Si prega voler richiedere ai depositi base - per conto di questo Comando - i materiali in "blocce" di cui all'unito elenco, quale previsto fabbisogno per un mese.=

1. Non c'è nessun quantitativo di acqua distillata o acido, tenuto dal I.R.I.C. per i dipendenti reperti.
2. Un ufficiale del 152 Reggimento Artiglieria e' venuto ieri per il detto materiale. Sono state preparate immediatamente le richieste, ed e' stato detto all'Ufficiale di recarsi con i recipienti a Roma, ad un indirizzo connotato, onde ritirare l'acqua distillata.
Per l'acido invece, in mancanza e' stata trasmessa al Deposito Base. Saranno necessarie tre, quattro settimane, perché' arrivi l'acido.
3. Ritengo che questa domanda, e' per lo stesso scopo della vostra.
4. Ho risolutamente detto al Comandante al Reparto Italiano, che ad eccezione del vestiario, non esistono qui depositi di materiale per la distribuzione, che non sono possibili distribuzioni straordinarie, e che in conseguenza le richieste sono soddisfatte in tre o quattro settimane.
5. Le consegne che i reparti, per loro conto, debbono tenere delle piccole scorte di materiali di consumo richiesti per la normale manutenzione, per vedere il fabbisogno e dimostrare le richieste di conseguenza.

1. There is no stocks of Distilled Water or acid held centrally by RTC, ICF.

2. An officer of 152 Italian Artillery School called yesterday morning for these items. Indents were prepared on the spot. He was told to take containers to an address in Rome and collect distilled water. As regards the acid, the indent has been passed to Base Depot. It will take 3 - 4 weeks for the acid to arrive.

3. I presume this demand is for the same purpose as yours.

4. I have told the Italian HQ and units repeatedly, that except for Bulk Stores such as clothing no stocks are held centrally, that "over-the-counter" issues are completely impossible, that demands consequently take 3 - 4 weeks before they are met.

5. It follows therefore that units must hold ^{their own} small reserve of expendable items vital to normal maintenance, and always look ahead and make demands accordingly.

I tried to telephone you this morning but your line was not working.

We have some thirty wireless batteries which require their initial charge. Swinerton can of course take care of this; but he has not got the necessary acid and distilled water. Can you possibly help me over this; because as you will appreciate it is impossible to use the wireless until something is done.

Reference your Ord/11/89 dated 19 April.

1. The procedure for transmission of No. 4 copies of I.Vs. to Units is that they are passed to our Traffic Branch who sort them by formations and then pass to 561 L. of C. S.C.U. for onward transmission, which is generally by air.

2. This arrangement should mean that No. 4 copies are received in advance of stores. If this is not the case, it is suggested that you take the matter up with your A.D.O.S.

1. In the past, a proportion of the stores despatched from ~~Sub Depot~~ have arrived here without any documentation.
2. This may have been due to several causes, often beyond ~~spot~~ control; such as packages of one consignment becoming separated on the journey and the one containing No 3 copy of I.V. arriving after the others, or else the pocket on the outside of bale carrying No 3 copy of I.V. being ripped and the voucher lost. Whatever the cause however, it makes the receipt and checking of stores a little more difficult, especially with Italian staff.
3. Sometimes both Nos 3 and 4 copies of I.V. are sent with the stores, sometimes either or both arrive by post, often after the stores have been received.
4. It would be appreciated if No 4 or some other copy of I.V. were invariably despatched by post, so that it could generally be expected to arrive here before the stores and thus act as an advice note.
5. It is felt here that in view of D.O.S. Circular ²²⁶⁵ 205 dated 3rd April 1945, as applicable to Italian Combat Forces, the question of accounting is particularly important and your earnest cooperation will be appreciated.

1. All availabilities were issued because of the urgency and of the fact that you state this Unit is rejoining its Combat Group within a week. However it is considered the least you could have done, was to have submitted demands for the items required and not a lengthy detailed list. No less than 15 Issue Orders had to be prepared by my staff.

2. With reference to para 3 of your letter, a check has revealed that no previous demands have been submitted, for this Unit and further a big majority of the items are not in short supply.

Further to my signal CRD/1/55 in reply to your CRD/2/505/239/92 of 11st. March 1945.

1. Apparently some clarification is required as to why I have demanded a further 2000 sets of Summer clothing after my initial demand of 16000.
2. The reason is that the IMC ICZ is a training centre for Italian recruits who arrive as civilians, are clothed and equipped, follow a course of training and are then sent to reinforce combat groups.
3. You will doubtless have observed by now that my demands of Battle Dress and winter clothing have been constantly repeated, usually for consignments of 2000 sets at a time, with the advent of summer, naturally I am switching over these demands to Khaki Drill etc.
4. The centre holds up to 13000 military personnel and the weekly flow may be anything up to 2000, though on an average it should not be more than 1000-1500.
5. All reinforcements going forward after 1 April '45 should take K.D. with them. My demand for 16000 sets therefore included approximately 4000 for such reinforcements and 12000 for personnel at the centre on or about 1 May when summer clothing should be worn.
- Further demands, including my last one for 2000 are to clothe recruits from "civvy street" likely to arrive in early May.
6. As a matter of information, the Italian Combat Forces are now clothed and equipped to the same scale as British Troops. Future commitments will therefore include all normal items on British scale.

Che per le deficienze delle mutande, delle camicie di flanella e delle maglie alcuni colli di detti oggetti contenevano, in luogo dei suddetti oggetti, degli stracci.

1. The position regarding Italian Caps F.S. is still unsatisfactory as no further releases have been received since then.
2. Present stocks at IRTC ICF are nil, and consequently reinforcements are leaving without head-gear.
3. Can an early release be expected?
4. It is observed from M.E.I. Table 72, recently amended, that Caps F.S. are included - "where applicable" - does this mean British Caps F.S. and if so are we entitled to demand them?

1. I have been approached by Ufficio Servizi, H.Q. R.T.C. I.C.F. for the supplying of 21 sets of equipment and materials for tailors.
2. These would include Sewing Machines, Flat Irons, Tailors rules, Measuring tapes, Scissors, and a quantity of expendable materials such as cotton, needles and tailors chalk.
3. Can the necessary staff authority be obtained for these items to be provided, please?
4. Doubtless the quantity suggested will be considered excessive, as 4 sets are requested per Regiment and one each for such units as C.O.R.R., Hospitals, etc; but as I have noticed that 3 Tailors are included on the W/E of Clothing Store R.T.C., perhaps sufficient equipment could be obtained for the latter, to serve the whole of the R.T.C.

2. Release is therefore requested to meet a necessity due to local circumstances.
3. Reasons for the demand are as under :-

(i) R.F.O. Central Storehouse deals largely in "bulk" - receipts are up to 50 tons per consignment and issues are frequently in lots of 500 - 1000 sets of clothing and equipment.

(ii) Except for the use of one dilapidated trolley, all bulks and packing cases are moved by "manpower". A slow process as transport, either loading or unloading, cannot usually be done very far into a shed.

(iii) It has been found necessary to institute a receipts shed in order to sort out mixed loads etc., which might mean that stores have to be carried up to 100 yards when transferring them to their appropriate shed.

4. It would be appreciated if this matter were treated as urgent, and if the trucks, as demanded, or of a similar nature and suitable for the purpose, are available, transport can probably be obtained to collect them by road.

I cannot trace any entitlement for the R.T.O. to be issued with barbers' kits, and can find no mention of such kits in either the Normal or Special Equipment Lists provided by A.F.H.Q.

As obviously this is a reasonable application and the need is justifiable, would you please let me have the necessary staff authority to demand these kits.
