1.

It is noted that the items of workshop plant, at present on loan, enumerated in your letter are to be taken on charge and retained against WM by No 3 G.L. Company. It is requested however that the following points may be clarified:

(a) As mentioned in para 4 of my above - quoted letter, two plants welding and cutting HP O/A have been received through Ordnance channels in addition to the two plants held on loan from you.

(b) It is thought that this is due to the fact that items of equipment on SEL 127/2 of April 45 are being met by Ordnance without indent. This SEL includes under Section W3:-

WX-0457 Plants, welding and cutting HP O/A	2
WX-0890 " vulcaniser for tubes, Dunlop No 1, 110 DC	1
WX-0904 Sparking plug cleaner	1
WX-0259 Machines, grinding valve seats	1
WX-0304 " refacing valves	1
WX-0535 " boring 45/K58	1

Presumably all the above SEL items will be met by Ordnance automatically in the same way as the welding plants.

(c) Under the Extract from AF G. 1093/252/1 (Items of Ord 2, WX supply) showing items which must be demanded via CIT all the above items are duplicated and the descriptions and part numbers correspond with the exception of the following:-

X-0552 vulcaniser, H.P. type 782A/783B, 110 DC.
WX-0562 Spark plug cleaner and tester, battery type.

1. Para 1. Information given was additional and applied to 553 B.CO. vouchers to facilitate search in case the BLU vouchers could not be traced.
2. Designations quoted are correct. It is regretted that the scale of distribution of the Vocabulary of Ordnance Stores does not extend to this establishment, so that it is not possible to quote part no. ~~11~~ reference to quoted vouchers will reveal that items requested are for Wireless Set No 11.
3. Search has been made ^{have} in the Ordnance Transit Shed, as a result of which certain items ^{have} been recovered.
4. No immediate check was made as the stores were delivered to the school by an Indian officer who obtained a signature from a soldier in the absence of the QM. The QM made no effort to check the stores for about three weeks, and for this lack of diligence has been reprimanded. The QM. School has been informed that as a result he may be held responsible for deficiencies.
5. As a result of the final check, the following items are deficient in the item "Wireless Set No 11, complete":-

Connectors 10 Joint No 1

Reference your unreferenced letter dated 14th July 1945 concerning deficiencies against (1) my vouchers U/522 - 7 of 8th June 1945, and (2) Demand CELL 4/1225 of 23rd May 1945 under control No 6197523.

1. The latter (2) is not recognised.

2. Your letter is not clear, but it would seem that some of the items you mention are parts of equipment issued to you as complete, and others are individual items. Your designations are not the same as on the vouchers.

3. To help this office will you please quote the part nos. and correct designations of items involved, or if this is not possible state exactly to what set, instrument, or other equipment they belong.

4. In the case of individual items they were all handed over to O i/c Transit Shed for issue to your Training Centre and if there are any discrepancies I want to report the matter to HQ.RTC, ICF, for investigation.

5. The stores were handed over to Transit Shed over a month ago and 152 Signal Training Centre were then notified to collect. Did they do so immediately or only recently ?

6. It is recommended that when this Training Centre collects valuable technical equipment of this nature, it should be examined and checked on the spot and an immediate report made concerning any deficiencies.

7. The subject of deficiencies is a recurring one, and unfortunately the Italian units of RTC, ICF are in the habit of reporting them from one to four and a half months after the stores have been collected. This leaves many loopholes !

Attualmente dispone dell'unione di due centralini con un complesso di 16 linee insufficienti per l'esplicazione del servizio, a causa della dislocazione dei reparti e l'esigenza di comunicazioni esterne con i vari enti.

June 2nd 1945.

I am trying to trace a Dynamo part No.WX/0893 which was issued to the RTC ICF against release RECHI/WB/766 under Control No.8021759.

The following despatch details were forwarded by O i/c Group VIII."Package No.35D/WB/8021759 weight 1-2-10 to Cesano wagon No.202826 dtd.23/4/45".

One Sparking Plug Cleaner, which was presumably part of this package, was received here in truck No.E1005932 on 4 May '45 without any vouchers, but markings on box indicated that it was part of the above release.

Can you please trace whether wagon No.202826 was offloaded by you and whether a dynamo has been received by you against the above release?
