Main Gun Park - 957 BOD.

1. A total number of 45 x 6pr A Tk Guns (drill purposes) is held in this Centre in addition to 14 x 6pr A Tk Guns that are fit for firing.
2. This number is far in excess of requirements and any surplus guns that are not required for training should be sent to a Gun Park.
3. It is suggested that 16 guns are retained (DM/88/4/1 of 2 Feb allows for this number) as associated stores for this number have been ordered, and in fact a quantity has already been received. If more than sixteen are necessary for training, then it is quite in order to retain what is required.
4. When it has been decided how many guns should be kept, then the best guns should be selected and the remainder sent to the Main Gun Park 557 BOD, Via Permetina, ROMA and Part 2 Orders for the movement completed.
5. When the guns are sent to the Gun Park they should be in as clean condition as possible, but it is appreciated that all the guns were received here in a deplorable condition.
6. Please inform this in the number of guns to be returned and the date when the remainder will be sent to the Gun Park.
