Subject : Method of indenting for Ordnance Stores.

LAND FORCES SUB COMM.A.C.
M.M.I.A.
R O M E
Q . 105

1 February 46

To : 12 B.L.U.

Recently a demand in Italian on A.F.G. 994 for British Ordnance Stores has been delayed at this H.Q. owing to the indent being incorrectly compiled. This indent, dated 28/12/45, was received from 152 Artillery School Via the Italian Ministry of War. Scarcely one of the stores required was indented for under its correct nomenclature or catalogue number. For instance 'LARGE BRITISH SPANNERS QTY 4' may mean any of a hundred different types.

The Ordnance branch of this mission is purely advisory and does not carry ordnance catalogues and has no clerk of its own. Therefore it would be much appreciated if all indents for British Ordnance materials could be screened by your 'Q' and Ordnance branches with a view to correct indents being forwarded as far as possible.

It is realised that 12 B.L.U. is not in possession of all catalogues but it is felt that with British help they may produce more comprehensible indents in the future.

This cannot be fulfilled

Ref. your Indent

W/S/72

for 448

Acid Sulphuric Commercial St. Gr. 1300

1. Please confirm whether this item is required by you for breaking down into Electrolyte or for other purpose (distilling, etc) ?

2. Our present stock of this item is in steel containers and C&M Laboratory has declared it unsuitable for breaking down into Electrolyte.

3. It is pointed out that ample stocks of Electrolyte St. Gr. 1350 and 1300 are available in this Sub Depot, therefore you should indent direct for Electrolyte and not for Sulphuric acid, when applicable.

4. Please state on all future indents for acid sulphuric the purpose for which required, in order to avoid unnecessary correspondence.
