Subject: Requisitioned Vehicle - Fiat 5/ car 7003

To : Maj. M.E.I.M. Ross (Attention CC.MR. Sect)

From : 7 B.L.U. Florence

1. In September 1944 the above vehicle was requisitioned from Count Bulgarelli D'Alci, of Siena, for the use of the Commanding officer, Florence Legion, CC.MR.
2. Instructions have now been given by the Ministry of War (their letter 6/135/Serv of 30 Mar'46 refers) for the car to be returned to the owner, and the Ministry will assign another car from the 8th R.V.P. Rome, to the Florence Legion.
3. A large amount of money was spent originally in effecting repairs to the above car and at present it is about the only efficient requisitioned car in possession of the legion.
4. The Ministry of War should be well acquainted with the condition of CC.MR. transport, and to deprive the latter of an efficient vehicle, especially of the type in question, at this stage, solely for the purpose of returning it to its civilian owner, appears farcical.
5. It is not known why this particular case is receiving the individual attention of the Ministry, when for some time now the CC.MR. have had to return inefficient requisitioned vehicles to owners, because repairs could not be authorised, without there being any question of receiving replacements.
6. It is strongly recommended that the Ministry of War be requested to leave this car where it is now serving a useful purpose, at least until such time as they have provided the CC.MR. Organisation with transport in accordance with the P.S.
7. Further, if they have vehicles available to offer as replacements, as in this instance, why cannot such vehicles be distributed to the many CC.MR. Commands which are without transport.
