MMIA LO Officer 1945
Florence

Request that a telephone be installed for Colonel Faronato, Vehicle Director, at Palazzo Santa Caterina, Via San Gallo. This should not be an American or Allied telephone but can be a civilian telephone. As I understand it, if you approve the installation it gets priority service from the civilian authorities. It is important to me that Colonel Faronato have proper telephone facilities.

Request that the telephone at our Villa number 1356 located 42 Viale Principe Eugenio be transferred to Villa Primavera, Piazzale Galileo #4. The instrument itself at 42 Viale Principe Eugenio can if you elect remain there but just our number 1356 transferred to the new address since an Italian Liaison Section is requisitioning the Villa where I now live and will need a civilian telephone.

1. Reference your X510 directive of 15 December 1944.

2. The following Italian Signal Units, as of 1 January 1945, were working in Fifth Army area. (See Status Report of 31 December 1944, 2 copies to your HQ.

Name of Section	Off	EM	Location	Employment
191 Telephone Line Sec	1	107	Tavernuzze	Lay Cables
192 " " "	2	84	Cafaggiolo	" "
180 Interceptor Sect	1	52	Fiesoli	Radio Control

3. Suggest that this appears to me to be a duplication of effort since I send your HQ a status report in duplicate each week, giving you all this information on all troops by classification in 5th Army area. When I came to 5th Army last Spring, Major Phillips was requesting a similar report on Engineer units and at that time, it was decided that the one status weekly report was sufficient, and that the Medics, Engineer, Signals etc., shouldn't be asking for a separate report when such information is all available in one report that goes to you each week.
