ri, li 27 Maggio 1945

All'Ufficio Collaudo Alimenti Alleati della

DIREZIONE DI COMANDO MILITARE

S. S. D. M.

Oggetto:- Relazione su una partita di farina avariata presentata dal
9 Fanfocio Militare di Bari.-

In data odierna il sottoscritto Capitano Chimico-Farmacista
Giacomo FAVIA si e' recato, in seguito ad ordine ricevuto dalla Direzione
di Commissariato Militare di Bari- Ufficio Collegamento Alimenti, presso
il 9 Fanfocio Militare di Bari, per esaminare una partita di farina avariata,
giacente presso detto fanfocio.-

Sono stati ottenuti i seguenti risultati:

1) -a) Sacchi con incrostazioni di farina No 1355 -los 2.768
Tara (gr.455 per sacco).....-los 1.350

Differenza al netto los 1.418

b) Sacchi con incrostazioni di farina no.146 - los 486
Tara (gr.800 per sacco).....- " 247

Differenza al netto" 249

2) Grani, farinaccio e rifiuti ricavati da
setacciaturalos 11035

Riepilogo generale

- Perdite per avarie.....los 1.418

- " "los 249

- " "los 11.035

Totale los 13.690

Provenienza della derrata-

Ricevuti n. 6010 sacchi dal "23" C.B.A.S.C." durante il periodo
13/1 - 7/2/1945.-

Cause che hanno determinato il danno-

Stivaggio della derrata bagnata e giacenza in ambiente umido.- Trattasi
di merce non riesata prima della cessione ai Negoziari Italiani.-

Conclusioni-

La farina in questione composta di farinaccio, grani e rifiuti vari, e'
il residuo delle operazioni di risanamento, selezione e stoccatura del-
l'intera partita.

416

13/1 - 7/2/1945.-

Sono stati ottenuti i seguenti risultati:

1) -a) sacchi con incrostazioni di farina No 1355 -lbs 2.788
Tara (gr.450 per sacco).....-lbs 1.380

Differenza al netto lbs 1.414

b) sacchi con incrostazioni di farina no.140 - lbs 496
Tara (gr.800 per sacco)....." 247

Differenza al netto" 249

2) Grumi, farinaccio e rifiuti ricavati da
staccaturalbs 11336

Riepilogo Generale

- Perdite per avarie.....lbs 1.414

- " "lbs 249

- " "lbs 11.336

Totale lbs 13.099

Provenienza della derrata-

Ricevuti n. 6010 sacchi dal "22" C.M.A.S.C." durante il periodo
13/1 - 7/2/1945.-

Cause che hanno determinato il danno

Stivaggio nella derrata bagnata e disicca in saccente umido.- Trattasi
di merce non risanata prima della cessione ai negozianti italiani.-

Conclusione-

La farina in questione composta di farinaccio, grumi e rifiuti vari, e'
il residuo delle operazioni di risanamento, selezione e staccatura del-
l'intera partita.

Trattasi di farina di vecchia molitura (dicembre 1943- Gennaio 1944)

in gran parte composta in sacchi non originali.-

La presenza di parassiti nella derrata in questione era stata già
segnalata dal locale distaccoamento M.A.I.A. con foglio n.37/24 del 10/1/45.-

Ritengo.

- che i sacchi di cui al n. 1) essendo stati in precedenza debitamente
spazzati dal 9° Panificio Militare di Bari, sono da passare al lavaggio
per il ricupero delle tele.

./.

2 -

- che la farina di cui al n. 2) presenta odore forte di muffa, sapore acido, scricchiolio sotto i denti per presenza di sostanze minerali e vegetali, infestata da numerosi parassiti animali (tenebrio molitor)

Pertanto le lbs. 11.935 di farina non sono alibili per l'alimentazione umana, ma esclusivamente per l'alimentazione degli animali da cortile.-

IL CAPITANO CHIMICO-FARMACISTA
(Giacomo Favia)

Subject: Report on bad flour at Military Bakery, Boston.

On to-day's date the undersigned, Capt. G. A. T. T. T., Chemical Officer, has called on Military Bakery, Boston, to examine bad flour, by order of Commissioner of Defense.

Findings are as follows:

1. (a). Sacks with flour crumb No. 1356 = 2,768 lbs
Tare (453 grs. per sack) 1,386 lbs

Net weight 1,412 lbs
(b). Sacks with flour crumb No. 140 496 lbs
Tare (500 grs. per sack) 247 lbs

Net weight 249 lbs

2. Crumb, dirty flour and sweepings after shifting 11,935 lbs.

	1,412
	249
	11,935
Total	13,596 lbs

4961

Origin of Stock.

6010 sacks from 22 crumb during 1911

1. (a). Sacks with flour counts No. 1356 = 2,768 lbs
Tare (453 grs. per sack) 1,356 lbs
Net weight 1,412 lbs

(b). Sacks with flour counts No. 140 496 lbs
Tare (500 grs. per sack) 247 lbs
Net weight 249 lbs

2. Crusts, dirty flour and sweepings
after shifting 11935 lbs.

1,412	
249	
11,935	
<u>13,596 lbs</u>	
Total	4981

Origin of Stock:
6010 sacks from 22 crants during period
13/1 - 7/2/45.

Cause of Damage:
Stock was stacked wet or in wet
premises. Before handling it the Italian
Depots they should have improved it.

This flour, dirty, empty and mixed with sweepings is the remainder of process for improving, selecting and shipping the whole stock.

It is old flour (Dec. 43 - Jan. 44) mostly in non-original sacks.

It is being in sack - a stolen was already noticed by MIA and reported in their letter 5/12/44 of 16 Jan 45.

Disposals:

Sacks in para 1, already trusted at the bakery are to be passed to laundry, to again recover sack - cloth.

Flour in para 2, mouldy, sour, contains also mineral and vegetable stuffs creating under teeth and is insect-ridden (Tenebrio molitor). It is not fit for human consumption, but only for animals.

7. Inventory of property and other valuables - Inventory of property and other valuables

H7. WATA Observations.

4; Cause of Damage: This Analysis Report covers the 6,629,700 lbs of Flour received off the S.S. Solomon and S.S. Bacon during Sept and Oct. 1944.

During the off loading there was a continuous heavy rain. At this time the docks were using trucks with no tops. As a result many sacks became wet in transit.

Capt. Freeland instructed them to resack all good Flour and set aside all encrustated sacks and bad Flour. This was done but was never inspected by Analysis Commission. This amount was sacked and has remained within the Bakery ever since.

HQ 22 CRASC (Sup Units) CMF.
8/36 13 Jan 45.

22 C.R.A.S.C. (Sup Units).

1. On 11 Jan 45 I received two samples of rice from N.M.I.A.
I.O. 54 Area.
2. These samples consisted of unpolished rice which had a
"powdery" appearance due to friction between the grains producing
this fine powder.
3. It is possible to remove the powder by shaking with water,
prior to use, and discarding the water.
4. In my opinion the rice is fit for consumption and for
information it is pointed out that the vitamin B, content of
unpolished rice is higher than that of polished rice.

SUBJECT: Italian Supplies.HQ HQ CRASC (Sup Units) CMF,
8/96
9 Dec 44.

1. The following samples have been received for examination.
2. Rice. (a) Samples numbered 1 to 6. In all cases the Rice was fit for consumption but samples 1, 3 and 4 contained small pieces of stalk and 3 and 6 were slightly dusty.
(b) These impurities can be removed before use by stirring the Rice up with water, allowing the Rice to settle, and then quickly decanting the liquid which is to be rejected. The cleaned Rice may then be used in the normal manner.
3. Biscuits. Two samples were examined.
(a) Light Biscuits contain 11.5% moisture and 0.3% fat.
(b) Dark Biscuits contain 8.5% moisture and 0.26% fat.
(c) Keeping properties will depend upon method of packing.
If packed in hermetically sealed tins and left in cool, well ventilated storage, the darker Biscuit will last about 9 months to 1 year, whilst the other may last 6 to 9 months.
If packed in cardboard cartons then a storage life of 3 to 6 months only may be expected.

Subject: Food unfit for Consumption

Liaison Officer
Military Mission
Italian Army
Hq. 54 Area, CME
ST/8
22 November 1944

Commissariato, Bari

Ref your L/21875 dated 18 November 1944.

1. It is agreed that all unfit food in Distribution Depots may be sent back to BARI DEPOSITO SPECIALE VIVERI (unless of large quantity) as previously, in order to hold central Analysis Commissions. Such food must be kept in separate "dumps" when received back by a/m Depots (that is, one "dump" for each Depot).
2. Will you kindly ensure however, that all unfit food is reported immediately by Distribution Depots to you and in turn to this office in order that the necessary proforma A required by H.Q. IMIA may be completed.
3. It is suggested that Distribution Depots render a periodical report to you (in duplicate), possibly fortnightly, on lines of Annex 1. The duplicate copy of the above report could be forwarded by you to this office immediately upon receipt. This would enable us both to be kept in the picture and also assist in establishing whether responsibility for the loss is Allied or Italian.
4. This arrangement would not preclude you from making an additional report to this office in urgent circumstances if you so desired. Please say if you are agreeable and forward a copy of your instructions on this subject.

S E D E

Il laboratorio Chimico Provinciale, che ha esaminato il Campione di farina prelevato da un sacco esistente presso il locale Panificio Militare e di dubbia alibilità, in occasione della recente visita del Capitano FREELAND, ha dichiarato la perfetta commestibilità del prodotto, come rilevasi dalla relazione di analisi, allegata in copia.-

Pertanto la farina di cui trattasi verrà immediatamente passata alla panificazione.-

IL CAPITANO COMMISSARIO CAPO UFFICIO

AMMINISTRAZIONE PROVINCIALE DI BARI
LABORATORIO CHIMICO

Relazione di Analisi

Campione di farina distinto col N° 1/26270 presen-
tato dalla Direzione di Commissariato Militare -
I^a Sezione - Bari.

Il giorno 27 ottobre 1944

Determinazioni richieste: se commestibile.

RISULTATO DELL'ANALISI

Umidità 14,00 %
ceneri, sul secco, 1,16 "
glutine secco, " 12,40 "

Esame microscopico: solo frumento.

La percentuale di umidità supera il limite fissa-
to.- Indipendentemente da ciò, è idonea all'alimen-
tazione umana.

BARI, addì 9 novembre 1944 -

COMANDO MILITARE DELLA PUGLIA E LUCANIA

- Direzione di Commissariato -
- Ufficio del Direttore -

N. 589/UCA

BARI, li 6/11/1944

OGGETTO: Rapporto derrate inadatte al consumo.-

AL "M.M.I.A. L.O." - C/o 54^a Area
(rif. foglio ST/8 del 4 corr. Capt. K. FREELAND)

B A R I

1°)- La giacenza di 80 LBS. di sarde salate avariate al Magazzino Viveri della 152^a Sez.Suss. di Locorotondo è stata segnalata per la prima volta nel corso della visita del Capitano FREELAND allo scrivente il 7 ottobre u.s.-

La 152^a Sez.Suss. all'epoca in cui il fatto si riferisce era alle dipendenze del disciolto 51° Corpo d'Armata.-

Questa Direzione sta appurando se il Consegnatario di dette Magazzini abbia fatto tempestivamente le previste segnalazioni al Comando di Corpo d'Armata da cui dipendeva.-

2°)- Quanto sopra risponde anche alla questione di cui il 2° capoverso del foglio in oggetto.-

M 4430

3°)- Le 80 LBS. di sarde salate in questione provengono da una partita di 1.930 barili e fusti scaricati dal Piroscalo "DALLAS" in arrivo a Bari il 25 maggio u.s. e consegnati al nostro Deposito Speciale Viveri tramite l'"Adriatic Depot".- Al suo arrivo è stata subito segnalata sia al Ministero della Guerra che a codesto Ufficio che trattavasi di merce in pessime condizioni di conservazione, presentata in fustame di ricupero, vecchio, malandato ed in parte sfasciato, contenente sarde e sardelle di vecchia pesca, con alterazioni parassitarie in atto.-

Data l'importanza della cosa la scrivente chiese ed ottenne dal Comando del 9° Corpo d'Armata la nomina di una speciale Commissione che, composta da un T.Col.Medico Igienista, un Maggiore Veterinario e da un Capitano Commissario, redasse in data 30 maggio u.s. un verbale col quale espresse l'avviso che l'intera partita di 1.930 barili in questione, composta di merce in parte avariata, altra sospetta e non

OGGETTO: Rapporto derrate inadatte al consumo.-

AL "M.M.I.A. L.O." - C/o 54^a Area

B A R I

1°)- La giacenza di 80 LBS. di sarde salate avariate al Magazzino Viveri della 152^a Sez. Suss. di Locorotondo è stata segnalata per la prima volta nel corso della visita del Capitano FREELAND allo scrivente il 7 ottobre u.s.-

La 152^a Sez. Suss. all'epoca in cui il fatto si riferisce era alle dipendenze del disciolto 51^o Corpo d'Armata.-

Questa Direzione sta appurando se il Consegnatario di dette Magazzini no abbia fatto tempestivamente le previste segnalazioni al Comando di Corpo d'Armata da cui dipendeva.-

2°)- Quanto sopra risponde anche alla questione di cui il 2^o capovero del foglio in oggetto.-

4430

3°)- Le 80 LBS. di sarde salate in questione provengono da una partita di 1.930 barili e fusti scaricati dal Piroscalo "DALLAS" in arrivo a Bari il 25 maggio u.s. e consegnati al nostro Deposito Speciale Viveri tramite l'"Adriatic Depot".- Al suo arrivo è stata subito segnalata sia al Ministero della Guerra che a codesto Ufficio che trattavasi di merce in pessime condizioni di conservazione, presentata in fustame di ricupero, vecchio, malandato ed in parte sfasciato, contenente sarde e sardelle di vecchia pesca, con alterazioni parassitarie in atto.-

Data l'importanza della cosa la scrivente chiese ed ottenne dal Comando del 9^o Corpo d'Armata la nomina di una speciale Commissione che, composta da un T.Col. Medico Igienista, un Maggiore Veterinario e da un Capitano Commissario, redasse in data 30 maggio u.s. un verbale col quale espresse l'avviso che l'intera partita di 1.930 barili in questione, composta di merce in parte avariata, altra sospetta e non idonea, fosse da ritenersi non distribuibile alla truppa.- Il Ministero della Guerra, in attesa delle istruzioni della Missione Alleata, dispose ugualmente che detta merce venisse spedita e distribuita, mettendo da parte quella più evidentemente alterata.- Fu così che per vari giorni i militari ebbero come razione, al posto della carne, le sarde in questione che, a quanto risulta, non poterono essere tutte consumate.-

././.

- 2 -

Alcuni Magazzini Presidiari servendosi di automezzi di occasione, rinviarono parte di tale derrata, non potuta distribuire, al nostro Deposito di Bari.-

Verbali di distruzione vennero così redatti dal Capitano SELLERS e dal Capitano GUTHRIE.- Alla presenza di quest'ultimo vennero distrutte (e verbalizzate) :

in data 7 luglio: Sarde salate 1.257 LBS.

in data 2 settembre: " " 1.391 "

Come motivo dell'avaria, esso venne così specificato:

"MESSAGE OF BARRELS" (Coraggio dei fusti)

Il Capitano BETTINGER, conoscendo dal suo nascere e nei suoi particolari tutto quanto riguarda le sarde in questione, non ha ritenuto di firmare il verbale nel quale si vuol ora addossare alla "responsabilità italiana" l'avaria di dette 80 LBS.

4°) - Sta di fatto che l'avaria di un piccolo residuo di dette sarde non può essere imputata a responsabilità o negligenza italiana, quando tutto comprova che la merce era in cattive condizioni all'atto della distribuzione e che, pertanto, qualche quantitativo è rimasto indistribuito perchè indistribuibile.-

La scrivente quindi propone che sia applicata anche per questa piccola rimanenza la formula già usata nei citati verbali a firma del Capitano SELLERS e del Capitano GUTHRIE e in tale senso spera di potervi leggere d'accordo.-

IL COLONNELLO COMMISSARIO DIRETTORE

ST/8
4 NOV 44

Commissariato, BARI.

1. Please explain why 80 lbs of unfit SALTED FISH discovered by Capt. FREELAND in LOCOROTONDO D.D. on 11 Sep.44 had not been reported previously to this office.
2. The fact that part of a consignment of fish in barrels which arrived in BARI during the month of MAY 44 was found unfit, does not relieve you of the responsibility for requesting an Analysis Commission immediately the s/m was received by the Depot.
3. Analysis Reports (para.7) require an opinion as to responsibility and/or negligence, i.e. Italian or Allied. Those prepared by this office in respect of the 80 lbs. of SALTED FISH state the loss to be an Italian one in view of the incriminating circumstances. CAPT BATTINARDI however, refuses to sign the Analysis Reports alleging the loss to be an Allied responsibility.
4. If you wish the reports to be amended to read "Condition at time of receipt by Depot unestablished due to negligence of Italian authorities in failing to report the case to AMIA" then please return same to this office immediately.

1. Reference this office letter of even number dated 15 Sept 44. Examination of outstanding items has been completed and report follows:-
2. Neutal. This contains 50% dried almonds in a paste containing 43% sugar and wrapped in foil. This is fit for human consumption.
3. Macaroni. This was made from wheat and contained 11.4% moisture. It was very moldy and unfit for human consumption. It was fit for fodder.
4. Two unknown samples were identified as ground maize infested with meal worms and a mixture of infested maize and wheat. Both items were only suitable for fodder.
5. Soup. The block actually weighed 44.5 grams but was probably 150 grams and had to be made up to 1 litre. (The composition was:-

Grain Flour	1.7%
Moisture	2.7%
Ash	7.6%
Fat	8.1%
Protein	11.3%
Carbohydrate	62.1%

4900

Italian Supplies.

MM. 20
HQ 2 District.

W.D. Analyst's report is forwarded for information.

W. M. Z. White
Lieut. Col.
22 C.R. A.S.C. (Sun Units).

Italian Supplies.

HQ 22 CRASO (Sun Units). CMP.
8/73. 15 Sept 44.

22 CRASO (Sun Units).

Conversation Capt. Maclean - Major James refers.

1. The samples of bread have been examined with the following results.

Dirty sample 34.2% moisture.
Clean sample 33.7% moisture.

This figure is on the high side for a loaf but is not outside the limits of moisture in English bread which are usually 30 - 35%.

2. The sample of Bran gives the following results on examination.

Moisture	11.5%	Ash	7.1%
Protein	20.2%	Carbohydrate	32.6%
Fat	4.2%	Crude fibre	1.7%
Pentosans	22.5%		

The bran is a wheaten type and is heavily infested. It is unsuitable for human consumption but suitable for animal fodder. Immediate turn-over is recommended.

3. "Uranti". This was packed in a can size approx 1 2/3 and weighing 144 g. It consisted of the following.

Potatoes	156 grams;	Beans	421 grams.
Pork	114 grams.	Gravy & Spices	150 grams.

The pork was in one piece and was very fat. It was fit for consumption but the vegetables were not of the same good quality
