branch - AQMG. — Reme ADME

(c) To avoid unnecessary work, Chief Clerks A and Q should enquire from their officers when important letters to subordinate formations are to be signed by Col A/Q in order that the letter may be prepared for his signature.

(d) Letters will not be prepared for the signature of "Major for" etc.

(e) Names of officers will not be typed near the signature.

(f) Branch reference letters will be shown after the reference number in all cases.

3. The general standard of typing throughout the HQ is not very high at present, and Chief Clerks should endeavour to ensure a higher standard in future.

It is believed that you are translating a considerable number of handbooks and catalogues of spare parts for various Allied vehicles for use by the Corps of Motorization and by the Carabinieri.

May we please be supplied with a list of the English titles of such books and catalogues that you propose translating or have already translated.

For your information it is understood that the U.S.A. at Livorno is translating a number of such books for their own use and it would be desirable to avoid duplication of work. The Infantry Divisions also we are informed would welcome such information.

1. A considerable amount of work in connection with the above is now being carried out by the O.A.R.E. and in order to avoid duplications, it will be appreciated if you would check with the Ministry of War whether they also are translating these catalogues.

Certain catalogues such as for Staghound we know are being translated by the Ministry of War and it is quite possible that there is wasteful duplications of this work.
