3. INTELLIGENCE

(a) Public Opinion Situation

The news of the peace treaty terms for Italy has provoked a further wave of resentment against the Allies who are accused of breaching their promises in the terms of the Atlantic Charter, which, it is said they used as a lure to induce the nation to fight for what was supposed to be Italy's interests but was, in fact, only in the Allied interest.

(b) Public opinion towards the Carabinieri

Prestige and esteem for the Carabinieri is continually increasing among the population.

(c) Press

The press is mainly concerned this month with the peace treaty terms and the economical situation in Italy.

The political differences between the various parties of the Government grow stronger daily, this is particularly noticeable in the opposing policies of the Christian Democrats and the Communists.

The renewal of the united action pact between Socialists and Communists has come as a great blow to those who hoped that the Socialists would adopt a strong anti-Communist attitude. However this pact is not considered to be very strong owing to the widely differing opinions and policies of the two parties.

The inevitable policy of compromise which the Government has had to adopt has had a bad influence on the new democracy.

(a) Forecast

The above mentioned situation causes the parties, who fear to be overwhelmed, to be constantly on the alert in order to retain their political independence. It is difficult to foresee how this delicate situation will develop.

4. TRAINING

Training continues within the Mobile Dns with satisfactory results in spite of the many duty commitments. A drive is being made throughout the Dns to improve the condition of the existing transport.

(b) Public Opinion towards the Carabinieri

No change on last report.

(c) Press

The press is mostly interested in the Peace Treaty and economical internal situation in Italy. Many articles have appeared showing resentment to the Allies for the terms of the treaty which are considered unjust. In addition, the numerous delays to find a solution to the treaty increase the disrespect towards the powers in charge of world reorganization.

One of the more bitter comments is that, without regard to the Atlantic Charter or for the injustice to Italy, the Allies are bartering Italian territory in order to satisfy other countries whose support is considered necessary to achieve their purposes.

It is reported that, at the cost of Italy, the French boundary has been extended in order to ensure French support to England and America against Russia.

- 2 -

All these factors affecting the internal situation are said to have provoked an enormous rise in prices, which in turn has caused delay in rebuilding and general reconstruction resulting in an increased number of unemployed.

(a) Forecast

It is reported that the a/m internal situation may create serious disorders and it is feared that the extremists may try, by violence, to overthrow the present government.

Subject: Report on visits to CC.RR. in Florence

12 September 1946 - GSO II and DAA & QMG 7 B.L.U. visited CC.RR. Central School and CC.RR. Mobile Bn at Florence.

- (a) A conference was held with col. PABRO C.C. Central School who explained his duties and the functions of the school. The next course for N.C.Os will start on 15 November '46 when approx 750 students are expected. The students will be split into three boys of foot Carabinieri and one squadron of mounted Carabinieri. The latter will carry out their specialist training at "Baldissera" Barracks. The question of pay was discussed at length and it was learned that for a single man the pay was satisfactory but was not adequate for a married man. No arrangement had been made for accommodation of students families during their nine months course.
- (b) Major PALANZI conducted the party on a visit to the Mobile Bn at "Baldissera" Barracks. An impressive display was seen in the training of Armoured Cars crews and M/Cyclists. A high standard of maintenance was noted in all vehicles. Major PALANZI stated that his main deficiencies were sixty crash helmets fitted for wireless, twelve Browning Med. M.Cs for armoured cars and spare parts for Ford G.M.C. armoured cars. A further conference on this subject will be held in this Hq. in the next few days and a full report will be submitted.

Sum 23

Subject : Carabinieri

To : 13. M.M.I.A.

The Carabinieri Section of the MAINTENANCE Division are wearing white arm bands marked M.P. Their jeeps bear the Mustangs Military POLICE.

The Office of the Chief of Staff, MAINTENANCE Division has stated that authority for these markings was given by 15 Corps at the time when the Division was under their Command.

O.C. 503 Bn. M.P. MAINTENANCE has requested that these markings be erased as confusion has been caused between Carabinieri and American M.P. jeeps. Cases have been reported of civilians complaining to O.C. 503 Bn. of the bad driving and behaviour of personnel in these jeeps, when, in fact, they were Italian jeeps driven by Italian M.Ps.

May information please be given as to whether any authority now exists for British marking to be either painted on Carabinieri vehicles or worn by Carabinieri.

Col. FORZANI to Mobile Bns Group FLORENCE in place of Lt. Col. BONI (at disposition of FLORENCE Legion Command).

7. MORALE

Satisfactory.

8. PUBLIC SAFETY SITUATION

No improvement in general situation. Several unemployed demonstrations and one or two strikes of short duration occurred at various towns without causing any subsequent disorder. Seven murders were committed in the 3rd Bgde area. In three of these cases the persons responsible have been arrested. There is no decrease in the number of armed robberies in spite of the increasing arrests made by the Carabinieri.

9. GENERAL

Genoa Mobile Bn is still in MODENA. The General Election, and aftermath, has occupied practically all the resources of the CC.RR. during the month. Generally speaking there is little change in the situation as reported in previous monthly report.

1946 - Appx "B".

(d) Percentage on leave:

FLORENCE Bn	- 3.67%
BOLOGNA Bn	- 3.30%

The Mob. Bns cannot be considered a very effective reserve for use in emergency, as practically 50% of each Bn. is on detachment on instructions of General Command.

2. Organisation.

Situation same as previously reported. Improvement in the efficiency of the Service depends on the provision of the various supplies which have been requested by the CC.RR.

3. Intelligence.

Relations between public and CC.RR. remain satisfactory. CC.RR. officials report that there are signs of improvement in public morale; and that the major part of the general public do not seem to be interested in politics.

CC.RR. contend that public opinion, generally is not favourable to National Liberation Committees, as in many instances latter have committed abuses and excesses similar to those of the Fascists.

4. Training.

No improvement in the general situation. Training courses at Legions remain suspended owing to lack of instructors.

Training in Mob. Bns satisfactory, except that Florence Bn is still without motor-cycles and cannot give practical instruction to drivers.

5. Administration.(a) Discipline

Good. No serious break of discipline.

(b) Pay

General complaint that wages are too low in comparison to cost of living, more especially in the case of married men with families.

(c) Personnel

No change in appointments of senior officers. Promotions have been blocked since September 1943 and this creates some discontent among officers eligible for advancement.

6. General Deficiencies.

Please see previous fortnightly reports.

Anticipated that by mid-March all members of LIVORNO Legion will be provided with uniform.

The 4000 uniforms being made locally at BOLOGNA will be completed by end April and uniform situation for this Legion will then be satisfactory.

Indents for necessary clothing and equipment have been submitted to General Command by all Legions of 3rd Bgde.

7. Morale.

Satisfactory.

8. Public Safety Situation.

There has been a slight decrease in number of crimes and offences reported to CC.MR. during past fortnight. Only two major crimes were committed.

At Castel d'Argile (Bologna) a civilian was murdered by unknown assailants. Alleged political motive.

At Bertinoro (Forlì) a civilian was murdered by unknown assailant. Motive not known.

9. General.

Detailed return of ammunition required by Legions and Mob. Bns for all purposes at Appx "C". Indents have been submitted. Understand the ammunition is not available.

The more important points relating to present day difficulties of CC.RR. have been fully dealt with in previous reports, and until it is known what policy is to be adopted regarding questions of transport, communications, etc., and the requirements of the CC.RR. in all directions have been met, these reports are likely to become a repetition as the supplies being received by CC.RR. today, while of some assistance, do not improve the general situation.
