1. Discrepancies are not admitted. This consignment was forwarded 5 months ago, and as you have allowed such a length of time to elapse before raising a DR., we cannot be expected to accept responsibility for deficiencies.

2. Please ensure when receiving a consignment of Stores in the future, that the contents of the packages are checked as soon as possible after receipt, furthermore, should discrepancies be revealed, prepare a DR. immediately and forward to the issuing depot. 2. Reference voucher 2.643308 for towels. These towels are shown on wagon way-bill 31534 from San Giovanni, as being sent to R.T.O. I.O.F. The towels were not received at the railhead here, but 494 boots were received instead. These were intended for Florence Command, and were backloaded by this H.Q. to A.B.A.O. Rome. A Discrepancy report on the towels is not considered necessary, as replacement has already been made on IV 2.659048. Your signal 2/SUB/10/201/378 of 12 November refers. 1. In spite of the fact that 325 Greatcoats were stated as issued to R.E.M.E. M.E.F. on IV 2/033120, only 292 were received, checked by British Ordnance Staff and signed for by the Italian Representative here.

2. Thirteen bales were signed for by this H.Q.'s British Ordnance Representative at A.D.O.D. Railhead, Rome, as follows :-

11 X 15 = 165
2 X 20 = 40
Total 205

3. Owing to the further discrepancy of 78 an investigation was made, pending a discrepancy report, from this branch. 2750
As a result of this it has been found that a mistake has apparently been made on your IV 2/033120 between the actual number of Greatcoats issued ie. 325 and bales despatched as follows :-

11 X 15 = 165
1 X 25 = 25
3 X 20 = 60
Total 250

This leaves the balance deficient of 2 bales as in para 2 above equalling 205 plus a further discrepancy of 3 Greatcoats.

Your OMD/16/64 dated 23.10.45.

Your difficulties are appreciated but they also existed here. Due to a very small British Staff we have to rely upon dishonest Italians to do the packing and you will appreciate that every package made up in the S.O.D. cannot be checked personally by British O.R's.

Similar discrepancies occur in Standard packages made up in U.K., in fact it might be said to be general.

This discrepancy will be thoroughly investigated and everything possible will be done to improve matters.

For information to:
A.D.O.S.,
R.A.A.S., RCC.

1. For some months it has been necessary to count the contents of every "Standard Package" arriving here from 557, ECD, because, on opening and counting them RO. RAC, ICP, taff frequently reported discrepancies, and would not sign for the number of items vouchered to them, according to the quantities stencilled on "Standard Packages".

2. At one time, when it was possible to check the contents of standard packages, (although impractical, and it should be unnecessary), but with the present total staff of 2 Storemen and 4 Clerks, during this month it has been impossible to count thousands of items of Winter Clothing arriving in large quantities for the equipping of the permanent staff and drafts leaving for the Combat Groups.

3. Therefore it was arranged for the Italian staff to accept Standard Packages (intact) and sign for the clothing accordingly, which they have done, but according to their count, there are still large discrepancies, in one case as many as 200 Shirts Angola during the period 4 to 19 October.
This being almost unbelievable I made a personal check, today, with my two British Storemen, which resulted as follows:-

1200 issued as per Voucher 2.062419. Jerseys Pullover.
Received 1171, in 10 cases, marked Quantity 120.
7 Cases contained 120 , " " " "
1 " " 116 , " " " "
1 " " 115 , " " " "
1 " " 100 , " " " "

2746

Pullovers were securely packed in brown paper inside cardboard cartons which were strengthened by battens, and sewn up in canvas. The cardboard of the case containing 110 was punctured but the canvas was intact.

4. Can something be done to avoid future discrepancies of this nature and thereby save further unnecessary work so that Standard Packages can be accepted on their "face value"

Frattanto, allo scopo di salvaguardare il Magazzino del Centro da eventuali differenze in meno sul contenuto dichiarato dei colli e di evitare, d'altra parte, al BL&TU, lunghe e non agevoli pratiche con la MMIA per la regolarizzazione di differenze sovente emerse molto tempo dopo la consegna dei colli, si prescrive:

E' stato quindi convenuto che, temporaneamente, i colli intatti siano accettati dal predetto Magazzino per il contenuto segnato all'esterno di essi; mentre per quelli giunti aperti o scuciti si procederà all'apertura ed al conteggio del contenuto prima della consegna al personale italiano.

Appena il ritmo delle affluenze lo permetterà, é inteso che il BL&TU aderirà al conteggio del contenuto di tutti i colli, nel proprio magazzino. Il conteggio sarà effettuato col concorso del personale italiano addetto al Magazzino "Ordnance", in contestazione col sottufficiale inglese.

Frattanto, allo scopo di salvaguardare il Magazzino del Centro da eventuali differenze in meno sul contenuto dichiarato dei colli e di evitare, d'altra parte, al BL&TU, lunghe e non agevoli pratiche con la MMA per la regolarizzazione di differenze sovente emerse molto tempo dopo la consegna dei colli, si prescrive:

a) Il Magazzino V.E. del Centro provveda subito al controllo del contenuto dei colli che vengono aperti per la distribuzione ai reparti, in presenza del sottufficiale e del milite dei CC. RR., a ciò giornalmente comandati. Delle differenze accertate dovrà essere data pronta comunicazione scritta al BL&TU - DADOS, recante le firme dell'Ufficiale del Magazzino V.E. del Centro e dei CC.RR. che avranno assistito al conteggio.

b) Tutti gli altri colli ricevuti dal Magazzino "Ordnance" dovranno essere aperti e controllati nel più breve tempo possibile, dal Magazzino del Centro, accertando e segnalando le eventuali differenze come prescritto al comma a).

./.

Le differenze accertate e comunicate con la suddetta procedura saranno riconosciute dal DATOS, che considererà i CC.RR. assistenti al controllo come propri rappresentanti, fino a che non potrà riprendere il conteggio del contenuto dei colli nel proprio magazzino.

Si fa viva preghiera al BL&TU di voler riadottare al più presto quest'ultimo sistema, allo scopo di permettere al Magazzino V.E. del Centro di poter fondatamente rispondere dei quantitativi trasferitigli, dopo che ne avrà firmata la ricevuta all'atto della consegna.=

October 3rd 1945.

1. I am most concerned regarding the discrepancies of stores issued to your Storehouse during the last fortnight.

2. When stores arrive, at the British Ordnance Store, intact in their packages, they are checked by the numbers, stencilled on outside of package. When stores arrive in broken packages every item is counted. The total number of stores received is entered on our Daily Receipt Sheet and extracted from there to an issue voucher which is presented to your Officer i/c Central Storehouse, who invariably claims to have received less, thus causing discrepancies.

3. Owing to the shortage of my staff it is impossible to open and count every item of stores received. I also consider it unnecessary to open and count packages which are intact, and securely packed with the number of contents clearly marked on the outside. Therefore I must impress upon you the importance of making an accurate count of all stores received; especially if you still intend to count items contained in secure packages, which I believe are accurate. Your co-operation in this particular matter will be greatly appreciated and cause less work for all concerned.

AL 'F' BRITISH LIAISON & TRAINING UNIT RTC ICF S E D E
(Riferimento vostro ORD/16/44 del 29/7 u.s.)

- - - - - -

1. Le balle di scarpe ritirate presso il 557 B.O.D. di Napoli - in casse chiodate avvolte in teli sigillati con reggetta metallica o in balle regolarmente cucite - furono scaricate il 28 luglio u.s., nelle medesime condizioni, presso il Magazzino del D.A.D.O.S. dal personale dello stesso magazzino, alla presenza del sottufficiale inglese, del magazziniere inglese e dell'ufficiale italiano che effettuò il prelevamento.

2. Durante lo scarico, che è stato eseguito facendo saltare le balle dal camion a terra, non è stata riscontrata alcuna balla scondizionata. Se ve ne fosse stata qualcuna in tale stato, essa si sarebbe certamente aperta cadendo a terra, lasciando uscire una parte del contenuto.

3. A scarico terminato, il magazziniere inglese firmò per ricevuta i buoni di consegna, senza la minima riserva, il chè dimostra che, al controllo, egli non ebbe a rilevare alcuna irregolarità.

4. Dopo la consegna da parte di chi versa il materiale, e dopo gli accertamenti da parte di chi lo riceve, ogni responsabilità del primo ha termine nel momento in cui gli viene rilasciata la ricevuta.

5. Il controllo numerico delle scarpe contenute nelle balle è stato effettuato presso il D.A.D.O.S. dopo l'avvenuta consegna e dopo che l'ufficiale italiano ebbe lasciato il magazzino.

6. Se, in quest'ultimo controllo, vennero trovate mancanti 19 paia di scarpe da 6 balle rinvenute aperte, questo è certamente dovuto ad una sottrazione che, per quanto sopradetto, non può essere avvenuta prima della consegna dei colli al D.A.D.O.S..=

3. Will you please notify all concerned that the following instructions must be carried out in respect of deficiency reports:-

(1) Deficiency Reports must be submitted within 24 hours of the stores being received by a unit.
(2) They must be signed by an Officer.
(3) The following information is essential:-
  (a) Date stores were received or collected.
  (b) Unit or place from which stores were collected or received.
  (c) Reference number of vouchers and other documents relating to the stores.
  (d) The part number and designation of every item concerned, or if this is not possible, a description of it stating for example to what larger or complete equipment it belongs.
  (e) The quantities missing or broken.
  (f) The state of packages, if any, on receipt, and package markings.

Reference the large quantity of Discrepancy Reports submitted by you during the last week.

1. It is appreciated that whilst making large issues, such as demanded by you, discrepancies will occur. However, it is considered that a number of the discrepancies could be rectified if further investigations were made.

2. In the majority of cases, D.R's are endorsed bales missing and lost in transit. Please advise what action has been taken in an endeavour to trace.

3. It is also noted that duplicate D.R's are being submitted, your reference numbers 35 & 55., 65 & 72., 61 & 67., 54 & 70., 42, 48 & 53. It is not understood why these should show different quantities as deficient, not without further pilferages are taking place when stores are in your possession. The above mentioned D.R's are returned herewith for consolidation, requesting seperate discrepancy reports for individual vouchers.

4. Discrepancy Reports No's 56, 59, 60, 63, 69 and 71 are returned for further investigation and confirmation that no possible trace of stores can be found.

5. Owing to the fact that the discrepancies are so large, no replacements are being made, pending your comments.

Reference 2 Sub Depot 357, [illegible] letter 2/JSL/74/324 of 11th July.

1. Investigation to trace missing stores is dealt with by this office in two ways. (1) By storeman contact your camp and Tuscalara Railhead. (2) Serious losses are reported to D.A.P.M. with this Bl & Pd.

2. The biggest deficiencies usually occur with items of clothing. Rail Wagons sometimes arrive with seals broken and it is obvious that organised pilferage occurs on the railway.

3. Deficiencies can be divided into two main groups:-
(1) Losses of packages in transit, and packages opened and pilfered.
(2) Many packages received intact do not contain their reputed amounts.

4. Reference para 3 of 2 Sub Depot letter. There was no case of pilfering while stores were in our possession. The receipt of stores at NTC, ICF goes through two separate stages:-
(1) The packages are counted immediately they arrive and this preliminary check assumes contents to be as stated on the package e.g. 10 bales each reputed to contain 50 pairs (sheets X) equals 500 pairs blacks.
(2) In the second stage the packages are opened in the presence of Italian representatives and the contents counted and handed over to the Italians.

The original D.R's nos. 39, 42, 61, 54, 42, 46 were prepared in error after only the first check. On opening the packages there were further discrepancies because contents were not as reputed.

5. D.R's nos. 56, 63, & 71 refer purely to deficiencies due to intact packages not containing reputed amounts. There is no possible trace of these missing stores as probably they never even existed except in theory. Nor is there any trace of the missing stores on D.R's 59, 60, & 63, after the entire receipts and has been cleared of such stores.

6. Quite frankly I do not believe there is any remedy for the pilferage which goes on unless trains and sidings are guarded by British personnel, or unless NTC, ICF collects its stores by road convoys direct from the depot.

7. A recent report I submitted to D.A.P.M. [illegible] Bl & Pd concerning the loss of Ordnance Stores while bearing no result in tracing or recovering these stores, apparently brought to light the fact that the train-guard (Italian) was involved in pilfering of other stores !.

8. The D.R's are enclosed for return to 357, S.O.D.

2. There is however another point. On this and previous consignments, tyre-valves and rubbers have been missing on arrival. An indent is attached to cover deficiencies.

3. In view of the constant thieving which appears to go on while stores are in transit by rail, may I recommend that small, but vitally indispensable items such as valves, which form part of a complete equipment, be sent separately, perhaps by post.

4. Possibly, if the policy of "breaking down" complete equipment is carried out, it may help to deter thieves, to whom an incomplete article must be of less value than the full equipment.

Ref :ORD/16/16
May 7th 1945.

Reference your 2/SOB/124/179 dated 28th April 1945.

1. The missing Combs refer to your Issue Voucher Z/609351 of 5th April 1945. The error in my ORD/16/12 of 24th April 1945 is regretted. The mistake occured because of an endorsement on your 2/609351 against Combs Hair 2000, "1 CWP see I.V. 2/609358" and this item was apparently despatched in the same consignment.

2. We have not received the combs, and there was evidence in wagon No 1016633 to suggest that pilferage had taken place, as a number of empty cartons of the type used to pack combs, were strewn over the floor

3. We have no record of wagon No 1007584 reaching this Centre and the present position of stores received on R/150 is as follows:-

	Indent	Received	Shortage
Shirts Bush	4000	3020	980
Trousers K.D.	4000	1920	2080
Shorts K.D.	2000	1490	510
Vests Tropical	4000	2950	1050
Belts, Shirts Bush	2000	NIL	2000

4. It is pointed out that trucks reaching this Centre often contain stores for several other Depots as well, and in the particular case of the above stores they were redirected from A.D.O.S. Rome, after he had extracted his own stores.

May 7th 1945.

Reference your 2/JOB/124/179 dated 28th April 1945.

1. The missing Combs refer to your Issue Voucher 2/609351 of 9th April 1945. The error in my ORD/16/12 of 24th April 1945 is regretted. The mistake occured because of an endorsement on your 2/609351 against Combs Hair 2000,"1 CWP see I.V. 2/609358" and this item was apparently despatched in the SAME consignment.

2. We have not received the combs, and there was evidence in wagon No 1016633 to suggest that pilferage had taken place, as a number of empty cartons of the type used to pack combs, were strewn over the floor

3. We have no record of wagon No 1007584 reaching this Centre and the present position of stores received on R/150 is as follows:-

	Indent	Received	Shortage
Shirts Bush	4000	3020	980
Trousers K.D.	4000	1920	2080
Shorts K.D.	2000	1490	510
Vests Tropical	4000	2950	1050
Belts, Shirts Bush	2000	NIL	2000

4. It is pointed out that trucks reaching this Centre often contain stores for several other Depots as well, and in the particular case of the above stores they were redirected from A.D.O.S. Rome, after he had extracted his own stores.

Verbale costatante lo scambio di n. 3 col i che dovevano contenere mutande di lana con n. 3 col i contenenti camice di flanella ; e l'ammanco di n. 12 camice di flanella e di n. 13 mutande di lana dai colli prelevati presso il magazzino V.E. di Cesano.

L'anno millenovecentoquarantacinque, addì 9 del mese di marzo, presso il magazzino V.E. del Campo Addestramento Attendato sito in località Villa delle Ornate, comune di Mentana:

S I A N O T O:

che la sottoscritta Commissione nominata dal Comando Campo Addestramento Attendato si è oggi riunita per il controllo degli oggetti di vestiario rinvenuti presso il magazzino V.E. di Cesano, e contenuti in colli di vario forme e dimensioni;

che la commissione ha attentamente esaminato la confezione dei colli ed ha riscontrato che tutti i colli sono perfettamente imballati e non presentano segni di manomissione;

che gli oggetti V.E. in questione sono stati ceduti dal magazzino V.E. del Centro di Cesano nel seguente modo:

camicie: 18 colli di cui 5 colli dovrebbero contenere ciascuno 100 camicie e 13 colli dovrebbero contenere 60 camicie ciascuno, più n 20 camicie sfuse per un totale complessivo di 1300 camicie di flanella.

mutande di lana: 33 colli che dovrebbero contenere ciascuno 60 mutande di lana più 20 sfuse per un totale complessivo di 2000 mutande di lana;

che precedentemente all'apertura dei colli si è riscontrato quanto segue:

per le camicie: i colli che dovevano contenere 60 camicie ciascuno erano 16 ammanco 13.

per le mutande: i colli che dovevano contenere 60 mutande ciascuno erano 30 ammanco 33.

che nei colli contenenti camicie si sono inoltre riscontrati i seguenti ammanchi, per un totale complessivo di 12 camicie di flanella in meno:
3 colli da 60 contenevano 2 camicie in meno per collo, un collo contenente una camicia in meno, e un collo contenente 5 camicie in meno mentre tutte e cinque i colli da 100 contenevano il numero esatto di camicie.

che nei colli contenenti mutande si sono inoltre riscontrati i seguenti ammanchi, per un totale complessivo di 73 mutande in meno:
5 colli con 5 mutande in meno ciascuno, 2 colli con 6 mutande in meno ciascuno, 12 colli con 2 mutande in meno ciascuno, 9 colli con 1 mutande in meno ciascuno, 1 collo con 3 mutande in meno;

che complessivamente il numero delle camicie e delle mutande contenute nei colli è il seguente:
camicie 1468 anzichè 1300 (diconsi millequattrocentosessantotto)
mutande 1747 anzichè 2000. (" millesettecentoquarantasette)

che la commissione ritiene che lo scambio di 3 colli di mutande con 3 colli di camicie sia dovuto all'impossibilità di poter distinguere i colli contenenti 60 camicie da quelli contenenti 60 mutande, perchè i colli si presentano eguali per confezione e volume; ritiene che l'ammanco riscontrato sia da attribuire ad errata confezione dei colli.

VERBALE constatante l'ammanco di n. 17 asciugatoi riscontrato all'apertura di n. 5 colli di asciugatoi prelevati presso il Magazzino V.E. del Centro di Cesano.-

L'anno millenovecentoquarantacinque, addì quindici del mese di marzo presso il Magazzino V.E. del Campo di estramento Attendato sito in località Villa delle Grazie Comune di Manziana:

P R E M E S S O:

che la sottoscritta Commissione nominata dal Comando Campo Addestramento Attendato si è oggi riunita per il controllo del numero degli asciugatoi ritirati presso il Magazzino V.E. del Centro di Cesano, contenuti in n. 5 colli;

che la Commissione ha attentamente esaminato la confezione dei colli ed ha riscontrato che tutti i colli sono perfettamente imballati e non presentano segni di manomissione;

che gli asciugatoi sono stati ceduti dal magazzino nel modo seguente:
n. 5 colli che dovrebbero contenere 200 (duecento) asciugatoi per collo per un totale complessivo di 1000 (mille) asciugatoi;

che proceduto all'apertura dei colli si è invece riscontrato quanto segue:
n. 2 (due) colli contengono effettivamente 200 (duecento) asciugatoi ciascuno, mentre un collo contiene otto asciugatoi in meno, un secondo collo ne contiene 5 (cinque) in meno, un terzo ne contiene 4 (quattro) in meno, per un totale di 17 (diciassette) asciugatoi in meno su tre colli.

che complessivamente il numero degli asciugatoi contenuti effettivamente nei colli è 983 (novecento-ottantatre) anzichè essere di 1000 (mille) con una differenza totale di 17 (diciassette) asciugatoi in meno;

che la Commissione ritiene che l'ammanco suddetto sia da attribuire ad errata confezione dei colli in partenza;

che si è redatto il presente verbale in quattro copie per ogni effetto che ne consegue.

Fatto, chiuso e sottoscritto nella data e nel luogo di cui sopra.

1. Attached is deficiency list against Special Equipment List 166/1 (Italian Theatre Overseas) handed to this office for duty by 470 Ordnance Ammunition Company.

2. It is understood that this unit is expecting its Conduct Group within the next week, and it is necessary that it should be as fully equipped as possible.

3. It is also understood, from D.A.D.O.S., 52 B.A.E., that the original demands for this unit's "G.1070" are now over two months old and presumably "dead". The attached list represents what has not yet been received.

4. Please be accompanied by an Indent Officer from this unit, and Five Lorries.

5. It would be appreciated if drivers were made of all available items on the deficiency list. Particular importance is attached to the provision of bedrolls, mattresses and pillows.

6. It would also be appreciated if heater were given vouchers, or at least a list of items issued, for my reference.

7. This unsatisfactory approach is regretted, but the matter calls for immediate attention.

? If availabilities are insufficient to load lorries please include any other stores for RTC ICF
