N° 03/746 di prot.

P.M. 155, li 14 novembre 1944

SUBJECT:- "G" Vehicle Census.-

AL D.A.D.O.S. 52 B.L.U.

Ref. your ORD/23/17 dated 2 Nov. 44.

The differences existing in the Census forms for the month of October compared with the list submitted in the previous month are due to the following facts.

The vehicles off the road which were in the Macerata area were to be handed back to 9 ARVP - Jesi.

A certain number of same needed only slight repairs and it has been possible to repair them with spares taken off from other vehicles.

They have therefore returned to the Gruppo di Combattimento Legnano, while it was previously thought that they would be handed back.

The inexactness of the previous return is also due to the difficulty of the language, owing to which some vehs have been included in the wrong type of vehs, making corrections necessary.

The situation for the month of October is correct and information of all casualties will be given to you.

It is observed that quite a number of differences exist in the present census forms compared with the list submitted last month.

Please ensure that census forms are completed after a visual check on vehicles held by unit.

Inform the branch by return if any amendments are necessary to the census form received for October.

Please treat this as urgent as higher authority is calling for correct details
