1. The above GRO gives details of existing availabilities of Special Tools for A & B Vels, Arty & Small Arms, manufactured in USA & CANADA and also procedure to be adopted for obtaining these tools. It also gives a final date for demand to ADOS (R) DROS L of C, CEF of 10 AUGUST 45.
2. The lack of these tools has been a constant inconvenience to the Gruppo ME Service and it is suggested that full and immediate advantage be taken of the above GRO and indents submitted to fully cover all USA and Canadian Vels held by the Gruppo.
3. 6 - 1st Line LADs and 1/2nd Line Platoon Wap (RASC Type) and a 2nd Line Div Wap should be taken into account also the 4 Mack Rec Vels although less than the minimum of 33 specified, should be given consideration as they are specialised vehicles of considerable importance to the ME Service.
