Subject:- Report on Inspection of Weasels belonging to Spec Inf Regt
(ref 07/2619 of 5 July 45).

To:- HQ Wkaps

Today I carried out an Inspection of the Weasels held by
HQ 'Aquila' Alpini Btg. Herewith remarks.

Weasel No. 5649070 (Located at Stelvio Pass) efficient
" " 5649087 " " " " efficient

The two Weasels referred to above, the level of oil in
the Gearbox and Differential was below normal. I gave orders for them
to be 'topped up'.

Weasel No. 5649406 (Located at BORMIO)

1. In need of the following repairs, which can be carried out at 2 LAD
Leaking Radiator
Bent Fan

Weasel No. 5649383 (Located at TIRANO)

2. In need of the following repairs, which can be carried out by 2 LAD
as soon as this LAD is supplied with the necessary parts.

Radiator U/S	Thermostat U/S
6 Plugs	Windscreen missing
Manometer U/S	Speedometer U/S
Ammeter U/S	

Weasel No. 5649067 (Located at TIRANO)

3. In need of the following repairs which can be carried out by 2 LAD
Replacement of Fan Belt
" of Distributor Brush

The maintenance of the above vehs is at present good, but it is evident
that it has only been done recently.

I have also noted that these vehs are not being used and tested with the
necessary frequency (Engine Testing & Battery Charging) which for obvious
reasons should be carried out weekly.
