DR. POULTON, J.A.

Sir,

On 20 March 1946 I was travelling along
Congo Brina on my way to the Naval base.
I was riding in between the two sets of
train tracks owing to the road being very
narrow also full of pot holes when three
civilians who were walking towards me
in the center of the road, offered to make
way for me and then suddenly joined
hands again and kept walking with the
result that I had to turn sharply to avoid
them causing my front wheel to get caught on
the train tracks and to slide into the mud
throwing me clear and damaging the foot
rest of the motor cycle C.1452436.

Strict orders have been given to the sentries guarding the above car park that no one without an UNRRA identity card or a pass signed by an official of UNRRA may enter the park. This has proved necessary on account of thefts that have occurred there recently.

So that this will not prejudice your use of the parking lot I am therefore sending you two signed copies of passes for use by your personnel who may have to park or take out one of your cars. Will you please therefore fill in the names of the people and the numbers of their cars, who you wish to have permission to enter the parking lot, issue them with the passes and furnish this office with their names.

I would also like to take this opportunity of informing you that I understand we may shortly have to release the parking lot in Via Mariano Stabile and make other arrangements. I will keep you informed when a definite decision has been made.

1. At present this unit has no British Workshop facilities which can perform maintenance on its vehicles (Vehicle holdings see Appendix "A"). It was considered unpracticable to send them to CATANIA owing to the excessive distance of the latter location from PALERMO.
2. It is understood that an arrangement has been made whereby an R.A.S.C. N.C.O. from your unit will come to PALERMO once a month to perform monthly routine inspections on UNRRA vehicles.
It is requested that this N.C.O. also inspects vehicles of this unit during his visit.
3. It is pointed out that including R.A.F., British Army Units, and British Civilian Organisations, there are quite a number of British vehicles held in this part of the Island. It is thought that a vehicle census should be taken of all British vehicles located here in order to assess whether the number is sufficient to merit the installation of a Light Workshop in PALERMO.
4. This letter was in fact sent to your office previously, dated 15 April 46, and registered in our A.B. 193. Therefore, will you please investigate why this letter never arrived at your Unit.

Subject: Vehicle holdings.

To : Land Forces Sub-Commission A.C.
(M.M.I.A.) Rome

(For attention of Col. Curties)

Ref. telephone conversation Major Sneeze 11 B.L.U. - Major King M.M.I.A. on 12 Jan. re vehicle holdings of this unit.

1. Present vehicle holdings of this Unit is as attached list rendered in quadruplicate.
2. It is understood that the additional Jeep on the B.L.U. (see serial 4 att list) was sent to this unit as a result of a request made by Major Hector to Col. Curties during the former's visit to M.M.I.A. 3/7 Jan. 46. to the effect that additional transport was in fact required by this unit.

Reasons given were:

- a) Unavailability of 15 cwt for 2 or 3 days during the week owing to routine journey to Catania for collecting N.A.A.F.I. and other stores.
- b) Bad state of roads liable to put either vehicle off road and if occurring to Jeep when 15 cwt was at Catania would leave the unit without means of transport.
- c) During spells of heavy rain airfield was not approachable by S/C necessitating the use of Jeep by D.R. this causing a further call on limited transport.
- d) Owing to reasons (a) (b) (c) if either the D.A.A. & M.M.I.A. or G II required to make a tour of units on the island the remaining officer would in all probability be left without transport.
3. When Major Hector made request stated in para 2 he was under the impression that present Jeep (see serial 1) was to be B.L.U.'s, owing to faults in steering and recurring gasket trouble and so even if a further Jeep arrived the request for an increase in transport would not have been met.
4. On Major Hector's return he was offered by A.C. to take over their Car Utility (see serial 6 att list) pending receipt of disposal instructions with a view to it replacing the Jeep in

1951

the event of it being B.L.R'd. M.M.I.A., were informed of this transfer by G 4 (B). Transfer was authorized by GHQ/3093/3/
(AE) letter dated 10/1/46.

This vehicle although officially on strength of this unit was not rendered in Monthly Vehicle Return owing to the fact that the authority for transfer had been retained in A.C. files and the D.A.A. who had just returned from 10 B.L.U., had understood that this authority was awaited in which case the vehicle would still have been on A.C. strength.

5. It is now thought that original Jeep (see serial 1) can survive being placed B.L.R., previous faults having been repaired by Italian Autocentre.
6. Disposal instructions are therefore required for Car Utility (serial No.6). The British Naval Base at Messina are in the process of disposing of numerous vehicles to Naples and are willing to include any vehicle we may have due for disposal. Can authority be given for disposal by this channel.
7. Clarification is also required as to whether Jeep (serial No.4) at present held surplus to W.E. is to be authorized as such. For reasons given in para 2 above an extra Jeep is in great demand by this Unit.
