11. C.A.R.

11 British Liaison Unit

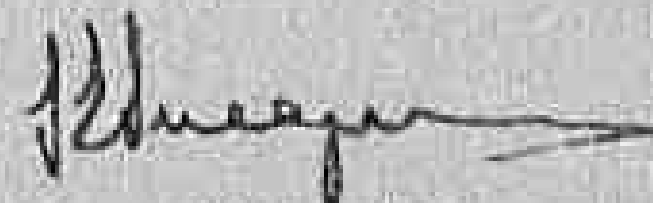

Tel. 18372 PALERMO

Q/28

To : 10 B.L.U.

8 Aug 46.

1. Following the first course at 11. C.A.R. many weapons were rendered inefficient and are still inefficient owing to a lack of spare parts and armourers tools.
2. Attached is list of spare parts that they require and for which they have already indented on 11 Arty. Directorate.
3. Since this material is urgently required would you please assist or advise expediting delivery.
4. Nomenclature is submitted in Italian owing to the fact that this office has none qualified to translate terms of technical equipment.

ORDNANCE DIRECTORATE
G.H.Q. C.M.F.SUBJECT : Technical Equipment for Italian
Base Workshops.

Ref: DOS/7209

Tel: Freedom 810

Date: 10th July 1946

To : O.C.,
3 Sub Depot,
557 B.O.D.

Attached at Appendix 'A' is a further list of tools held at 16 Base Workshops which are to be transferred to M.M.I.A. direct.

Please prepare vouchers for these items, priced where possible, vouchering them to "Land Forces Sub Commission, MMIA for Italian Army".

Forward five copies of the vouchers to C. R.E.M.E., 16 Base Workshops who will make the necessary arrangements to issue to A.D.O.S., M.M.I.A.

Please treat as urgent.

Sgd. (P.W.BUTLIN) Lt Col ADOS ORG,
for Brigadier,
D.O.S.

Copies to:- D.M.E., GHQ, CMF (2) - your ME/1B/1546/2 dated 10 July 46 refers.

ADOS, MMIA.

- two receipted copies of the vouchers are to be returned to this directorate in accordance with this GHQ letter.

- No. 8159/Q1 dated 16 May 1946 05

DOME, GHQ, CMF
COO, 557 BOD.

- Your 8159/Q1 dated 3rd June 46 refers.

SUBJECT: RME Personnel and Transport
for 'A' Type MU's

10 British Liaison Unit
FORMS LEL 61400
Tel: 55002 MILAS
RME 5

10 July 46.

C80 I

10 British Liaison Unit

1. The RME of this MU has to cover the whole of NAPLES, PARI and installations in NAPLES Area with ref to the handling over of certain technical equipment to the Italian Army. At present it is found quite intractable to cover all this ground with the frequency desirable - mainly due to lack of transport and personnel.

2. It is therefore requested that the following RME personnel be either attached or added to the MU of 'A' Type MU's.

(a) Sergeant - Veh Mech - to carry out the more routine workshop and other technical and inspection - either in conjunction with the RME or separately. In this way a much closer check could be kept on the standard of maintenance of MU in Italian units and consequently more help and advice given.

(b) Cpl - Storeman - As the stores of all types are such a vast problem to the Italian Army, it is doubly important that they receive the maximum amount of advice and help in the laying out and accounting for stores. Relatively few units in these three Territorial Commands are in possession of Allied Type Vehicles, and consequently Workshops are not scaled for those. A Storeman well versed in Allied MU would be most useful in liaising with the Allied Type Stores Depot at GARE, MILAN, and so help in keeping those vehicles on the road - especially important for the CS.RR who are the chief processors of Allied MU in the SOUTH of ITALY.

3.

It is requested that these MU's possess at least the ranks shown as:-

(a) Their chief dealings will be with Italian Officers and NCOs.
(b) A fair amount of responsibility will be attached to the job, as a considerable amount can be done through an initiative.

(c) The type and quality of men needed for this job will not warrant a lower rank. In addition these men should either be regular soldiers or of a high A/S group due to the probable long-term policy of this job.

4.

As MU's MU's

1. The RME of this MU has to cover the whole of NAPLES, BARI and Sicily Territorial Commands as well as to liaise with the RME base installations in NAPLES Area with ref to the handing over of certain technical equipment to the Italian Army. At present it is feared quite intractable to cover all this ground with the frequency desirable - mainly due to lack of transport and personnel.

2. It is therefore requested that the following RME personnel be either attached or added to the ME of 'A' Type MU's.

- (a) Sergeant - Vet Mach - to carry out the more routine Workshop and other technical and inspection - either in conjunction with the RME or separately. In this way a much closer check could be kept on the standard of maintenance of MU in Italian Units and consequently more help and advice given.
- (b) Cpl - Storeman - As MU stores of all types are such a vast problem to the Italian Army, it is doubly important that they receive the maximum amount of advice and help in the laying out and accounting for stores. Relatively few units in these three Territorial Commands are in possession of Allied Type Vehicles, and consequently Workshops are not scaled for them. A Storeman well versed in Allied MU would be most useful in liaising with the Allied Type Stores Depot at OME, POL GMA, and so help in keeping these vehicles on the road - especially important for the CS.M who are the chief possessors of Allied MU in the SOUTH of ITALY.

3. It is requested that these MU's possess at least the numbers shown below.

5603

- (a) Their chief dealings will be with Italian Officers and NCOs.
- (b) A fair amount of responsibility will be attached to the job, as a considerable amount can be done through our initiative.
- (c) The type and quality of men needed for this job will not warrant a lower rank. In addition these men should either be regular soldiers or of a high A/S group due to the probable long-term policy of this job.

4. As more RME personnel become available through the closing down of RME installations and services in this theatre, and as the Italian Army takes over more British small arms, it is requested that also an Armourer - RME - be added or attached to the ME to inspect Small Arms and help the Italian Armourers to get familiar with the technical side of British Small Arms.

5. As already pointed out, the RME has to cover the whole of NAPLES, BARI and SICILY Areas. The ME of 'A' Type MU's allows for one or two L/Utility 4 x 2 to be shared by GND, S & T and RME Captains. This proves to be completely inadequate and in consequence this vehicle is constantly on the road, thus causing needless and excessive wear and tear.

- 2 -

It is most strongly requested that the VC of 'A' Type HUs be increased to hold a car for REE.

(a) To allow the REE to carry out his job unhindered by constant lack of transport.

(b) To reduce the wear and tear on the greatly overstressed transport of a HU.

It is suggested this addition be a Car 4 X 4, 5 out.

SUBJECT :- Allied Workshop Equipment for the Italian Army.Land Forces Sub Com. A.C.
(M.M.I.A.) R.O.M.
NW/31/119

15 June 46

To :- MINISTRY OF WAR (2 copies)

1. With the closing of several RMC Base Installations at Naples it is likely that certain items of Workshop Equipment will be released on loan for the Italian Army, in accordance with the List at Appx 'A'.
2. In the immediate future this equipment will be released to an accredited representative of M.M.I.A. and it is requested therefore that arrangements be put in hand for the guarding and transportation of the equipment to a suitable workshop (such as GARE at Bologna).
3. Will you please instruct the officer you nominate to take over this equipment that he should make contact with Captain RINDI ROME of 10 RLB at NAPLES regarding receipt of this equipment from the Allied authorities.

REME 3

A. Blunt

Lt. Col. REME

5601

Copies to :- REME 10 REM - You are the accredited representative of M.M.I.A. for receiving the items of the attached Appendix and will obtain receipts from the Italian Army representative for this equipment. Handover to the Italian Army should take place at NAPLES upon receipt of release instructions from this office.

REME 6 REM (for info).

Land Forces and Comm. A.O.
(M.M.I.A.) R O M B
MB/31/123

19 JUNE 46

D.A.D.M.E., 12 B.L.U.
B.M.N.B 1,3,4,5,6, and 10 B.L.U.S

Further to this office signal MB/31/46 dated 13 April.

1. Samples of oils issued by C.I.P. in various territorial Commands have been analysed by J.C. B.F.E.S.

2. From the report all C.I.P. No 2 oils issued are within Specification limits of HD 30 oil, but in the case of C.I.P. oil it will be noted that issues made in FLORENCE, MILAN and NAPLES had low viscosity index and therefore should not be used as a substitute for HD 50 oil.

3. A sample of regenerated oil, which is understood to be widely used in the Italian Army, has also been analysed and addressees will note that this oil is not to be regarded as a suitable substitute for HD oils, and should not be used in engines or any vehicle component having highly stressed or heat generating bearing surfaces.

4. Action is being taken by this HQ with the Ministry of War to standardise the quality of C.I.P. oils within the Specification limits of the HD lubricants for which they are issued as substitutes.

5. Should at any time the standard of C.I.P. lubricants issued be questionable and facilities exist locally, it is requested that addressees arrange to have the lubricants analysed and forward a copy of the analysis report to this office. 5589

6. A copy of the list of Specification for certain HD lubricants is forwarded for information.

1. It is likely to be July before any personnel from Italian Technical Training Schools are available for posting to units.
2. It will be essential in the meantime for workshops to continue recruitment and instruction of personnel to replace those being demobilised.
3. O.C. workshops should continue their efforts to recruit personnel.
4. Please advise me of any trades for which you have potential tradesmen but have not the facilities to train them. An endeavour will be made to have them trained at CESANO by the Training Increment there.

Territorial HQ. NAPLES.
2/248/2

29 Jan 46

10 BLU.

1. This office forwarded to MMIA IO of NAPLES letter 2/4291/2 dated 5 Sep 45 which was as follows :-

"On the 18 Jun 45. 2 Vehicle Repair Unit as ordered by Land Forces Sub Commission moved into the rooms over AGNANO wksp near the IPPODROMO. This place has only one telephone and is not sufficient to cope with the numerous calls received during office hours. It would therefore be necessary to obtain a second line for this unit. The Engr HQ has already made a short line between BAGNOLI distributor and the unit, it is now necessary to connect the line to the distributor. It is asked that you give permission to connect the line".

2. As the only line used by 10 Repair unit is often out of action thus making communication with 10 Repair Unit very poor, and as no reply has been received from MMIA to the above quoted letter, please contact Allied authorities for permission to complete this line as required.

V DANATO Lt.Col.
Vice Chief of Staff

COMANDO MILITARE TERRITORIALE DI NAPOLI

DM/sp UFFICIO SERVIZI

n. 2/ *348* /2 di prot.

Napoli, 29/1/1946

OGGETTO: Impianto telefonico presso il 10° Reparto Riparazioni.=

AL 10° B. L.U.

N A P O L I

Questo Comando con foglio n. 2/4291/2 del 5 settembre 1945, trasmetteva all'Ufficio Collegamenti con la M.M.I.A. di Napoli, la seguente lettera:

"In data 18 giugno c.a. il 2° Reparto Riparazioni automobilistiche, per ordine della Land Forces Sub Commission, si è trasferito nei locali sovrastanti all'officina di Agnano, sita nei pressi dell'Ippodromo.

In tale sede trovansi installato ed in funzione solo un apparato telefonico; ma esso è assolutamente insufficiente per le esigenze del reparto perchè non può sopportare il sovraccarico delle comunicazioni di servizio che sono molto numerose nel corso delle ore di ufficio.

Sarebbe necessario perciò attuare un nuovo circuito urbano per il suddetto Reparto Riparazioni.

Il Comando Genio ha già provveduto per la costruzione di una breve linea volante tra il distributore di Bagnoli e l'utente; occorre ora l'allacciamento della linea al distributore.

Pregasi dare il proprio benestare per il completamento del circuito".=

Perchè per la inefficienza cui va soggette l'unico collegamento telefonico a disposizione del 10° Reparto Riparazioni, la crisi delle comunicazioni per detto reparto si è aggravata e nessun riscontro fu dato dalla M.M.I.A. al foglio sopra trascritto, pregasi intervenire presso le autorità alleate per la concessione del benestare al completamento del circuito telefonico richiesto.=
