PROCESSED REPORT FOR THE MONTH OF DECEMBER 1946.

10

1. DOMESTIC.

8 B.L.U. to disband as from 15th. January 1947.

PART II - 'C'2. a) Domestic.

Nothing to report.

b) Italian.

Nothing to report.

3. TRAINING

Nothing to report.

4. INTELLIGENCE. - GENERAL.

The loss of the Italian Fleet and the setting up of the Free State of Trieste are causing discontent amongst the civilians, as the public consider the question of the Italian Fleet, had been clearly defined at QUERGO, and that the Free State of Trieste is unsatisfactory to both Italy and Yugoslavia.

a) Frontier activity.

French Frontier - The information given by some of the newspapers that the Italian Government had decided to withdraw the Italian troops from the territories of Briga and Tenda has produced a certain excitement among the Italian public who considered the above decision to be inopportune and inconsiderate. Owing to the special political situation in Italy the information was immediately denied by the Italian Foreign Office.

Yugoslavian Frontier - A state of enmity and the impossibility of mutual agreement is still persisting, even if the opinion of the Italian Communists is different.

b) Relations between troops and populace.

The situation between the troops and civilians is normal.

c) Political reactions of troops.

4.

INTELLIGENCE. - GENERAL.

The loss of the Italian Fleet and the setting up of the Free State of Trieste are causing discontent amongst the civilians, as the public consider the question of the Italian Fleet, had been clearly defined at CUEFAC, and that the Free State of Trieste is unsatisfactory to both Italy and Yugoslavia.

a) Frontier activity.

French Frontier - The information given by some of the newspapers that the Italian Government had decided to withdraw the Italian troops from the territories of Briga and Tenda has produced a certain excitement among the Italian public who considered the above decision to be inopportune and inconsiderate. Owing to the special political situation in Italy the information was immediately denied by the Italian Foreign Office.

Yugoslavian Frontier - A state of enmity and the impossibility of mutual agreement is still persisting, even if the opinion of the Italian Communists is different.

b) Relations between troops and populace.

The situation between the troops and civilians is normal.

c) Political reactions of troops.

Nothing to report.

d) Subversive elements.

Nothing to report.

e) Public Security.

The general strikes of Naples and Bari and the one that is still going on in Calabria suggests that the situation is not quite satisfactory.

1800

f) Economics

Notwithstanding the "Truce" of prices ordered by the Government until the 31st. January 1947, the situation is getting more and more difficult, especially because of the bad quality of flour used to make bread, which is a strange mixture of corn, barley and oats. The exceptional cold season aggravates the hardships of the population.

g) General.

The visit of De Gasperi to London is considered with the greatest interest by the Italian public because it is hoped that through it, real economical advantages may be obtained for the nation and moreover that this may be the beginning of closer relationships between the two nations.

The discourse of De Gasperi rouses a certain comprehension because his presence in Italy is particularly required, especially in this moment of crisis and secession among some of the leading parties, the socialists one in particular.

 I/Batmen etc 1

b) Release.

Lt. Dines proceeded to U.K. on release on December 8th. 1946.

ITALIAN.

6. Deficiencies in total strengths and in tradesmen against ...

Total strengths - Officers	+2%
GAs	-34%
Tradesmen	-40%

7. Discipline.

Gradually improving but some of the causes of indiscipline still remain. (See previous reports). These have a bad influence on the discipline of units.

The unfortunate propaganda of a certain part of the press against the army, particularly at this critical moment when everybody should be helping to rebuild the nation, is still going on.

8. Leave.

The special permission obtained to accumulate the leave facilities for the years 1946 and 1947 allows the regular procedure of turns, so that it will be possible to leave that could not be granted during

interest by the Italian public because it is hoped that through the economic advantages may be obtained for the nation and moreover that this may be the beginning of closer relationships between the two nations.
The absence of Le Gasperi rouses a certain apprehension because his presence in Italy is particularly required, especially in this moment of crisis and secession among some of the leading parties, the socialists one in particular.

Gradually improving but some of the causes of indiscipline still remain. (See previous reports). These have a bad influence on the discipline of units. The importation propaganda of a certain part of the Press against the army, particularly at this critical moment when everybody should be helping to rebuild the nation, is still going on.

Leave.

The special permission obtained to accumulate the leave facilities for the years 1946 and 1947 allows the regular procedure of turns, so that it will be possible to grant special periods of leave that could not be granted during 1946, for reasons of service.

Pay.

Nothing changed since last report.

Morale.

Still depressed for causes previously reported and for the reasons stated in para. No. 7 (Discipline).

11.

Welfare.

Special Grants are still given to the soldiers on their families. Special Grants of money and commodities have been given for Christmas to soldiers lying in hospital. Members of the C.M.M. frequently visit the soldiers in hospital.

12.

Public Relations.

In general, the Italian public seems to be secretly interested in the rehabilitation of the Army especially because in the present conditions the Army is considered to be absolutely inadequate to the defence of the National Frontiers that are practically open to the invasion of all the neighbouring countries.

13.

Transport.

Vehicle No. G.M./M5934914 is off the road with clutch trouble.
Vehicle No. G.M./M5934980 is also off the road owing to inefficiency of brakes.

R.A.O.O.

a) 8 Clothing Depot.

The turnover is very heavy and is complicated by the difficulty of sizing rehabilitated garments and of trying to make do with such sizes as are available - this means that units are continuously coming in to exchange garments previously issued.

It is reported that there is a lack of transport - only one lorry has been assigned to this unit. The monthly movement is about 30 rail cars.

The turnover of clothing on repayment amounts to about 1,300,000 lire per month.

b) 8 Clothing Repair Depot.

This unit is to move to the Caserma in CASTRO LAURENZANO early in the new year. Following on representations made by this unit, some 40 extra employees were engaged and the increased output has more than justified the result.

The manufacturing section produced 135 black berets and 1,710 towels last month.

The repair section included in its output 1,061 cotton quilts, 1,700 B.D. blouses, 2,800 greatcoats and 300 pullovers. Some 5,000 quilts still require repair and cleaning.

c) The cutters shop is functioning well despite the fact that the cutting of salvage material has to be done by hand and the vagaries of the electric supply. The output for the month was

B.D. Blouses	1,310	Pants	915
" Trousers	1,310	Towels	1710
F.B. Caps	3,100		

Linings for trousers	500
" " F.B. Caps	4000

d) The Boot Repair Shop has inadequate means and staff to compete with the work.

The turnover for the month was 162 pairs of boots re-constructed. There are about 8,000 pairs of boots awaiting repair. The Ministry was approached some two months ago regarding the employment of a further 20 cobblers but permission has not yet been granted.

e) The re-tinning shop is functioning normally and is mainly occupied in the repair and tinning of eating utensils.

8 Barrack Stores.

17.

This unit has not only been fulfilling its own role but has generally been assisting in the recovery of new outside items.

It is reported that there is a lack of transport only the Army has been assigned to this unit. The monthly movement is about 30 rail cars. The turnover of clothing on repayment amounts to about 1,300,000 lire per month.

b) 8 Clothing Repair Depot.

This unit is to move to the Caserma in CASTRO LAURENZANO early in the new year. Following on representations made by this unit, some 40 extra employees were engaged and the increased output has more than justified the result.

The manufacturing section produced 135 black berets and 1,710 towels last month.

The repair section included in its output 1,061 cotton quilts, 1,700 B.D. blouses, 2,800 greatcoats and 300 pullovers. Some 5,000 quilts still require repair and cleaning.

c) The cutters shop is functioning well despite the fact that the cutting of salvage material has to be done by hand and the vagaries of the electric supply. The output for the month was

17. 8 Barrack Stores.

This unit has not only been fulfilling its own role but has generally been assisting in the recovery of many outside items.

The gross movement consisted of some 23 rail cars to and from all parts of Italy.

This unit deals not only with the provision of barracks and office furniture but with ^{diverse} items as bed sheets, bath towels, palliases and blankets.

About 170 employees are given employment with this unit.

18. Arms and Ammunition.

a) It is confirmed that the Mixed Battery of Artillery at CAGLIARI, Sardinia, has received its guns.

-5-

b) Pullthroughs have not yet been made available. Rifle barrels are being cleaned with rods from the Italian type rifles. 200 of these rods have been released to each Battalion of Infantry, following representations made by this unit.

c) Bren magazines have not yet been released.

d) All ammunition has been received by units.

19. Accommodation.

No changes have taken place.

20. P.O.L.

The assignment of P.O.L. by the S.M.M. is normal but the actual fuel released by C.I.P., acting under instructions of the Ministry of Commerce and Industry, is about half.

The three secondary Food Depots of Civitavecchia, Orvieto and Pesaro (collective total of 12,000 men) have been provisioned directly.

The depots in Sardinia are provisioned directly by the Ministry.

22. General.

i) The new location statement as designed by this unit is attached as appendix "B". It is considered that this is a distinct improvement on the old type.

ii) The salvage of ammunition is nearing conclusion -

8 BRITISH LIAISON UNIT.PROGRESS REPORT FOR THE MONTH OF OCTOBER, 1946.1. DOMESTIC.

The G.O.C. M.M.I.A. visited No. 8 C.A.R. on 14 Oct. 1946.

2. ITALIAN.

- a) It is reported that the G.O.C., Rome Territorial Command, General Soldarelli, is due to retire on 21 Dec. 1946, having reached the age limit for his rank. He is due for promotion to the next higher rank and should this be given he can continue to serve.
- b) Fifteen units of the S.I. stationed in Sardinia were visited by the D.I. & QMG of this unit. An appreciation is attached as Appendix "G". Reports on individual units have been forwarded to Branches at HQ M.I.A.

PART II, "G".3. ORGANISATION.a) Domestic.

No change.

b) Italian.

The projected school for the Commissariato will probably be established at CASTRO L. URBANZ. NO. Definite information is not yet available but it is doubted whether the school will be a going concern before early Spring.

4. TRAINING.

- a) Despite the great shortage of trained instructors the training is proceeding reasonably well. The infantry units have in all cases made a real effort to get Battle Drill taught, even if such knowledge has been imparted only as the result of reading training pamphlets.
- b) Training in the use of British arms has been held up for lack of sufficient instructors.

Soldarelli, is due to retire on 21 Dec. 1946, having reached the age limit for his rank. He is due for promotion to the next higher rank and should this be given he can continue to serve.

b) Fifteen units of the B.I. stationed in Sardinia were visited by the DAA & QMG of this unit. An appreciation is attached as Appendix "G". Reports on individual units have been forwarded to Branches at HQ AMLA.

PART II, "G",

ORGANIZATION.

a) Domestic.

No change.

c) Italian.

The projected school for the Commissariato will probably be established at CASTRO LARENZANO. Definite information is not yet available but it is doubted whether the school will be a going concern before early Spring†

TEACHING

a) Despite the great shortage of trained instructors the training is proceeding reasonably well. The infantry units have in all cases made a real effort to get Battle Drill taught, even if such knowledge has been imparted only as the result of reading training pamphlets.

b) Training in the use of British arms has been held up for lack of sufficient instructors

c) Field firing and range practices have been held up by the weather conditions. In some cases the rain did not only make shooting impracticable but rendered the ranges unserviceable for a few days. It is confidently expected that the lost time will be made up. Ammunition is now available.

TRANSITING.

c) ascertainable activities of Italians viz-a-viz other countries.

Much disappointment is expressed at the allegedly harsh terms of the Peace Treaty. Monsieur Molotov's closing address left a bitter taste, America's talk of assistance is dismissed as too late to be of any value, fear is expressed that Italy will become the battle-ground for the rival forms or conceptions of Government. The expected loss of Tunisia is perhaps the most bitter loss to the Italians. It is felt that there is nothing now to brake the

-2-

supposed swing to the left of Italy's foreign policy as it is expected to be developed by Signor Nenni.

b) Frontier activity.

The only concern expressed is the usual one that YUGO SL.VL. will attempt a military coup against TRILSFL at the first opportunity.

c) Relations between Troops and Populace.

The situation between troops and civilians remains normal. The recent action of the PARTIANS at ELILLSA was followed with a certain amount of apprehension as being a further proof of the discontent of the people with the actual Government. It is further thought that the Police intervened with great promptness because the movement was anti-communist, this being taken as further proof that the Left is dominating the Government.

d) Political current amongst troops.

There is nothing to report.

e) Subversive Elements.

It is considered that the recent Government decision to send away undesirable foreigners was cancelled out by the later qualification that those who had a permanent occupation or who were politically out of favour in their own countries might remain. It is thought that any bona-fide enemy agent could procure the right to remain.

f) Public Security.

All the incidents that have occurred are blamed on to foreign activity as an attempt to cause the pre-requisite for a communist revolution by delaying the return to normality and causing misery and discontent.

g) Economic.

The shortage of foodstuffs combined with the high cost of living and the present political situation causes apprehension for a "hard and tragic" winter.

h) General.

It is said that the Italian people are at a loss to understand how their politicians are forgetting the good of the people in a tragic scramble for power and apparently fail to see the looming shadow of Civil War.

6. DOMESTIC.

a) Deficiencies in all ranks against W.S.

Major	-	Training	.. 1
Clerks	-	Private	.. 1

b) Leave.

- i. Major Prinsloo returned from LIAP on 6 Oct. 46.
- ii. Cpl. Gumbley proceeded on Privilege on 6 Oct. 46.
- iii. Dvr. Dines returned from Privilege on 16 Oct. 46.

.....3

-3-

c) Release.

Major R. Charles (GJO II) has not yet been called forward, but it is considered that his departure is imminent.

d) Increases.

Dvr. Martin (motor-cyclist) joined this unit on 29 Oct. 46.

ITALIAN.7. Deficiencies in total strengths and in tradesmen against W.M.

Total strengths -	Officers	+6%
	O.R.s	-2%
	Tradesmen	-44%

8. Discipline.

The continued Press attacks are deprecated; despite the fact that great strides have been made in the bettering of the Army in the last few months the Press continues to declare that the discipline imposed on the soldiers is still a cover for injustice and abuses. In all cases the representatives of the political views of such papers are represented in a Government which does nothing to refute these attacks. In particular it is felt that the Ministry for War fails to defend unbiased charges against the Army. It is very difficult to build up good discipline under these attacks.

9. Leave.

No change.

10. Pay.

It is considered that the increase of pay recently received has already cancelled out by the increase in the cost of living.

11. Morale.

Reported to have been lowered as the result of the Peace Treaty.

12. Welfare.

The local situation was reported in this HQ letter 53A of the 24 Oct. 46. Many Unit Welfare Officers still have very little idea of what is expected of them.

7. Deficiencies in total strengths and in tradesmen against W.L.

Total strengths - Officers	+6%
O.R.s	-2%
Tradesmen	-44%

8. Discipline.

The continued Press attacks are deprecated; despite the fact that great strides have been made in the bettering of the Army in the last few months the Press continues to declare that the discipline imposed on the soldiers is still a cover for injustice and abuses. In all cases the representatives of the political views of such papers are represented in a Government which does nothing to refute these attacks. In particular it is felt that the Ministry for War fails to defend unbiased charges against the Army. It is very difficult to build up good discipline under these attacks.

9. Leave.

No change.

10. Pay.

It is considered that the increase of pay recently received has already cancelled out by the increase in the cost of living.

11. Morale.

Reported to have been lowered as the result of the Peace Treaty.

12. Welfare.

The local situation was reported in this HQ letter 53A of the 21 Oct. 46. Many Unit Welfare Officers still have very little idea of what is expected of them.

13. Public Relations.

There is reported to be an indifference in the attitude of the civilian population to the Army, this again is attributed to the attacks of the Press and the feeling that an Army of only 185,000 is of little use. It may even be that the Army is not quite trusted by the wholehearted Republicans who cannot dis-associate the Regio Esercito from the Esercito Italiano; further-more to any school of thought that dreams of an armed coup the Esercito is an important factor - for or against,

DOMESTIC.a) Transport.

W.D. Vehicle No. C/P/M593491, Opel Kapitän, is now serviceable but is off the road for lack of tyres and tubes.

W.D. Vehicle No. C/P/M5934980, Opel Super-Six, is likely to be repaired during November and will also require tyres and tubes. Efforts to obtain tyres and tubes (6.00 x 16) have proved fruitless.

b) Accommodation.

The accommodation at the Caserma Militia was occupied on the 16 Oct. 46 and is satisfactory.

a) Clothing.

Fatigue dress and grey-green overcoats have been issued to all units, with the exception of the Scuola Artieri e Motorizzazione for whom greatcoats are being sent from Naples.

Schools have received Khaki coloured fatigue dress, The "Walking out" uniform should be distributed during the current month.

- b) Webb equipment has not yet been released to the Granatieri Regt., it is said that Territorial Command of Naples who are responsible for the issue are pursuing a policy of issuing on a set priority basis.

18. ARMS and AMMUNITION.

British arms and ammunition have been or are being issued to all line units. By this date issue should have been completed of all arms and Art., less small arms for the Mixed Battery of Artillery of the CALABRIA Bde.

19. ACCOMMODATION.

- a) Rome Territorial Command moved to the new HQ, Caserma ex-Militia, viale Romania, on 15 Oct. 1946.
 b) It is hoped to move the 8 Special Centre for Repair and Salvage of Clothing from via Principe Amedeo to the Castro Laurenziano at an early date. This move will solve the problem presented in the Progress Report for JULY, para. 17, a), v).
 c) The possibility of obtaining more accommodation for married families of permanent staff at the schools of Cecchignola is being investigated.

21. SUPPLY PROBLEMS.

There has been considerable improvement in the administration of 80 Food Distr. Depot at ORVETO. The recommendation to change the O.C. has however not been considered necessary by the Directorate who point out that the other Officers at the C.A.R. have been instructed to assist.

22. GENERAL.

It was found that many units were short of M.T. Publications and of Clothing and Equipment registers and documents. It is reported that these are available on demand.

NOTES ON VISIT TO ITALIAN UNITS IN

SARDEGNA

21 to 26 Oct. 46

1. Major H.J.O. Prinslho paid a visit to the island of Sardegna where he visited various Units of the Italian army, including the various Directorates as well as the Brigade Calabria.-

2. STRENGTH.

The W.E. of the Brigade is 244 Officers and 2945 O.R.s.-

The actual strength is 164 Officers and 3137 O.R.s.-

The percentage of sick is about ~~15~~ 10% Officers and 3% O.R.s.

31 Officers and 505 O.R.s were detached from their units either on courses or employed on other duties.-

There being no Territorial Command in Sardegna, the Brigade Headquarters (Cdo Brigata) is called to perform these duties to a large extent and has to draw on regiments *for personnel*

3. TRAINING.

The training has been undertaken on sound training programmes but there are only three qualified officer instructors available at present.-A number of Officers and NCOs are on courses.-

Training has also suffered owing to the fact that several of the Barracks are not fully completed and a large number of Infantry soldiers are employed on the maintenance and repair of barracks.-

Infantry training has in most cases reached well into Platoon training stage, but training pamphlets are in very

bria.-

of barracks.-

Infantry training has in most cases reached well into
Platoon training stage, but training pamphlets are in very
short supply.-

4. DISCIPLINE.

Discipline appeared to be fair, but the deportment of
soldiers in public was noticeably below that of the Italian
Navy or the Italian Air Force personnel.-It is to be hoped that
with the issue of uniform type winter clothing, this will
improve.-

5. ACCOMMODATION.

Accommodation on the whole was spacious and will be fully

./.

Satisfactory when the Genio Militare has been enabled to complete the drainage and water supply system, together with the completion of mess halls and the installations of cookhouses.-

6. FOOD.

Food stores within Units as well as at the food depots need fly and rat proof cupboards to store certain items.-

Meat is supplied by contractors directly to Units, but is not always available when it should be.-

Bread is baked under local contract and is satisfactory.-

7. MOTOR TRANSPORT.

The state of M.V. is not satisfactory.-

The maintenance and repair systems are not fully understood and the visit of a competent officer from the Directorate of Motorisation is recommended.-

Upwards of 500 tyres is needed to render vehicled efficient.-

8. CLOTHING.

Sufficient supplies of Italian grey green ^hkaki clothing is still island to clothe troops for over a year.-^hkaki clothing is still in the process of manufacture.-

During my visit, orders were received to release winter clothing.-

9. EQUIPMENT AND SMALL ARMS. (armi portatili.)

Delivery of British type of Arms and equipment to Infantry but NOT to Arty Units are not taking place.-It is not recommended that the arms be issued to troops until instructors become available.-The maintenance of arms was good but in some cases the arms held in Unit stores, needed to be better oiled and greased.-

A number of obsolete arms remain to be withdrawn from

A number of obsolete arms remain to be withdrawn from Units together with redundant equipment.-

10. AMMUNITION.

British type ammunition is being collected from BARI.-

There is a great deal of Italian amm. available and Units have been advised to do as much shooting as possible before the Italian rifles are withdrawn.

1749 ./.

11. M.T. WORKSHOPS.

The 14th Repair Unit at ABBASANTA has had orders to move to

CAGLIARI.-

At present this Unit has a detachment at Cagliari which it is difficult to supervise, furthermore there is a grave shortage of skilled workers at Abbasanta.-

The move cannot take place because UNRRA occupies the part of the Barracks assigned to the Workshops.-

The Italian Air Force has space available at the Caserma TRIESTE at Cagliari where UNRRA could be accommodated.-Effort should be made to effect the transfer.-

12. DIRECTORATE OF ARTILLERY.

There is a vast amount of obsolete material at Deposits and various locations.-Orders have been received to dismiss 70% of the employees which appears to be impracticable until the material has been centralized.-

It is recommended that an officer from the Directorate in Rome, should visit these deposits and obtain a visual impression of the quantities and work entailed.-.

It is further recommended that repair work on obsolete arms and equipment should cease.-

The Workshops at NUORO is the best equipped workshop I have seen and its ^{PROGRESS} transfer needs careful consideration.-

13. WELFARE.

On the whole welfare activities are not fully understood.

It is considered that the Senior Welfare of Rome Territorial Command might well visit Cagliari and address a meeting of all Unit Welfare Officers.-

There is a shortage of all games.-

15. ADMINISTRATION.

The provision of necessary training handbooks, MT publications, registers for the accounting for clothing and material, also "libretto personale" for soldiers should be considered.-

16. GENERAL.

A large number of infantrymen are acting as grooms to horses for which disposal instructions are awaited.-

PROGRESS REPORT FOR THE MONTH OF SEPTEMBER 1946.

PART I "GENERAL".

- 1. DOMESTIC.
 - a) Leave.

T/Major H.J.O. Brinsloo D.A.A. & Q.M.G. 8 R.L.U. proceeded on Local LIAP. He is due to return on the 7th. October 1946.

- b) Visit of G.O.C. M.M.I.A.

Major General E.H. Goulburn DSO accompanied by General Soldarelli G.O.C. Rome Territorial Command visited the following units in Rome :-

- (a) 1st. Regt. Granatieri.
- (b) 8th. Reparto Riparazioni Auto.
- (c) 8th. Magazzino Casermaggio
- (d) 8th. " " Vestiario
- (e) 8th. " " Viveri.

- 2. ITALIAN.

8 C.A.R. was visited by all military representatives of countries reported in the Monthly Report for August, with the exception of Brazil. Resume of Press criticisms is attached as Appendix G.

PART II "G".

- 3. ORGANISATION.

- a) Domestic. - Nil.
- b) Italian.

(i) The changeover of the Calabria Division to Calabria Brigade is now reported as being completed.

(ii) C.A.R. - Sardinia.

The project of establishing a C.A.R. in Sardinia has still not definitely been dropped though it is still considered unlikely.

(iii) Serving Soldiers from ex-Colonies.

b) Visit of G.O.C. M.M.I.A.

Major General E.H. Goulburn DSO accompanied by General Soldarelli G.O.C. Rome Territorial Command visited the following units in Rome :-

- (a) 1st. Regt. Granatieri.
- (b) 8th. Reparto Riparazioni Auto.
- (c) 8th. Magazzino Casermaggio
- (d) 8th. " Vestiario
- (e) 8th. " Viveri.

2. ITALIAN.

8 C.A.R. was visited by all military representatives of countries reported in the Monthly Report for August, with the exception of Brazil. Resume of Press criticisms is attached as Appendix G.

PART II "G".

3. ORGANISATION.

a) Domestic. -- Nil.

b) Italian.

(i) The changeover of the Calabria Division to Calabria Brigada is now reported as being completed.

(ii) C.A.R. - Sardinia.

The project of establishing a C.A.R. in Sardinia has still not definitely been dropped though it is still considered unlikely.

(iii) Serving Soldiers from ex-Colonies.

There is still no definite new policy in this matter as suggested in the Monthly Report for August, i.e. that the Ministero di Assistenza Post Bellica should be responsible for the employment of discharged soldiers.

4. TRAINING.

a) 8 C.A.R. was visited on 4 Sep. 46 at the time of visit of Military Representatives and again on September 17th. 46 when their supply unit, No. 80 Dist. Depot was inspected by an officer of this unit together with a representative of S & T, M.M.I.A.

Training at the C.A.R. appeared to be proceeding satisfactorily.

17.9.46

b) 3 Bn. Granatieri at Aquila was inspected on 19 Sep. 46. Field firing was held up by lack of British ammo.

C.O. was worried by complete lack of any signal equipment. He expects men to return from Signal Courses in early October and if they have no equipment he is naturally afraid that they will soon forget all they have learnt. This has been taken up with Rome Territorial Command.

5. INTELLIGENCE.

a) Ascertainable activities of Italians viz-a-viz other countries.

The whole Italian people and Army resented bitterly the aspersions cast at their honour by the remarks of the U.S.S.R. representative Vyshinsky.

A certain elation was felt after the speech of Mr. Jordan, the South African delegate, at the Peace Conference but this was followed by great depression when it was made clear that Britain and America would not allow the return of the Italian colonies and favoured the reduction of the Italian Fleet.

b) Frontier Activity.

There are no incidents reported on the French-Italian frontiers as France has now received Briga, Tenda and Montenapio and appear very satisfied. There is still naturally great concern felt over the Trieste problem.

Italian people are generally satisfied regarding the agreement between Austria and Italy concerning Alto Adige.

No incidents are reported.

c) Relations between troops and populace.

Relations remain cordial. There are reported individual incidents where troops on isolated stations become lax in their dress and cases of indiscipline occur.

During the recent clashes between Partisans and the Government, the latter was unable to take as firm a stand as it did not wish to offend the parties of the Left.

This particularly applies to the recent incident at Asti.

d) Political current amongst troops.

Nothing new. The recruits at the C.A.R. are well disciplined and are doing their duty.

e) Subversive Elements.

It is considered that there are a number of Yugoslavs, Poles and Albanians implicated in illegal traffic of arms between Yugo Slavia and Italy, helped it is alleged by the Communists.

There is also an illegal frontier traffic in grain. Very high prices are paid in Yugo Slavia and Switzerland for grain smuggled from N. Italy.

f) Public Security.

" certain elation was felt after the speech of Mr. Jordan, the South African delegate, at the Peace Conference but this was followed by great depression when it was made clear that Britain and America would not allow the return of the Italian colonies and favoured the reduction of the Italian Fleet.

b) Frontier Motivity.

There are no incidents reported on the French-Italian frontiers as France has now received Briga, Tenda and Montenapio and appear very satisfied. There is still naturally great concern felt over the Trieste problem.

Italian people are generally satisfied regarding the agreement between Austria and Italy concerning Alto Adige.

f) Public Security.

Unrest is reported in the vicinity of Modena and Reggio where a number of murders have been attributed rightly or wrongly to the Communists.

It is alleged that the police are implicated in these matters, but there is no proof.

There has been reported a general increase in robberies, banditry, strikes and crimes by demobilised soldiers and unemployed all over Italy.

g) economic.

Black Market activities are reported to be on the increase, and thus neutralising all attempts to revive bona fide trading.

Major - Training	1.
Clerk - Pte	1.
Motor Cyclist Pte	1.

b) Privilege.

Pte. Dines proceeded on 19 days leave w.e.f. 15 Sep. 46.

c) Release.

Major R.H. Charles is due to be released in East Africa on Nov. 12th. 46. It is considered he may be called forward about 15th. Oct. 46.

7. ITALIAN.

7. Deficiencies in total strengths and in tradesmen against W.B.

Total Strengths	Officers	+5%
	O.R.s	-1%
	Tradesmen	-40%

N.B. Slight improvement compared to last month.

8. Discipline.

Nothing new.

9. Leave.

Regimental soldiers are proceeding on leave regularly though the same does not apply to H.Q.s and Staff personnel as there are insufficient trained Officers and men to replace them.

10. Pay.

The Press have announced increases in pay for Officers, NCOs and civilian employees. It is too early to comment as to whether these increases will will be of direct benefit as some consider that prices will continue to rise.

It is felt that more pay should be given to those holding positions of responsibility rather than a general increase to everyone.

11. Morale.

b) Privilege.

Pte. Dines proceeded on 19 days leave w.e.f. 15 Sep. 46.

It is felt that more pay should be given to those holding positions of responsibility rather than a general increase to everyone.

11. Morale.

It is considered that there will be a substantial improvement in morale when the new pay increases are implemented.

12. Welfare.

Distributions have been made, to the troops and their families, of food and clothing.

A lady of the C.M.F. has been appointed to visit and provide welfare for the troops in hospital.

At the "Casa di Soldato" in Rome there were 18 theatrical shows and 19 cinema performances.

.....41

13. Public Relations.

With the fall of the old Government a certain number of civilian welfare societies and organisations were disbanded; consequently there is not the same proportion of money available for the military. Formerly, places of entertainment allowed soldiers free admission, but this is by no means general now.

It is alleged that the population have no great sympathy and understanding for the Army as owing to its small size it would be ineffective in protecting the frontiers of Italy.

PART IV "Q".

14. Domestic.

a) Transport. (see para. 14a Monthly Report for August.)

Chevrolet 8 cwt. 5905855 was handed over to 12 BLU waf 13 Sep. 46. It is reported that the Opel Kapitän which was being repaired by 8 Auto Reparto is now ready but has no tyres. It is understood from 'Q' Branch that Jeep tyres are virtually impossible to obtain.

b) Accommodation.

The move of Rome Territorial Command to the Caserma ex-Militia in Via Romania is still delayed owing to the non-completion of various repairs there.

17. R.O.C.a) Clothing and Equipment.

No winter clothing has been issued yet. It will soon be required for the troops at Aquila and Rome Territorial Command have been asked to expedite the matter. It is understood that the clothing has been made,

No change regarding lack of equipment.

18. Arms and Ammunition.

As previously reported in para. 4(b), British .303 ammo is required by Granatieri Battalions for training. It is understood to be available but not yet issued.

19. Accommodation.

No change.

20. F.O.L. Satisfactory.21. Supply Problems.

Depot

80 Distribution, located within the 8 C.R. lines at Orvieto was visited by a representative of 8 BLU and S/C S & T during the month.

This was not of the first class standard it should be situated within a C.R. It is understood that the S/T S/C recommended that an officer be transferred there as OC from Civitavecchia.

The faults were - store room untidy, stacking system poor and bin cards absent or not up to date.

22. Medical.

Nothing to report.

23. General.

a) The Vice Chief of Staff, Rome Territorial Command, visited most larger units within the Territorial Command during the month.

b) It is reported that when Polish Units leave requisitioned buildings they systematically break up doors and windows etc of the buildings.

One case occurred during the month and was witnessed by the Vice-Chief of Staff at Ascoli Piceno. No logical reason was given for this action by the Poles, apparently due to natural destructiveness.

APPENDIX G.VISIT OF FOREIGN MILITARY REPRESENTATIVES TO8 C.A.R. - CRIVATO - 5 SEP. 46.

1. Representatives included Gt. Britain - Deputy Commander, M.M.I.A., Colonel Norman A. Fiske, Brigadier M.W. Hope DSO, DCS M.M.I.A., and Major H. Absworth, GSO II Liaison, M.M.I.A. - U.S.A. - Colonel Williams and Major Gray. U.S.S.R. - Captain Vedemich and Captain Schimakov, France - Captain Luxquet and Spain - Major Scandella.
The representatives were accompanied by General Soldarelli, Commander of Rome Territorial Command, and Colonel Piere - Vernazza, Chief of Public Relations at Italian Ministry of War.

2. All the main daily papers were represented. Criticism on the whole was favourable, the Press acknowledging the advantages of the C.A.R.s and particularly the improvements in the living conditions, food and uniform of Italian soldiers.

The following criticism was made by the Press of the Left:-

- (a) The Italian Army was now entirely dependent on the Allies and tended to restrict a real and efficient regeneration of the Italian Army.
- (b) The adaption to a great extent of the British khaki type of uniform makes the soldier forget his original Grey-Green uniform and may tend to deprive him of his national initiative.

3. However the Press generally gave prominence to the importance of the visit of foreign military representatives because the general standard of the C.A.R. showed that the will of regeneration of the Army clearly indicated the desire of the Italian people to return to normality and take their place again in U.N.O.

1734

Colonel Norman R. Fiske, Brigadier M.M. Hope, Colonel Williams and Major Gray. H. Ebsworth, GSO II Liaison, M.M.I.A. - U.S.A. - Colonel Williams and Major Gray. U.S.S.R. - Captain Vedemich and Captain Schimakov, France - Captain Luquet and Spain - Major Scandella. The representatives were accompanied by General Solcàrelli, Commander of Rome Territorial Command, and Colonel Fiore - Veranza, Chief of Public Relations at Italian Ministry of War.

The following criticism was made by the Press of the Left:-

- (a) The Italian Army was now entirely dependent on the Allies and tended to restrict a real and efficient regeneration of the Italian Army.
- (b) The adaption to a great extent of the British khaki type of uniform makes the soldier forget his original grey-green uniform and may tend to deprive him of his national initiative.

3. However the Press generally gave prominence to the importance of the visit of foreign military representatives because the general standard of the C.A.R. showed that the will of regeneration of the Army clearly indicated the desire of the Italian people to return to normality and take their place again in U.N.O.

8 BRITISH LIAISON UNITPROGRESS REPORT FOR THE MONTH OF AUGUST 1946.PART I "GENERAL"1. Domestic.a) Change of Officers.

T/Major R.H. Charles (333938), Northern Rhodesia Regt, posted and joined this unit as G.S.O. II w.o.f. 19 Aug. 1946 vice T/Major R. Downing on Class "D" release.

b) Visit of G.O.C., M.M.I.A.

Major General E.K. Goulburn, DSO, visited the Rome Territorial Commander, General Soldarelli, on 28th. August 1946.

2. Italian.Forthcoming visit of Foreign Military Representatives to 8 C.A.R., Orvieto.

Representatives of Great Britain, U.S.A., U.C.A.R., France, Spain and Brazil have been invited to visit 8 C.A.R. on Wednesday, 4 Sept. 1946. The first four invitations were extended by H.Q. M.M.I.A., the latter two by the Ministry of War.

Programme for visit is attached as appendix "G"

PART II "G".3. Organisation.

a) Domestio. - Nil.

b) Italian.

1) C.A.R. - SARDINIA.

The project of establishing a C.A.R. in Sardinia is in abeyance. It is considered that the need for this C.A.R. has been cancelled out by the policy of NOT forming Territorial Regiments.

a) Change of Officers.

T/Major R.H. Charles (333938), Northern Rhodesia Regt, posted and joined this unit as G.S.O. II w.e.f. 19 Aug. 1946 vice T/Major R. Downing on Class "B" release.

b) Visit of G.O.C., M.M.I.A.

Major General A.H. Goulburn, DSO, visited the Rome Territorial Commander, General Soldarelli, on 28th. August 1946.

2. Italian.

Forthcoming visit of Foreign Military Representatives to 8 C.A.R., Orziato.

Representatives of Great Britain, U.S.A., U.S.S.R., France, Spain and Brazil have been invited to visit 8 C.A.R. on Wednesday, 4 Sept. 1946. The first four invitations were extended by H.Q. M.M.I.A., the latter two by the Ministry of War.

i) C.A.R. - SARDINIA.

The project of establishing a C.A.R. in Sardinia is in abeyance. It is considered that the need for this C.A.R. has been cancelled out by the policy of NOT forming Territorial Regiments.

ii) Serving Soldiers from ex-Colonies.

It is reported that the discharge of soldiers from ex-colonies and their passing to employment by the Ministero di Assistenza Post Bellica is under consideration.

Soldiers in the above category are not being discharged at present but are permitted to resign if they can become self-supporting.

4. Training.

a) 8 C.A.R.

Training at 8 C.A.R. is proceeding satisfactorily.

b) Regimental.

i) The training of the Grenatieri Regiment in Rome is very difficult owing to the heavy duties being carried out.

ii) The Battalion at Viterbo is still in the process of being changed into Grenatieri and is in a state of re-organisation.

British small arms have arrived during the month but there is a great dearth of competent instructors.

iii) The Battalion at L'Aquila is very much in the same state as the Battalion at Viterbo except that the efficiency is higher.

Intelligence.

a) ascertainable activities of Italians viz-a-viz other countries.

It is reported that Yugoslav agents have established an office in Milan and seek to attract ex-Fascist and dis-occupied soldiers and especially aviators.

It is further suspected that organised armed bands of Slavs circulate in many towns of the Adriatic where they conduct black market and smuggling activities. Fear is expressed that only action by the Allies can successfully intervene since the Italian Government has its hands tied by the Communist Party.

b) Frontier activity.

Concern is amounting over the Yugoslav incidents in the Veneto and Istria.

c) Relations between troops and populace.

Reported to be good and improving, probably assisted by a growing resentment of the partigiani who are seen to be adopting the Fascist principle of obtaining by force a recompense for their patriotic service and so exploiting the weakness of the Government.

d) Political current amongst troops.

Now recruits are reported to be far more truly patriotic.

e) Public Security.

Banditry, disorder, smuggling are all, rightly or wrongly, attributed to Slav agents who seek to disturb the equilibrium of the Italian people.

f) Economics.

Nothing now to report.

f) Economics.

Nothing now to report.

Traffic in currency and gold is reported to be based on Greece, Isle of Rhodes and Switzerland.

g) Road accidents caused by Allied vehicles.

The General Public desire that the Allied GHQ take strong action to suppress the speeding of Allied vehicles which has caused many fatal accidents of late.

This is particularly reported in the case of Polish vehicles.

R.A.O.C. Problems.

17. Clothing and equipment.

- a) The recruits arriving at 8 C.A.R. were satisfactorily fitted out.
- b) The 2nd. and 3rd. Infantry Battalions at Viterbo and L'Aquila have NOT yet received web equipment. Territorial Command has now interested itself in the release.

-5-

c) Failure to exchange clothing is found often to be due to bad interior economy and failure to press for releases after the initial indent has been submitted.

d) It is hoped that 8 Centre of Clothing and Repair will be able to move to more suitable premises shortly.

18. Arms and Ammunition.

Army less CC.RR.

a) The release of arms in the following quantities to the Grenadier Regt., the 2nd. and 3rd. Infantry Battalions has been made.

REMARKS

Date..... September. 46.

BRITISH MILITARY UNITPROGRESS REPORT FOR THE MONTH OF JULY 1946.1. GENERALa) Recruits.

- i) Major C. Lyons, G.S.C. II C.S.M., has been transferred to H.M.L.A.
- ii) Major R. Fleming, G.S.C. II B D.L.I., has accepted Class B Release.
- iii) Pte. Madin (Motorcyclist) proceeded on Release on 26 July 46.
- b) Italian.

Relationship with the Territorial Command continues to be cordial.

2. ORGANISATIONa) Domestic. H.M.L.A.b) Italian.

War call up proceeding satisfactorily. The G.S.R. Permanent staff are making every preparation to start receiving recruits from 6th. August.

From the 6th. - 19th. intake will be sorted into companies, clothing, equipping and inoculations will be completed and training is scheduled to start on the 19th.

With effect from the 1st. August, Calabria I.S. Div. becomes Calabria Brigade, consisting of 59th. and 60th. Regiments.

3. TRAINING

It is pointed out that the training of the 1st. Granatieri Regiment must of necessity be with Italian weapons. British small arms have still not been made available.

Since this Regiment consists entirely of recruits trained in British arms, all tactical training must be held in English - until troops are trained in what are to them completely new weapons.

4. REMARKSa) H.M.L.A.b) H.M.L.A.

- c) Appearance in Rome of troops of the new 1st. Granatieri Regt. has made a favourable impression. New army uniforms with the Granatieri emblem in blue, similar to the Roman, has raised the status of the local soldier.

d) A marked change towards the Allies in general is apparent.

b) Italian.

Relationship with the Territorial Command continues to be avoided.

2. GRANATIERI ARMIa) Descriptive. N.T.R.b) Italian.

Men call up proceeding satisfactorily. The G.A.R. Regiment sent are making every preparation to start receiving recruits from 6th. August.

From the 6th. - 19th. intake will be sorted into companies, clothing, equipment, and inoculations will be completed and training is scheduled to start on the 19th.

With effect from the 1st. August, Calabria I.S. Div. became Calabria Brigade, consisting of 29th. and 60th. Regiments.

3. TRUPPE

It is pointed out that the training of the 1st. Granatieri Regiment must of necessity be with Italian weapons. British small arms have still not been made available.

Since this Regiment consists entirely of recruits trained in British arms, all tactical training must be held in alignment with until troops are trained in what are to them completely new weapons.

4. ARMED FORCES

a) N.T.R.

b) N.T.R.

c) Appearance in Rome of troops of the new 1st. Granatieri Regt. has met a favourable impression. New summer uniform with the Granatieri collar ti vis, familiar to the Romans, has raised the status of the local soldier.

d) A marked "cooling off" towards the Allies in general is apparent.

PART III, "A"

5. DISCUSSIONa) Deficiencies in all ranks against S.I.

Major's Training,	- 1
Captain's Corporal,	- 1
Motor Cyclist, P.O.	- 1

b) Excess

Major E. Bouding, C.I.I., due for release in early September, unless previously released in Class "B", (applied for).

c) Heads Nil.ITALIAN6. DEFICIENCIES IN TOTAL STRENGTH AND IN TRAINING AGAINST S.I.

<u>Total Strength</u> :	Officers	-	plus 11.5%
	C.I.I.	-	plus 26%
<u>Trained</u> :	Officers	-	N.A.
	C.I.I.	-	minus 60% approx.

7. DISCIPLINE

There is some slight improvement; possibly due to the release of "old" classes and the improvement in dress.

8. LEAVE

There is reported to be no backlog, not even in leave.

9. PAY

No change.

10. MORALE

There is some improvement, possibly because recruits who were unemployed now find themselves in a steady occupation, conversely many soldiers now due for discharge who were previously resentful of military service are now sharing the return to the uncertainties of present day civil conditions.

11. REL. AID

It is believed that there will be no marked improvement in this Command until a change of policy and an increase of personnel is effected.

RECRUITING IN TOTAL STRATEGIC AND IN THE ARMY AGAINST N.A.A.

Total Recruits: Officers - plus 11.5%
C.R.S. - plus 26%

Transfers: Officers - N.A.
C.R.S. - minus 60% approx.

There is some slight improvement, possibly due to the release of "old" classes and the improvement in dress.

There is reported to be no looking, not even in

PAW No change.

There is some improvement, possibly because recruits who were unemployed now find themselves in a steady occupation, reluctant of military service nor due for discharge who were previously uncertain of recent day civil conditions.

It is believed that there will be no marked improvement in this Command until a change of policy and an increase of personnel is effected.

The Command Welfare Officer has submitted to the Ministry of War, the whole of the proposals made by this R.I.C. under his reference 5745/Es of 25th July 1946.

The C.R.S. activities of this Command is severely restricted by the decision of the War Office to stop that the R.O.M. newspapers are purely their concern.

The considered opinion that a new policy regarding the terms of service and pay should be adopted is again stressed.

574
of
31 July
to R.O.M.

8/9/47
of
11 July
to R.O.M.

.....

There appears to be a disproportionate number of civilians employed in the services and activities in the interests of economy along the replacement of civilians by soldiers is justified. It is considered unfair that the small sum allocated to the Army should be used to bolster up the employment situation which is apparently the present political policy.

PART IV, "A".

14. DOMESTIC.

a) Transport.

No vehicles held against C.B. M.A.I.A. pool vehicles are being used.

b) Accommodation.

This unit will accompany Raza Territorial Command when the latter move to the Casuarina ex-cultio, towards the end of August.

R.A.M.A.

a) LAMAR, MIA, visited 8 Repair Unit accompanied by Major Downing on 17 July. A copy of his technical report is not yet to hand.

b) All M.T. Units within the Command were visited during the month. Representations made have resulted in the improved qualities of the lubricants supplied.

c) The compilation of Mark Tickets, AB 406 and AB 412 was found

14. DEBENTURE:

a) Transport:

No vehicles held against U.S. N.A.L. pool vehicles are being used.

b) Accommodation:

This unit will accompany Rome Territorial Command when the latter move to the Caserta ex-Militia, towards the end of August.

b) All M.T. Units within the Command were visited during the month. Representations made have resulted in the improved qualities of the lubricants supplied.

c) The compilation of Work Tickets, AB 406 and AB 412 was found to be very indifferently understood. Liaison with the Directorate of Motivation resulted in the publication of additional instructions and clarifications, to all units within the Command.

R.A.C.C. PROBLEMS

CLOTHING AND EQUIPMENT:

a) Army less CC.RR.

1) It is stated that the new KD uniforms will be available for the C.A.R. by 5th. August. The Commandant of the C.A.R. has drawn attention to the fact that only 4,200 suits are made available for dressing 4,000 recruits, irrespective of issue.

App. "R" attached.

1717

14) No. 8 Clothing Depot is holding 26, 000 pullovers, 12, 000 greatcoats whilst an already substantial quantity of winter uniforms is being supplied by local manufacture.

141) Of 50,000 pairs of the new thick white cotton socks received, about 140,000 pairs are still available for issue.

142) Boots coming in for repair are often badly damaged by too long wear before being sent in for repair. Boots do not arrive tied in pairs, as they should do.

The Territorial Command has been advised to order weekly boot inspections by officers.

143) The production of the 8 Centre of Repair and Manufacture is being greatly hampered by insufficient space. At the present no alternative accommodation is available.

144) CC.MR. Not available.

145. ARMS AND AMMUNITION.

a) ARMY LONG GUN.

1) Full regimental scale of British arms was released to the Grenadier Regiment by the Ministry under their ref. 4/1732/ser. dated 20th. June 46 but has not reached this Command as yet.

2) Training Ammunition for 8 G. L.R. was released under the Ministry of War ref. 4/1836/ser. dated 29th. June 46.

b) CC.MR. Not available.

146. ACCOMMODATION.

a) Headquarters, Home Territorial Command expects to occupy new quarters, at the ex-Militia Barracks within 4-5 weeks.

b) There appears to be little hope for marked improvement until more Allied occupationala terminate.

147. P.O.L. REQUIRE.

The allocation of P.O.L. appears to be sufficient. A larger quantity of heavy oils has been forthcoming this month.

148. SUPPLY REQUIRE.

A full report will be forwarded at the end of the current month of August.

149. MEDICAL.

The Territorial Command has been advised to order weekly boot inspections by Officers.

v) The production of the 6 Centre of Repair and Manufacture is being greatly hindered by insufficient space. At the present no alternative accommodation is available.

b) CC.MR. Not available.

ARMY AND AIR FORCE.

a) ARMY LESS CO.MR.

i) Full regimental scale of British arms was released to the Canadian Regiment by the Ministry under their ref. 4/1782/ser. dated 20th. June 46 but has not reached this Command as yet.

ii) Training Ammunition for 8 G. AA. was released under the Ministry of War ref. 4/1886/ser. dated 29th. June 46.

b) CC.MR. Not available.

ACCOMMODATION.

a) Headquarters, Home Territorial Command expects to occupy new quarters at the Cavellia Barracks within 4-5 weeks.

b) There appears to be little hope for marked improvement until more Allied occupations terminate.

P.O.L. BRANCH.

The allocation of POL appears to be sufficient. A larger quantity of heavy oils has been forthcoming this month.

CURRY BRANCH.

A full report will be forwarded at the end of the current month of August.

MEDICAL.

Nothing unusual to report.

N.17478/L.A/5

Roma, li

OGGETTO: norme per la manutenzione degli automezzi, controllo del
la esecuzione di essa e ispezioni tecniche al materiale =

A completamento e chiarimento di alcune delle disposizioni emanate dal Ministero della Guerra e contenute nell'opuscolo "Ispesione, mantenimento e cura dei veicoli dell'esercito (a ruote)" e nella circolare n.480/2.A in data 9.7.45, si precisa quanto segue in riferimento alla compilazione e tenuta del foglio di viaggio mod.G.3518, della "Pubblicazione 412" e del "Registro 406" ed alla ispezione degli automezzi, per la scrupolosa osservanza da parte dei reparti dipendenti:

A) = FOGLIO DI VIAGGIO MOD.G.3518 =

Deve essere in distribuzione ed in uso a tutti i reparti dotati di automezzi.

E' settimanale. Entra in vigore alle ore 0.01 della domenica e termina alle ore 24.00 del sabato successivo.

E' suddiviso in 24 scomparti, contrassegnati da altrettante lettere dell'alfabeto e riuniti in sei gruppi, delimitati da righe, più marcate, ciascuno corrispondente ad una giornata di servizio del veicolo (nel corso della settimana ogni veicolo avrà un giorno di riposo, secondo un turno stabilito dal Comandante del reparto).

COMPILAZIONE =

Indicare i seguenti dati:

= colonna 1 = giorno in cui viene effettuato il servizio (l'indicazione del mese e dell'anno va riportata nella apposita casella in alto a destra).

= colonna 2 = reparto assegnatario del veicolo (in linea di massima); oppure ente o reparto a disposizione del quale viene messo il veicolo per effettuare il tra-

- = colonna 7 = firma del Comandante del reparto.
- = colonna 8 = tipo del lubrificante, da indicare con la sigla Fl. se fluido o Dn. se denso.
- = colonna 9 = quantità del lubrificante in Kg.
- = colonna 10 = quantità del carburante esistente nel serbatoio al momento della partenza (tale dato si deve riferire all'inizio del primo servizio della giornata).
- = colonna 11 = quantità di carburante prelevato eventualmente durante il servizio o il viaggio.

N.B. = I dati di cui alle colonne 10 e 11 devono essere scritti in penna dall'incaricato alla distribuzione che ha consegnato lubrificante e carburante non dal conduttore.

- = colonna 12 = carburante rimasto nel serbatoio o nei recipienti di scorta al termine del servizio o del viaggio.
- = colonna 13 = carburante effettivamente consumato durante il servizio o il viaggio.

N.B. = Il totale delle cifre segnate nelle colonne 10 e 11 deve essere uguale al totale di quelle segnate nelle colonne 12 e 13.

La cifra segnata nella colonna 10 deve essere uguale a quella segnata nella colonna 12 della riga precedente, per ciascuna giornata.

- = colonna 14 = Ora di uscita del veicolo dal parcheggio o dalla rimessa
- = colonna 15 = ora di entrata del veicolo nel parcheggio o nella rimessa SA.

N.B. = Tutti i dati devono essere segnati per ciascun servizio dal Comandante del plotone il quale dovrà assicurarsi che il tempo durante il quale il veicolo è rimasto fuori dalla sede corrisponda effettivamente a quello necessario per svolgere il

17 e 18

=le cifre segnate nelle colonne 16 e 17 corrispondono alla lettura del contachilometri, quella segnata nella colonna 18 al numero dei Km. percorsi ed è uguale alla differenza tra le precedenti.

1706

3 =

La cifra segnata nella colonna 18 = riga Y = deve essere uguale alla differenza tra le cifre segnate rispettivamente nelle righe Y e A = colonna 16.

M.B. = Qualora il contachilometri del veicolo non funzionasse i dati relativi ai Km. percorsi verranno desunti, per ciascun viaggio, dall'itinerario percorso o, quando ciò non sia possibile, dal consumo del carburante.

I dati segnati nella riga Y, rispettivamente alle colonne 8 = 9 = 13 e 18, vanno settimanalmente riportati, a cura del conduttore, nella parte 11^a della "pubblicazione 412" (vedi paragrafo B di questa circolare).

ISTRUZIONI SPECIALI PER I CONDUTTORI = nella colonna "M.B.A" va segnata la stessa lettera della riga corrispondente al servizio cui ci si riferisce nell'istruzione.

RAVVIATO INCIDENTI = Il conduttore dovrà segnalare gli eventuali incidenti occorsi o i guasti e difetti riscontrati nell'autoveicolo.

CONTROFIRMA = Il foglio di viaggio deve essere controfirmato dal Comandante del reparto.

B) = LIBRETTO DI BORDO PER AUTOMEZZI E MOTOCICLI (pubblic. 412) =

= parte II = Dati caratteristici del veicolo:

deve essere firmata dal Comandante del plotone cui appartiene l'automotoveicolo.

= parte IV = Specchi per la registrazione dell'avvenuta esecuzione dei compiti giornalieri:

il compito giornaliero deve essere SEMPRE eseguito, anche se l'automotoveicolo non è in sede.

Il Comandante del plotone è responsabile della esecuzione giornaliera del compito e tale responsabilità è conferita dalla sua sigla apposta nello spazio posto in calce alle colonne di ciascuna settimana.

= parte IX = Elenco delle riparazioni e sostituzioni:

13 e 18, vanno settimanalmente riportati, a cura del conduttore, nella parte II della "pubblicazione 412" (vedi paragrafo B di questa circolare).

ISTRUZIONI SPECIALI PER I CONDUTTORI = nella colonna "LIBRA" va segnata la stessa lettera della riga corrispondente al servizio cui ci si riferisce nell'istruzione.

RAPPORTO INCIDENTI = Il conduttore dovrà segnalare gli eventuali incidenti occorsi o i guasti e difetti riscontrati nell'autoveicolo.

CONFERMA = Il foglio di viaggio deve essere controfirmato dal Comandante del reparto.

B) = LIBRETTO DI BORDO PER AUTOREZZI E MOTOCICLI (pubblic. 413) =

= parte II = Dati caratteristici del veicolo:

deve essere firmata dal Comandante del plotone cui appartiene l'automotoveicolo.

= parte IV = Specchi per la registrazione dell'avvenuta esecuzione dei compiti giornalieri:

il compito giornaliero deve essere SEMPRE eseguito, anche se l'automotoveicolo non è in sede.

Il Comandante del plotone è responsabile della esecuzione giornaliera del compito e tale responsabilità è confermata dalla sua sigla apposta nello spazio posto in calce alle colonne di ciascuna settimana.

= parte IX = Elenco delle riparazioni e sostituzioni:

indicare anche il cambio dell'olio per motore, cambio e ponte, segnando la data dell'avvenuta sostituzione ed il corrispondente chilometraggio, in modo da rendere il conduttore edotto sull'epoca in cui effettuare il successivo cambio.

= parte XI = Nota del chilometraggio e consumo del carburante e dei lubrificanti:

il conduttore deve riportare alla fine della settimana

na e del mese i totali relativi ai consumi dei lubrificanti e dei carburanti ed ai Km. percorsi rispettivamente durante la settimana ed il mese, desunti dal foglio di viaggio (vedi paragrafo A di questa circolare) come prescritto dal comma 5 della parte 1^a della pubblicazione stessa.

Il consumo medio mensile sarà computato dividendo il chilometraggio totale mensile per la quantità di carburante consumato nel mese. Verrà riportato in inchiostro rosso nella colonna "Commenti e sigle".

C) - MODALITA' DELL'ISPEZIONE -

Il conduttore deve essere tempestivamente preavvisato del giorno e ora dell'ispezione, in modo che possa opportunamente preparare l'autoveicolo e mettersi in condizione di far rilevare all'ufficiale incaricato i più lievi difetti che, eventualmente, sfuggissero al di lui controllo.

Il conduttore oltre alle normali predisposizioni, dovrà in particolare:

- a) = esporre le parti costituenti l'equipaggiamento degli automezzi (dotazioni), nello stesso ordine con cui sono elencate nella parte VIII della "Pubblicazione 412";
- b) = sollevare col crick il treno posteriore dell'automezzo, in modo da poter far funzionare durante l'ispezione del veicolo da fermo, oltre al motore anche gli organi di trasmissione.

L'ufficiale incaricato dell'ispezione (Comandante del sottoreparto o Ufficiale dei trasporti) deve conoscere minutamente le caratteristiche dei tipi di autoveicoli che costituiscono il reparto al suo comando. Egli, nell'eseguire l'ispezione, oltre al normale controllo delle varie parti dell'autoveicolo, dovrà:

- a) = provare personalmente l'automotoveicolo in movimento;
- b) = portare la propria attenzione sullo stato di usura dei pneumatici anteriori e posteriori e indicarlo sul "Rapporto ispezione" rispettivamente alle caselle n.10 e 19.

D) - REGISTRO ISPEZIONI DELL'AUTOVEICOLO = (Libretto - itara 406) 104

Deve essere SEMPRE compilato dall'Ufficiale incaricato dell'ispezione, il quale si avvale dell'istituto dei dati contenuti nel libretto.

C) - MODALITA' DELL'ISPEZIONE -

Il conduttore deve essere tempestivamente preavvisato del giorno e ora dell'ispezione, in modo che possa opportunamente preparare l'autoveicolo e mettersi in condizione di far rilevare all'ufficiale incaricato i più lievi difetti che, eventualmente, sfuggissero al di lui controllo.

D) - REGISTRO ISPEZIONI DELL'AUTOVEICOLO - (Libretto militare 406) - 104

Deve essere compilato dall'Ufficiale incaricato dell'ispezione, il quale si varrà dell'aiuto dei dati risultanti dal libretto di bordo (pubbl. 412).

DIAGNOSI E RIPARAZIONI -

Effettuata l'ispezione e, indicati con lettera "C" sul "Rapporto Ispezione" i particolari che devono essere tenuti in considerazione da parte del Reparto Riparazioni, l'Ufficiale che l'ha eseguita

5 -

passa il registro 406 al Comandante l'officina del reparto, al quale, dopo aver constatato i difetti:

- a) = se la riparazione è effettuabile presso l'officina del Reparto, la fa eseguire, segnalandola nella parte "Rapporto provvedimenti" = colonna = "Provvedimenti presi dal Comandante l'officina";
- b) = se la riparazione NON è effettuabile presso l'officina del Reparto, propone al Comandante del reparto, l'invio dell'automotoveicolo al Reparto Riparazioni. La decisione in merito spetta esclusivamente al Comandante, il quale la segnala nel "Rapporto provvedimenti" = colonna = "Osservazioni del Comandante". L'automotoveicolo, quindi, viene inviato al Reparto Riparazioni, sempre seguito dal Registro 406 che ne segnala i difetti da eliminare.

Responsabili della compilare del "Rapporto Provvedimenti" sono rispettivamente il Comandante l'officina e il Comandante del Reparto, i quali firmeranno il rapporto suddetto SOLO quando i difetti segnalati nel "Rapporto ispezione" saranno stati del tutto eliminati.

Particolare attenzione da parte dell'ufficiale incaricato della ispezione deve essere portata sui difetti riscontrati nell'ispezione precedente.
