MAR. - NOV. 1945

Translation.

From:- M. of E.

To:- SARE

Ref:- 6883

Date:- 28th. Sept. 45

Subject:- Proposed formation of the "Motorisation School"
(ex Centro Studi, Rome).

1. REML Branon, MLI has asked this office to examine the possibility of providing for the immediate formation of the school mentioned above so as to be in a position to start as soon as possible a course to train as specialists 130 military workers for further assignment to MI Repair Units.

2. Bearing in mind that the formation of said school is included in the program proposed by you (see letter No. 2824/2/6 dated 10th. Sept. 45) and considering the necessity of having (while waiting for the call up of the class 1935) a certain number of specialists to assign to MI Repair Units which are being formed and to replace men of classes which will be discharged in the near future, this office agrees with the proposal also because a certain number of instructors and equipment could be made available at the Ex Centro Studi.

3. The school could be formed by the 15th October 45 and have a ML as per enclosed appendix.

The staff of the school, part of which is already available, could be assigned by this office.

The military personnel to train should be assigned by you and should be drawn from men belonging to classes which will not be immediately discharged (1920, 21, 22, 23, 24 classes). These men should have the necessary qualifications or be suitable to train as specialists.

2. Bearing in mind that the formation of said school is included in the program proposed by you (see letter No. 2624/2/6 dated 10th. Note A. We have considered the necessity of transferring the 11 and 14th Repair Units (Palermo and Cagliari) from Class III to Class II, increased by 50 men each.

B. We have considered the necessity that the 8th, 9th, and 9th, Repair Units have two LADs (total 6) in the area where the traffic is intense and far from all AT aid.

C. We have considered the necessity of keeping the 62 mobile parks, temporarily and until the repair units, which are being formed, will reach a sufficient efficiency for a full output.

D. In order to be able to consider the necessity referred to in

A, B, C, above, the WL of 1st Class Repair Units has been reduced from 200 to 150 men. Said reduction does not affect these units since each 1st class unit has on the WL 125 military specialists who we shall never be able to assign. On the other hand these units will employ civilians on the spot.

E. Moreover, in the reorganization of the WL of Repair Units, an LAD, to be located possibly outside the unit and precisely where the traffic is intense, will be accounted for. Said LAD, in addition to its normal duties, would also recover vehicles in the area. This detachment is included in the WL of the unit.

- NOTE/ A) Si e' tenuta presente la necessita' di passaggio di classe dell'I^o, II^o e IV^o reparto riparazioni (Palermo e Cagliari) dalla III^o classe alla II^o classe, aumentati di 50 unita' ciascuno.
- B) Si e' tenuta presente la necessita' che il 7^o 8^o e 9^o reparto riparazione distacchino nella zona di maggiore traffico e lontana da ogni aiuto automobilistico 2 posti soccorso ed assistenza. (tot. 6)
- C) Si e' tenuta presente la necessita' di conservare i 2 parchi mobili in via transitoria e sino a quando i reparti riparazione in costituzione non avranno raggiunto efficienza necessaria per ottenere un pieno rendimento.
- D) Per poter tenere presente la necessita' di cui alle lettere A, B, C, si e' ridotto l'organico dei reparti riparazione di I^o classe da 200 a 150 unita'. Tale riduzione non comporta alcun danno perche' ogni reparto di prima classe ha in organico n^o 125 operai militari che non potremo mai assegnare. D'altra parte detti reparti si avvalgono degli operai civili disponibili sul posto.
- E) Inoltre nella ricompilazione degli organici dei reparti riparazione sara' prevista, in seno agli stessi, una sezione soccorso da dislocare, eventualmente, fuori sede e precisamente nei punti nevralgici del traffico automobilistico. Tale sezione, oltre costituire un posto di soccorso; provvederebbe al recupero degli automezzi della zona. E' compresa negli organici del reparto.

Proposta nuovo organico di un reparto riparazioni (cl.I^a):

Principali varianti:

- A)-riduzione della forza militare autorizzata da ~~200~~ 250 unità a 150 unità (non comporta nessun danno in quanto ogni reparto riparazioni di cl.I^a, secondo i vecchi organici, doveva avere 125 operai militari di cui non vi è nessuna disponibilità);
- B)- soppressione del magazzino ricambi auto (i reparti riparazioni di cl.I^a risiedono nelle località ove sono previsti i magazzini ricambi auto-non vi è quindi nessuna necessità di costituirne un'altro presso di loro)
- C) assegnazione di una squadra assistenza e soccorso, da distaccare fuori sede, nel punto di maggior traffico, per la assistenza ai veicoli in transito?-
- D) aumentare gli organici del personale e degli autoveicoli della sezione trasporti onde affidare ~~gli stessi~~ alla stessa anche il compito del recupero dei veicoli già affidati alle sezione carri soccorso di previsto scioglimento.-

We made verbal requests for particulars of specialist personnel held by the Transport Companies, and have since been assured by S.M.R.E. that the necessary personnel are present with the units.
3. You will be advised in the near future of our decision, bearing in mind the necessity for improving the standard of maintenance. In the meantime units must enforce rigidly the 16 Task System of maintenance and present vehicles requiring minor repairs promptly to the repairs units.

To :- Q.

Subject :- Proposal for Reorganisation of Repair Services.

Ref attached copy of letter from Ministry of War.

1. Submitted that there is a good case for the formation of an L.A.D. for each ITI-ITI transport Coy - this would bring them into line with existing IR practice, and should result in better maintenance, and avoid over crowding Repairs Units with minor repairs. Existing IR-ITI Tpt coys each have their own workshops or L.A.D.
2. Owing to the low personnel WE/TO of tpt units, it is thought that L.A.D.s if authorised, should be formed as separate units, and attached to such units. They would also be made responsible for routine monthly inspections of, and minor repairs to, transport of other ITI-ITI Units in the area. At present monthly workshops inspection cannot easily be carried out by Repair Units, owing to the heavy pressure of work on such units, and the fact that they are concentrating principally on the production side.
3. If it is not possible to obtain the necessary authority to form L.A.D.s, it is suggested that Tpt coys be authorised to hold fitters (vehicle mechanics) at a scale of one per Tpt platoon within their existing WE/TO, and that fitter tool kits be provided by REME to this scale.

Subject: L.A.Ds. for Admin Transport Coy.

We have been notified of the ^{advisability of} ~~request~~ assigning to Admin. Transport Coy of Territorial HQs, an L.A.D. ~~which will~~ ^{to} carry out minor overhaul and a better maintenance of the vehicles held by these Coys.

In forwarding to you this request, for whatever decision you may take on the matter, it is added that the assignment of these L.A.D. ~~becomes a concern~~ is convenient because small repairs can be carried out quickly, especially in areas of Northern Italy where no Repair Units are formed at present, and these L.A.Ds will help also in ^{appreciably} improving the maintenance of the vehicles.

R.E. M/T Workshop. O.A.R.E. of BOLOGNA

Facts noted during an inspection carried out recently at BOLOGNA by Col. BALANZINO and Major EDWARDS of MMIA with the purpose of finding out the actual condition of the Italian Army workshop (O.A.R.E.) have shown the possibility and urgent necessity of reforming the workshop.

This would mean a great asset in the car repair service.

To permit the workshop to carry out its reestablishment and to ~~resume~~ ^{recommence} its activities in the shortest possible time we suggest its reforming with the following ^{temporary} W/Es.

1. officers. 1 of which field rank.
2. W.C.O.s
5. O/A.s.
- 11 total military and 130 civilian workers

The 11 required rations could be taken from the 94 ~~still~~ ^{still} available, as they are not yet assigned, in Category 1 ~~per~~ ^{per} letter (B) 1C Sec 9.

We beg MMIA to authorize this request.

Da un sopralluogo effettuato recentemente a Bologna, dal Col. BALANZINO di questa direzione generale unitamente al Maggiore EDWARDS della MMIA, allo scopo di rendersi conto dell'attuale situazione degli impianti dell'officina automobilistica R.E. (OARE), è stata riconosciuta la possibilità e la necessità della più sollecita ricostituzione dell'officina stessa.

Ciò consentirebbe di recare in seguito un notevole apporto al servizio delle riparazioni automobilistiche.

Per consentire all'officina di procedere al suo riordinamento e di riprendere così al più presto la sua attività se ne propone la sua ricostituzione con il seguente organico provvisorio:

1. It is desired to form a further Recovery Section similar to the one at present at Naples i.e. No 1 Recovery Section.
2. This will be known as No 2 Recovery Section on W.E. 178/SMRE/1 of 2 Officers and 32 O.Rs.
3. This will not affect our ceiling as we have a margin of 94 between our ceiling and units already formed, and this will thereby be reduced to 60.

1. To keep pace with the situation arising from the rapid liberation of the North the following proposals are submitted for approval.

(a) Immediate formation of two Recovery Units Nos. 23 and 24 to move up with 2 District. These will be on W.E. 592/SMRE/1 and will exceed the present ceiling in Category 6(c) by 43.

(b) The following Terr. Repairs Directorates have been formed and will accompany their respective Terr. H.Qs.

No. 6 to Bologna
No. 2 " Genoa
No. 3 " Milan

In the case of Turin No. 1 Terr. Repair Directorate should be formed at once and appear in Category 1(c) Sec. 6. This will be regularised when this section of Cat. 1(c) is subdivided into A Transport Units

B R.E.M.E.

Detailed proposals are being prepared.

(c) The detachment of No. 1 Repairs Unit at Plorence should have a separate identity and be formed as No. 5 Repairs Unit. This will be included in proposals referred to above.

The prime duty of the Terr. Repair Directorates which move forward with the Territorial H.Q. is to take over and organise existing facilities. At Bologna it is anticipated full civilian staff will be available. The use of civilian agencies and employment of the Mobile Workshops should render it unnecessary to form additional Repair Units. In any event the personnel will have to be found in the North.

(d) It will be the duty of the Terr. H.Q. to locate and operate the Inefficient Vehicle Parks which will be required to hold vehicles awaiting repair. The War Ministry should issue specific instructions as to this and the duties of the two Recovery Units referred to in 1(a) above as well as the functions of the Terr. Repair Directorates.

(e) Dealing with the distribution of efficient salvaged vehicles and vehicles which have been repaired it is necessary to form two Efficient Vehicle Parks No. 6 and No. 7 now to work with No. 6 Terr. H.Q. Bologna and No. 2 Terr. H.Q. Genoa respectively. No. 4 Efficient Vehicle Park is not needed at Category 6(c).

(c) The detachment of No. 1 Repairs Unit at Florence should have a separate identity and be formed as No. 5 Repairs Unit. This will be included in proposals referred to above.

No. 4 Efficient Vehicle Park is not needed at Catanzaro and should move at once to Florence to serve the newlt created No. 3 Repair Unit. 3040

2. It is necessary to form six POL Reserve Points to serve the Terr. H.Q.s Nos. 2, 6, 7, 8, 9, and 10, also to form one POL Depot to cover the Apulia installations.

The details of the W.E. on which these units should form are being prepared for the W.E. Committee.

2. (cont'd)

in order to provide for the necessary personnel within the ceiling for the above units and for the two Efficient Vehicle Parks referred to in para 1(e) it is necessary to disband No. 2 Special Transport Coy.

Not only will it be a considerable time before transport vehicles are available but it is to be anticipated the necessity will not then exist as the Terr. Admin. Tpt. Coys should be formed and operating.
