1. Major GALABINI visited COMNAV on 29 and 30 Jul with a view to removing the MACOM-NAV 4-str-car on charge to this HQ.

2. The car, at present VCR due to lack of tyres and a broken front spring, was examined by Major GALABINI and by his driver. Owing to its present condition it was impossible to remove it.

3. Being one of the last vehs available before the disbandment of 938 Gen Fin Wings the mechanical condition of this car is bad as is also the bodywork, both internally and externally; the upholstery is filthy and mostly rotten.

4. It can definitely be stated that the c/m veh is not fit for the personal use of GAD MIA and that the wk entailed in bringing it to any satisfactory standard would be quite uneconomical.

5. This unit is at present doing everything possible to make the veh reasonably fit-worthy and fit for the use of this HQ though it is anticipated that this will take some time.

Ref your sig Q734 dated 18 Dec 45.

Instructions regarding the return of LANCIA 5643114 are noted. At present the veh is at 3(It) Repair Unit in Milan having a complete overhaul of engine, transmission and body work and will not be in a fit state to travel to Rome for some, say 2-3 weeks.

3 Repair Unit have been requested to expedite repair but it is not considered practical that your dvr should wait in Genoa until this is complete. He will therefore be sent back to you at the first opportunity and the LANCIA will be despatched as soon as it is again on the rd. Repairs will be limited to essentials.

It should be noted that the veh is shod with five brand new 500x16 GOODRICH WD tyres of civilian pattern, recently obtained through Ord 3 District. By their pattern and size these tyres might easily be mistaken for Italian civilian models.
