10th April, 1945.

On 22nd February last the possibility of obtaining 200 pairs of pyjamas for use at the Field Hospitals was raised by the D.M.S., Colonel Polese. This matter was taken up by 52 BLU MMIA/LO with Capt. Clark, RAOC, who stated that these items were an Italian responsibility. It has been found impossible to obtain pyjamas from Italian sources and, as the position at the hospitals is acute, any advice or assistance regarding the supply of these items you might give would be appreciated.
