1. Attached at Appendices "A", "B", and "C" are lists of makes and types of "D" vehicles including MCs which will not be repaired on reaching Class III or lower condition.

2. Units holding vehicles of the types listed will demand replacements when these makes and types become Class III conditioned. It is appreciated that this may result in an increased demand which every effort will be made to meet.

3. Attached at Appendix "D" is a list of makes and types in very short supply and in which a global shortage exists. These will be repaired in all cases except when definitely in Class VI condition.

Appendix 'C' to GH/8022/7/8/R(AE)  
 Dated 28 Nov 45

Schedule of types of 'B' Vehicles which will NOT be repaired when in Class III or lower condition. On reaching Class III or lower condition, all such vehicles will be returned to V.R.Ds. or other appropriate depots for storage. Units thus affected will demand replacements. In no circumstances will these vehicles be evacuated to the Ministry of Supply except those in Class VI condition.
