2. It will also be noticed that the majority of names submitted came from 1/4 Regt., 3 C.A.R. and 11 C.A.R., showing that in these cases effort has been made at selection. It is felt that if all units paid the same attention to selection and wide distribution of orders that many of the personnel problems previously experienced by the P.T. School would not have arisen.

3. The view of [illegible] that a selection test should be made, is considered excellent, but might be developed into a short course as it is impossible even in the best of tests to judge all aspects of a student's capacity and character.

.....I N D I R I Z Z I .....

Le particolari esigenze della Scuola di Educazione Fisica(palestre, piscina, campo sportivo, piste regolamentari ed adeguati impianti igienici) escludono la possibilità di sistemazione nel palazzo Salviati o in altro immobile attualmente occupato, in Roma, da Enti militari.

Si prega pertanto voler esaminare l'opportunità di interessare nuovamente la Missione - che sollecita il trasferimento della Scuola da Cesano, non ritenendo sufficiente l'attrezzatura colà esistente - per ottenere la derequisizione di una parte del Foro Italico allo scopo di sistemarvi per ora almeno la sola Scuola di Educazione Fisica.

Si comunicano, per il caso che si ritenesse di accogliere la suddetta proposta, gli estremi dei fogli relativi alla prima richiesta di derequisizione del Foro Italico:

- di questo Stato Maggiore: 2553/S/6/Add. del 19/4/1946
- della Missione: - TRU/26 del 6/4/1946
  - O/219 del 7/5/1946
  - A/219 del 15/4/946

tutti pervenuti, per conoscenza, a codesto Gabinetto.

La nuova richiesta potrebbe essere giustificata dal contenuto del Capo 4 del citato foglio A/219, e precisamente: " Ulteriori locali potranno essere rilasciati a suo tempo a Roma se e quando disponibili, ma le richieste dei locali debbono essere inoltrate da codesto Ministero soltanto se documentate da speciali ragioni tecniche", che sussistono nel caso di cui trattasi.=

ALLA DIREZIONE GENERALE SERV.COMMISS E AMM/VI = S E D E

****

Le esperienze tratte dai vari corsi di Educazione Fisica svolti presso l'apposita Scuola, inducono a riprendere in esame la questione a suo tempo prospettata (F.3/432/24/3/46) da questo S.M.a codesta Direzione Generale nei riguardi di un particolare trattamento alimentare in favore degli allievi dei corsi; questione, come é noto, rimasta insoluta (f.6049/4 aprile c.a. di codesta D.G.).

Attente osservazioni fatte da allora ad oggi permettono di stabilire che l'insufficiente alimentazione dei giovani, in un periodo di intenso allenamento e di una continua applicazione di esercizi fisici, si traduce in una scarsa capacità di resistenza, in una successiva selezione ed, in definitiva, in modesti risultati.

Si tratta all'incirca di 100 allievi, pel quali sarebbe sufficiente un supplemento vitto affine a quello che é ora allo studio per gli alpini in esercitazioni.

Tenuto conto di tali necessità, si prega codesta Direzione Generale di voler porre allo studio l'opportunità di estendere, in via permanente, agli allievi della predetta Scuola, di beneficio dei supplementi che saranno concretati per gli alpini.

Inglobando l'esigua forza della Scuola in quelli degli alpini, si eviterebbero separate pratiche e le prevedibili difficoltà di accentramento da parte delle autorità preposte all'annona.=

[illegible] DEL REGIMENTO XI CORSO:

- Ufficiali nr. 19 di cui 4 G.P.
- sottuffic. " 25 " " 5 del Carab. e 2 G.P.
- Carabinieri " 7

II - RIASSUNTO DEL CORSO

- Allievi classificati	ISTRUTTORI PER SCUOLE	Nr.	4
- " "	OTTIMI ISTRUTTORI	"	6
- " "	BUONI ISTRUTTORI	"	11
- " "	SUFFICIENTI	"	10
- " "	AIUTO-ISTRUTTORI	"	5
- " non	"	"	6

La classificazione di "aiuto-istruttore" è stata adottata nei riguardi di alcuni Carabinieri che, per non poter vedere riconosciuti particolari come gli altri Allievi, Ufficiali e Sottufficiali, non potevano rientrare nelle stesse categorie di classifica.

III - SVOLGIMENTO DEL CORSO

Il corso ha avuto normale sviluppo: solo variante il programma è stata quella riguardante l'istruzione del nuoto che non ha potuto essere impartita anche la mancanza di piscina e nel contempo l'insufficienza di automezzi e di carburante per il trasporto degli allievi al mare od al lago di Bracciano.

Di particolare rilievo sono state le lezioni teoriche e pratiche relative all'abilitazione all'arbitraggio nelle gare di atletica leggera e di pugilato.

L'argomento, che ha caratterizzato l'intero corso (innovazione dalla quale ci si ripromette notevole vantaggio a favore della Scuola e dell'Esercito), si è mostrato di notevole importanza perchè non dato come era stato previsto, nuovo ed interessante impulso alla formazione della coscienza sportiva dei nuovi istruttori i quali ne hanno seguito le lezioni con grande interesse ed hanno sostenuto brillantemente gli esami, particolarmente severi.

L'innovazione ha avuto per iscopo di colmare quella lacuna costituita dalla mancanza di giudici-arbitri militari ufficialmente riconosciuti dal C.O.N.I., per la quale, in passato era giocoforza ricorrere alle Federazioni Nazionali o Provinciali per ottenere degli arbitri ufficiali in ogni manifestazione sportiva militare.

Così oggi l'Esercito conta i primi 60 giudici-arbitri militari di atletica leggera e 15 giudici-arbitri militari di pugilato, ufficialmente riconosciuti dal C.O.N.I.

Questo interessante risultato è stato raggiunto per la piena ed entusiastica adesione avuta dal C.O.N.I. e dalle varie Federazioni Nazionali e Provinciali di Roma alla proposta avanzata dalla Scuola. Gli Enti sportivi hanno inoltre offerto, con vero cameratismo sportivo, il concorso di numerosi fra i migliori tecnici nazionali, i quali si sono cortesemente prestati quali insegnanti delle varie branche dell'atletica leggera e del pugilato, sobbarcandosi a spese e fatiche non lievi.

Nel corso della medicina sportiva la cui cura ha ottenuto la preziosa collaborazione del Prof. Dr. Ugo [illegible] che ha portato un decisivo contributo nell'innalzare il livello tecnico del corso, sia nell'impartire

direttamente dalle lezioni agli altri livelli, più con consigli alla
singola classe per un'azione fondata di norma a controllo
specifico dell'attività degli allievi.

Inconvenienti notevoli per la realizzazione di tale insegnamento
per lo svolgimento delle lezioni e l'opportunità di avere il concorso
di altri tecnici sportivi di notevole valore non sempre sono stato
consentito pienamente, nonostante l'interessamento della scuola
da tempo, la grave lacuna di avere di fronte a sè - più o meno maturo,
l'insegnante medesimo di ogni grado e ordine - più o meno radicato,
di poche decine di migliaia di lire- per far fronte alle inevitabili
spese derivanti da tale concorso.

I - [illegible]

Come è avvenuto nel corso precedente, si propone di ripetere tali

in generale e si dovrà a lavori in particolare;

- la mancanza delle regole e relativa rappresentanza assolutamente necessarie per le merci deperibili e notevolmente ingombranti di prima necessità permanente (per cui occorre una capacità media giornaliera di 1 mc. per ogni 100 persone, che viene impiegata dalle Inglesi, durante sufficiente per le persone, che viene impiegata per i generi ufficiali del quadro permanente; gli ufficiali hanno bisogno di un locale di 4 mq. ogni 10 persone, mentre la truppa, nelle lontanan zarifi dell'ufficiale di . . . - la frequente necessità di ricevere rifornimenti multipli e quindi più di un normale viveri;
- l'insufficienza di un deposito di viveri attivo e che contenga almeno un quinto mensile e che venga costituito quando necessario;
- la mancanza di locali per refezione;
- l'inadeguatezza di dispensabilità di personale;
- l'inadeguatezza degli impianti igienici e la deficienza di locali di abbrevi.

Non provvedono una parte importante la mancanza di locali adatti per la cucina, la scarsa dotazione di attrezzature e la deficienza di personale addetto.

Tenendo in considerazione dei problemi logistici un razionale e definitivo per l'alloggiamento e il vettovagliamento.

VI - [illegible]

Il livello degli insegnanti è, comunque, soddisfacente pur essendo bisogno non si può dichiarare soddisfatti.

In particolare è stato, la conoscenza dei corsi, la padronanza dell'argomento e della materia e, inoltre, capacità di esporre chiaramente e precisa di stili come svolgimento e precisa di risposta e costante aggiornamento di tale personale.

Per il miglioramento tuttavia dei corsi si ritiene opportuno e necessario l'impiego di quasi tecnici tratti dall'ambiente civile locale, per i possibile avvalersi dell'esperienza del loro lavoro. Per l'avvenire, a continuare del presente corso, sarà necessario poter disporre di tre-quattro istruttori civili (come previsto dai vecchi ordinamenti) per la ginnastica ed elementari e per il pugilato.

Gli istruttori nel loro corso, come tutto il personale del comando locale, hanno fatto quanto era loro possibile per superare tutte le difficoltà dell'ambiente. Si sono rivelati e meritano un lode.

VII - [illegible]

1) - Scuola, a parte delle materie superiori, nei riguardi della sede della scuola
2) - Una più accurata scelta del personale per l'invio alla scuola per la frequenza dei corsi e per gli ufficiali che tratto il personale comandato affluisca ai corsi
3) - Istituzione definitiva -in conseguenza delle decisioni di cui al N.1) e gli impianti sportivi interni ed esterni e destinazione di un fondo a disposizione per le riparazioni e mantenimento degli impianti (fire

20.000,- mensili);

4)- Completamento della Intendenza di Istruzione;

5)- Fondo per le spese di vario impianto (lire 50.000,- mensili);

6)- Organizzazione dell'ufficio stampa (in particolare per gli argomenti di cui al Memorandum Nr.V); allargamento, impianto idrico, impianti igienici; impianto mezzi antincendi e antiaereo; aumento quantitativo e qualitativo della razione viveri; definizione del corredo per ginnastica; attrezzatura medico-sportiva; aumento rotazioni;

7)- Retribuzione del personale istruttore;

8)- Assunzione di tre-quattro istruttori civili per la ginnastica, attrezzistica e pugilato;

9)- Aumentare la durata del corso di 12 a 16 settimane.

Ho ripreso nuovamente in esame l'organico previsto per questa Scuola di Educazione Fisica, e poichè esso è perfettamente uguale al precedente -con la sola aggiunta della Sezione Equitazione che, d'altronde, non è mai stata ceduta- rilevo anzitutto che le stesse proposte fatte in conseguenza (vedasi mio foglio 02/746/R/1 del 9 Giugno c.a.) mantengono assolutamente, oggi più di prima, il loro carattere contingente. Ciò anche perchè, precedendo le stesse invito attuale fatto da Codesto, la questione generale e particolare è stata studiata altresì in considerazione di una eventuale riduzione dell'entità dei corsi in atto od in programma e dei compiti stessi della Scuola.

Comunque, poichè con le proposte fatte allora non si era concretato che alle sintesi dei regionamenti teorici, corroborati dalle esperienze e dalle materiali improrogabili necessità, ritengo

Rispondo all'attergato Nr.02/1146/Ord. di codesto Comando in data 5 corrente al foglio Nr.3266/Ord.del M.C.-S.M.R.E. Uff.Ord.e Mob. in data 29 Giugno 1946.

Ho ripreso nuovamente in esame l'organico previsto per questa Scuola di Educazione Fisica, e poichè esso è perfettamente uguale al precedente -con la sola aggiunta della Sezione Equitazione che, d'altronde, non è mai stata ceduta- rilevo anzitutto che le stesse proposte fatte in conseguenza (vedasi mio foglio 02/746/R/1 del 9 Giugno c.a.) mantengono assolutamente, oggi più di prima, il loro carattere contingente. Ciò anche perchè, precedendo lo stesso invito attuale fatto da Codesto, la questione generale e particolare è stata studiata altresì in considerazione di una eventuale riduzione dell'entità dei corsi in atto od in programma e dei compiti stessi della Scuola.

Comunque, poichè con le proposte fatte allora non si era ancora nato che alle sintesi dei ragionamenti fatti, corroborati dalle esperienze e dalle materiali improrogabili necessità, ritengo opportuno tenere di chiarire il punto di vista di questo Comando -d'altronde già noto a Codesto- che tende esclusivamente a mettere la Scuola in condizioni di poter esistere con un minimo di possibilità di assolvere al suo compito di particolarissima importanza in questo periodo.

Quindi,non si tratta di aumento di organico bensì di adeguamento dell'organico all'impianto della Scuola.

Gli organici stabiliti per questa Scuola -quello precedente e quello più recente- danno l'impressione che si presuppongo l'esistenza di una organizzazione generale di tutto il complesso di Cesano: in effetti -ora, assai più di prima- questa non esiste. A mò di esempio -per chiarire- accenno: non voler ammettere nell'organico della Scuola un certo piccolo numero di militari specializzati nel mantenimento delle palestre, dei campi sportivi e degli attrezzi ginnastici (che sono strumenti di lavoro) si deve supporre che il cosidetto "minuto mantenimento" a Cesano esista possibilità di far fronte alle necessità sempre urgenti in argomento; ma ciò non è, e tutti i lavori in conseguenza non vengono nemmeno iniziati. Impianti ed attrezzi si demoliscono così dei seguenti. Analogo esempio, ma in altro campo, però altrettanto importante; l'assenza di un barbiere, di un sarto, di un calzolaio, di un sellaio. Sono elementi che si considerano in ogni reparto dell'Esercito e quindi anche nelle Scuole consorelle; negli organici della Scuola di Educazione Fisica, invece d'inspiegabilmente, non appaiono, malgrado la necessità reale della loro funzione.

Ora, è perfettamente noto a codesto Comando che a Cesano, dove l'organizzazione logistica risente di molte improvvisazioni, di molti cambiamenti recenti, non è materialmente possibile fare a meno di personale specializzato per i servizi generali, anche perchè l'ospitalità stessa del paese è specialmente del complesso militare nega le possibilità ad elementi civili di impiantarsi per svolgervi il lo-

Con ciò è altresì chiaro che nessuna variante a diminuzione della entità dei corsi o dei compiti affidati alla Scuola può diminuire le necessità derivanti dalla esistenza della Scuola nell'ambiente in cui questa è posta.

In particolare, riferendosi alla proposta fatta in precedenza:

a)- Comandante ed Ufficiali del Comando(vale a dire: Comando Scuola con Ufficio del Comandante, Ufficio dell'Aiutante Maggiore, Sezioni Addestramento, Amministrazione, Matricola e Servizio Sanitario.

La Scuola, contrariamente a quanto stabilito dal penultimo ed

./.

Declassified E.O. 12065 Section 3-402/NNDC NO. 735020

ultimo capoverso dell'organico, non è appoggiata amministrativamente alla Scuola di Fanteria, bensì è autonoma e fa capo al Deposito 81°Rgt.Ftr. per l'amministrazione e la matricola (vedasi foglio Nr.05/1n45 del 5.1.46 Sottodat. Scuola). Pertanto è comunque, non può fare a meno di tenere una sezione amministrazione con 1 Ufficiale ed 1 Sottufficiale. (L'Ufficiale oltre le mansioni amministrative, certamente non lievi specie durante i corsi, assolve anche incarichi di servizio generali, collaborando con il Com/te del Deposito Comando, ed è direttore di mensa).

In argomento alla questione amministrativa aggiungo che non è l'autonomia amministrativa che impone la presenza di tale personale bensì è la stessa necessità materiale inevitabile di curare l'amministrazione di tutto il personale; pur pensando di dover abolire la sezione amministrativa dovrebbe essere dato -ad ogni costo- uguale personale all'Aiutante Maggiore per il disbrigo della parte amministrativa che, ripeto, è particolarmente gravosa durante i corsi.

Uguale argomentazione viene fatta nei riguardi della sezione matricola cui deve essere preposto almeno un sottufficiale: si tratta -per ripetere, di circa 50 ufficiali e 75 sottufficiali d'ogni arma e provenienza- di un lavoro che non si esaurisce nel periodo dei corsi ma continua anche nei periodi di sosta.

Per quanto riguarda la sezione addestramento basti pensare al lavoro che la Scuola impone per la sola compilazione materiale dei programmi, le stampe delle firme e documenti vari che vengono dati agli allievi, nonchè il disbrigo del lavoro di ogni giorno

del reparto Comando, ed è direttore di mensa).

Per quanto riguarda la sezione addestramento basta pensare al lavoro che la Scuola impone per la pella compilazione materiale dei programmi, la stampa delle circolari e documenti vari che vengono distribuiti agli allievi, poichè il disbrigo del lavoro di ogni giorno riguardante classifiche schede personali di esame psicofisico, ecc. Tutto ciò supera di gran lunga le possibilità di un sottufficiale ma appunto per far fronte a tali necessità sono stati devoluti compiti particolari allo stesso personale istruttore che dopo 7 ore di lavoro con gli allievi offre il suo modesto contributo al buon andamento della Scuola, anche in questo campo.

Non mi dilungo sull'attività fornita dal Comandante, che presiede a tutto, ed a quella dell'Aiutante Maggiore perchè davvero mi sembra

non ne sia il caso, soprattutto se si tiene presente le varie decine di corsi periodiche e per il lavoro che la massa di ufficiali e sottufficiali dà alla parte riservata.

Di fronte a tale lavoro è troppo logico ed ovvio -checchè se ne pensi- che si tenga conto di 2 ordinanze d'ufficio, 1 portaordini ed 1 telefonista. Nessun comando di reparto e tanto più di Scuola può ritenere e trattenere un personale più ridotto di così.

E' ovvio quindi che ridurre il numero degli allievi o la durata dei corsi e variare la periodicità dei corsi non apporta alcun qualsiasi modo si voglia esaminare la questione- alcuna possibilità di ridurre il già tanto ridotto personale.

b)- Personale istruttore: nel formulare le proposte precedenti si era tenuto conto della necessità di costituire un numero variabile di sezioni d'istruzione (di circa 20-22 allievi) con 1 ufficiale capo istruttore ed 1 sottufficiale istruttore.

La questione del personale istruttore è evidentemente collegata alla questione Scuola: se gli istruttori non sono sufficienti in numero e qualità, insufficienti saranno i risultati a fine corso, e gli allievi che l'avranno terminato non potranno che essere mediocri e addirittura insufficienti. Ciò -è evidente- non può essere lo scopo della Scuola. Ma soprattutto se gli istruttori che escono dalla Scuola sono scadenti i risultati che questi potranno ottenere ai

di Scuola può ridursi e funzionare con personale più ridotto di così.

E' ovvio quindi che ridurre il numero degli allievi o la durata dei corsi e variare la periodicità dei corsi non importa in qualsiasi modo si voglia esaminare la questione- alcuna possibilità di ridurre il già tanto ridotto personale.

Ciò -è evidente- non può essere lo scopo della Scuola. Ma soprattutto se gli istruttori che escono dalla Scuola sono scadenti i risultati che questi potranno ottenere ai reparti dove sono destinati saranno per certo mediocrissimi per non dire negativi. E questo non può sicuramente essere l'obiettivo che si propone l'Istituzione del nuovo Esercito.

La proposta di aumentare il numero degli istruttori di 2 ufficiali subalterni e 2 aiuto-istruttori (sottufficiali) non è disposta ad altro che alla necessità di far fronte ad maggior numero di personale comandato ai corsi. A chiarisco con un esempio: al IV Corso sono stati comandati complessivamente (tra C.A.R.S. e Comando Scuole) 122 allievi, se ne sono presentati 84, hanno ultimato il corso 51.

./.

Declassified E.O. 12065 Section 3-402/NSC No. 785020

Bastano queste cifre per spiegare la richiesta in quanto l'organico -ultimo approvato- prevede il modesto numero di 44 istruttori neces_ sari all'addestramento (?) di sole 60 unità fra ufficiali e sottuf_ ficiali.

Questo numero di 60 è poi tanto esiguo da non giustificare nem_ meno la scuola, in quanto gli impianti sportivi -palestre coperte e scoperte, campi sportivi ed attrezzi annessi- hanno una capacità ben maggiore (200-250 allievi) e che d'altra parte non si possono ridurre.

Ma che ai corsi partecipino 60 allievi o 250 o 300, gli istrutto_ ri non possono essere che quelli necessari cioè commisurati agli argomenti di istruzione non soltanto alla necessità di inquadra_ mento.

E che gli attuali istruttori (salvo ben s'intende delle lodevolis_ sime eccezioni: vedi anche nel campo Mag.Price) siano insufficienti per numero e qualità sia il fatto che poter portare a termine il programma del 1° Corso nelle sue giuste intenzioni è stato necessario ricorrere ad insegnanti civili che per grazioso concessione del C.O.N.I. -soprattutto in via di personale medizzia- e delle federa_ zioni nazionali e provinciali sportive hanno prestato la loro opera gratuita.

Spero che tale prestazione, ripeto gratuita, si ripeta anche per il prossimo corso, ma è evidente che si deve giungere ad una solu_ zione di carattere di personale. Se tale possibilità non potesse re liz_ zarsi [illegible] permanente di

Declassified E.O. 12065 Section 3-402/NSC Nr. 78-5020

ben maggiore (220-250 allievi) e che d'altra parte non si possono ridurre.

Ma che ai corsi partecipino 60 allievi o 150 o 100, gli istruttori non possono essere che quelli necessari cioè commisurati agli argomenti di istruzione non soltanto alla necessità di inquadramento.

E che gli attuali istruttori (salvo ben s'intende delle lodevolissime eccezioni: vedi anche rel. m/cmè Magg.Price) siano insufficienti per numero e qualità mi il fatto che poter portare a termine il programma del IV Corso nella sua quasi interezza è stato necessario ricorrere ad insegnanti civili che per gentile concessione del C.O.N.I. -soprattutto in virtù di personale amicizia- e delle Federazioni Nazionali e Provinciali Sportive hanno prestato la loro opera gratuita.

Spero che tale prestazione, ripeto gratuita, si ripeta anche per il prossimo corso, ma è evidente che si deve giungere ad una soluzione di carattere di personale. Se tale possibilità non potesse realizzarsi allora potrebbe essere contemplato l'ingaggio permanente di insegnanti civili, d'altronde previsto dal R.A. e già considerato nel vecchio organico in numero di 12.

Per contro, potrebbe essere eventualmente ridotto il personale della Sezione Scherma da 2 ad 1 solo maestro di scherma, in considerazione che in 12 settimane di corso poco si può fare. Un solo maestro invece sarebbe sufficiente per curare quelli, fra gli allievi, che hanno già avuto un'istruzione di preparazione ed hanno desiderio di perfezionarsi.

./.

1439

Declassified E.O. 13526 Section 3.4(b)/NNDC No. 785020

A rigor di termini potrebbe essere anche abolita l'istruzione dell'scherma con la conseguente disponibilità degli attuali 2 maestri. Per la precedente proposta non si era fatto cenno all'argomento per una questione di tradizione: la scherma deve essere considerata, come l'equitazione, sport nazionale che, molti, se non tutti, all'estero ci invidiano. Se egli sport la tradizione secolare deve lasciare il posto a necessità di organico, abbia l'istruzione avrà accantonato conquistato per i tempi futuri. Comunque, per fumeggiare la figura dell'istruttore che si distingue dal normale istruttore militare di reparto si deve ancora dire che ognuno di essi, oltre che essere sottoposto a lavoro duro ed estenuante di 7 ore giornaliere con gli allievi, ha ancora vari incarichi da assolvere quali la sorveglianza sulla manutenzione generale delle palestre, dei campi sportivi e degli attrezzi e, non ultimo, la parte disciplinare della rispettiva sezione e quei compiti particolari che la Sezione addestramento loro attribuisce per la preparazione delle lezioni del giorno seguente. Infine, gli istruttori sono soggetti, più ancora che gli allievi, agl'inconvenienti traumatici che si producono sul lavoro e che rendendoli sovente inadatti al compito pongono la sezione in crisi per mancanza di personale che li possa sostituire.

Se l'organico di tutta la Scuola appare -numericamente- i modesti

complesso della Scuola grava tutto su il Reparto Comando.

Il Comandante -Capitano- non può materialmente risolvere il suo
problema di comando se manca solo: tutti i servizi, inevitabilmente,

./.

Declassified E.O. 13526 Section 3.4(b)/NNCC NR. 785020

sono attribuiti a lui attribuiti, siano questi di carattere generale o particolari o contingenti.

Questi servizi pesano moltissimo su tutto e su tutti: a parte la questione degli autoveicoli assegnati in pessime condizioni d'uso ed assolutamente insufficienti per questo e per il lavoro che devono fornire i servizi giornalieri periodici e straordinari del pane, viveri, legna, foraggi, vestiario, ecc. impongono la presenza di un ufficiale e, pertanto, il Com/te del Reparto, essendo solo, deve necessariamente moltiplicare la sua attività -passando da un cutocarro all'altro- senza potervi riuscire utilmente.

A titolo di esempio, per dare la sensazione dell'onere che impongono i cosidetti servizi faccio rilevare come al prelevamento carburanti deve presenziare un ufficiale: ora i pochi automezzi in circolazione che non permettono assolutamente un turno, a fine giornata, perché sono in movimento continuo, non possono presentarsi contemporaneamente al prelevamento, così, inevitabilmente, il Com/te del Reparto deve recarsi una o due e magari tre volte al giorno al deposito carburanti. E' vero che tale compito potrebbe essere assolto da altro ufficiale: ma non rimangono disponibili che il Comandante della Squadra e l'Aiutante Maggiore!

D'altra parte l'amministrazione del Reparto è cosa assai difficile -corsi durante- per la presenza di un numero notevole di sottufficiali, ma soprattutto per i magazzini materiali di reparto

Infine, il Comte del Reparto deve conoscere i suoi uomini, che, anche se pochi, danno di combattere e la vastità del saldato attuale non è una sinecura.

Pertanto, insistito sulla necessità di un adeguamento dell'organico d'inquadramento del Reparto comando, se ciò non ostasse essere

./.

Declassified E.O. 12065 Section 3-402/NSC 18502

realizzato il Com/te del Reparto Comando dovrebbe essere scari_ cato da ogni responsabilità amministrativa delle varie gestioni. Ad ogni modo, in compenso, dovrebbe essere attribuito un ufficia le al Comando della Scuola per assumere tali gestioni che non possono essere assunte né dal Comandante della Scuola, néé dal_ l'Aiutante Maggiore, né, infine, dagli istruttori.

2°)- Automezzi: L'aumento proposto prevedeva: 1 autovettura a quattro posti, 3 autocarri da 3 Tonn. La diminuzione: 1 motoci_ clo.

La richiesta di tale aumento -come noto- è la conseguenza delle gravi ripercussioni che la loro mancanza ha provocato sull'andamen to del IV Corso. Gl'insegnamenti civili del C.O.N.I. e delle Fede_ razioni -la cui opera, ripeto, è stata gratuita- a più riprese non ha potuto venire a Cesano per la mancanza di un mezzo decente di trasporto; l'istruzione del nuoto non ha potuto mai avvenire per mancanza di mezzi di trasporto -precisamente di tre autocarri da 3 Tonn attrezzati- per portare al mare od al lago di Bracciano i di pendenti allievi.

Vi è poi -sebbene in second'ordine- la questione delle corrie_ re bisettimanali per Roma. E' questa una necessità assoluta: code_ sto Comando conosce troppo bene la situazione di Cesano ed i mezzi che lo collegano con Roma perché debba emmenarne tutti gli incon_ venienti, molti e grossi. Comunque, tutto il personale confinato a Cesano, deve nella si trova (neppure la lavandaia), deve poter ave_

clo.

Comunque, tutto il personale confinato a Cesano, dove nulla si trova (neppure la lavandaia), deve poter avere una possibilità di giungere alla città per le proprie esigenze personali almeno una volta alla settimana. Ed il treno non può servire sia per il tempo che impiega, sia per gli orari non convenienti.

Infine, i mezzi in distribuzione sono in tali condizioni pietose -e non credo di dover spendere molte parole in descrizioni perché note- che non è possibile fare assegnamento su di esse, tanto più che essendo assai limitati nel numero quando non sono efficienti, la Scuola deve ricorrere ad ogni sorta di espediente -che non sempre riescono- per assolvere i servizi di necessità vitale.

./.

1436

Declassified E.O. 12065 Section 3-402/NNC No. 185620

Senza portare degli altri esempi chiarificatori della situa_ zione, non posso che insistere sull'assegnazione definitiva -o quanto meno temporanea durante il normale svolgimento dei corsi- dell'autovettura e dei tre autocarri.

Per contro i 2 motocicli -a parte il fatto che non sono mai stati efficienti perché assegnati sotto forma di rottame- non ser_ vono affatto: potrebbe eventualmente far comodo un solo motociclo purché in condizioni di efficienza.

Ad ogno modo il numero incredibilmente grande di servizi tutti complicati e macchinosi, non consente in alcun modo che la Scuola viva con un solo autocarro leggero (ed uno di riserva): basta pen_ sare che ogni servizio dev'essere fatto a Roma poiché a Cesano, ora, non resta altro che il servizio pane.

3°)-Personale per servizi vari: E'l'argomento che in sede di pro_ posta è stato il più forte pur trattandosi di ben poca cosa.

L'organico attuale, uguale al precedente, malgrado le proposte e le varie segnalazioni (che raggiunsero il risultato di ottenere che alla Scuola venissero concessi temporaneamente alcuni militari in aiuto), non considera il personale per i servizi essenziali della Scuola, contrariamente a ciò che invece prevede per tutte le altre Scuole, appunto perché indispensabili.

In particolare l'attuale organico prevede soli sei uomini per i

purché in condizioni di efficienza.

Ad ogni modo il numero incredibilmente grande di servizi tutti complicati e macchinosi, non consente in alcun modo che la Scuola viva con un solo autocarro leggero (ed uno di riserva): basta pensare che ogni servizio dev'essere fatto a Roma poichè a Cesano, ora, non resta altro che il servizio pane.

In particolare l'attuale organico prevede soli sei uomini per i servizi vari. Ora tali servizi sono assai numerosi e richiedano un ben più forte numero di uomini. Si tratta principalmente: 435

- della manutenzione di due palestre coperte, una palestra scoperta, un campo sportivo e relativa attrezzatura -soltanto questa manutenzione assorbe tutto il personale definito per servizi vari (6 uomini);
- barbiere, sarto, calzolaio, sellaio (4 uomini);
- minuto mantenimento generale (2 muratori, 1 falegname, 1 elettricista);
- del personale addetto al servizio alloggiamento allievi (uff.e sott.) che, pur contenuto nei limiti di 1 ordinanza ogni 5 allievi, somma a circa 18-20 uomini. ./.

Nazionalizzato R.D. 12065 Sezione I-Gab/NAC n. 1850220

Elementi questi che abbisognano di qualche graduato e almeno un sottufficiale anche se -per pura ipotesi- il personale addetto al ~~mxtxmx~~ servizio degli ufficiali e sottufficiali fosse fornito dagli stessi coppi o reparti di provenienza degli allievi.

Aggiungo infine che se la Scuola non ha in organico elementi sufficienti non può neppure concedersi l'indispensabile servizio di guardia al Comando (per la cassa e gli uffici) e piantoni ai vari alloggiamenti.

Purtroppo quest'inconveniente ha avuto esiti assai spiacevoli: un furto della cassa del Reparto Comando Scuola (recuperata indenne per mero caso) e un gran numero di furti avvenuti nelle camerate ufficiali.

Sta di fatto che dopo le considerazioni suesposte, assai comuni, viene logicamente da supporre che il numero di sei militari fissato per tutti i servizi vari della Scuola sia dovuto ad una svista od un errore.

4°)-Sezione equitazione: nulla da osservare.

Alla ristrettezza dell'organico bisogna ancora aggiungere la considerazione che:

1°)- non tiene conto delle diminuzioni normali nelle presenze: circa il 15% del personale in licenza, il 15% di assenti per malattie, ricovero in ospedale, servizi fuori sede, ecc.;

2°)- non permette, in alcun caso, la intercambiabilità degli elementi, cosicché tali diminuzioni di personale e di mezzi mettono in con[illegible]ttinuazione in crisi la Scuola.

Le proposte di aumento fatte anteriormente, le lievi riduzioni che si prospettano ora sono state severamente vagliate prima di essere state trasmesse a codesto Comando.

L'Ufficiale Superiore del 12 B.L.U., Maggiore Price, che è a conoscenza, anche nel più piccolo particolare, della situazione di disagio di questa Scuola, ne ha fatto anche oggetto di varie segnalazioni:

./.

Declassified E.O. 12065 Section 3-402/NND no. 785020

le proposte di aumento sono state da lui vagliate e quasi sempre completamente confermate.

In conclusione, ritengo doveroso insistere perché finalmente la Scuola abbia l'organico che risponda effettivamente alle sue esigenze come Scuola e come Reparto dell'Esercito: più che aumento si tratta di adeguamento di organico all'impianto della Scuola.

In view of the known shortage of Physical Training Instructors in this theatre it is possible that the present A.A.T.C. Instructor, attached to this Unit, (S.S.M.I. Stevenson) may be required elsewhere.

While this W.O. has been extremely useful during his stay with this Unit and there is no desire in any way to dispense with his services, in view of previous letters received from your H.Q. it has been thought only fair to point out that the presence of this W.O. while greatly appreciated, is no longer essential.

Si trasmette in allegato la relazione fine IV corso Istruttori Educazione Fisica concordando di massima con le proposte della Scuola stessa.

In merito ai fondi a completamento dotazioni preciso che con l'assegnazione della somma dell'esercizio finanziario in corso la Scuola ha potuto far fronte alle spese di manutenzione, rimessi, acquisto di materiale didattico (attrezzi). Riserva di segnalare l'ulteriore fabbisogno per il completamento delle dotazioni.

Particolare importanza riveste la questione del trasferimento della Scuola in altra sede.

Gli inconvenienti di cui al capo V della relazione (attrezzatura logistica della Scuola) non possono essere ovviati nell'attuale sede di Cesano che è già insufficiente alle esigenze della Scuola di Fanteria e d'altra parte la costruzione ex novo di appropriati impianti per la Scuola di Educazione Fisica richiederebbe un'enorme spesa e lunghi lavori (attrezzature interne ed esterne - complessi igienici)

Per queste ragioni questo Comando già prospettò l'opportunità di trasferire la Scuola di Educazione Fisica al Foro Italico. Intanto sono stati segnalati altri locali idonei costituiti dagli edifici e impianti dell'ex casa G.I.L. a Montesacro ora occupata dall'Opera Don Guanella per l'assistenza di circa 300 orfani.

L'opera stessa non avrebbe difficoltà a trasferirsi altrove qualora le fossero concessi altri locali.

Tanto si segnala per quel conto che codesto Stato Maggiore crederà tenerne.

La classifica di "aiuto-istruttore" è stata adottata nei riguardi di cinque carabinieri che,per non possedere i requisiti particolari come gli altri allievi, ufficiali e sottufficiali,non potevano rientrare nelle stesse categorie di classifica.=

III- ANDAMENTO DEL CORSO.

Il corso ha avuto normale sviluppo:sola variante al programma è stata quella riguardante l'istruzione del nuoto che non ha potuto essere impartita causa la mancanza di piscina e nel contempo l'insufficienza di automezzi e di carburante per il trasporto degli allievi al mare od al lago di Bracciano.Di particolare rilievo sono state le lezioni teoriche e pratiche relative all'abilitazione all'arbitraggio nelle gare di atletica leggera e di pugilato.

L'argomento,che ha caratterizzato l'intero corso(innovazione dalla quale ci si propone notevole vantaggio a favore della Scuola e dell'Esercito),si è mostrato di notevole importanza perchè ha dato,come era stato previsto, nuovo ed interessante impulso alla formazione della coscienza sportiva dei nuovi istruttori i quali ne hanno seguito le lezioni con grande interesse ed hanno sostenuto brillantemente gli esami,particolarmente severi.

L'innovazione ha avuto per iscopo di colmare quella lacuna costituita dalla mancanza di giudici-arbitri militari ufficialmente riconosciuti dal C.O.N.I.,per la quale in passato era giocoforza ricorrere alla Federazioni Nazionali e Provinciali per ottenere degli arbitri ufficiali in ogni manifestazione sportiva militare.=

- 1427 -

Questo interessante risultato è stato raggiunto per la piena ed entusiastica adesione avuta dal C.C.N.I. e dalle varie Federazioni Nazionali e Prov di Roma alla proposta avanzata dalla Scuola.Tali Enti sportivi hanno inoltre offerto,con vero cameratismo sportivo,il concorso di numerosi fra i migliori tecnici nazionali,i quali si sono cortesemente prestati quali insegnati delle varie branche dell'atletica leggera e del pugilato,sobbarcandosi a spese a fatiche non lievi.
Nel campo della medicina sportiva la Scuola ha ottenuto la preziosa collaborazione del Prof.Dr.Ugo CASSINISI che ha portato un deciso contributo nell'innalzare il livello tecnico del Corso,sia nell'impartire

settamente delle lezioni agli allievi, sia con consigli alla Scuola stessa per un razionale impianto di esame e controllo specifico dell'efficienza fisica degli allievi.

Inconvenienti notevoli per la realizzazione di tali insegnamenti per lo svolgimento delle lezioni e impedimento di avere il concorso di altri tecnici sportivi di notevole valore che avrebbero potuto concorrere all'insegnamento, sono stati: la lontananza della Scuola da Roma, la grave insufficienza di mezzi di trasporto personale e l'assoluta mancanza di un fondo a disposizione - sia pure modesto, di poche diecine di migliaia di lire - per far fronte alle inevitabili spese derivanti da tale concorso.

IV - QUALITA' DEL PERSONALE

Come è avvenuto nei corsi precedenti, il personale presentatosi alla frequenza del IV corso istruttori - 84 su 122 comandati - ha posto in particolare rilievo insufficienza fisica e scarsissima attitudine agli esercizi ginnastici. Con tale elemento scadente non è possibile ottenere che dei risultati relativamente modesti.

Si ha quindi ragione di ritenere che i Corpi non hanno effettuata la scrupolosa cernita ordinata oppure non si sono resi conto dello scopo dei corsi. Cosicchè si è dovuto compiere una selezione durante il corso stesso - 33 allievi - con evidenti inconvenienti per il buon andamento e svolgimento del corso stesso.

La modesta aliquota rimasta - 51 allievi - è stata appena sufficiente a giustificare l'esistenza della Scuola, ed il suo posto nella economia generale, che invece consente, perchè è una capacità materiale normale di inquadramento, corsi di 150-200 allievi.

Si deve però riconoscere che da parte degli allievi tutti è stata posta molta buona volontà e costante applicazione per ben riuscire: i risultati sono stati veramente buoni.

Degno di rilievo e di considerazione è stata la parte disciplinare: tutto il personale ha dimostrato perfetto e costante aderenza alla forma e sostanza disciplinare. Ed in argomento si reputa opportuno proporre che di tale condotta veramente esemplare dei nuovi istruttori ne sia data segnalazione ai corpi.

Per il futuro corso allo scopo di dilatare il programma in considerazione della necessità di differire - come si è dimostrato in quello precedente - determinati argomenti di insegnamento, e perchè da svolgersi nella stagione più calda, sembra opportuno proporre che il corso sia di 16 anzichè di 12 settimane.

V - ATTREZZATURA LOGISTICA DELLA SCUOLA

Migliori risultati ancora si sarebbero potuti ottenere se, finalmente la Scuola di E.F. fosse dotata di una sistemazionelogistica adatta: quella attuale è assolutamente insufficiente e si ripercuote in modo decisamente negativo e deprimente su allievi ed istruttori, tutti sottoposti a notevolissimo sforzo psicofisico per lungo periodo.

Di particolare importanza, perchè incidono notevolmente sul complesso organizzativo, sono:

-l'insufficienza di spazio, per l'alloggiamento (i posti letto sono materialmente a contatto l'uno con l'altro senza lasciare alcun spazio libero nelle camerate);

-l'insufficienza, ed a periodi, la mancanza totale di impianti igienici in generale e di doccie e lavatoi in particolare;

Declassified E.O. 12065 Section 3-402/NNC by NARS Date 7/15/020

-la mancanza della cucina e relative attrezzature assolutamente necessaria per la mensa ufficiali e sottufficiali allievi e del quadro permanente (per ora esisterebbe una piccola cucina lasciata dal sottufficiale inglese, appena sufficiente per 12 persone, che viene impiegata per la mensa ufficiali del quadro permanente; gli ufficiali allievi sono ospiti della mensa ufficiali della Scuola di Fa teria,molto lontana dalla Scuola di B.F.; i sottufficiali allievi e del quadro permanente, non essendovi nè cucina, nè locali adatti, convivono al rancio e non hanno refettorio);
- la insufficienza quantitativa e qualitativa della razione viveri;
- l'insufficienza di un corredo di vestiario adatto e che consenta almeno un cambio settimanale e possa essere sostituito quando necessario;
- la mancanza di attrezzatura medico-sportiva;
- l'insufficienza di disponibilità di automezzi;
- l'insufficienza degli impianti sportivi interni ed esterni e la dotazione di attrezzi.

Non provvedere con tutta urgenza in argomento significherebbe frustrare lo scopo della Scuola, tenerla inutile e forse addirittura dannosa.
Comunque la soluzione dei problemi logistici su accennati è decisiva per l'effettuazione del prossimo corso.

VI PERSONALE ISTRUTTORE

Il livello degli istruttori - personale, comunque, scelto - per essendo buono non si può definire eccellente.
La permanenza a Cesano, il succedersi dei corsi, le promesse mai mantenute di una sistemazione della Scuola in altro centro, incide notevolmente sul loro rendimento e perciò si ritiene opportuno proporre una rotazione di tale personale.
Per il miglioramento tecnico dei corsi si rende assolutamente necessario l'impiego di buoni tecnici tratti dall'ambiente civile poichè non è possibile averli dall'ambiente Esercito.Nel corso testè chiuso è stato possibile avvalersi, dell'opera di alcuni istruttori di particolare valore. Per l'avvenire, a cominciare dal prossimo corso, sarà necessario poter disporre di tre_quattro istruttori civili (come previsto dai vecchi organici) per la ginnastica ed attrezzistica e per il pugilato.
Gli istruttori del IV corso, come tutto il personale del Comando Scuola; hanno fatto quanto era loro possibile per superare tutte le difficoltà

- l'insufficienza degli impianti sportivi interni ed esterni e la dotazione di attrezzi.

Gli istruttori del IV corso, come tutto il personale del Comando Scuola; hanno fatto quanto era loro possibile per superare tutte le difficoltà dell'ambiente. Ci sono riusciti e meritano una lode.

VII - P R O P O S T E

1)-Decisione, da parte delle Autorità Superiori, nei riguardi della sede della Scuola;
2)-Una più accurata cernita del personale che viene inviato alla Scuola per la frequenza dei corsi e far sì che tutto il personale comandato affluisca ai corsi;
3)-Sistemazione definitiva - in conseguenza della decisione di cui al n.1 degli impianti sportivi interni ed esterni e definizione di un fondo a disposizione per le riparazioni e mantenimento degli impianti (Lire

20.000,= mensili);

4)- Completamento della dotazione di attrezzi;

5)- Fondo per le spese di addestramento (lire 50.000 mensili)

6)- Organizzazione logistica adatta (in particolare per gli argomenti di cui al nr.V): alloggiamenti, impianto idrico, impianti igienici; impianto mense ufficiali e sottufficiali; aumento quantitative e qualitativo della razione viveri; definizione del corredo per ginnastica; attrezzatura medico-sportiva; aumento automezzi.

7)-Rotazione del personale istruttore;

8)-Assunzione di tre-quattro istruttori civili per la ginnastica, attrezzistica e pugilato;

9)-Aumentare la durata del corso da 12 a 16 settimane.

To: O.C. Physical Training School.

It is considered that while the Demonstration given on Saturday 22nd was most excellent, for future demonstrations there could be one or two slight modifications which would help to give a more complete picture of the training carried out, and also to give a slightly more polished performance.

1. Number of spectators.

It is considered that there were too many spectators for the size of the Gymnasium. The ground floor must be kept free of all spectators and only those students actually performing in the demonstration in progress should be permitted on the floor.

2. Change of programme.

Care must be taken that visitors who may have seen the previous demonstrations at the School do not think that what is shown at the demonstration represents the entire syllabus of the School.

It may well be advisable the next time to cut out the games and, for example, introduce a demonstration of unarmed combat which can be made amusing as well as instructive. In any case it is considered that if games are to be included a further selection might be made.

When games are played as a demonstration, it is essential in any case that the performers at least look, even if they do not feel, amused and interested.

3. Vaulting and Agility.

While the performance of the Instructors has improved 100 % it is still considered that there is not the great difference there should be between pupil and instructor, with the possible exception of the Chief Instructor.

In the vaulting witnessed on Saturday, while the Instructors showed plenty of dash and spring, positions in many cases were at fault and in nearly every case landings like a ton of bricks.

It is considered that during the break between the courses much attention should be paid by the Instructors to the improvement of their technique, both in vaulting and also in ground work.

Particularly is ground work bad, both with the Instructors and Pupils and a big drive should be made on this during the next course.

.....2/.

4. Parallel Bars.

It is noticed that two of the Instructors are very good at this and while it is realised that this type of work is not taught on the course it is always interesting to watch besides demonstrating the standard of the Instructor.

The inclusion of this might be considered in the next demonstration.

5. Tableau.

In my opinion always the best way of finishing the demonstration, and should be reintroduced.

14 May 1946

To: Commander,
[illegible] Lindsmen Unit.

The situation at the Physical Training School is such that the School Commander is extremely depressed and the writer certainly a little discouraged, the reasons being as follows.

1. Shortage of Equipment.

With the help of S.A.C.I. last July, a certain amount of stores were obtained from American and British Units and a very limited quantity from Italian sources. However, the total amount received was quite insufficient to supply a properly equipped School. Efforts were made to obtain stores through E.C.I. at the cost of sports kit in Italy was and still is prohibitive.

In early January a letter was received from [illegible] stating :

"A bulk purchase of sports kit from betting duty surpluses has been approved for the Italian Army. The Commissariato [illegible] should now be selecting and drawing the kit. From this the P.T. School should be equipped on full scale."

It is believed that the Italians could have bought the kit at 400 lire to the pound had they been quick off the mark.

On the 15th February a list of kit required to equip the School was sent to the Ministry of War. This list was based on a list of the stores supposed to have been bought by the Italians.

As the months passed without result, a second list was forwarded by this HQ to [illegible], who on 11 April 1946 forwarded it to the Ministry of War. On the 20th April, General Lucchi, Chief of the State Magazine, ordered the Welfare Office to supply the School with a few of the items requested in [illegible]

discouraged, the reasons being as follows.

1. Shortage of equipment.

With the help of U.N.R.R.A. last July, a certain amount of stores were obtained from American and British units and a very limited quantity from Italian sources. However, the total amount received was quite insufficient to supply a properly equipped school. Efforts were made to obtain stores through U.N.R.R.A. as the grant of stores for Italy was still in prohibitive.

In early January a letter was received from [illegible]

A bulk purchase of stores [illegible] equipment for the Italian army. The carpenters' trades should now be selecting and drawing the kit. Once this the R.E. School should be equipped on full scale.

It is believed that the Italians could have bought the kit at 40% less to the pound had they been asked off the work.

On the 15th February a list of kit required to equip the school was sent to the Embassy of War. This list was based on a list of the stores supposed to have been bought by the Italians.

As the Italian Armed Effort [illegible] to the Embassy of War. On the 11 April 1946 [illegible] to the Embassy of War. On the 11th April, General Hubert, Chief of the Civil Liaison, advised the Welfare Office to supply the school with a few of the items requested in the above mentioned letter.

The Commander of the School immediately went to the Welfare Office (Ufficio Assistenza) with the object of collecting the stores. He was met with the reply in so many words "What stores"

On Saturday last the writer asked Colonel Hubert whether or not the Italians had bought the sports kit. He replied that he thought it had been a letter saying that they had not.

2. Training, instruction and selection of a site for the school.

The present course has on the programme [illegible] instruction. However, this, up to the present has not been possible as [illegible] even if a suitable swimming pool or area could be found, the school has neither the petrol or the vehicles to bring the students to the pool, [illegible] or so.

The writer has frequently pointed out to the Italian and British authorities the desirability of moving the School to a more suitable area.

2. (Omitted).

However, being in a junior formation it is difficult to be sure that a false or comparatively low level, with the result that no efforts appear to be being made.

On the Italian side, this is due mainly to the fact that most suitable areas are in Allied hands or there are additional reasons, i.e. Germans (occupation of possibly suitable sights.

On the Italian side, the impression received is that the school is considered of very minor importance and that in any case it is a purely Italian matter.

There is a limit to what can be achieved by an officer in a comparatively junior position. It is considered that the school runs will constituting the facilities and difficulties encountered. If a first class School is required some [illegible] guidance is required.

1. Artillery Instructors Physical Training.

Physical training if badly instructed probably does more harm than good. Of the students sent by the Artillery School, possibly 3 only had any aptitude for physical training and a week is too short a time to make an Instructor. The remainder were on the average, both too old and physically unsuitable to make instructors.

If these officers and NCOs are allowed to instruct in physical training they must confine themselves to the basic exercises and not attempt any form of gymnastics for which they are totally unsuitable.

2. Employment of Instructors with Units.

It is reported that Instructors who have completed a proper course at the Physical Training School, do not use to their units find either :-

(a) That they are not employed in Physical Training.

(b) That they are the only Instructor for 3 - 4 thousand recruits.

(c) That they have no equipment available.

As regards (a), this is obviously just stupidity and needs no comment. (b), in this case the Instructor must run a Unit Cadre. A first class instructor can manage a class of about 40 students. He can take 6 or 7 in a day, therefore giving good training to about 250-300 men a [illegible]

It is reported that Instructors who have completed a proper course at the Physical Training School, on returning to their Units find either :-

(a) That they are not employed in Physical Training.

(b) That they are the only Instructor for 3 - 4 thousand recruits.

(c) That they have no equipment available.

As regards (a), this is obviously just stupidity and needs no comment. (b), in this case the Instructor must run a Unit Cadre. A first class instructor can manage a class of about 40 students. He can take 6 or 7 in a day, therefore giving good training to about 250-300 recruits. The 1 Physical Training instructor allowed on the establishment at a GHR is obviously ridiculously small when at least 15% of the total programme is physical training. It is considered there should be at least 6 or 7 instructors.

(c). Provided that the following items of equipment are provided, the instructor on return to his Unit should be able to perform 90% of the training. These items are essential :

3-in Rope	Footballs.
Medicine Balls.	Climber.
Wooden Curves.	

Training at the School must stress improvisation of training stores.

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

3. Mobile Instruction Team.

It is considered that the formation of a Mobile Instruction Team to give demonstrations would do much to popularise Physical Training at CAHs and in the Units. Those to give demonstrations on the lines of those given by SGT HARRISON's team. Cars, however, need be taken not to introduce courses requiring elaborate apparatus. The strength of the team would be about 14 all told and a 3-ton lorry should suffice for transport.

G.S. P.T. School.
Officer i/c Training,
Central Military Schools.

Reference suggested establishment. An increase of staff and change of rank from that suggested by AMG is essential. While probably ultimately desirable, it is felt that the figures asked for by the G.S. might be a little reduced.

(a) H.Q. Schools Command.
Agreed less cycle orderly and telephone operator.

(b) Instructors.
Agreed.

(c) Services Section H.Q.
Agreed less subaltern officer.

(d) Transport Section.
It is considered that possibly either a 15-cwt or 3 tonner might be reduced, but it is essential to have sufficient transport to move students for swimming etc.

(e) Personnel for maintenance of Gym and Sports ground.
(f) Local repairs etc.
Agreed.

(g) Hygiene Section.
If this remains with the P.T. School an adequate number of men must obviously be provided.

(h) Service Platoon.
Agreed except for :
Three clerks for guard duties and general duties. These can be done by men already detailed.

- 1402

The School Commander has asked for a total of 131 all ranks. It is considered that this can be comfortably reduced by at least 40 if the horses are not to remain with the School. In coming to any decision as regards the number of permanent staff for the School, it must be remembered that :

(a) Students are all either officers or NCOs.

(b) The School may in the future be away on its own.

(c) The permanent staff differs little for 30 students or 210. At present the School has a maximum of 100 but this is accommodation and not the number of instructors which is the limiting factor.

OGGETTO: Attività Scuola Educazione Fisica.-

AL 12° R. I. M.

AL COMANDO SCUOLA EDUCAZIONE FISICA
= L o r o S e d i =

.....

Riferimento fg nº 3/21/982 del 7 febbraio 1946.

1.- Attività della Scuola.

Si concorda che il primo degli obiettivi della Scuola di Educazione Fisica deve essere quello di formare degli istruttori di sicura capacità per i C.A.R.. Gli attuali programmi rispondono, in linea di massima, a tale criterio e saranno sempre più perfezionati per il migliore raggiungimento del fine.

Circa le altre attività, quali tiro ad equitazione, pur non comprendendole nei programmi dei corsi si ritiene che siano utili e gradite agli allievi non solo come passatempo sportivo ma anche quale elemento suscitatore di sano spirito agonistico.

E' da prendersi anche in considerazione che, nella eventualità di un futuro ingrandimento della Scuola, (e quindi non più con la finalità contingente di istruttori per C.A.R. e reparti bensì come Scuola di sportivi), è indubbiamente inutile che presso la Scuola esistano comunque - sia pure in germe - le basi per lo sviluppo di altre attività sportive - militari.

2.- Istruttori.

Si ha ragione di ritenere che col prossimo corso che si inizierà a fine prossimo marzo la situazione qualitativa e quantitativa degli istruttori migliorerà sensibilmente.

Il Ten.Col. DENARI, designato quale nuovo comandante della Scuola, porterà la sua particolare attenzione su questo problema.

3.- Ufficiale Medico. E' in corso di assegnazione.

4.- Materiale sportivo.
Le richieste del materiale sportivo per completare le dotazioni, già inoltrate al M.G., è seguita e sollecitata al fine di disporre del materiale stesso prima dell'inizio del prossimo corso.

5.- Mezzi di trasporto.
Sono stati già assegnati 2 autocarri da 15 CWT ed 1 autocarro da 3 tonn., come da organico.

6.- Campi sportivi.
Il campo del IV lotto è già a buon punto e sarà pronto per l'esibizione finale del corso in atto.

7.- Razione viveri.
L'attuale razione viveri non è sufficiente per l'intenza attività fisica esercitata dagli allievi durante i corsi. Questo comando ripeterà la richiesta al M.C. di un aumento di razione (grassi - zuccheri - farina) e si pregherebbe codesto S.I.S.M. di voler appoggiare anche presso il Comando Alleato questa richiesta indispensabile ai buoni risultati dei corsi.-

SUBJECT: A.P.T.C. Instructors.

Reference your (G8/G(Pt) dated 8 Feb.46.

1. I am sorry that Major H.M. Davis, who was in command of my unit during my absence on leave, has now left this H.Q. and I can find no trace of the D.O. letter referred to in yours of the 5th.

2. I fully appreciate the shortage of good instructors and am very grateful for the kindness which you have shown to us in giving us so much assistance, but I have no hesitation in asking for your further assistance. The position at present is that the Course now in progress finishes on the 2nd March but, unfortunately, owing to the relatively poor standard of pupils sent, it is essential that a further course should be run immediately in order to produce the necessary Instructors required for the training of the Italian Army. The matter of quality has been taken up very strongly with Higher Authority and I am satisfied that the next course will show a great improvement.

3. The position with regard to S.I. Worrall is that he is in the Pontine Group 26 and has just left for Transit Camp prior to proceeding to U.K. on release. S.M.I. Maddison is doing most outstanding work and is invaluable. Quite frankly, without his assistance I feel that a great deal of the value of this most essential subject will be lost. It would be of immense assistance if you could allow him to remain to supervise the further course which I have in contemplation. I would like to add that S.M.I.Maddison is very content with his work here and is perfectly willing to remain as long as he can be spared.

4. I hope you will see your way to assist us in the same generous way in which you have done in the past.

1. The importance of physical training appears to be little realised, nor is there any clear conception as to what subjects should be included at a physical training school.

2. Physical Training in war time must transform the civilian, who is comparatively physically unfit into a fighting soldier capable of great feats of endurance, necessitating, in many cases, also considerable agility. Two other subjects of great importance normally are taught -- swimming and close combat fighting.

3. During the war, all physical training had a definite war purpose and in many cases was combined with other subjects. Rifle exercises improved shooting as well as strengthening the body; swimming was done in full battle order, methods of crawling and movement across country were devised, in addition cliff climbing and scaling were taught.

4. It is insufficient to teach a man how to fire his weapons in battle if he cannot get his weapon into the required position. Only when the infantryman can operate under all conditions of ground do you start to have an army.

5. The items already mentioned cover a great deal of ground. In peace-time, however, the war-time training must be made a little more palatable and a great deal of the achievement of physical fitness must be done through games and sports.

6. It is obvious that the most important place for physical training are

Declassified E.O. 12065 Section 1-402/NND 963 185020

at a physical training school.

2. Physical Training in war time must transform the civilian, who is comparatively physically unfit into a fighting soldier capable of great feats of endurance, necessitating, in many cases, also considerable agility. Two other subjects of great importance normally are taught -- swimming and close combat fighting.

5. The items already mentioned cover a great deal of ground. In peace-time, however, the war-time training must be made a little more palatable and a great deal of the achievement of physical fitness must be done through games and sports.

6. It is obvious that the most important place for physical training are the C.A.R's. It is essential that the instructors there should be absolutely first-class. It is extremely doubtful if they are, or will be, unless some interest is shown in physical training.

7. There is nothing worse than a bad physical training instructor, and the belief that any officer can take physical training, widely held at CMHQ, is completely erroneous. It takes three months to make a reasonable instructor; at least six months a good instructor - in both cases allowing that the original material is good.

8. In this respect let it be remembered that Officers do not instruct in Physical Training -- they organise and supervise. The average officer is far too self-conscious to make a good physical training instructor.

9. The function of a P.T. School will be then to ensure that at every Battalion and corresponding unit there is one Officer capable of organising and supervising physical training in his unit, and at least two first-class N.C.Os. capable of instructing in all branches of physical training and sports. The school must also keep its instructors up-to-date by running periodic refresher courses.

10. It is therefore essential that the School itself has first-class instructors and first-class facilities. If it has both of these it will, however, fail unless good human material is sent and, even more important, that, when trained,

...../2.

Declassified E.O. 12958 Section 3.5(b)/NARC No. 185020

the students are employed as Physical Training Instructors by their Units. If these conditions are fulfilled and if Senior Officers realise the scope and importance of Physical Training, a School will soon prove its value.

11. The School must, if it is to produce instructors for physical training in the short time of three months, confine itself to essentials. As already stated, there are two purposes, (1) the physical training with the strictly battle angle, (2) peacetime application of (1) through games and sports. A Physical Training School is not interested in teaching subjects which are strictly for one section of the army only. The object of the School is to make the army fit, not just the Officers.

12. It is considered that there is no possible justification for teaching either Fencing, Equitation or Pistol Shooting, except possibly as a voluntary subject. Fencing may possibly, under some circumstances, be included, but Equitation or Pistol Shooting NO! These are subjects belonging to the different Schools. The object of a Physical Training School is not so that Italy will win the Pentathlon at the Olympic Games.

13. The subjects which a Physical Training should teach are considered to be as follows.

(a) Recruit Physical Training tables. i.e. the excercise which the Instructor will teach the recruit, to build up his physique.

(b) Excercises with battle purpose. i.e. Endurance Training (marching and running), Unarmed Combat, Swimming, Cliff Scaling, Obstacle Training, Rifle Strengthening Excercises.

(c) Gymnastics. To improve the performance of Instructors.

(d) Recreational Training. Boxing, Wrestling, all Team Games, Athletics and organisation of Unit Sports.

(e) Elementary Anatomy and Physiology.

For the above subjects, the NCO Instructor must have a first class knowledge of the instruction to be given and be an expert performer. The Officer on the other hand need not have the same standard of personal performance, but must have a greater theoretical knowledge.

14. Progress of Physical Training School.

In view of the above, the following observations are made on the Physical Training School at CMEWTO.

(a) Standard of Instruction. The Instructors are average only, there are too many Officers and not really good NCOs instructing.
It is essential that the Instructors are provided with manuals, so that they can study their lesson properly.

14. Progress of Physical Training School.

In view of the above, the following observations are made on the Physical Training School at CSEME.

(a) Standard of Instruction. The Instructors are average only, there are too many Officers and not really good NCOs instructing.
It is essential that the Instructors are provided with manuals, so that they can study their lesson properly.
These manuals sent for translation and printing several months ago appear to have become lost.
It is suggested that the occasional employment of civilian experts for lectures or demonstrations might be considered. At the moment, for example, none of the Instructors have more than an elementary knowledge of Boxing. A first class Instructor in this is required.

(b) Standard of Students. This is very low still. Unless 50% of the students sent are capable of becoming first class Instructors, the School will not be able to make any impression on the training of the army as a whole.

(c) Facilities at the School. If the equipment promised arrives, the School will be well equipped as regards indoor equipment. The School however, lacks all means of teaching swimming and other athletics. The production of these is largely a matter of a little effort on the part of the Centre.
Unless a Contractor is employed, little or nothing is achieved in the constructional line and with a reasonable amount of labour and transport, a first class Sports ground could easily be built by local resources.

14. Continued.

(d) Transport. With the breaking up of various Units, there is no reason why the School should not be provided with at least 2 vehicles of its own.

(e) Medical Officer. The provision of a permanent Medical Officer is of great importance.

1. It would be greatly appreciated if the following repairs could be carried out at the Physical Training School. These are urgent as the weather is now very cold and the sudden change of temperature after energetic exercises is causing a very high percentage of sickness amongst the students.

(a) The showers and baths in the School should be put in working order.

(b) The Central Heating plant repaired to heat the students' rooms and the water.

(c) The gymnasium now has no bulbs for working in the evenings. Many students come for recreation in the evenings (fencing etc).

2. It would be considered as a personal favour if these repairs could be undertaken as soon as possible.

Commandant APTC, Aldershot.

1. Sufficient copies of the attached Bulletin No.4 are enclosed for every APTC Instructor under your Command/Supervision.

2. Attached to the bulletin is a blank movement order which should be completed by all personnel proceeding on LIAP, unless they are stationed in Greece or Malta.

3. It is most important that the bulletin should reach all APTC instructors as quickly as possible, including those at present on LIAP.

4. P.T. & Sports Centre will ensure that each instructor passing through the Centre on transfer to APTC, returning from LIAP etc. is issued with a copy of this Bulletin, if not already in possession.

Chief of Staff, MTC ICF.
Officer i/c Training MTC ICF
(for information and pass to OC No. 1 Regt).

1. There is a great need for Sports and Gymnastic kit in this Centre. These items are universally in short supply and it is regretted that at the moment these items cannot be obtained from British sources as there is still a shortage in this theatre of operations. In any case, all items of sports kit have to be paid for in cash and prices are little or no cheaper than on the open market.

2. It is pointed out that while some of these items appear very expensive, i.e. footballs, the training staff should consider the cost in relation, for example, to that of ammunition.

3. Even at present prices it will be seen that the cost of 1 course at SIVA for ammunition alone would more than cover the cost of all sports gear required at this Centre.

4. In the British Army, sports gear in times of peace is purchased (a) by profits on Unit and Army canteens or (b) by subscriptions.

5. The profits on canteens here in CESANO are not known but if every Officer and man at this Centre paid 10 Lire a month, this would more than cover requirements.

6. Sports kit could be obtained :

(a) By purchase in the North of Italy.

(c) By appeals in the Press.

7. Gymnastic Equipment. Again the remarks in previous paragraphs apply. It is however, pointed out that much gymnastic equipment can be improvised or produced locally by carpenters. Vaulting horses, rope climbing, beams etc, should not be beyond the powers of the Unit to provide.

8. General. While it may be possible to provide from British sources the odd item required for the P.T. School, to equip a Division is not possible. The provision of sports kit is essentially Welfare matters. It is well worth a fairly high initial expenditure.

Expenditure on ammunition per month by this Centre - Lire 2,400,000

1. The Italian P.T. School is still without a Boxing Ring. They have been asked to provide one and have promised they will. However, as usual, it takes them a long time to produce.

2. Recently this H.Q. bought some items through Army Welfare Services. The prices were fantastically high and the quality very poor. In view of this it is felt that unless the boxing ring represents good value for money it should not be bought and it is considered that the Italians could make or produce a decent ring for considerably less than £75.

3. If however, they have not produced this by the next course, it is proposed to take advantage of your offer.

4. If then, the ring has not been produced by 1 November, we will inform you and ask that the ring be ordered.

1. This School is almost a 'going concern'. However until certain points are dealt with it will always remain a worry. It is therefore suggested that the following points be dealt with now so that full attention may be paid to other and more important subjects.

(a) That the climbing and heaving apparatus previously discussed be installed forthwith.

(b) That the square of ground required by the School for outside work be levelled and enclosed. It was hoped that this could be done by Bulldozer but since no driver is forthcoming, it must be done by pick and shovel. At present there several hundred men of No. 1 Regiment doing absolutely nothing. It is suggested that a proportion of these can be employed immediately on this work.

2. It has been reported to me that some students required as Instructors are not available as they are already Instructors at Depot. Any Instructors required by the P.T. School WILL be retained. This was made quite clear before the course started.

3. The translation and printing of precis must be pressed forward energetically.

4. The prompt provision of Instructors badges and distinctive uniform will be a great aid to producing a first class School. The supplying on a firm basis of the P.T. School is a matter of the greatest importance as the British Staff will be leaving shortly.

5. If any of the above mentioned subjects cannot be dealt with immediately will you, please discuss the matter with me.

1. The Italian Army School of Physical Trg has now opened at CESANO and the syllabus of trg may have to be curtailed owing to the acute shortage of sports eqpt.

2. It is understood that British Army Welfare Services are not permitted to allocate sports eqpt to the Italian Army.

3. It is suggested that the only possible solution to the problem is for the Italian War Office to purchase eqpt in America or Sweden if it cannot be obtained in Italy.

4. It is considered most important that the Italian Army should have supplies of sports eqpt. If this eqpt can not be made available not only will it be impossible to produce the best results on courses at the Italian Army PT School, but the plan for putting Physical and Recreational Trg throughout the Italian Army as a whole will be seriously prejudiced.

5. Many shops in MILAN have sports eqpt for sale and it is not known whether this possible source of supply has been investigated.

6. Will you please say whether anything can be done to improve the sports eqpt situation throughout the Italian Army.

78. ACCOMMODATION FOR FAMILIES IN UK.

1. The War Office have now stated that families of regular ORs without accommodation in UK will be put into strictly limited temporary accommodation in a communal type hutted army camp on an austerity basis.
2. Families of non-regular ORs are the responsibility of the Ministry of Health. The only possibility is very temporary accommodation in concentrated Ministry of Health austerity-type hostels with dormitory sleeping and communal feeding. The Ministry of Health will carefully screen all clients on arrival in view of the limited space available.
3. It will be appreciated from this, that only genuinely homeless families of both regular and non-regular ORs can be given here temporary accommodation. Individuals are advised to continue to take every effect to find their own accommodation.
4. It is regretted that it is not possible to provide any form of choice selection for officers' families.

Declassified E.O. 12065 Section 3.4(b)/NNDC No. 785020

Capt WEBSTER is relieving Capt BARTON while he is on LEAP, but it has not been possible to replace anyone else.

If your unit is in an Area/Sub Area without a Sports Officer you will find an APTC instructor there, who will give you all the help he can.

21. Releases - Officers.

Major VALLANCE, Capt MURPHY, Capt NELSON and Capt RILEY will all have returned to UK on Release or Python by the time this reaches you.

22. APTC Instructors.

On 31 August '45 there were 242 APTC Instructors in the theatre. This number will be much reduced in the near future, owing to release, but we hope to find essential replacements from those attending Potential APTC Instructors courses at the P.T. and Sports Centre UDINE.

23. PYTHON and LEAP.

All APTC personnel with 4 years or more continuous overseas service have now gone back to UK. PYTHON is in fact slightly ahead of schedule as far as APTC instructors are concerned.

There are over 30 APTC instructors now on LEAP and I am expecting more to go in the near future. It is my own personal view that all of you who have 2½ years or more overseas service will be on your way home this month, provided you are eligible in other respects, e.g. not within 6 months of PYTHON. This is my opinion only and should not be taken as official.

24. RELEASE FROM THE ARMY (Class "A").

Those in A/S Group 14 or earlier have now gone, unless they are serving a Regular Engagement or have voluntarily deferred their release.

The dates of Release for A/S Groups up to and including 23 have

to release, but we hope to find essential replacements from those attending Potential APTC Instructors courses at the P.T. and Sports Centre UDINE.

24. RELEASE FROM THE ARMY (Class "A").

Those in A/S Group 14 or earlier have now gone, unless they are serving a Regular Engagement or have voluntarily deferred their release.

The dates of Release for A/S Groups up to and including 23 have now been published and your unit can give you any information you require. 1294

Some of you may not be satisfied with the rate of release, and if so, I suggest that you try to see the problem through the eyes of the Government. The following are only some of the factors affecting the rate of release :-

(i) Our military commitments in enemy occupied territory and in friendly countries, such as GREECE, where both the political and economic situation is unstable. If we are to feed and clothe the starving and ill clad peoples of Europe we must obviously be strong enough to ensure that a fair distribution is made.

(ii) The necessity of ensuring that there are jobs for all of you when you are released.

(iii) The necessity of ensuring that there is somewhere for you to live when you are released.

I feel that you should not be dissatisfied with the rate of release when you consider these factors, and there are many others besides.

...../3

Declassified E.O. 12958 Section 1.4(d) NNDC No. 785020

26. PYTHON, LEAP AND RELEASE.

In para 6 of my last Bulletin I asked you to complete and return a Pro-Forma to me if you were returned to UK under any of these three schemes. Many instructors have failed to do this and so I ask you all once again to help me in this matter. It is extremely difficult for me to make any plans unless I know the form.

27. CIVIL EMPLOYMENT.

I am now getting regularly from ALDERSHOT APTC Employment Bulletins which are advertisements from the Daily and Weekly papers at Home. I am now sending these direct to you on a very wide distribution, and I hope that some of you may find the sort of job you want.

In many cases these APTC Employment Bulletins will not reach you until after the date by which your application should have been submitted. Don't be put off by this if you really fancy the job, but explain in your application that you are serving overseas and have only just heard about it, and always state the date on which you expect to be released and ready to begin work.

28. PRE-VOCATIONAL TRAINING AND VOCATIONAL COURSES.

I still have no news about Vocational Courses or the policy of the Ministries of Education, Labour and Health. However, I think it is certain that none of you would get a job under the Ministry of Education unless you can teach at least one academic subject in addition to PT.

The following is an extract of a letter recently received by the Director of Military Training from HQ Army School of Education BAOR.

> "As there are now so many educational and pre-vocational courses operating in this theatre I thought I would write to you and say that I think the most useful course for the APTC instructor, provided he has some background knowledge of the academic subject he intends to teach would be a Unit Education Instructors (General) Course

28. PRE-VOCATIONAL TRAINING AND VOCATIONAL COURSES.

I still have no news about Vocational Courses or the policy of the Ministries of Education, Labour and Health. However, I think it is certain that none of you would get a job under the Ministry of Education unless you can teach at least one academic subject in addition to PT.

The following is an extract of a letter recently received by the Director of Military Training from OC Army School of Education CMF.

> "As there are now so many educational and pre-vocational courses operating in this theatre I thought I would write to you and say what I think the most useful course for the ATC instructor, provided he has some background knowledge of the academic subject he intends to teach would be a Unit Education Instructors (General) Course which specialises in instructional methods applicable to the main academic subjects and held at this School.
>
> If, however, one of your instructors wishes to learn his academic subject then the Formation College or an Educational Centre in one of the Areas or Division is the place for him."

Though I can ill afford to spare any of you for a course unconnected with your present job out here, I am naturally not going to prejudice your chances of getting a good job after you are released.

If you want to attend a course at the Army School of Education CMF or the Formation College you should apply for a vacancy through the unit to which you are attached.

If you have any difficulties write direct to me and you must let me know if you do go on such a course. You may be doing what I consider to be a key PT job and I shall then have to try and

find a relief for you.

I am going to England in a few days to attend the Inspector of PT's conference at ALDERSHOT and I may have more news for you when I get back. If I do I will inform you at once.

Your attention is drawn to GRO 960/45

29. Physical Training and Sports Centre.

The following courses are now in full swing

(i) Potential APTC instructors courses (6 weeks)
(ii) Unit PT instructors courses (3 weeks)
(iii) Sports Orienteering, Refereeing and Coaching Courses (3 weeks)
(iv) APTC Refresher courses (10 days)

The Centre Training Area, on the UDEM Stadium is excellent and well worth a visit if you are near enough. Don't forget that the Centre is your HQ and your Home in this theatre and you are welcome there at all times. The Sergeants Mess is very good !

The Army Individual Athletic Championships are being held at the Centre on 8/9 Sep to be followed on 15/16 Sep by an Inter Service Meeting in which teams representing the Army, Royal Navy, Royal Air Force, New Zealanders and South Africans will all take part.

Attention is drawn to GRO 897/45.

25. Release (Class "B").

If you are approved for Release in Class "B" be certain that you read GRO 808/45. If you are incorrectly released you will be subject to immediate recall.

30. SERVICE IN SEAC.

Owing to the end of the war in the Far East it is unlikely that those of you who volunteered will be required. You will be informed as soon as a definite decision has been reached.

31. SERVICE IN MIDDLE EAST.

1292

It is possible that I may have to find about 4 dozen instructors for service in the Middle East. Any volunteers who want a change of scenery should send their names to me, at the address given in para 1, as soon as possible.

32. SPORT.

In addition to the competitions mentioned in para 10 of my last Publication we hope to hold Individual Boxing Championships under IABA Rules in December 1945, so start making your plans now and find out if there are any keen boxers in your unit. There will be two classes, one for Amateurs and one for Professionals.

33. SPORTS GEAR.

I am informed that Sports Gear is now in plentiful supply. I hope you agree. If not let your Supervising Officer for P.T. know at once.

34. DRESS

Every AFTC instructor should now have :-

KD blouses	(2)
White Shorts	(2 prs)
Cap Badge.	(1)
Cap Badge Flash	(1)
Desi nations Arm	(1)
Crossed Swords Badge	(1)
Vest Belt.	(1)

Anyone not in possession should inform his Supervising Officer immediately.

Supervising Officers for PT will please check every instructor's items of Dress on their visits.

The White Sleeveless vests from UK have not arrived, but I haven't yet given up all hope. When they do come they will be issued on repayment.

Black anoraks and trousers PT will not be taken into use in the winter months, and KD blouses will continue to be worn where necessary.

Don't forget that I expect you to be smartly turned out on all times, both on and off parade.

35. PUBLICATIONS.

37. SUBVLOM FOR PENSION

The following ruling has been given under War Office letter 19/G/2516 (P.3.R) dated 17 Aug '45.

"In the case of mobilized "Section D" Reservists there will be no entitlement to an award of service pension on release or discharge from the Army unless an inclusive total (colour and Reserve service) of not less than 21 years has been performed".

I feel that this information will be of great interest to many of you.

38. [illegible] LEAVE.

If any of you wish to re-enlist to complete 12 or 21 years service with the Colours, I most strongly advise you to forward your AFC 136 to me. I will then ensure that it reaches the Commanding AFTC safely and that your re-enlistment if approved is published in AFTC orders.

Those of you who are released are urged to maintain your link with the Corps through the Old Comrades Association. Full details can be obtained from the Army School of P.T.

41. COACHING TEAMS.

An Association Football Coaching Team, consisting of 5 AFTC instructors has been formed and is at present working in 13 Corps Area. The Team is based on the P.T. and Sports Centre. It is hoped that other such teams will be formed in the near future not only for Association Football, but for other Sports as well. The object of the scheme is to improve the playing efficiency of the individual and to popularize such games as basketball and softball which are not yet widely known.

Reference is made to DMT, AFHQ letter DMT/127/108/MT.2 dated 1 Sep 45 addressed to this Unit (copy to you) regarding the possibility of providing swimming instruction facilities at this Camp for PT Instructors of the Italian Army School of Physical Training.

As the numbers of personnel utilising this Camp at the moment are quite low it will be possible for the Swimming Bath here to be available for one afternoon each week after 22 Sep 45. Any afternoon, under present circumstances would be convenient. Perhaps you would be good enough to advise the day of the week selected together with the number of Instructors.

Between now and 22 Sep 45, Swimming Galas have been provisionally arranged, but as soon as this programme has been finalised particulars of the free days during this period will be forwarded to you.

It should be mentioned that under normal circumstances the swimming pool is fully occupied with leave personnel and should this situation recur then it would be necessary to adjust the above arrangement.

As it is over 3 months since I issued Bulletin No 1 to you, and as there have been many changes in personnel since then, I propose to start again with a new series of Bulletins covering the scope of our work in the present post hostilities period and containing information of personal interest to you in connection with release, post war employment etc.

1. Staff & Supervising Officers for ET.

are located as follows :-

Lt Col G. COX Major C.P.C. VALLANCE Capt E.J.N. TILLEMANS	D.M.T., A.F.H.Q.
Capt T.L. MATTHEWS Capt J. ERRINGTON MC Capt J.P. LAUBACH	HQ 1 District

You all know the functions of these officers and the ways in which they can assist you. You should get a visit from your SOPT about once a month. If things are going well in your unit it may be less often and if they are going badly it may be more often, but once a month is normal. If you are badly stuck with an event and want a special visit from your SOPT, you should contact him direct. He is there to help you do your job. SOs PT are extremely busy at present but will always visit you for a special purpose. As there are very few instructors in 2 District there is no SOPT there at present. Any AFTC instructor in 2 District who is in difficulties should therefore contact HQ direct - SOPT, MTB, AFHQ, C.M.F.

1263

2. Sports Officers.

These officers are attached to Corps, Areas, Sub Areas etc to advise units on sport and to organise leagues and look out competitions, and to advise and assist Army Welfare Services with the distribution of sports gear. If you have any problems about local sport, grounds, sports gear etc., then your local sports officer, if there is one, is the best to help you. You will also be able to help him with the organisation of competitions, athletic meetings etc. Sports officers are at present located as follows :-

3. AITC Instructors.

At June 30 1945 there were 240 AITC Instructors in the theatre which includes ALGIERS, N.I.T., GREECE, CRETE, ITALY and AUSTRIA.

4. PYTHON and LIAP

Python has now been reduced to 4 years. This 6 months reduction has placed a considerable strain on our shipping and it may be a few weeks before the scheme is properly under way. There may be a few of you who have done slightly more than 4 years overseas, and others who have done very nearly 4 years. If you are not called forward on the exact date, don't worry. I know when you are due for Python and am constantly watching your interests. You will be called forward just as soon after you have completed 4 years as transport can be arranged.

Although nothing definite has yet been published, it is known that strenuous efforts are being made to send increased numbers home to U.K. on LIAP. Shipping is again the problem but it is hoped soon to use mail travel. I appreciate that many of you who have had 2 or more years service overseas will be wondering how soon you will get home on leave. Again, don't worry - everything possible is being done and implementation of the reduced qualifying period will be made as soon as possible.

5. Release from the Army.

Declassified E.O. 12065 Section 3-402(b)(2) NN 785020

5. [illegible]

At June 30 1945 there were 249 AATC instructors in the theatre which includes ALGIERS, N.AFR., GREECE, CRETE, ITALY and AUSTRIA.

4. PYTHON and LEAP

Python has now been reduced to 4 years. This 6 months reduction has placed a considerable strain on our shipping and it may be a few weeks before the scheme is properly under way. There may be a few of you who have done slightly more than 4 years overseas, and others who have done very nearly 4 years. If you are not called forward on the exact date, don't worry. Again, don't worry - everything possible is being done and implementation of the reduced qualifying period will be made as soon as possible.

5. Release from the Army.

You will all know your age/service group for release, and the dates of release for each age/service group will be published from time to time, and extracts will no doubt be published in unit orders. The dates of release for age/service groups up to and including 46 have already been published. Your unit can give you any information you want.

The only AATC instructors who will not be released with their age/service groups are those of you who are serving on a regular engagement, the 1/262 colour service portion of which is still incomplete, and those who have volunteered to defer their release.

Any of you who wish to defer your release - and some of you may change your minds if you get a spell of leave in U.K. - should read TRO 541/45.

Some of you may be released under Clause '3' e.g. School teachers, but no definite information about this has yet been received.

6. PYTHON LEAP and RELEASE.

Any of you who receive orders to report to a Reception Camp,

...../3

Transit Camp or Assembly Camp for return to U.K. MUST complete the attached proforma which should then be handed in to the Orderly Room for despatch. Only if you do this, and keep us informed of your movements, can I replace you and take all other necessary administrative action. You will make my job easier if you will comply with this simple request.

7. PAY

Those of you who have recently been transferred to the ATTC may not be certain of the rates of pay for ATTC Instructors. The weekly rates of pay for ATTC Instructors - which do not include War Service Increments - are as follows :

S.I.	4/3
S.S.I.	5/-
C.S.I.	7/6
C.I. S.I.	11/-
C.I. I.	13/-

8. CIVIL EMPLOYMENT

When you are released you will pass through some dispersal unit in U.K. which is near your home and you will not pass through A.E.P.T. ALDERSHOT.

You are therefore advised to write to the Commandant, ATTC, ALDERSHOT after you have passed through the dispersal unit and tell him how you find yourself situated for employment and whether you want advice or assistance.

An Employment Bureau has been set up at ALDERSHOT, and it is hoped to fit all those up who want P.T. jobs with some suitable appointment.

The following are some of the authorities whom you can approach when seeking employment :-

(i) Local Education Authority.
(ii) Ministry of Labour.
(iii) Local Representative Voluntary Organisations.
(iv) Advertisements in local and other papers which can be seen in Technical Education.

At present there is no decision as to the holding of Vocational Courses. You will be informed as soon as a decision is reached, but this is unlikely to be until after the result of the General Election is known.

Declassified E.O. 12065 Section 3.402/NNDC No. 785020

It is intended to hold the following types of course :-

(a) Physical Training (3 weeks)
(b) Recruit and Training (3 weeks)
(c) Advanced Course (6 weeks)
(d) AITC Refresher Courses (1 week)

You can help considerably by providing suitable NCOs for these courses, so that they are on the course with a little knowledge of the syllabus. The object of the Advanced Course is to train junior NCOs for transfer to the AITC, in order to replace those who will be released. We therefore want keen young NCOs with at least 12- 18 months to serve, have had previous experience of PT or, alternatively, who are good games players.

If there is any NCO that you wish to recommend you should send his name to your SOIT at once. Your SOIT will know what action to take.

The first course (Recruit Trng) at IDTC starts on 16 July and it is hoped that all courses will be in full swing by the beginning of August 1945.

10. SPORT.

There is a good deal of sport going on at the moment throughout the theatre. You can get full details from your Corps, Area or Sub-Area Sports officer and/or from the "Union Jack".

In due course inter unit competitions for the whole theatre will be held in :
(i) Association Football.
(ii) Rugby Football.
(iii) Hockey.
(iv) Cross Country.

This is advance information, to enable you to start organising inter unit competitions in order to select your best unit team. Until the theatre competitions still not held here until the cooler weather.

11. SPORTS GEAR.

The amount of sports gear in the theatre has increased considerably in recent months. If you are very short of any particular items you should see that your sports officer or, if there is no sport officer in your area/ sub area, your SOIT.

11. SPORTS GEAR.

The amount of sports gear in the theatre has increased considerably in recent months. If you are very short of any particular items you should co-opt your sports officer or, if there is no sports officer in your area/sub area, your SOIT.

12. LIFE SAVING.

We are having a big drive on swimming and life saving and hope to hold R.L.S.S. Examinations during the next 3 months. If you have swimming facilities in your unit you should start life Saving classes and classes for non swimmers at once. It is most important that as many men as possible should be able to swim.

13. RECORD OF WORK.

The senior AFPU instructor in each unit will keep a record of work done each week, showing the type of work e.g. PT, Potted Sports, Recreational (Swimming not Foot ball) and also the numbers attending.

This record should be shown to your SOIT each time he visits you and should be signed by him.

14. LOCAL LEAVE.

Local leave is a matter for you to arrange with your unit. I have no objection to instructors taking such leave. However when you go on local leave you must inform your SCOT or no will who a long journey to see you and find you away on leave. SOs PT are far too busy to waste their time doing this work it is your responsibility to see that your SCOT knows the dates of your leave.

15. VOLUNTEERS FOR S.E.A.C.

Those of you who have volunteered for service in S.E.A.C. have had your names submitted to the Commandant APTC ALDERSHOT and your names have appeared in APTC Orders. I cannot, at this stage, say how many of you will be required in S.E.A.C. and I cannot guarantee that you will all get there. If you are needed you will be informed, and will get 28 days leave in U.K. first. Also if you are selected for service in S.E.A.C. you may have to forego your Tyrwhitt rights and possibly also defer your release. No action is necessary at present, and I will tell you exactly what you are required to do in this respect if your services are wanted in S.E.A.C.

16. DISCIPLINE.

I want you to remember that all members of the APTC are specially selected and that the Corps has gained a reputation for itself in the last 6 years. I expect you, as members of the Corps, to maintain a very high standard of discipline. You must always be smartly and correctly turned out, and you must set a good example in all matters. and correctly turned out, and you must set a good example in all matters.

I mention this to you because, as that the war in Europe is over, I have noticed a tendency towards already loose o.r. increased drunkenness, slovenly not correctly rolled up etc. This sort of thing will not be tolerated. It's up to you.

17. DRESS.

Every instructor should have one SD dress. If you have not got one you should see your SCOT at once, giving also required. A second SD Blue and two pairs of white gloves will be issued to each of you in the very near future and I do not also/both also white sleeveless vests from U.K.

Every instructor should have one of the following :-

I mention this because, as that the War in Europe is over, I have noticed a tendency towards slovenly dress e.g. unbuttoned trousers, sleeves not rolled up etc. This sort of thing will not be tolerated. It's up to you.

17. KITBAG.

Every Instructor should have one KD Kitbag. If you have'nt got one you should contact your Unit at once, giving size required. A second KD Kitbag and two pairs of white gloves will be issued to each of you in the very near future and I hope also to issue white sleeveless vests from U.K.

Every Instructor should have one of the following :-

(i) Cap badge.
(ii) Cap badge Flash.
(iii) Decorations Ass. (Army Physical Training Corps)

If you have not got those you should again apply to your SOTT. I am also trying to get your badges from from U.K.

1259

18. PUBLICATIONS.

Each one of you should have the following publications as a minimum :-

(i) Games & Sports in the Army.
(ii) Basic and Tactic PT 1944/45
Part I (General Principles)
Part II (Basic Tables & Tests)
Part III (Unit to Fill)
(iii) Miscell aneous Pamphlets from PT & Sports Centre.

Some of you will also have 'Small Stores Card Games and Allotted Sports', but our stock is insufficient to distribute them to all of you.

If you have a t pat (1) and (2) above you should indent on your own, as in the case of Items of Dress.

19. GENERAL.

I want you to remember that your job is still of the utmost importance in maintaining the fitness and morale of the troops and your responsibilities have increased rather than decreased with the cessation of hostilities. I regret that it is impossible for me, personally, to visit you all as often as I should like. This is not due to any lack of interest on my part, but to the onerous distractions involved. I shall still get round as often as I can, and I get frequent reports of your work from various sources.

1. The Course.
The syllabus for the course is at present being planned by Lt Col. COX (G1 PT, DMT) and will be framed to include PT, Major and Minor Games, Italian Sports, Athletics, Boxing, Close Combat and Refereeing. Final syllabus and programmes to be decided between British Staff and Italian PT Officer (Major).

Duration of the course to be 6 weeks for 60 Junior Officer and Senior NCO Students. Students for the first Course to be specially selected from the Gruppi and Ministry of War.

Course to commence about the middle of August.

2. Instructors.
MR MADDISON will supervise the course, working in close liaison with the Italian PT Major who will be responsible for Students and discipline. For the first course, the full numbers will be divided into three classes each with its British APTC Instructor. In addition One APTC Instructor will be kept as a spare. After the first Course the whole of the Instruction will be handed over to the Italian Instructors selected.

3. Interpreters.
Col. SIVO will arrange for a suitable Italian Interpreter to be made available as from Monday 23th July. This Interpreter must be carefully selected as suitable, with experience and interest in Sport and Games.

4. Training Equipment.
A useful amount of Training Equipment is now available at the Centre but there is a shortage of Sports Equipment. Attempts to obtain footballs etc are being made through the various sources discussed.

Col. SIVO will arrange for a suitable Italian Interpreter to be made available as from Monday 23th July. This Interpreter must be carefully selected as suitable, with experience and interest in Sport and Games.

4. Training Equipment.

A useful amount of Training Equipment is now available at the Centre but there is a shortage of Sports Equipment. Attempts to obtain footballs etc are being made through the various sources discussed.

5. Accommodation.

The School will be accommodated in the PT block of the No 1 Regt PPC BCF. These buildings must be cleared of all existing Troops 1257 equipment Saturday 21st July, ready to commence re-decorating and improvement during the following week. The floor of the Gymnasium to be recovered with a cement surface.

Sleeping accommodation to be found in the block for all Students. Students to feed and be administered by No 1 Regt.

Accommodation for the British Staff to be found in the PT block.

Dear Henry

As I promised, I have arranged for SMI Maddison to come down and advise you on your proposed P & MT School, and he is probably with you already. I have received your signal to say that SSI Husband has arrived, but I am moving CSMI Collings, as I want him for a special job.

I gather from James Peddie that there may be some delay in opening the School on account of certain reorganisation that is taking place, as between yourselves and the Base Rft Depots.

When you have discussed the question with Maddison perhaps you could drop me a line and tell me what the form is, as I am most anxious to give you a good start with the right instructors. In any case it will not be in our interests to give you second rate instructors, as it would then be much longer before we could hand the whole outfit over to the Italians, to run themselves.

Have NMIA given you any help with the provision of sports equipment? If not, I have a contact with a civilian organisation - C.O.N.I. - which might produce something. In basic C.O.N.I. stands for Olympic Sports Committee.

Yours
