Ref. your 3DLO/9 of 27 July 45.

1. The War Ministry copies of indents for stores by 21 and 22 Ingr. Coys reached this H.Q. on 1 Aug/45, they are dated 16 May and 7/10 May respectively.
2. These indents appear to have been prepared with the object of equipping the unit with all items on the SKL, as if the latter were a scale of equipment which the unit should hold.
3. It should be stressed to the units concerned that this is not the case, and that the SKL is in fact a list of equipment which may be issued to units, (and beyond which issues cannot be made) if that equipment is needed for the work on which the unit is employed.
4. The indents in question have been examined by the competent branches of this H.Q., and in general it is considered that many of the items should not be required in the present circumstances.
5. In view of this opinion and the length of time which has elapsed since the indents were prepared, these indents should be returned to the units with an explanation of the position. They should then indent again for any items which are genuinely needed in their work.

1. It is understood that there are stocks of Tailors Kits and Shoemakers Repair Kits available in Italian Stores. May these please be released for issue to the 12 Italian Pioneer Coys under command of this HQ.
2. With a Tailor permanently employed in each Coy repairing clothing before it becomes totally US it is felt that the demands for replacements would be very considerably reduced - 'A stitch in time saves nine'.
3. In each Coy there is a skilled Shoemaker. At the present time, owing to shortage of supplies, it is the practice for each man to wear his boots until they become totally US. If we had Shoemakers permanently employed in repairing boots as soon as they begin to show signs of wear it is anticipated that the life of the boots would be trebled.
4. May it be emphasized that these Kits would be in the hands of skilled tradesmen doing a first class job of work prolonging the life of clothing and boots.
