S/Capt. R.E.M.E.
52 B.L.U.

1. The following extract from DDOS 2 Dist's ORD/5048 of 19 Nov., to DOS GHQ CMF, concerning demands in respect of Tyres & Tubes, Engine Assemblies etc., is forwarded for your information.

"Under the provisions of your DOS/7209 of 8 Nov, no issue should be made except as provided in your para 4, i.e. with your approval or as part of an approved scaling.

Would you please say if these demands should be passed to MMIA for satisfaction or whether issues are to proceed from British sources, with your approval. It is thought unlikely that MMIA will have stocks of these items at the moment and that probably arrangements for supply in bulk to MMIA have been made pending the setting up of a supply system by the Italian Government - this to include Base overhaul and repair.

Your guidance would be appreciated in this particular case as it is a matter of keeping a large proportion of Gruppi units mobile."

ORIGINAL
BROWN
17 XI

1. It is noted from the weekly [redacted] Wksp Offices BLR Return ref 4015 dated 8 Nov 45 that considerable numbers of 1050 x 16 Tyres are being BLRd with ½ to ¾ remaining tread life - principally for vehicles of the 250 Gp Trasporti.

2. These are all shown as 'BLR' due to Accident' but the wastage of this size of tyre is extremely serious and steps should be taken to ensure the greatest possible economy.

3. It should also be noted that accidents due to carelessness or speeding should not be classified as 'BLR due to Accident' but as 'BLR due to Unfair Wear & Tear(Accident)' and the necessary disciplinary action should then be taken.

13 November 1945.

Ufficio Commissariato.

1. With regard to the current shortage of Covers Outer 1050 + 16, the following advice has been received, and should be notified to all Units.

2. DOS GHQ MEF is aware of the seriousness of the position of supply, but owing to depleted stocks he can only allocate up to 10% of formations' requirements at the present time.

3. However, it is hoped that the position will improve in the near future.

Subject: Tyre and Tube Requirements.

52 British Liaison Unit.
C.M.F.
ORD/10/6(113)
24 October 1945.

Ufficio Commissariato.

1. In future please submit requirements of tyres and tubes to replace actual B.L.R., separately from anticipated future requirements, i.e. tyres and tubes in their last quarter of life.

2. District have agreed to meet, as far as possible, our demands in respect of anticipated future requirements, but, at the same time, whenever demands from within the District exceed the District allocation on any one size, releases will be made in proportion to B.L.R. requirements only. Accordingly, releases for Reserve (i.e. Provision to cover future demands against tyres in their fourth quarter of life) will only be made after B.L.R. requirements have been met.

3. In view of the above, copies of an amended proforma are attached for distribution to all concerned, and will be taken into use forthwith.

1. Herewith Tyre and Tube Requirements of "Legnano" Inf. Div., as at 12.00 hours 20th. October 1945, in accordance with your ORD/3006 dated 6th. June '45.

2. Hitherto it has been the practice within this Formation, to submit tyre and tube requirements only to replace a similar item already conditioned BLR.

3. Since intelligent anticipation is one of the fundamental bases of good provisioning, anddin view off the slight easing of the tyre and tube situation, a review was made within this Formation, in the form of an inspection by R.E.M.E., who classified all tyres and tubes according to their quarter of remaining life.

4. With the advent of winter, and consequent slippery state of the roads, it is essential, in the interests of safety, that tyres should not become too worn before being exchanged. Accordingly, therefore, in attached weekly demand, I have included requirements to replace tyres in their last quarter of life, in addition to requirements to replace actual BLR.

5. On this account, requirements as submitted this week are considerably higher than on any previous occasion. It would be greatly appreciated if these figures be accepted for future allocations.

6. For your further information, requirements to replace actual BLR for week ending 20th. Oct. '45. are, in principal, not changed fromtthese for week ending 13th. Oct. '45.

Subject:- Tyre State.

SC RME
52 British Liaison Unit
CMF
Ref No:- ME/15/27.

Date:- 18 Sep 45

CMF HQ Legnano

Copy to:- OC ME Wksps
DADOS 52 BLU

1. In view of the acute shortage of tyres it is considered advisable to review the present tyre state of Gruppo MT and this would best be effected by the MTOs and Transport NCOs of all Regts carrying out a careful inspection of Transport Holdings and completing the attached return with the minimum delay.

2. Explanation of Return.

(a) Col. 1 - Class of Vehicle
" 2 - Make of Vehicle i.e. Bedford, Chev etc.
" 3 - This is the number of vehs actually held
" 4 - Tyre Size i.e. 1050 x 16 and there will be one line for each size of tyre
" 5 - Equivalent number of tyres i.e. 20 - 15-cwts 4 x 2 each complete with 1 spare wheel, then equivalent number of tyres equals 20 x 5 = 100.
" 6 - Actual tyre deficiency due to loss and lack of replacement of BLR tyres.
" 7 - An estimation of the remaining Tread Life of tyre, this is obtained by inspection and the figure 1 indicates a new tyre.
" 8 Remarks - any comments considered necessary. 5189

3. It is emphasised that this inspection should be carried out by Regtl personnel preferably the MTO.

Ref No:- EME/15/20.

Date:- 14 Sep 45

1. In view of the maltreatment of tyres and the number found BLR due to unfair wear and tear, it is considered necessary that a system of returns should be maintained.

2. It is suggested that OC ME Wksps should render the following return of BLRd Tyres, this return to be rendered fortnightly as at 1630 hours THURSDAY to me, copy to DADOS 52 BLU.

BLR TYRE SITUATION AS AT 1630 HRS THURSDAY.....

1	2	3	4				5	6
Unit	1043 Ref	Tyre Size	Remaining Tyre Life			1.00	No. due to unfair Wear & Tear	Total BLR

Col. 1) Name of Unit
2) 1043 ref
3) Tyre Size i.e. 1050 x 16
4) Tyre life - this is obtained by estimating the amount of Tread Wear i.e. 1.00 (100% Tread) and this tyre could only be made BLR by Unfair Wear & Tear i.e. many under-inflated with damage to wall.

3. In all cases of Unfair Wear & Tear, the 1043 will be endorsed Unfair Wear & Tear, also in view of the fact that Units often fail to indent, copies of 1043s will be forwarded to DADOS direct by OC ME Wksp.

" Denby "

1. Information has been received that the position of tyres size 1050 x 16, has not been improved as was expected some two months ago, despite the great demand for this size.

2. The rate at which they are being shipped to this theatre is less than the rate at which they are being consumed as this size is in global short supply and there is no immediate prospect of being able to meet more than 20% of theatre requirements for several months.

3. D.D.O.S.-H.Q.2 District, advise that issues are made as soon as the tyres are received and so far this week it is only possible to despatch 10% of the theatre requirements.

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

Subject:- Covers Outer Size 1050/1100 x 16.

52, British Liaison Unit,
C.M.F.
ORD/10/6 (86)
27th August 1945.

(86)

Ufficio Commissariato.

1. Please circularise all units to the following effect:-

2. Information has been received that the position of tyres, size 1050 x 16, has not been improved as was expected some two months ago, despite the great demand for this size.

3. The rate at which they are being shipped to this theatre is less than the rate at which they are being consumed as this size is in global short supply and there is no immediate prospect of being able to meet more than 20% of theatre requirements for several months.

4. D.D.O.S. HQ.2 District, advise that issues are made as soon as the tyres are received and so far this week it is only possible to despatch 10% of the theatre requirements.

W.P.J.

The following extract from a DOS letter is forwarded for information.

"1. The supply of tyres size 1050 x 16 has not improved as was expected some two months ago.

2. This size is in global short supply and the rate at which they are being shipped to this theatre is less than the rate at which they are being consumed.

3. Although 'dues in' are advised, there is no immediate prospect of being able to meet more than 20% of theatre requirements for several months.

4. Issues are made as soon as the tyres are received and so far this week it is only possible to dispatch 10% of the theatre requirements."

Subject: Tyre Storage

C.O.S.O.; 557 E.C.D.
C.O.S.O.; 35 A.C.D.
C.O.S.O.; OKD Depot BARI
C.O.S.O.; 300 A.C.D.

The present acute shortage of tyres makes it essential to preserve all stocks in the best possible condition.

The primary causes of tyre deterioration in storage are -

Light
Heat
Oil or other petroleum derivatives
Water

With the approach of Summer it is now necessary to ensure that all tyres in storage are adequately protected from sunlight. Where tyres are now stored in the open, arrangements must be made for the stacks to be covered.

Oil or other petroleum derivatives must not be allowed to come in contact with the tyres.

When possible tyres should be stored vertically in racks. As the majority of tyres now held are stored in stacks it is therefore important to ensure that those at the bottom are not damaged by the weight of those on the top. The oldest stock must always be issued first and for slow moving sizes, the stacks must be reversed periodically.

Tyre repair materials consist mainly of unvulcanised rubber compounds and are more liable to damage by heat and light. Great care must be exercised in handling the material to ensure that it is not subject to a temperature above 80°F and soon not at any time become exposed to direct sunlight.
