The above mentioned vehicles have, as previously intimated been evacuated to Returned Vehicle Parks of 38 Vehicle Company, and we regret it is not possible for either ourselves or the R.V.P's in question to issue the necessary HLR certifications, the only person qualified to do this being an R.V.P.

We would point out that the incorrect procedure was adopted by the collecting party, after the vehicles had been drawn from this Park and subsequently involved in accidents. These vehicles should have been taken to the nearest ROME Service Station or L of C Workshops, who would have been able to HLR these vehicles, instead of which they were left at this Park by the drivers concerned.

We would suggest, however, that you contact HQ 38 Vehicle Company for clarification of this position.

BEDFORD 15 cwt 4 X2 GS WD 4765059
Bedford 15 cwt 4 X2 GS WD 4433368

Reference the above vehicles.

Please note that these vehicles were involved in accidents while being driven by drivers of 5 Italian Combat Group. They were returned to this Park and have since been evacuated to 15 Returned Vehicle Park ROME and 7 Advance Returned Vehicle Park ARSENZO respectively classified 3 & 4.

Nothing is known of Bedford 15 cwt WD 4431038 or Ford 15 cwt WD 4846853 which were driven away by drivers of 5 Italian Combat Group at the time of collection of all vehicles released.

Reference your 9Q dated 26 Jan 45.

1. A demand has been placed on Q(AE) AFHQ for the vehicles detailed in Appendix 'A' to your above quoted letter.
2. Providing these vehicles are released, it is considered by this Directorate that with the exception of "Carriers Universal" you should now have sufficient vehicles to meet your immediate trg requirements. Your holdings will be far in excess of the authorised trg scale which is justified in view of the trg to be carried out and the delay that is likely to take place before WE vehicles are issued.
3. No further action should therefore be taken to earmark further Lorries 3 ton and A/T Portess.
4. Please forward your requirements of Carriers Universal when necessary release action will be taken.

1. The list of such Class V vehicles as could be found as replacements is shown at appx^A attached.

2. It will be noted that only one lorry 3 Ton, 4 X 2 GS, one 15 cwt truck and one Tractor LAA Class V were found in these RVPs. SO RHEM 56 BLU did, however, pick out 10 M/Gs Class III and IV and six 3 Ton, 4 X 4 GS Class V and it would be much appreciated if these could be released to the Battle Group as no further Class V M/Gs or Lorries 3 Ton, 4 X 2 GS could be found.

3. It is further pointed out that there is a great shortage of Class V vehicles and that great difficulty was found in producing these vehicles, all of which were found at 409 RVP, as none were available at 15 RVP. The following vehicles therefore still require replacement.
