SUBJECT: Change of category of military publications of a secret-character

The following publications laid down by the Organisation and Mobilisation Office of this S.M.E. have been considered as secret, with the nature of the arguments they deal with does not justify such a classification;

- 10/S. - "Provisional W.Es of territorial units of the Interim Army

- 13/S. - "Provisional W.Es of territorial units of the medical service -

It seems opportune that the above publications be transferred into the category "LIVRO DI OFFICINA".

As a consequence of this:

- a) the expression "PUBBLICAZIONE No...." must be cancelled on the inside and outside cover of each copy of the above publications which may have been supplied;
- b) On the same cover, a strip of paper bearing the phrase "LIVRO DI OFFICINA" must be pasted over the word "SECRET".
- c) All entries on booklet model 2 (orange colour) must be cancelled.

Please confirm receipt.

It is considered that as there must be available a large number of maps of Italian Origin, that application should first be made to the Ministry of War. If a negative reply is received this H.Q. will endeavour to obtain them.

In any case the number of maps required by you is not stated.

It is suggested that a print or equivalent Italian effort is required of A.B. 142 (War). This is the record of range practises and T.O.E.T's.

The Libretto Personali is not suitable, and both for record purposes and coaching purposes the 142 is essential for Weapon Training.

Unfortunately no copy of this book is held by this H.Q. and efforts to obtain them from publications have not been successful.

8 March 1946.

To: H.Q.,
Central Military Schools.

1. On a visit to the 536 Regiment (that part which has passed to the Infantry School) I was amazed to find that there were no typewriters or duplicators available. It appears that under a Ministry of War circular, when a Regiment is disbanded, these stores pass to the Ministry of War.

2. The fact that it is impossible to run a course for several hundred students without a typewriter appears to have been overlooked. There appears to be a certain lack of appreciation of the values, that such a state should exist.

3. It is to be hoped that efforts are being made to remedy this, in the state of affairs, and that programmes of training etc need no longer be made out in long-hand.

Further to your letter G/Trg/13/3 of 14 September 1945.

1. Major King has now visited 10 Publications Depot and ordered a complete set of all Training Manuals and Pamphlets including the more recent numbers just published.
2. When these arrive we will select the most suitable for publication in Italian and advise you in due course.
3. With regard to the two Infantry Training Pamphlets mentioned in your letter, it is felt that the tactical handling of Mortars and 6 pdr A/T Guns differs from our own methods due largely to the organisation and layout within the Gruppi which would necessitate slight alterations to the Pamphlets. Before translating we suggest the views of the BLUs with the Gruppi would probably clear this question and they could point out the alterations needed from past experience.

This Unit is not in possession of any manual or pamphlet giving information on British Methods of Saluting. This would however be found in the Manual of Elementary Drill 1935. This manual is in many ways out of date. It may be obtainable from Publications Depot. If not, it is suggested that R.A.A.C. or the Garrison Battalion may have a copy.

Reference your Monthly Progress Report of 1 Jul 45 para 1 (e), printing of Mine Training Posters. It is NOT known how these are being printed but the following suggestions are put forward :

- (1) If being printed by litho process, D Survey, AFHQ, may be able to provide old maps, as was done for the English Edition. This assumes plant capable of handling such sheets and skilled operators.
- (2) Considerable stocks, 500 to 1,000, of the English Edition are available at No 10 Publications Depot. Titles might be printed, in Italian, on gummed strips and pasted over the English as a temporary measure. There is a considerable world shortage of paper and it seems to us unlikely that supplies will be obtainable in the near future. If you desire any assistance on the lines suggested please advise us.

COMANDO RECLUTAMENTO ADDESSAMENTO SENIO

M.M. 92

Major S. J. WHITE
"P" Br. Lincoln and
Training Unit. RTC. ICF.

25th July 1945

Subject: Office Machinery

Ref. your letter C/A/S/521 dated 18th inst.

The Regimental order for the removal of the typewriter from Scuola Artieri to the Regt. was intended to be only a temporary one, owing to the fact that the typewriter belonging to the Regt., at that time was under repair and there was a plenty of Office work to be cleared, no other means being available.

On the other hand I did not know that the typewriter in question, was issued for exclusive use of Scuola Artieri, as that School could not employ it on a continuous daily work.

However, as soon as the typewriter belonging to the Regt. - under repair - was collected from the workshop, the other one was returned to Scuola Artieri.

Therefore, I believe that any misunderstanding about the matter, is now cleared.

Comandante
3 Reggimento

1. Visiting the office of the Scuola Artieri yesterday, I remarked upon the absence of a typewriter and was informed that it had been appropriated by Regimental Order.
2. I would point out that much time and trouble was spent by my predecessor, Major BLACKBURN, in obtaining the release of this typewriter from REGIA solely and only for the Scuola Artieri. I therefore consider its removal to be in excess of the authority of the Regt.
3. In the belief that these facts are not known to you, and beyond requesting the immediate return of the typewriter to the Scuola Artieri, I do not propose to take the matter any further.
