"A large number of various items of enemy clothing and stores are held in UK. The checking of these items constitutes a vitally important task and it is essential that this task is done in as complete and accurate a method as possible.

For this purpose War Office require German and Italian publications corresponding to our VAGS.

Please use every endeavour to obtain such enemy publications."

Will you please advise if you have any such Italian publications for disposal or suggest a source from which they may be procured.

COMANDO DIVISIONE "PIO" VO"

C.A.C.P.I.C.

Ufficio Serv.-Sez. Comm. te

N. 07.1737/3 Comm. di prot.

P.M.92, 15 giugno 1945

OGGETTO: *Integrazione* Reparti per materiali ed equipaggiamento dei reparti.

AL "P" = BIU = IRTG = ICF = DADOS =
(Rif. F. ORD/12/47 del 19/5/45)

S e d e

In merito al contenuto delle istruzioni in oggetto, questo Comando rappresenta quanto segue:

- 1°)- presso ogni reggimento vi è già un ufficiale "consegnatario" che è direttamente responsabile di tutti i materiali esistenti in magazzino;
- 2°)- presso i reparti minori, il comandante è il diretto responsabile di tutti i materiali, il quale è normalmente coadiuvato da un ufficiale (se disponibile) oppure da un sottufficiale;
- 3°)- in base al sistema della contabilità italiana, tutti i materiali esistenti presso i reparti vengono assunti in carico su un apposito registro Mod. 547 (di cui si allega copia), nel quale i materiali sono tenuti distinti in:
 - Gruppo A: vestiario
 - " B: equipaggiamento, servizio generale, casermaggio
 - " C: armamento;
- 4°)- tutti i reparti dipendenti hanno tale registro, che unitamente ai relativi buoni di carico e scarico - viene semestralmente sottoposto alla revisione e controllo del competente Comando Territoriale;
- 5°)- comunque, aderente a quanto richiesto col foglio sopracitato, saranno date disposizioni a tutti i reparti dipendenti perchè essi - oltre a tenere il predetto registro italiano Mod. 547 - ne impieghino degli altri secondo le modalità suggerite da codesto Ufficio;
- 6°)- le istruzioni di che trattasi non possono però, per il momento, essere applicate integralmente, perchè delle 74 tavole costituenti la "lista dell'equipaggiamento normale" i reparti conoscono solo quelle relative ai materiali considerati "in blocco". Le altre tavole non sono state ancora diramate perchè questo Comando ne possiede solo 2 copie in inglese.

Non meno si provvederà alla loro trasmissione e successiva distribuzione.

Le altre tavole non sono state ancora diramate perchè questo Comando ne possiede solo 2 copie in inglese.

Man mano si provvederà alla loro trasmissione e successiva diramazione.

- 7°)- Come concordato oralmente con codesto Ufficio, è opportuno che le richieste dei materiali "in blocco", continuino ad essere effettuate dai reparti così come finora attuato, mentre gli altri materiali saranno richiesti con gli appositi moduli (Form. G. 994).

- 8°)- Per agevolare il compito ai reparti, occorrerebbe distribuire loro un adeguato quantitativo dei predetti moduli.

Pregasi pertanto comunicare se sia possibile assegnare a questo Comando n. 50 blocchetti di tali moduli.

Si richiedono inoltre le 40 copie in italiano della lettera ORD/12/67 al codesto Ufficio, per la diramazione ai reparti.

= 2 =

9°)- Anche questo Comande è del parere che - dopo che i reparti avranno ricevute le istruzioni di che trattasi - sia opportuno tenere una conferenza a tutti gli ufficiali addetti ai materiali, per rendere più chiare le norme in questione, che alla maggior parte di essi riusciranno nuove, date il diverso sistema di contabilità italiana. =

1. Although it is understood that they are in the course of preparation, the present lack of the Italian translations of all's and HHC's is causing some difficulty here.
2. It seems on the one hand that Italians write and HHC's do not understand what they are entitled to in the way of equipment, and on the other hand they are unable to carry out a correct indenting procedure, and their requirements are only made known and demanded by this office after personal contact, on the spot, with each unit.
3. This is slow, cumbersome, and causes a considerable amount of work for my very small staff.
4. Local translations have been made of the lists concerning personal clothing and equipment, but this is impracticable and would involve too much time and labour to make such translations for every list in our possession. Apart from which technical terms cannot be translated into a foreign language without the aid of an interpreter versed in such terms.
5. Can some information be given as to the likely date of translations being made available, and any course adopted to speed their production?
6. The translations so far completed of any such lists would be appreciated right away.
