SUBJECT: Signal Traffic INFO-BOZANO

Land Force Cdo Commission A.C.

(M.M.I.A.)

X 900/4/4

31 July 45.

To: Signal Officer, D.A.A.C.

O.C. Signals, 66 Area.

A.D.L.U. (Periodical Report No. 12 dated 6 July 46 refers.)

1. The clearance of signal traffic from D.A.C., M.M.I.A. RHP to 4 D.L.U. BOZANO has recently been very unsatisfactory.

2. Message Centre, RAC, state that the only routing available now is as follows:-

(a) All priorities - Teletype to VENICE.

(b) IMPORTANT and below - road courier VENICE - TREVISO and air courier TREVISO - BOZANO.

Road Courier VENICE - TREVISO 1200 hrs and 1800 hrs daily.

Air Courier TREVISO - BOZANO. BOZANO to TREVISO every Tuesday and Friday
TREVISO to BOZANO every Wednesday and Saturday

(c) URGENT and above - UNCLASSIFIED and RESTRICTED (and therefore in plain language) telephone VENICE - BOZANO.

CONFIDENTIAL, SECRET and TOP SECRET as in (b) above. None of these categories can be passed by telephone in plain language and the fact that SECRET and TOP SECRET messages will be in cipher and that CONFIDENTIAL messages could be enciphered is of no assistance, because, there being no Message Centre at BOZANO, all deciphering must be done at VENICE.

3. It is evident from Para 2 that

1. A message of priority IMPORTANT or below which arrived at TREVISO on a Saturday just too late for the air courier on that day would not reach BOZANO until some time on the following Wednesday.

2. As priorities IMPORTANT or above are nowadays only in exceptional circumstances a great increase in efficiency would be obtained by extending Para 2 (c) to IMPORTANT and above. This would give the following situation

permissible

(c) IMMEDIATE and above - UNCLASSIFIED and RESTRICTED (and therefore in plain language) telephone VICTOR - BOLZANO.

CONFIDENTIAL, SECRET and TOP SECRET as in (b) above. None of these categories can be passed by telephone in plain language and the fact that SECRET and TOP SECRET messages will be in cipher and that CONFIDENTIAL messages could be enciphered is of no assistance, because, there being no Message Centre at BOLZANO, all deciphering must be done at VICTOR.

3. It is evident from Para 2 that

1. A message of priority IMMEDIATE or below which arrived ~~THURSDAY~~ on a Saturday just too late for the air courier on that day would not reach BOLZANO until some time on the following Wednesday.

2. As priorities IMMEDIATE or above are nowadays only in exceptional circumstances a great increase in efficiency would be obtained by extending Para 2 (c) to IMMEDIATE and above. This would give the following situation

^R ALL DEPENDANT and ROUTINE-Teletype and road and air courier. IMMEDIATE and above (UNCLASSIFIED and RESTRICTED) Teletype and Telephone. IMMEDIATE and above (CONFIDENTIAL and above) Teletype and road and air courier.

Signal Officer R.A.A.C. and C.O. Signals 66 Area are requested to assist in arranging this.

- 1., Ref. para. 2. of your above quoted letter.
This statement cannot be agreed to inasmuch as it refers to a quicker service. This unit has found by experience that, for example; any signal passed through the Italia signal system, if so franked, arrives at its destination in two hours. Similarly, if the Italian telephon system is used, a good clear line is available to Rome with about ten minutes delay at the most whereas the British military line has very lengthy delays and when the number is reached it is inevitably inaudible.
- 2., It is also impractical to comply with para. 3 since this applies to every signal using British channels.
- 3., In no case has a signal ever been telephoned through from VENICE.

1. Signals from ROME to BOLTANO are cleared by teletype to VENICE and are cleared from there by phone if of security classification "RESTRICTED" or "UNCLASSIFIED".
2. It is not considered that Italian Military channels would provide a quicker service for this type of message and it would be impracticable to clear traffic of security classification "CONFIDENTIAL" and higher through Italian channels.
3. If any signal is unduly delayed, full details of the originators number, time of origin and time of receipt should be forwarded to this office in order that an enquiry into the causes of delay may be made.

Many originators in this Area are endorsing messages to be sent IN CIPHER unnecessarily.

Any message which has to be transmitted IN CIPHER is delayed in consequence, due to enciphering and deciphering delays.

In this Area, owing to the shortage of cipher operators, delays to cipher traffic are above normal. Originators will, therefore, endorse the minimum traffic to be sent "IN CIPHER".

It will be appreciated that we are unable as a unit to communicate directly with PRIULI Inf.Div., to do so would undermine the authority of the Territorial HQ especially in view of the laid down policy of M.M.I.A. i.e. to support the General Commanding Territorial Command as opposed to the General commanding Division.

Reference 3 District H.Q. letter 1607 X 39 dated 23 May addressed to you, copy to this Hq.

It is regretted that no trace can be found of Army Code Sign Book No. 4 Serial 9 Copy 26.

It will be appreciated that this Unit was formed in Nov. 1945 on the disbandment of 52 B.L.U. - the personnel (less Sigs) of 52 forming 4 and 5 BLUs.-

It is understood that the Sigs personnel (NCO 1/c Sgt DEERING) - to whom presumably the Sign Book was issued - remained at BERGAMO awaiting posting orders after the rest of the B.L.U. had moved to its new locations.

NOTE TO ALL OFFICERS.

Official Mail.

1. Bolzano Signal Office has closed W.O.I. 14 May and in future the D.R.L.S. comes direct to A.C.L. Group, Bolzano, with official mail for all British Units.
2. Message Center is situated in room 26, on 1st floor at A.C. Liaison H.Q., Bolzano and will be open on week-days from 0900 to 1730 hrs.
3. Official mail arrives daily at 1100 hrs. and the D.R.L.S. leaves with all official mail from the office at 1400 hrs. daily.

Messages.

4. Telegraph facilities do not exist. Messages franked "IMMEDIATE" may be telephoned to MILAN 12219 or VERONA 2573 for onward transmission, but this should only be done if URGENT. Messages franked "MOST IMMEDIATE" should be telephoned, if possible and not sent to the Message Center which will not do any telephoning.
5. Messages may be franked by Officers as follows:-

MOST IMMEDIATE

:- Not below rank of COLONEL

IMMEDIATE

:- Not below rank of MAJOR

URGENT

:- Not below rank of CAPTAIN

Messages should not be franked URGENT. If this word is necessary it should be included in the text of the message.

6. Telephoned messages should be kept to an absolute minimum. "IMMEDIATE" is not sufficient high priority to justify telephoning.

Subject:- Telegraph Facilities Bolzano - Milan.1.
24 Apr. 66To:- SEE DISTRIBUTION LIST.

W.o.f. date the telegraph circuit Bolzano - Milan ceases.
The only means of clearing traffic from the Signal Office Bolzano will therefore be by D.R.
D.R.L.S., which leaves Bolzano at 1400hrs daily, arriving Milan at 0945hrs the following
day.

It will be appreciated that NO priority traffic can now be accepted
by the Signal Office. In exceptional circumstances urgent messages will be accepted
for clearance to Milan or Bologna by telephone, but as the telephone is NOT secret no
message bearing a security classification will be accepted for transmission by telephone
under any circumstances.

SUBJECT :- Signal Facilities

H.Q. 217 Area., CMF.

TO :- List 'A'

Ref :- 1267 G.

1 Mar 46.

1. In view of the reduction in Signal facilities to the following towns in this Area v.c.f 15 Mar 46, the following information is given to assist originators of Signals traffic.

(a) VERONA

- (i) Telegraph :- None
- (ii) Els :- Couriers from MILAN, BOLZANO, PADUA and BOLOGNA call at VERONA Signal Office between 2000 hrs and 0600 hrs daily.
- (iii) Telephone :- units are connected to the town automatic system, there are lines to MILAN and BOLOGNA Military Exchanges.

(b) BOLZANO

- (i) Telegraph :- Messages can be sent by telegraph to and from MILAN
- (ii) Els :- Courier from VERONA (connecting with MILAN and BOLOGNA) arrives at BOLZANO Signal Office at 1100 hrs and departs 1200 hrs.
- (iii) Telephone :- units are connected to the town automatic exchanges. There are lines to the Military Exchanges at MILAN and BOLOGNA.

2. Telephone exchanges at these towns are operated by ITALIANS. Italian-speaking operators at MILAN and BOLOGNA Military exchanges are available to give assistance to Allied subscribers.

3. Military subscribers are entitled to "military priority" telephone calls over civil lines in the same basis as over Military lines.

Restricted.SIGNALS SERVICE, BOLZANO1.
16 Mar. 46.To:- See Distribution List.

1. W.o.f. 2200hrs 19 March 46 the military exchange in Bolzano will close down.
2. Units remaining in Bolzano will receive service as follows:-
(a) Trunk calls will be obtained by dialling the civilian trunk exchange (04).
The following lines will be exclusively available for military calls from Bolzano:-

Milan Military.Bologna Military.Brenner Snow Post.G.O.C's Villa Morano.

Service to other exchanges will be over civilian lines. Apart from numerous local exchanges Verona, Venice, Bologna, Monza, Trento and Cortina are connected to Bolzano civil trunk board. On all these lines military booked calls will be given priority over civilian booked calls. "Clear the line" facilities will be available for very urgent military calls and such calls will take priority over civilian "clear the line" calls. In this connection the Italian for "Clear the line" is "Liberato la linea", i.e. "priority" "urgentissimo".

- (b) Faults on automatic telephones will be reported to the Italian maintenance personnel by dialling 1111, 1112 or 1113. Requests for installation or recovery of military telephones will be made in the same way, written copy of request to H.Q. 1 L.of C. Signals GMP.

It is emphasised that when a unit vacates a premises that contain telephones the civilian organisation must be notified so that the phone or phones can be removed.

Ref. 4/90/1528 ²⁸ of 7 Feb.

Because personnel - vehicles at the disposal of this HQ do not permit a survey to be made to obtain the required details we give the following approximate details:

a) Length of route (from Brennero to Verona) about 200 kilometres. - 1 line of copper wire 4 mm. Nearly the whole of the other line has been ³⁷⁶¹ taken away.

b) Amount of material: 4,000 poles 6 to 8 metres high. 400 kms. x 4 mm. Uncovered copper wire. - 16,000 Brackets (with curved supports) 16,000 Bell shaped insulators

- c) There are poles along most of the route.
following the road.

If more precise details were given these would only be temporary as material is continually being stolen all along the route.

Chief of Staff
Col. Enrico D'Amico.

Nella considerazione che personale e mezzi di q.to comando non consentono di effettuare le ricognizioni di dettaglio, si trasmettono i seguenti dati approssimativi:

- a) lunghezza del tracciato ( dal Brennero a Verona ) km. 200 circa circuiti in filo di rame da mm.4: esistente uno, il secondo è già stato asportato quasi completamente;
- b) quantitativi materiali esistenti: pali da m.6+8 n.4000 - filo di rame nudo da mm. 4 km.400 - gan- ci e gambo curvo n.16000 - isolatori a campana di porcellana n. 16000;
- c) la palificazione segue di massima il tracciato stradale.

Comunque, dati più precisi avrebbero soltan- to valore momentaneo poichè le esportazioni di mate- riale lungo la linea sono continue.

# ROME - GENOA AIRLINE.

This is to advise that the Rome-Genoa Airline of the Italian Military Air-courier service is now in operation. For the present only one flight per week and return is necessary, employing seaplanes Z.506.

The time table is as follows :

## Mon.

Dep. Rome(Lake Bracciano) 11.45 hrs  
Arr. Genoa 13.15 hrs

## Wed.

Arr. 09.30  
Dep. 08.00

2. As these aircraft are also employed on the Rome-Elmas airline it has been necessary to employ one Z.506 from Guidonia once each week to augment the service. The increased passenger space of the Z.506 has made it possible to terminate the weekly flight from Centocelle to Cagliari. The existing scheduled flights are as follows :

(Tuesday, Wednesday, Friday)

Tuesday Wednesday Friday

(Monday, Thursday, Friday)

Commanding General, Peninsular Base Section, APO 782  
Commanding General, Rome Area Allied Command, APO 794

1. Effective 1 February 1946 the Allied Military Authorities in ITALY (less 13 Corps Area) will cease to be responsible for the provision of communications on behalf of the Italian Armed Forces.

2. At that date, all circuits forming part of the pre-war civilian network, now controlled by the Allies, but in use by the Italian Armed Forces, will be formally returned to Italian Government control. The appropriate Italian Military Authorities will be informed of these steps at once so that they may have the opportunity of re-acquisitioning the facilities in good time.

3. The use by Italian Armed Forces of circuits on Allied Military routes, ie. routes constructed with military stores entirely and maintained by Allied Signal personnel, will be discontinued, or alternatively, the maintenance taken over by the Italian Military Authorities.

4. As a result of this change in policy effective 1 February 1946, no Italian Military units or formations will be permitted access to the Allied Military Telephone or Telegraph networks in ITALY. There will be one exception to this ruling, namely, that they may use the military network entirely within the 13 Corps boundary.

1. Reference minutes of M.E.I.A. Conference, 6 points, 28 Jan 46, page 6 para 9, BL 2 District confirms that Signal Offices or Centres still exist in TUNIS, GAZA and BOLANS, thus providing normal Signal Service.
2. This letter is being despatched from M.E.I.A. at 1200 hrs 5 Feb 46. Please complete the appendix below and return to this S. as a return tent package.
3. BL 2 District advises that as that District contracts the present Signal Service will be reduced and BLs are recommended to keep in touch with CSO's Branch 2 District or G.C. Locality Signals to ensure continuity of service. Eventually BLs may have to arrange collection of Signal Traffic from Milan Signal Office (or other nearer Signal Office) as will presumably be the case in respect of rations and private mail.

-----Subject: Innsbruck-Verona telephone Line.To: 4 PLU BOLZANO.

1. Information received from our Engineers H.Q. reveals that the above line, constructed by German Troops in the Winter of '44/'45 for the G.H.Q. of Marshall Kesselring, has been taken away in places by Civilians and German POW who have sold these materials at ridiculous prices.

The above line is formed of poles 6 to 8 Metres tall, of 4 copper (uncovered) lines 4mm. and bell shaped insulators on iron brackets.

2. In regard to the above it is pointed out that the material mentioned above could be used by this Command, we therefore request you to put the matter before the Allied Authorities concerned so that Authority may be given for the line to be collected by the Director of Engineering Works.

Chief of Staff.

Da informazioni pervenute dal dipendente comando genio risulta che la linea in oggetto, costruita da truppe tedesche nell'inverno 44/45 per il C.G. del Maresc. Kesslering, è stata in alcuni tratti smaltellata da civili e da prigionieri di guerra tedeschi, che hanno venduto i materiali di ricupero a prezzi irrisori.

Tale linea è costituita da pali dei n. 6 a 8, da 4 conduttori di filo di rame nudo da mm. 4 e da isolatori a campana su ganci in ferro.

II

In relazione a quanto sopra e tenuto conto che il materiale di che trattasi potrebbe essere utilizzato da questo comando, pregasi voler esaminare l'opportunità di interessare la competente autorità alleata per che autorizzi il ripiegamento della linea a cura della dipendente direzione lavori genio.

1. Your 2006 G(0) refers.
2. It is appreciated that a high priority was given to this HQ 4/14/15 of 13 Dec.
3. NSIA called a conference at Venice to discuss the moves of POLICORS and REGIOLI Divisions and the new situations at UMINE and BOLZANO. This message was originated on the 11th but did not arrive until the 13th. As this HQ reply had some considerable bearing on the movements of Colonel Pidsley, Colonel A/Q of NSIA it was considered essential that the message arrived as quickly as possible.
4. It is known that the "Emergency Ops" priority is given only on authority of Commander of a formation. This HQ has always been the link between Italian formation HQ and British HQs and as such has used the priority ment once on many occasions.
5. This HQ, in the very near future, passes into an advisory and not executive capacity and assurance is given that no abuse of signal priorities will <sup>3727</sup>

1. Despite repeated requests and priority signals & HMA have failed to render to this office a certificate required in respect of Army Code sign documents.
2. The certificate required should certify that column sequence charted Nov 45 Copy No 23 held by MULLI Combat Group has been destroyed by fire. The request for the certificate was submitted in my 2559 X dated 14 Dec 45 and the urgency was pointed out to 4 HMA.
3. An expedite for a number of certificates was sent in my SX/24 dated 21 Dec, priority 'IMPORTANT'. Certain other certificates were received on the same day and a further request was made in my SX/27 also dated 21 Dec, priority 'IMPORTANT'. A further expedite was sent on SX/23 dated 29 Dec, priority 'IMPORTANT'.
4. This certificate has still not been received and it is requested that pressure be brought to bear on this unit to render this certificate and to ensure the prompt rendition of certificates in future.

1. It is regretted that there has been delay in rendering certain certificates and replies to correspondence.
2. It is pointed out that this unit is only a channel of communication with Italian formations and deficiencies in Italian Staff System cannot be easily overcome.
3. Assurance is given that every effort is made by this HQ to ensure the quick passage of correspondence and returns.

27 Dec 45.

1. The following has been received from G.H. CAF:-

"The standard of message writing by British originators has deteriorated considerably during the last few months. The main faults are verbosity, unjustifiably high priorities and incorrect security classifications. The over-all result of the above practices is to reduce the efficiency of the service for all users, including those who originate messages in the correct manner.

With a view to effecting an improvement, CSO CAF is being instructed to provide scrutineers who will examine messages originated in G.H. CAF or the British elements of integrated sections of A.M.S. and also those originated in other H.Q.s and passed to G.H. CAF for retransmission. These scrutineers will be empowered to refer out-going messages back to the originators, by telephone where possible in order to save time, where they consider a message has an unduly high priority or incorrect classification. They may also suggest deletion of unnecessary words. All such messages which are challenged by the scrutineers will be recorded and bad cases will be referred to heads of departments for necessary action. In the case of incoming messages a report on messages which merit comment will be forwarded periodically through Signals channels to the originating H.Q. The scrutineers will be given strict instructions on no account to delay the transmission of important messages."

2. Since a scrutiny of airmail communications shows that abuse of priorities is common, addressees will direct the attention of all subordinates to the following.

(a) The following officers are entitled to frank messages with priorities as shown -

(a) The following officers are entitled to frank messages with priorities as shown -

(i) Important

1st Grade Staff Officers  
CCs of Lt-Col's commands

(ii) Important

To be used in messages of sufficient urgency to warrant a speed of despatch above the ordinary.

All Staff Officers  
All O's of units  
OSC detached troops.

(b) In an emergency officers of any rank may initiate priorities above their normal powers, but will be required to justify their actions subsequently.

D'ordine del C.M.O. del 1° Distretto, le frequenze ora in uso alle stazioni radio della Divisione s'intendono automaticamente condotte all'atto della partenza delle stazioni attese dalla zona di attuale diallocazione.

2683

Le frequenze da impiegare nella nuova zona saranno assegnate dal C.M.O. del 1° Distretto.

Nelle nuove zone tutte le stazioni dovranno pertanto osservare il silenzio radio fino a che sarà effettuata la nuova distribuzione di frequenze.
