Copy to HQ Rgt Trg Centre Italian Combat Forces.

Reference your 56 dated 31 Dec '44.

1. Instructions have just been received from (AS) AMHQ that all Training Scales of Equipment, less vehicles and personal weapons (i.e. Rifles, Brens and TSM's), handed over to your HQ by 52 and 53 BLM's must be withdrawn and handed over to Reinforcement Trg Centre Italian Combat Force.
2. This has been found necessary in view of the very heavy commitments for reorg and for the creation of new formations during the next few months.
3. This information is forwarded to enable you to make the very best possible distribution of the equipment as detailed in your above quoted letter and to ensure that the remaining equipment can be handed over to RGC ICF at short notice.
4. As soon as the hand over of eqpt from 52 and 53 BLM's has been completed detailed lists of eqpt to be handed over to RGC ICF will be forwarded.
5. It is regretted that this action has been found necessary but it was with this matter in view that G (AS) AMHQ released a further trg scale of new eqpt to your HQ which would later become part of your G 1098 entitlement.
6. Will you therefore assemble as much of the equipment obtained from 52 and 53 BLM's as possible with a view to a quick hand over to RGC ICF as soon as they are in a position to collect and accept delivery.
7. BLM Certificates for any unserviceable eqpt handed over should be forwarded.

1. The situation with regard to rifles for trg is far from satisfactory.
2. At the moment the RMC hold 1,000 rifles for trg purposes and there are a further 400 intended for that have not yet been received.
3. The no of rifles supplied and to be supplied by RAC will be absorbed by rfts going fwd, consequently the man will not receive his personal weapon at the beginning of his trg but at the end. He will not have done his trg with his own weapon as had been hoped. It appears unlikely that the allotment to RAC can be increased so that each man will be able to have a rifle for trg.
4. The average no of men under trg is 10,000 and as only 1,000 trg rifles are held, can a very large increase in the no of rifles please be authorized?

It seems essential that Training priority be given to

later.

It is pointed out that these are Training Arms, not
