SUBJECT: - Diphtheria Immunisation - ChildrenDistribution 'B' British

The following information and instructions will be brought to the notice of all parents of children in this area.

1. The Ministry of Health require all children to be immunised against Diphtheria before entering the UK.
2. All children who intend entering the UK will attend at 2 Br Field Hospital for a Schick Test.
3. Children found positive after the Schick Test will be immunised.
4. Children between the ages 12 months and 10 years will attend the hospital 6 weeks before the estimated date of departure. Children over 10 years of age will attend 9 weeks before the estimated date of departure.
5. Children may proceed on their journey two days after the last injection.
Will parents please ensure that immunisation is completed before the eve of departure for the UK.

SUBJECT:- Medical Treatment - Families

9 Sep 46

Distribution "R" (British)

1. As considerable doubt appears to exist concerning the eligibility or otherwise of families to medical and dental attention from Army sources the attached "Notes on Medical and Dental Attention - Families" are forwarded in order to clarify various points over which misunderstandings are at present arising.
2. Units will ensure that these notes are made known to all concerned.

Note on Medical and Dental Attention - Families.
(Issued with GHQ letter 3751/AF of 4 Sep 46)

1. Normal Medical Attention

For Families this is a privilege and not an entitlement; Medical facilities are deployed in accordance with military requirements and therefore medical attention for families can only be provided at stations where facilities are available and within existing resources. Regs. M.S.A. para 264 has reference.

2. "Specialist" Medical Attention

Para 1 above applies. It is not the intention of the War Office to post additional specialists in Gynaecology, Midwifery and Diseases of Children to this Command.

A considerable number of Medical Officers with experience in the above subjects are at present available in the Command and these are being distributed to the best advantage.

The present War Office policy is that cases of a special nature (including complicated midwifery) which cannot be dealt with by existing resources shall be evacuated to the U.K. It is therefore of obvious importance that expectant mothers should seek ante-natal examination and advice as early as possible during their confinement.

3. Employment of Civilian Specialists.

This has been referred to the Financial Adviser whose ruling is as follows:-

"If there is no M.O. or C.M.P. available it is considered that the securing of medical attention for non-entitled personnel is a matter for the individuals concerned and the cost of civilian practitioner cannot be met by the public. (See para 276 regarding the Services of a Specialist in the case of Officers admitted to hospital)".

The employment of such specialist for entitled Families is governed by Regs. M.S.A. Para 303.

4. Dental Treatment.

In view of the present acute shortage of dental personnel in the Command it is regretted that the provisions of Regs. M.S.A. Para 571 must be strictly enforced; for the present therefore only treatment of an urgent nature can be undertaken.

5. Convalescent Treatment.

Accommodation is not available at the S.R.C.S. Convalescent Homes DELIACH and VELDEN for the Families of Officers or O.R.'s unless the families themselves are medically recommended for convalescent treatment.

12 DE. AIR LIAISON UNIT - VIA DI A LUNGARA. ROME.APPROXIMATE STRENGTH - 16

SITE DETAILS. Billeted in part of an Italian Military School, Italian Military personnel occupy remainder of this school.

ACCOMMODATION. No evidence of over-crowding, large airy rooms with ample ventilation.

WATER SUPPLY. From Rome main supply.

COOK-HOUSES- OTHER RANKE COOK-HOUSES.
and MEN.

- (a) General condition of cook-house filthy, floor-sweepings and ashes from fire swept into corner of room, fire-wood stored inside cook-house, this encourages Rats and Mice, and also harbours dust. *NO*
- (b) Windows and doors not fly-proofed. *natural intended for*
- (c) No records displayed of Inoculation and Vaccination or P.F.Is of Italian personnel employed in this cook-house. *done at Gerano*
- (d) No stool test taken of the a/m.
- (e) No nail brush, *washed for* soap or towel available for the washing of hands.
- (f) Result of finger nail inspection, finger nails of food handlers dirty. *they are washed according to G.R.O.*
- (g) Fresh fruit and vegetables not washed as per G.R.O. 315/46 A.R.O. 691/45.
- (h) Food-safe inadequate. *NO*
- (i) A dis-used stall urinal outside this cook-house is filthy and foul.
- (j) Swill bin without lids, *they have lids* and attracting large numbers of flies.
- (k) The use of ice for the cooling of food should not be exercised.

RECOMMENDATIONS

- (a) General clean up of the cook-house and the surrounding area, floors to be washed daily with water, fire-wood to be stored outside the cook-house. *they are already* *the main part is already*
- (b) Windows and doors to be made fly-proof, doors to be made self-closing.

- (c) Record of inoculation and Vaccination and F.P.Is of all food handlers to be displayed in the cook-house. Food handlers to be medically examined Monthly A.R.O. 458/45.
- (d) O.C. hospital should be contacted and arrangements made to have stool test taken of all food handlers.
- (e) Nail brush soap and towel to be provided in the cook-house A.R.O. 458/45 refers.
- (f) Snap finger nail inspection should be made ^{of} for all food-handlers.
- (g) Fresh fruit and vegetables eaten raw, should be treated as per G.R.O. 315/46 A.R.O. 691/45.
- (h) All rations and food-stuffs should be covered and flyproofed.
- (i) Disused stall urinal should be washed down weekly.
- (j) Swill should be stored in fly-proof containers and situated on a hard standing. *On slabs*
- (k) Ice should not have direct contact with any food or drink, || the risk of contamination from ice is very high.

SERGEANTS COOK-HOUSE.

- (a) Consists of a large room, divided into, by a 7ft partition, thus separating cook-house from the mess.
- (b) General condition of cook-house filthy, coal and fire-wood stored in the cook-house, vegetables are scattered on the floor and under the tables, preparation table top dirty and littered; Window sills covered with dust, sink dirty and greasy a cook sleeps in the cook-house and the state of his bed and kit, left much to be desired.
- (c) Fresh fruit and vegetables not treated as per ~~7142~~ 315/46.
- (d) Three containers, wash up, not in use.
- (e) No records of inoculation, vaccination or F.P.Is of food-handlers (Italian) displayed in the cook-house.
- (f) No stool test taken of the above mentioned.
- (g) Result of finger nail inspection - finger nails of food-

- (h) All rations and food-stuffs should be covered and fly-proofed.
- (i) Disused stall urinal should be washed down weekly.
- (j) Swill should be stored in fly-proof containers and situated on a hard standing. *Swill already*
- (k) Ice should not have direct contact with any food or drink, || the risk of contamination from ice is very high.

SERGEANTS COOK-HOUSE.

- (a) Consists of a large room, divided into, by a 7ft partition, thus separating cook-house from the mess.
- (b) General condition of cook-house filthy, coal and fire-wood stored in the cook-house, vegetables are scattered on the floor and under the tables, preparation table top dirty and littered; window sills covered with dust, sink dirty and greasy a cook sleeps in the cook-house and the state of his bed and kit, left much to be desired.

- (c) Fresh fruit and vegetables not treated as per ~~77398~~ 315/46.

- (d) Three containers, wash up, not in use.

- (e) No records of inoculation, vaccination or P.F.I.s of food-handlers (Italian) displayed in the cook-house.

- (f) No stool test taken of the above mentioned.

- (g) Result of finger nail inspection - finger nails of food-handlers ~~dirty~~.

- (h) Fly-proofing of rations inadequate.

- (i) Overalls worn by cooks, dirty.

- (j) Swill bins without lids.

- (k) Windows and doors not fly-proof.

RECOMMENDATIONS

- (a) If possible a new site to be found for this cook-house, the present site is definitely unsatisfactory, if this is not practicable the following points require strict supervision.

*Overalls included for
from hand lids*

(b) General clean up of cook-house, floors to be washed daily, coal and fire-wood to be stored outside the cook-house. A vegetable rack to be installed for the storing of vegetables. Table tops to be cleaned down immediately after use. No personnel should sleep in the cook-house, a cupboard wardrobe or suitable structure should be provided for the hanging of the cooks clothes, these should not be hung in the cook-house.

(c) Fresh fruit and vegetables eaten raw should be treated as per G.R.C. 315/46 and A.R.O. 691/45.

(d) Three containers, wash up, to be brought into use, G.R.O. 486/45 refers.

(e) Records of inoculation, vaccination and T.F.I.s of all food-handlers to be displayed in the cook-house.

(f) O.C. hospital should be contacted to arrange stool test to be taken of all foodhandlers (Italian).

(g) Strict supervision of the cleanliness of foodhandlers fingernails.

(h) Rations and prepared food should be protected from flies.

(i) Cooks, foodhandlers, should be issued with clean overalls frequently.

(j) Swill should be stored in fly-proof containers.

(k) All doors and windows should be made fly-proof, doors to be made self-closing.

OFFICERS COOK-HOUSES.

(a) General condition, filthy, empty wine bottles and beer crates lying around in the cook-house, ammunition boxes and D.M.I. jans stored around large food safe, fire-wood stored inside the cook-house.

(b) Windows and doors not fly-proofed.

(c) Large food and bread safe without ventilation.

(d) Small food-safe resting on the floor, the bottom of which will soon be rotten.

(e) No records of inoculation, Vaccination or S.F.I.s of food handlers kept in cook-house.

- (e) Records of inoculation, vaccination and P.P.Is of all food-handlers to be displayed in the cook-house.
- (f) C.C. hospital should be contacted to arrange stool test to be taken of all foodhandlers (Italian).
- (g) Strict supervision of the cleanliness of foodhandlers fingernails.
- (h) Nations and prepared food should be protected from flies.
- (i) Cooks, foodhandlers, should be issued with clean overalls frequently.
- (j) Swill should be stored in fly-proof containers.
- (k) All doors and windows should be made fly-proof, doors to be made self-closing.

OFFICERS COOK-HOUSES.

- (a) General condition, filthy, empty wine bottles and beer crates lying around in the cook-house, ammunition boxes and Binj Jones stored around large food safe, fire-wood stored inside the cook-house.
- (b) Windows and doors not fly-proofed.
- (c) Large food and bread safe without ventilation.
- (d) Small food-safe resting on the floor, the bottom of which will soon be rotten.
- (e) No records of inoculation, Vaccination or P.P.Is of food handlers kept in cook-house.
- (f) No stool test taken of the Italian personnel employed therein.
- (g) Result of finger nail inspection, finger nails of food handlers dirty.
- (h) Fresh fruit and vegetables not treated as per D.M.O. 315/46.
- (i) Three containers, wash-up for the sterilization of crockery, not in use.
- (j) Flour resting on floor in open sack.

RECOMMENDATIONS

- (a) General clean up of cook-house, all refuse, bottles are to be cleared away; fire-wood to be stored outside cook-house.

(4)

- (b) Windows and doors to be made fly-proof, doors to be made self-closing.
- (c) Large food and bread safe to be reconstructed so as to provide a through ventilation to the contents.
- (d) Small food safe to be raised off the floor.
- (e) Records of all Incubation, Vaccination and P.F.I.s to be displayed in the cookhouse of all food-handlers.
- (f) O.C. hospital should be contacted and arrangements made for stool test to be taken of all food-handlers.
- (g) Strict supervision of finger nails of all food-handlers be carried out.
- (h) Fresh fruit and vegetables eaten raw, to be treated as per G.R.O. 315/45 and A.R.O. 691/45.
- (i) Three containers, wash-up, to be brought into use for the sterilization of crockery; G.R.O. 486/45 and A.R.O. 108/46 refer.
- (j) Flour to be stored on hard standing, in Rat/Mice-proof bins.

LAVATINES AND URINALS

- (a) Italian Squat type, sufficient in numbers, clean and satisfactory.
- (b) Urinals also clean and satisfactory.

7790

ABLUTION AND BATHS

- (a) Ablutions consist of lavatory basins and these were found to be clean and satisfactory.
- (b) Baths consist of two showers, no foot-baths available.

RECOMMENDATIONS.

- (a) Foot-baths to be provided, vide G.R.O. 462/45 and A.R.O. 902/45, Duckboards to be scrubbed daily with a weak solution of cresol and left out in the sun to dry, this will kill off any fungus of athlete's foot attached to the duckboards.

DRAINAGE.

- (a) Civilian drainage system, no complaints made, and from appearance

(g) Strict supervision of finger nails of all food-handlers be carried out.

(h) Fresh fruit and vegetables eaten raw, to be treated as per G.R.O. 315/45 and A.R.O. 691/45.

(i) Three containers, wash-up, to be brought into use for the sterilization of crockery: G.R.O. 186/45 and A.R.O. 108/46 refers.

(j) Flour to be stored on hard standing, in Rat/Mice-proof bins.

LAVATRIES AND URINALS

(a) Italian Squat type, sufficient in numbers, clean and satisfactory.

(b) Urinals also clean and satisfactory.

ABLUTION AND BATHS

(a) Ablutions consist of Lavatory basins and these were found to be clean and satisfactory.

(b) Baths consist of two showers, no foot-baths available.

RECOMMENDATIONS.

(a) Foot-baths to be provided, vide G.R.O. 452/45 and A.R.O. 507/45, Duckboards to be scrubbed daily with a weak solution of cresol and left out in the sun to dry, this will kill off any fungus of athlete's foot attached to the duckboards.

DRAINAGE.

(a) Civilian drainage system, no complaints made, and from appearance are satisfactory.

E.T. ROOM.

(a) Insufficient supplies, Requirements are as follows:-

- (i) Cotton wool and containers for same. ✓
- (ii) Potassium permanganate, in suitable bottle. ✓
- (iii) E.T. Tubes in covered container. ✓
- (iv) Soap, liquid or solid. ✓
- (v) Nail brush. ✓
- (vi) Roller towel and roller for same. ✓
- (vii) Supply of clean water, hot water is preferable.

- (viii) Washhand basin.
- (ix) Receptacle or means of disposal for used water.
- (x) Sinks arrangement.
- (xi) Artificial lighting.
- (xii) Attendance slips and attendance box, with pencil
- (xiii) List of treatment instructions.
- (xiv) Waste dressing containers.
- (xv) Shelving.
- (xvi) Toilet roll and holder for same.

DEFECTS AND REMEDIES.

(a) Glasses not washed as per G.H.O. 108/46.

D.D.T. SPRAYING.

A request was made from the unit to be sprayed with D.D.T. This unit should be reminded, that D.D.T. is not a repellent and will not prevent flies entering cook-house, and does not afford any relaxation of anti-fly measures.

NOTES ON INSPECTION OF PACs

1. VD IS PREVENTABLE.
2. OF 1918 MEN USING PACs IN ROME DURING MAY, ONLY 38 SUBSEQUENTLY CONTRACTED VD.
3. THE APPARENT EASE OF CURE OF FIRST SYMPTOMS IS NO GUARANTEE THAT FINAL AND COMPLETE CURE HAS BEEN ACHIEVED.
4. CMC WILL ENSURE THAT PACs AND ET ROOMS IN THEIR AREAS ARE UP TO STANDARD.

THE FOLLOWING NOTES APPLY EQUALLY TO PACs AND TO UNIT ET ROOMS:-

- a. The room will be well lit by day and night.
- b. The standard of cleanliness will be that of a medical unit, and not that of a latrine.
- c. Printed instructions will be placed on the wall above each 'bidet' or equivalent. Copies have been issued by Medical (Br) Section this HQ.
- d. Supplies of soap, wool, calomel cream and, if possible hot water should be available.
- e. Antiseptic solution, Hydr Perchloride or Biniod of Mercury, should be available. (Note - tablets must NOT be kept on the premises. Solution should be made up at nearest medical units).
- f. Treatment will be recorded on CMF Form 18 or equivalent and the form handed to the soldier if a separate register is kept in the PAC. In ET Rooms it will be more convenient to have the completed form placed in a locked box for a record under confidential cover. Proof of attendance at PACs will be made available through ADMS Office to O&C as requested.
- g. Condoms will be issued as part of an ET Packet and will not be issued singly. Each packet will consist of condom tube of calomel cream, cotton wool, soap and packet with printed instructions. The flap of the packet will be secured by a pin which can be used later for piercing the tube of cream.
- h. Particular attention will be paid to sign-posting of the ET Room or PAC. A night sign which can be read by personnel entering the camp in the case of ET Rooms, or for some distance from the street in case of PACs is essential.

Subject: Malaria Control

To : See Distribution

Please make
suitable instructions for
Part 1. *W.B.*

1. Attention of all Units is drawn to GHQ GRO 252/46 and HQ MTOUSA Circular No. 54 Section IV on Malaria Control. Commanding Officers are responsible that the provisions of these directions are enforced within their respective commands.

2. With effect from 1 May 46, Anti-Malaria measures will be instituted by each Unit and all personnel of Rome Area Allied Command.

3. Individual Measures

a. Bed or Bar Nets

All personnel will sleep under mosquito or sandfly nets. Instruction on the proper use and care of nets will be given by unit anti malaria officers and anti-malaria details. Care will be taken to ensure that nets are rolled down before sunset and that they are maintained free from holes.

b. Clothing

Throughout Rome Area Allied Command, including the cities of ROME and FLORENCE, slacks will be worn, sleeves will be rolled down and shirt necks buttoned by 1930 hours daily during the malaria season. Troops going out on duty or recreation before 1930 hours and unable to return to their billet in time to change by 1930 hours will either wear slacks during the period of absence or will take slacks with them and change into these at or before 1930 hours.

b. Clothing (continued)

Anti-Mosquito Clothing for Women's Services in Rome Area Allied Command will not be taken into use except by such personnel as may be stationed in the Coastal Belt.

c. Insect Repellents

Insect Repellent will be Applied to all exposed parts of the body at dusk and will be re-applied every four hours.

4. Unit Measures

a. All Unit Billots or tents will be sprayed at least once daily, preferably at sunset, with insecticide, Aerosol/Flit, to kill mosquitoes.

b. Where necessary and on the advice of the Malaria Control Unit operating in the unit area, this spraying may be extended to include neighbouring civilian houses and out-buildings when their proximity is a menace to troops billots.

c. Mosquito breeding places within one mile of all unit lines will be drained, oiled or treated with Paris Green by the Unit Anti-Malaria Details/Squads. Close liaison will be maintained between neighbouring Units and with Malaria Control Unit to ensure co-ordination of effort and to avoid overlap.

d. Units in areas where the volume of work necessary to carry out unit measures is too great will request assistance from the Surgeon (ADMS) this Headquarters.

5. Exceptions to the above measures

a. The danger of transmission of Malaria within the cities of ROME and FLORENCE is considered minimal and therefore the cities are declared to be non-malarious and will be considered "not free" areas unless otherwise prescribed in the future.

b. Static Units and personnel permanently billeted in the cities of ROME and FLORENCE will draw bed nets but will be excepted from the provisions of this order as set

6. A tabrine/Hopnerino

b. Atbrine/Mopserine will be specifically ordered where considered necessary.

SUBJECT: Malaria Control 1945

8 Apr 46

Distribution "L" British

1. Owing to the shortage of manpower, the number of trained Malaria Control personnel in this area will be insufficient to exercise supervision on the scale practised during 1945.

2. It is therefore of paramount importance that all anti-malaria work done by units should be of the highest order.

3. The following measures of anti-larval and anti-adult control will be carried out by all units, with effect from 1st May 46;

(a) Units located in ROSE CITY.

- (I) All billets will be sprayed daily with Flysol preferably at reveille and dusk.
- (II) Static water should not be allowed to accumulate in tins or drums, or in any other receptacle in which mosquitoes may breed.

(b) Units located OUTSIDE ROSE CITY.

- (I) All billets will be sprayed daily with Flysol preferably at reveille and dusk.
- (II) All likely breeding places within a 2 kilo radius of unit lines will be controlled. Pools and Ponds will be drained, or oiled if draining is impractical. Vegetation growing beside water stretches will be cut back.

4. Expert advice and assistance will be provided by OC 76 AMCU attached 100 (Br) General Hospital. Application for such advice and assistance should be made to SURGEON, (AMCU) Rose Area Allied

Malaria Control personnel in this area will be insufficient to exercise supervision on the scale practised during 1945.

2. It is therefore of paramount importance that all anti-malaria work done by units should be of the highest order.

(a) United Lodge in NO. 13 CITY.

(I) All billets will be sprayed daily with Plysol preferably at reveille and dusk.

(ii) Static water should not be allowed to accumulate in tins or drums, or in any other receptacle in which mosquitoes may breed.

(b) Notes located outside RMA City.

(1) All billets will be sprayed daily with Flysol
preferable at nevello and dusk.

(IV) All likely breeding places within a 2 mile radius of unit lines will be controlled. Pools and ponds will be drained, or oiled if draining is impractical. Vegetation growing beside water stretches will be cut back.

4. Expert advice and assistance will be provided by CG 76 AMCD attached 100 (Br) General Hospital. Application for such advice and assistance should be made to SURGEON, (ADMS) Zone Area Allied Command.

5. So that maximum efficiency may result from unit anti-malaria work, Officers Commanding Units will appoint a Malaria Officer forthwith.

6. All Unit Member Officers will attend a lecture and film show at the cinema HQ BLAC et 1000hours 16th April 1945.

5. 6. 1940,
Staff Capt,
For Lt-Col,
Lt. A. G. G.

APR 7 1941 US ARMY

Subject: Health Hints for Prisoners living
in E.A.A.C.

Ref: Med (Pr) 358.

Distribution: Wg

plus Military Surgeon Gen. Hotel.

It is requested that one copy be
given to each family resident in
the hotels.

FOOD.

Hint: A good nourishing diet similar to what you eat at home.

SWEEP.

1. Diet should be light and nourishing. Plenty of Fresh Fruit, Green Vegetables. Eggs if procurable locally.
2. Avoid heavy meals at mid-day.
3. Have something light at mid-day and your main meal in the evening.
4. Drink plenty of fluids and put some salt (a teaspoonful daily) in one of your drinks.
5. Do not eat un-cooked vegetables, all should be washed in a dilute solution of Betadine, 1-10,000. This can be obtained by your husband from his Unit Medical Inspection Room.
6. Wash all fruit in this solution and having done so, rinse in fresh water.
7. Do not eat any shell fish.
8. Do not eat any eggs, or drink any cordials, from street vendors or cafes.
9. Do not let your children do this either.

VACCINATION AND INOCULATION.

If you have not been vaccinated or inoculated before leaving England, have it done immediately. This also applies to your children. Arrangements can be made by your husband through his Medical Inspection Room.

ANTI-MALARIAL PRECAUTIONS.

Some of you may be living in a Malarious Area, -if so you must adopt anti-malaria precautions. Your husband will tell you if you are living in a Malarious Area, because he will know from his Unit Orders.

If you are in a Malarious Area:-

- (1) You must use a mosquito net at night.
- (2) Wear slacks or stockings from sun-down.
- (3) Long sleeved blouse or jumper should be worn after sun-down.

FOOD.

Factor. 1. Good nourishing diet similar to what you eat at home.

DRINK.

1. Diet should be light and nourishing. Plenty of fresh fruit, Green Vegetables. Eggs if procurable locally.
2. Avoid heavy meals at mid-day.
3. Have something light at mid-day and your main meal in the evening.
4. Drink plenty of fluids and put some salt (a teaspoonful daily) in one of your drinks.
5. Do not eat up-000 of any nation, all should be washed in a dilute solution of 2% soda, 1-10,000. This can be obtained by your husband from his unit Medical Inspection Room.
6. Wash all fruit in this solution and having done so, rinse in fresh water.
7. Do not eat any shell fish.
8. Do not eat any food, or drink any cordials, from street vendors or Cafes.
9. Do not let your children do this either.

VACCINATION AND INOCULATION.

If you have not been vaccinated or inoculated before leaving England, have it done immediately. This also applies to your children. Arrangements can be made by your husband through his Medical Inspection Room.

MALARIA PRECAUTIONS.

Some of you may be living in a Malarious area, -if so you must adopt anti-malaria precautions. Your husband will tell you if you are living in a Malarious area, because he will know from his Unit Orders.

If you are in a Malarious area :-

- (1) You must use a mosquito net at night.
- (2) Wear socks or stockings from sun-down.
- (3) Long sleeved blouse or jumper should be worn after sun-down.
- (4) Use anti-mosquito repellent.
- (5) You may have to take Malarious Tablets daily; these are small yellow tablets and are easily swallowed.
- (6) Spray your rooms in the evening.

MALARIA PRECAUTIONS.

This disease is quite common in Italy in summer. Flies are the chief carriers of this disease, and you will find flies are abundant in these places.

- 2 -

ANTI-FLY MEASURES.

Decease anti-fly conscious.

- (1) Kill them by :-
 - (a) Spraying rooms at intervals daily with anti-fly spray.
 - (b) Fly papers.
 - (c) Fly baits.
- (2) Cover up all food.
- (3) Do not leave scraps of food lying about.
- (4) Keep your windows closed during the day because flies seek the cool of the house during the heat of the day.
- (5) Every fly you kill means that an average of 300 flies are unborn.
- (6) Get your children to kill them.

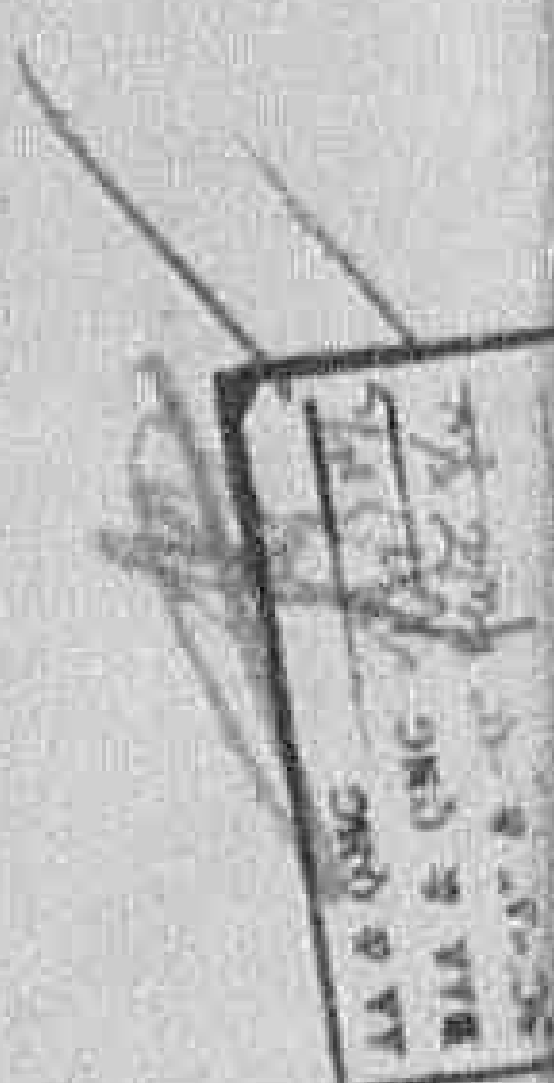

A FEW IMPORTANT POINTS.

- (1) Do not expose yourself to the sun for long periods until you become acclimatized.
- (2) If you are not feeling fit - report sick. Do not hesitate to do this.
- (3) Do not over-do things in the hot weather.
- (4) If you get diarrhoea report sick immediately.
- (5) Do not let your children run loose among the Italian children - many of them are verminous.
- (6) Rabies is common in Italy - do not go to dog.
- (7) No bathing except at authorized bathing beaches.

12/45/913 dated 25 Jan 46 and addressed to you with copy to
this office.

1. The installation of four shower baths for the above unit would most probably include water storage and boiler in addition to the showers themselves.
2. In view of the present commitments and greatly reduced financial allocation for works services the most stringent economy must be practiced.
3. Public shower baths are already in operation in ROME and are controlled by the Town Major.
These showers are not at the present being used to their fullest capacity.
4. It is suggested therefore that the Unit make application to the Town Major for the use of these already established facilities.

RE: SOUTH AFRICA, ALGERIA, MOROCCO
 150 No 7/1, 15, 1961

Reference: 66504

Date: 26.

15 Jan 63

SUBJECT: Vaccination of inoculation -
 by medical personnel to US

Information of action

Reference: 15/16.

1. Reports are still being received from US Transit Camp that personnel are reporting for guard routine to the US without their vaccinations and inoculation being up to date.
2. It is also reported by the Medical Section, this is, that many personnel, due for release, are reporting to the Central HI Camp for vaccination or inoculation, immediately prior to proceeding on release. This causes great inconvenience in the Central HI Camp as it tends to disrupt their program.
3. SAC Units will ensure that personnel proceeding to US Transit Camp are fully protected in good time before proceeding to US Transit Camp.
4. Men who arrive at the Transit Camp not fully vaccinated, or who require vaccination or inoculation at the last minute may still find that their departure on release is delayed.
5. It is pointed out that men should be vaccinated or inoculated as soon as they become due. If this is done correctly there should be no need for last minute vaccinations or inoculations.

NOTICE: If you are not the owner of this document, please return it to the National Archives at College Park, MD 20740-6001.

Fig. 2. Comparison of the results of the two methods.

1. Reports are being received from the Transit Camp that personnel are reporting for annual visitings to the UK without their vaccinations and inoculations being up to date.
2. It is also reported by the Medical Section, this UK, that many personnel, due for release, are reporting to the Central HI Room for vaccination or inoculation, immediately prior to proceeding on release. This causes great inconvenience in the Central HI Room as it tends to disrupt their programme.
3. GAC Haines will ensure that personnel proceeding to UK are fully protected in good time before proceeding to 159 Transit Camp.
4. Men who arrive at the Transit Camp not fully protected, or who require vaccination or inoculation at the last minute may all find that their departure on release is delayed.
5. It is pointed out that men should be inoculated or vaccinated at least a day before due. If this is done correctly there should be no need for last minute vaccinations or inoculations.

VACCINATION & INOCULATION

Personnel of your Unit requiring Vaccination or Inoculation should attend at the Central M.I. Room on Mon, Jan 21, 1946, at 14.00 hours.

The MCO i/c parade should be provided with a nominal roll (in duplicate) showing the type of protection (Vaccination, TAB, TT or Typhus Vaccine) required in each case, and each man must bring AM 64 Part 1. Inoculations and date to be entered in A 854 Part I.

It will be appreciated if prior information as to the approximate number of men can be sent, or telephoned, to the M.I. Room - Dial 478371
TAB, 1 Typh, 2 Vac, 5;

Date 10.1.46.

ITALIAN CENTRAL MILITARY SCHOOLS.
(Tel : ROME 66319)

Ref : HQ/45/873

14 January 1946.

Surgeon (A.D.M.S.),
Rome Area Allied Command.

1. Reference ARO 27/46 and conversation today (AIMS/Major RAUFERD).
2. This Unit is approximately 20 miles from ROME and it is thus most difficult to arrange to send personnel of this Unit in for VFL to ROME in accordance with your order. At the moment only sick personnel not able to be dealt with by this Unit's Medical Orderly are sent in for attention at the Central M.I. Room.
3. It would, therefore, be appreciated if the D.A.D.M. could arrange to come out to this Unit to examine all C.I.s on Tuesday, 22 January '46 if convenient.

SB. C. Personnel proceeding to UK -
Vaccination and Inoculation

List "B" - Distribution

1. All personnel proceeding to UK from this area will be vaccinated and inoculated up to date.
2. Twentyfour hours before proceeding to Transit Camp they will be medically examined by a Medical Officer.
3. Every man reporting to Transit Camp will be in possession of:
 a) Vaccination and Inoculation Date satisfactory
 b) All and Free from Injection
4. Vaccination and Inoculation in the Army are not compulsory. Where personnel refuse Vaccination or Inoculation the appropriate supporting entries will be made in AR 64 or AR 409. The Health Certificate of personnel who have refused Vaccination will be endorsed in block letters "OBJECTION TO VACCINATION". No endorsement is required in respect of personnel who have only refused Inoculation.
5. Personnel who report to 159 Transit Camp for onward routing to UK who are not collected by Vaccination and Inoculation, or having refused either Vaccination and Inoculation are not correctly documented in accordance with para. 3 above, will be held until the necessary Vaccination and/or Inoculation and documentation has been carried out.
6. AR 409 will also be published on this subject.
