HC/6

30 Apr 46

TO : MINISTRY OF WAR

1. This HQ has discussed the supply of Air Photographs of the CERANO-BRACCIANO-GIVINATOCHE areas with the Air Force Sub Com, of Allied Commission.
2. As we are informed that the Italian Air Force possesses facilities for this type of work it is recommended that you forward a request based on our suggested table of requirements (Appx 'A') to the MINISTERO DELLA AERONAUTICA.
3. Your views and a report on the action you propose to take in this matter are requested.

SUBJECT :- Hutted Camp at MANZIANA.

12 BRITISH LIAISON UNIT
for the
ITALIAN CENTRAL MILITARY SCHOOLS
(Tel : NOBR 56318-9)

Ref : G/G.4/1065

29 March 1946.

To: H.Q.,
Central Military Schools.

Information:
Infantry School.

1. As has already been pointed out, when the 4.2-in Mortar and M.M.G. training starts, part of the training will have to be carried out away from CASSANO where safety areas are too small.
2. The most suitable area is that near MANZIANA.
3. The use of the hutted Camp as a base for field firing exercises, so as to prevent the necessity of going out every day is essential.
4. Please confirm that your headquarters is in agreement and that the hutted camp, at present belonging to SEVA, is passed to the Infantry School.

(Tel : ROME 66319)

Ref : G/G.4/1030

8 March 1946

To: H.Q.,
Central Military Schools.

1. This subject has been brought up before on many occasions, but with apparently no results. The answer being given that there is no money available.
2. It is considered that this is false economy as the life of any vehicle will be shortened by a half unless something is done about it, besides the not inconsiderable cost of boot and shoe leather and vehicle tyres.
3. If the Ministry of War cannot afford a civilian contract, it is suggested that at least a steamroller and the necessary materials might be provided in which case the elementary repairs might be effected locally to improve the deplorable state of affairs now existing.

SUBJECT :- Sports Fields.

'F' BRITISH LIAISON AND TRAINING UNIT
R.T.C., I.C.F.

Ref : G/G.4/888

12 November 1945.

Chief of Staff,
R.T.C I.C.F.

1. Despite a previous letter on this subject it is very disappointing to see that no effort has been made to produce a Sports Ground here at CESANO and that the Football Pitch opposite the Hospital continues to have on: goal-post only and is used mainly as a driving ground by the Carabinieri. Efforts are being made to produce Sports Kit from Allied sources but there are no suitable grounds. This can be no excuse for not producing adequate football fields.

2. It is not intended to refer to this matter again but it is hoped that this letter will produce the required result. Sports are a part of a soldier's training and welfare must be given the same amount of attention.

SUBJECT :- Improvements for Barracks.

'F' BRITISH LIAISON AND TRAINING UNIT
R.T.G., I.C.F.

Ref : G/G.4/846.

11 October '45.

Chief of Staff, HQ ICF.

General. At present there is a great improvement in accommodation owing to the work done by Contractors. However, there are many important improvements which can be done by the soldiers at present in the Camp to improve general facilities.

1. Disposal of Refuse.

At present it is just not disposed. The best that can be said is that it is merely being moved and dumped outside the walls of the Camp. The correct disposal of refuse is a matter of the greatest importance. All rubbish and empty tins should be burnt and buried.

Some designs of possible incinerators are forwarded. These can easily be built with the labour which is available in the Camp.

The organisation for the disposal of refuse and its supervision is one of the tasks which should be performed by the Field Hygiene Section.

2. Sports Grounds.

At present in the whole of G.M.A.C. there is no sports ground and no football pitch. The two football pitches which were have been destroyed by negligence. One largely destroyed by the Germanier driving on it. The work on IV Lotto Sports Ground has been suspended for over two months.

At present there are 6,000 man available in the Centre for ...

The organisation for the disposal of refuse and its supervision is one of the tasks which should be performed by the Field Hygiene Section.

2. Sports Grounds.

At present in the whole of OSNAC there is no sports ground and no football pitch. The two football pitches which were have been destroyed by negligence. Gas largely destroyed by the Carabinieri driving on it. The work on IV Lotto Sports Ground has been suspended for over two months.

At present there are 6,000 man available in the Centre for work and shortly there will be more. This type of work does not need civilian labour or Contractors if a keen and energetic Officer is given the men and the occasional vehicle, and it could easily be accomplished. **6999**

3. Ground between Pettine and IV Lotte.

Ground which could easily be converted into a Sports Field. A good Training Ground is being allowed to develop into a tennis field. Besides being unsightly it is a waste of good ground.

4. Conclusion.

It is a great pity if with the great amount of money being spent on the improvements of the Centre, improvements which could be made without any additional cost are not carried out.

Subject: Bulldozer.

6
'F' BRITISH LIAISON &
TRAINING UNIT RTC ICF.

Ref. C/G.4/772.

15 September 1945.

To: Officer I/C Training,
R.T.C. I.C.F.

G II Training.

The works required here of the bulldozer are as follows:

1. Level Ground by P.T. School.
2. Deal with rubbish dump at 2nd Regiment.
3. Finish No 1 Regiment Sports Ground.
4. Work on No 2 Regiment Parade Ground and Sports Field.

Ref C/S.4/747.

6 September '45.

Comandante Scola, CAS FIG.

1. The Bulldozer is at present at the Artillery Barracks at BRACCIANO and now has an Italian driver trained in its use.
2. There are many tasks for this machine here at CASANO and in particular the small parade ground outside the P.T. School which has never been completed and is continually being asked for by SMI MADDISON.
3. Would you please give instructions to have the machine brought over here forthwith. Major LARRINGTON, SO.RE advises us that all the driver needs is instructions to report here and he can drive the machine over along the road.
4. Major PRICE has several tasks in view in addition to the above.

Officer i/c Trg
RTC ICF

Ref: G/G.4/524

27 June 1945

1. The famous Divisional sports ground projected for the No.1 Regimental area is making very slow progress.
2. This is chiefly due to lack of transport for moving the soil away and bringing the necessary cinders etc, for the running track. With the presence of the ST Company, the transport situation is as good as it ever will be.
3. I understand that a Senior Staff Officer has been appointed to be officer i/c sports. If he would interest himself in this matter by arranging additional transport, it is felt that much progress would be made.
