1. The attention of all O&C units will be directed to the fact that large quantities of useless documents are being sent to GHQ 2nd Echelon by disbanding units for disposal.
2. Records of units about to disband will be weeded out before despatch to GHQ 2nd Echelon, and only documents or files containing matter likely to be of value or to be of historical, technical or legal importance will be forwarded.
3. The attention of O&C units will also be drawn to the pamphlet "Submission of War Diaries and Preservation of Documents of Historical Value" issued under GHQ 327/45, which lays down the general principles to be followed in deciding which documents should be retained, but it is pointed out that the tables contained in Part II of the above pamphlet refer to the periods for which documents should be retained by an existing unit, and not to a unit about to be disbanded.
For example, the following classes of documents are listed for retention for the periods shown. The periods laid down are for the benefit of existing units only, and upon disbandment of the unit these classes of documents should be destroyed, as the original documents will be preserved by the originator. Card indices, bin cards and the like will also be destroyed.

Reference your letter 290 Q dated 14 Jan. 47.

The a/m Staff Car on charge to this Unit is at present running on a welded half shaft and we are informed by 1 **3442** Workshop who carried out the repair that this vehicle would not be fit to go to Casarsa under its own power (Certificate attached). Under these circumstances may I have further instructions as to disposal and authority, if necessary, to send the vehicle to Casarsa by rail. Apart from the a/m defect the vehicle and tyres are in good condition.
