SUBJECT: Disposal of Surplus Captured Enemy Material Held by Allied Units

TO : President
Allied Commission
APO 794
FOR: Land Forces Sub Commission, (MMIA)

Reference Allied Force Headquarters letter, AG 386.3 Q(AE)-0, dated 2 October 1945 as amended by AG 386.3 Q(CEMS) of 8 February and 9 March 1946.

1. In order to reduce the number of Allied personnel at present involved in handling questions relating to the disposal of captured enemy material and to insure that all captured enemy material, as it becomes surplus to military requirements, is made available to the Italian Government with the least possible delay, it is desired to revise the procedure for the disposal of surplus captured enemy material outlined in the above mentioned directive.
2. It is intended to instruct units, that in the future, any captured enemy material held by them surplus to unit entitlement or requirement, should be disposed of in accordance with the procedure detailed in AFHQ Administrative Memorandum Number 40, 1945. It is requested that you will inform the Ministero della Guerra accordingly in order that they may advise the Italian Direzioni Lavori del Genio Militare and the Ispettorato Compartimental della Motorizzazione Civile to make the necessary arrangements to receive all future surplus arisings of captured enemy material at the Parks operated by them under the terms of Administrative Memorandum Number 40, 1945.
3. This procedure, while assisting the Allied Military authorities will also relieve the Azienda Relievo Alienazione Residerato of a considerable amount of work.

1. Allied Units are being instructed to dispose of C.E.M. no longer needed by them in the same manner as Italian requisitioned property.

This will mean that transport vehicles, tyres, spare parts etc., and other useful stores may become available.

2. GHQ have been asked and given verbal agreement that Units will be required to notify the nearest M.M.I.A. L.U. material declared surplus by them.

You will arrange whenever practicable to inspect "attractive items" and report to this HQ such stores as are considered of value in order that authority may be sought for their transfer to M.M.I.A.

Ref your 33/1190/7/1 of 15 Feb.

This office has investigated the complaint from the Engineer Directorate that No 1 Engr Stores Base Depot, occupying Campo S.Marco, has cut an essential electrical main.

The officer commanding this British unit, Capt. BURT, states that he is unaware of having interfered with any Italian electrical mains, and he would be very willing to receive a visit from a representative of the Engineer Directorate in order that the matter may be investigated.
