Last March I had applied for a passage for my family to join me at Bari. HQ 54 Area confirmed that accommodation would be made available, but could not put my name on the Town Major's list until authority for the passage was received. As this seemed likely to occur when 54 Area was moving out, there should be no difficulty about finding suitable accommodation.

On my return from leave on 6 June, I discovered that there were only two flats now available, both of which are too small for my family (4 persons beside myself): there was also Villa Grassi on the Taranto road, that is about to be vacated by Lt.Col. Armstrong, but it was down for the R.T.O., Bari.

It is requested that, in view of my army seniority, the allotment of Villa Grassi be reconsidered, with a view to reserving it for my family.

A seguito della nuova situazione per la quale questo Comando potrà disporre della caserma "S. PASQUALE" per l'organizzazione del C.A.R., si è proceduto ad una nuova e definitiva sistemazione delle singole casermette.

In relazione alla specifica destinazione di ciascun padiglione si stanno effettuando i conseguenti lavori del Genio con carattere definitivo.

Peraltro è assolutamente urgente e necessario che lo sgombero degli avieri dalla caserma "MILANO" avvenga con tutta sollecitudine essendo i lavori in quella caserma subordinati all'evacuazione dei locali.

1/. Reference your LB-115 dated 14 Dec 45.

2/. I returned from an inspection trip through Southern Italy last night. During such trip I investigated the existing accommodation in Taranto and planned for remedies to overcome deficiencies. Gen. Mannerini of the War Ministry accompanied me so that all Italian Authorities concerned were informed of the following:

- a) that the existing accommodation in "F" Camp are to be increased to house 6,000 individuals by using existing barracks and securing additional number of tents or huts required (this is being attended to).
- b) the Gallese barracks, capacity of 1,500, have been turned over to the Italian Authorities, and are being used at full capacity.
- c) the Caserma Rosserol, capacity of 750 to 1,000 has also been turned over and is being used at full capacity.

3/. As you see the above will accommodate a total of 8,500 repatriates and by using the accommodations available in Bari and Lecce it will bring up a total of accommodations to over 10,000. This is the required ceiling for the port of Taranto.

4/. As to the British personnel referred to in para 4 of your letter, the one Captain and one Lieutenant (Capt. Caynes and Lt. Hall), these British officers are posted to my Division and included in my WE so that I fail to see why Area should worry about them. As to the ORs, I have no control over them nor do I need them, so that they can be released at G.C. Area pleasure.

5/. The original demand for accommodation for 10,000 was never an over-estimate in fact the repatriation plan from UK for the month of January plus the unannounced arrivals from India, Middle East and North Africa proves it.

Ref 9 BIU Periodical Report No 1, para 1, Summary.

I wish to stress the importance of acquiring the Caserma S Pasquale, Bari, for the C.A.R.

With the barracks at present available (Caserma Falanga e Milano) the number of men that will have to occupy each barrack room is 48.

This can be done by using two - tier bunks with spacing of about 6 inches.

Such a measure is not desirable with recruits for obvious reasons, and the acquisition of additional accommodation is necessary.

Since my Periodical Report No 1 was submitted, 4 Med Regt were moved out of Caserma S Pasquale, which HQ WMIA applied for on the 27th Dec from 3 District. Within the last week, however 2 Coys of R.E. and 1 Coy RASC have been allocated to the Caserma, so it appears that 54 Area do not intend to let it go.

It is requested that representation is again made to 3 Dist, urging the importance of Caserma S Pasquale for the accommodation of recruits.

1. As agreed in AFHQ Conference on 14 Dec 45, accommodation for Italian Army T.M.O.'s in 6 Territorial Command was considered suitable.

2. A detailed technical inspection of the barracks at BARI, which will be used as the T.M.O. of that Territorial Command has shown that in order to fully utilise the installation, repairs lasting eleven months and costing approximately 100,000,000 lire will be necessary.

3. It is intended, however, to carry out only the first 'phase' of these repairs. These can be done in time for the first call-up and will cost 8,000,000 lire. This will not permit the fullest use of the barracks and supplementary accommodation will be required.

4. For this reason the War Ministry are requesting that the undermentioned premises be released to them as soon as possible:-

Officers' Mess, 197 Transit Camp, Air Lifts, BARI
Casern Zona San Pasquale, BARI.

5. May the possibility of the derequisition of these premises in the near future please be considered and this H. . informed of the earliest likely date of release.

1. As agreed in AMHQ Conference on 14 Dec 45, accommodation for Italian Army T.M.C.'s in 6 Territorial Command was considered suitable.
2. A detailed technical inspection of the barracks at BARI, which will be used as the T.M.C. of that Territorial Command has shown that in order to fully utilize the installation, repairs lasting eleven months and costing approximately 100,000,000 lire will be necessary.
3. It is intended, however, to carry out only the first 'phase' of these repairs. These can be done in time for the first call-up and will cost 8,000,000 lire. This will not permit the fullest use of the barracks and supplementary accommodation will be required.
4. For this reason the War Ministry are requesting that the undermentioned premises be released to them as soon as possible:-

Officers' Mess, 197 Transit Camp, Air Lifts, BARX
Caserta San San Pasquale, BARI.
5. May the possibility of the derequisition of these premises in the near future please be considered and this H.Q. informed of the earliest likely date of release.

240 Town Major,
Bari.

I understand that the flat at 31 Via Cardassi 1st floor, left, is occupied by an American M.C.O. with his Italian wife and parents-in-law. It appears that the Italian family has another smaller lodging in Bari.

May I be informed whether the occupation of the flat is regular: if it is not, can the occupants be evicted and the flat handed over to this unit, to be used as an Officers Mess, for the two officers on its strength.

With reference to your letter LO/5/AQ dated
17 Nov 45.

Only part of the barracks known as Caserma
Santa Chiara are requisitioned by Allied Forces.

This part was recently vacated by U.S. Ports
Pro Coy, and will shortly be re-occupied by a British R.E.
Coy.

It is regretted that at the present moment,
it is not possible to release the barracks in question.
