1. The question of the Deficiency of a "Z" Lorry on the establishment of the Legnano Gruppo Mech Engr Wksp has been taken up.

2. DME AFHQ replies:

" The deficiency of a "Z" Lorry was reported under 1 District letter ref 1D/2312/Q dated 25 Feb, but was not subsequently reported on 52 BLU signal A/Q/1 of 8 Mar and was therefore not released by Q(AE) in their signal. FX40568 of 9 Mar, which released vehicles against all other deficiencies."

3. Ord this HQ say that the deficiency has not been reported to them by DADOS 52 BLU, who has not demanded such a vehicle.

4. At our request Ord are holding for you a "Z" Lorry; but will not release it until a demand is received.

5. You should therefore immediately contact DADOS 52 BLU and ensure that such a demand is submitted forthwith.

Ref your ORD/10/1.dated 1 March 45.

1. When it was the responsibility of Sezione Servizi to forward you the vehicle census returns, everything had been done to make the units understand the importance of the particulars requested. (particularly contract and Supply Mech Numbers).
2. At present, as, following your request, all census returns are dealt with by Ufficio Commissariato, it is obviously no more the concern of this office to provide the a. m. particulars.
3. However the Units attention will be drawn on the essential importance of forwarding immediately all available particulars.
4. It should, however, be remembered that a comparatively large number of vehs has been issued without the contract Number plate and without A.B. 412 or at least with no entries in same. It is not known how the required particulars can be given in these cases.
5. If, in such cases, it should not be possible to find the Contract and Supply Mech Number, the scaling will obviously have to be made on the only information available.
6. If, however you can issue any instruction on the subject, I will do everything in my power to help you obtain all the possible particulars, which you still require.

Major TERRANOVA,
Servizi Rear,
Gruppo di Combattimento,
C.M.F.

1. In order that Ordnance may operate to its fullest advantage it is necessary that a complete check be made and full particulars given by units of all vehicles on their charge.
2. In the past it has been noted that contrary to all requests Units are still submitting census of vehicle holdings with the most hazy information; and it is repeated that it is imperative full particulars be given the most important of which is in the case of British vehicles the Contract number, and for American vehicles the Supply Mech number which can be found upon all vehicles held.
3. This re-check must be made immediately and you are requested to give S/Sjt. Sharples your fullest cooperation in this respect so that a full and perfect picture may be obtained of the Gruppo's vehicles. Until this is done a satisfactory scaling cannot be made; this consequently accounting for the number of vehicles at present off the road in this formation.
