TO : Ministry of War.

Reference your 3702/10/Ord of 11 July 45.

1. At the present time black dye is a critical item for the dying of clothing for civilian use, and stocks in the theater are extremely limited. Since the addition of black dye to the green dye is not absolutely essential for dyeing clothing for the army, it is not considered practical to import any black dye for this purpose.

2. There is no objection, however, to your obtaining black dye locally if there is any available.
