1. Quantities of British and Allied dynamite, together with mine fuzes have been recovered by British and Italian police from the vicinity of the village of ANGUILLARA, near lake BRACCIANO.
2. This is a fishing community and there is no doubt but that these explosives are used by the inhabitants for this purpose.
3. There is a suggestion that the explosives are obtained from the various Military training schools in this neighbourhood, and it might indicate some lack of security existing at such establishments.
4. Units will ensure that all necessary measures to safeguard arm and expedients are strictly enforced and maintained.
