DATE: 13 January 1947.

SUBJECT:- Experiment in personnel selection at
Orvieto C.A.R.

In order to examine the possibility of practically realising the programme of personnel selection in the Army, the recruits of the 2nd batch 1925 class assigned to Orvieto C.A.R. will be - as an experiment - will be posted to the various arms and services and relative trades or duties on the basis of such a programme.

The work of selection will be carried out by the officers of the C.A.R. shown in letter 01/3459/Mob. of this S.M. dated 7.11.1946, who will adopt, under the direction of the commandant of the C.A.R., the policy, procedure and documents on which they were trained during the apposite instructional course in personnel selection.

The Commission referred to in circular 01/3970/Mob dated 5th inst, will not therefore be formed for Orvieto C.A.R. The commandant of the C.A.R. however will see that the officer selectors conform with sub-para b) and c) of para 5 of said circular.

The officers shown in sub-paras a) and b) of said letter 01/3459/Mob will attend the said experiment - for instructional purposes.

As the absence of a/m officers must not be prejudicial to their respective units, the attendance at the experiment will be carried out as follows:

a)- from 18 to 23 January	:	officers of the Schools
b)- " 24 " 29 "	:	" " 1 st , 2 nd and 3 rd C.A.R.s
c)- " 30 January to 4 Feb	:	" " 4 th , 5 th , 6 th C.A.R.s
d)- " 5 to 10 February	:	" " 7 th , 9 th , 10 th and 11 th C.A.R.s.

Ref your 5018/1/0 of 15 Aug 46, further to our reply TRG/17 of 23 Aug 46.

1. The following information has been received from AMHQ:

"Both barracks can NOT be handed back to the Italian Government, until there ceases to be an HQ at CASERTA; this is unlikely to be before 1947.

It is hoped by rearranging the present layout to hand one of the barracks back in Oct.

There are two empty barracks at CAPUA, which were handed back when the 3ME was closed.

Further info will be fwd later."

2. It is not clear from AMHQ reply as to whether the Barracks to be handed back in October will be selected by them or whether the War Ministry can have any choice in the matter.

We suggest however that if you consider that the offer of one barracks only in October is worth accepting and if you have any preferred barracks for either ALGERIA or IN FORMATE you will inform us and we will pass your preference on to AMHQ. 843

3. We assume that both barracks at CAPUA referred to in para 3 of AMHQ letter will be required for the Engineer School.

4. We understand from 10 BLJ, from whom we made enquiries as to the availability of SALERNO barracks that 10 Territorial Command do not consider the barracks at SALERNO suitable for a bn of 10 C.A.R. and we have not pursued the matter of SALERNO any further.

2. It is understood that a further 1 Officer and 2 Under Officers will shortly be posted.
3. It is however our opinion that an even larger number of P.T. Instructors could usefully be employed at the CAR.
4. It is not suggested that the War establishment be increased but we recommend that a percentage of the duty Instructors should attend P.T. courses in order to create an internal reserve of Instructors.

1. At present the officers and N.C.O.'s who pass out of the P.T. School go to units throughout the Italian Army. Their numbers are so small that they have little or no effect in raising the standard of P.T. throughout the Army.
2. It is suggested that the greatest need for good P.T. Instructors is at the C.A.R.'s, and that for the present the policy should be to send the large majority of those trained at the P.T. School to the C.A.R.'s.
3. There is one P.T. instructor on the WE of each C.A.R. It is thought that in addition there should be at least two officers or N.C.O.'s in each recruit battalion who have qualified at the School. No increase in WE is recommended.
4. Until this "target" is reached it is suggested that at least 75% of the trainees at the P.T. School should be posted to C.A.R.'s at the end of their course.

Subject: 10th CAR detachment. (Avellino).

1. The experience acquired during the training of recruits belonging to the 1st fourmonth group has shown the necessity - due exclusively to logistic reasons and these influencing training and moral of the troops - to form a detachment of the 10th CAR in another locality of the Naples area - Avellino - of the strength of a Battalion.

2. The formation of this detachment, which is advisable, assumes a necessity which cannot be disregarded in view of the forthcoming winter, owing to the fact that part of the CAR buildings, which have been improvised, are considered as uninhabitable during the winter.

3. The most ideal area for the forming of the detachment, due to both existence of good barracks (Aldifreda and La Torretta barracks) and the suitability of ground round about ~~and also~~ the town of Caserta. The two barracks are at present occupied by Allied Units and German Hospital, the latter it seems will shortly be vacated.

Should it not be possible to have the a/m barracks, the detachment could be formed at Salerno, which is just as suitable

4. We would be very pleased if your Mission would kindly inform us as soon as possible:
- whether it approves of the formation of the detachment;
- in which of the two areas proposed - Caserta or Salerno - it could be formed with as little delay as possible.

The following extracts are taken from HQ 3 Terr. Comd. letter O4/1494 dated 6 June 46, forwarded to the Ministry of War.

- (a) The situation regarding 3 C.A.R. which is a split C.A.R., necessitates the separation of the Adm. Services, and the Inf. Coy attached to the C.A.R.. This undoubtedly calls for an increase in W.E. of a split C.A.R. and has determined the request made by 3 Terr. Comd. on 30 Apr 46 for additional staff.
- (b) As in all sub units there is a considerable amount of administrative work to be carried out by the Coy HQ and this work has called for a lot of work from the Coy Comds. who have been taken away from their duties of educational instructors, in which duty they have not been able to devote themselves with due consideration. It is suggested that the addition of one another Officer to each Coy of the C.A.R. whose main and foremost duty will be the administration of the Coy, thus leaving the Coy Comd. free to devote his time to the training side, will solve this problem.
- (c) The personnel of the Field Firing Pl. are unable to meet the requirements of the various field firing ranges, as it is necessary for each Bn. to have a range. It is therefore suggested that the Pl be increased so that sufficient specialised personnel are available to staff firing ranges for three Bns.
- (d) For administrative duties within the Coys, it is suggested that better results will be obtained if the Coys themselves have sufficient personnel on their strength to carry out the duties for each separate Coy. In this respect it is thought that the duties such as dining room orderlies, billet orderlies, etc. should be on the strength of Coys rather than personnel of the Adm. Coy or the Inf. Coy carrying out these tasks. In this respect it would decrease the number of personnel required for the W.E. of the Adm. Coy and the Inf. Regt.
- (e) It is further suggested that the appointment of a Vice Commandant is necessary to deal with the administrative matters relating to the C.A.R. thus leaving the Commandant free to concentrate on training matters.
Further to (d) above the suggested W.E. of adm. personnel for each Coy should be:-
- (f) a Pioneer Squad of:-
3. Coy Office Personnel.
 4. Coy Storemen.
 8. Orderlies.
- That to each Bn there should be assigned

Ref this HQ letter TRG/17 dated 23 Apr 46.

Ministry of War have now made the following arrangements for provision of CAR Armourers:-

1. Ministry of War has decided to allocate temporarily to each CAR one civilian qualified armourer (from the Arsenal).
2. These civilian armourers will remain attached to the CARs until they can be replaced by trained military armourers. They will attend a week's course on British weapons at Artillery Mechanics and Tradesmen School CIVITAVECHIA, beginning on 8 May 46.

3. During the second half of June a 2nd Armourers Course (for regular Artillery NCO's only) will be held. At the end of the Course personnel who qualify will be posted to CARs as Senior Armourers.

4. The Armourers Course at present being held is due to finish on 20 May 46. At the end of this Course all Students will be returned to their CARs, and those who have qualified will be employed as assistant Armourers.

Subject Training of Armourers for C.A.R.

Reply to letter TRG/17 dated 23/4/46.

- I - I have taken action regarding the proposal made in the a/m letter, this Ministry has decided to temporally allocate a civilian qualified armourer to each C.A.R., drawing them ^{from} elements already trained by arsenals. It has already been ordered that these tradesmen will attend - in order to receive the latest information on British weapons - a week's course which will commence on the 8 inst. at the Civitavecchia Artillery Mechanics and Tradesman School.
- 2 - These tradesmen will remain attached to the particular service until such time as it is possible to replace them with military elements. For this purpose it will be ordered that during the second half of next June a chief-armourers course will be carried out, which will be for regular artillery N.C.O.s only. At the end of the course the elements which appear suitable will be posted to C.A.Rs, releasing the temporally employed civilians.
- 3 - As far as the armourer trainees course is concerned, at present being carried out, we point out that all the trainees ⁴⁶²⁵¹ will be returned to their C.A.R at the end of the course (20 May 1946). Elements judged suitable and trained will be posted to the particular service by C.A.Rs.

SUBJECT: Position of Instructors' cadres of CARs.

Further to letter 2027/R/4 Add. dated 22 March last.

- 1 - On 13th inst. the 3rd Course of instructors for CARs was completed. We were therefore able to make some allotments of personnel to the CARs which had the most appreciable deficiencies.
- 2 - The position of the instructor staffs of the CARs, by the time that the personnel who have completed the 3rd Course have arrived will be that shown by the enclosed return (subaltern Officers NCOs and Junior NCOs).
- 3 - As regards Senior Officers and Captains the position is the following:
 - Senior Officers: complete W/E
 - Captains : complete W/E except Bari CAR which at present has deficiency of 2 Captains. The deficiency will be made good, drawing it from the CARs which have surplus Captains.
- 4 - In order to make good the further deficiencies of Junior NCOs and to cope with next demobilisations, Military Territorial Commands have been authorised to arrange for the training of 65 Junior NCOs for each CAR, retaining the same number of men from planned assignments to the Infantry and Medical Corps.

23 Apr 46

TO : MINISTRY OF WAR

Ref is made to this HQ letters ME/22 dat. 15 Mar and 4 Apr 46, and your letter 10/R/4 dated 15 Mar 46.

1. It is considered that the present situation of trained armourers at the CARS is not satisfactory, and that immediate steps should be taken to put this right.
2. The present ruling of higher authority, is that the British weapons, which have been issued, are on loan to the Italian Army. It is absolutely essential, therefore, that in the event of these having to be handed back they are properly cared for, inspected, and maintained.
3. It is understood that the majority of the 52 students at present under-going the Armourers course are young and with little or no previous experience of British weapons. This course will have to run for 6 weeks, and even if the students pass out satisfactorily, they cannot be considered to be fully-qualified armourers owing to their lack of previous experience.
4. You are therefore requested to give further immediate consideration to the possibility of attaching to the CARS without delay, either:-

(a) experienced armourers from the Infantry Divs, who could be replaced temporarily by selected student armourers on completion of the present Armourers Course. The remaining student armourers could be sent to the CARS as assistant armourers and would quickly gain experience from working underfully-trained men.

or (b) qualified civilians from the Arsenal, after a short course in British weapons - provided that the administrative difficulties can be overcome.

Major General,
M. M. I. A.

SUBJECT : Situation of Instructor Staffs at C.A.R.'s.

F 29431

On the verbal request of Maj. INCKOCK, we forward herewith the returns showing the situation re instructor staff at the C.A.R.'s as at today's date.

We would add. :-

- (a) The deficiencies of Senior officers (59) will be made up with the officers who are at present attending the third C.A.R. course (56) and with the eventual employment of W.O. as platoon Cmds. Moreover we shall gradually arrange for the Org of other Subaltern Instructors in relation to availabilities.
- (b) We shall arrange for the deficiency of Junior W.O.'s (992) :-
 :- with the employment of the Senior NCO's in excess of SE (429) -
 - with the employment of Senior and Junior NCO's who are present attending the third C.A.R. course (550) - with the employment of Junior NCO's drawn from units which are being disbanded. (40 already assigned)

There will thus be an effective efficiency of 173 Junior or Senior NCO's Instructors which this S.M. promises to make up gradually with the further employment of Senior NCO's.

REGULATIONS FOR THE FUNCTIONING OF
THE RECRUIT TRAINING CENTRES (C.A.R.'s)

PART I

COMMAND OF THE C.A.R.'s

1. The Recruit Training Centres (C.A.R.'s) have been instituted to give uniform training to the conscripts, of a formal individual nature, and to train Infantrymen as individual fighters and members of squads and platoons.

2. Training at the C.A.R.'s comprises two periods :-

1st Period (Primary Training) - Duration four weeks - the same for all recruits.

2nd Period (Advanced Training) - Duration eight weeks - for troops intended for :-

Infantry
Infantry Auxilliary Units
Central Organisation
Military Transport Delegations
Military Geographical Institute
Military Tribunals
Military Prisons and Detention Barracks.

To the above mentioned two periods (a total of twelve weeks) of actual training, will be added the time strictly necessary (not more than two weeks) for the reception of the recruits, their clothing, the necessary prophylactic measures (vaccinations, inoculations), separation at the end of each period.

3. Assignment of the recruits to the various Arms and Services will be made by the Commandants of the C.A.R.'s at the end of the Primary Training in relation to the assignments tables which will be forwarded by the General Staff.

Recruits assigned to the Artillery, Pioneers, Signals and Services, will, at the end of their Primary Training, be sent to the Central Schools of their respective Arm and Speciality for their 2nd Period of training.

When the troops finish their Advanced Training they will be sent to the Corps and posted to units for the continuation of their Conscript Service, or will be sent to the Central Schools for Specialist Courses.

4. The C.A.R.'s are under the direct command, for all effects, of the Military Territorial Commands.
Generally speaking, a C.A.R. is formed for each Military Territorial Command.

The War Establishment of the C.A.R.'s is contained in the Army

Generally speaking, a C.A.R. is formed for each Military Territorial Command.

The War Establishment of the C.A.R.'s is contained in the Army General Staff's - Organisation and Mobilisation Branch - Circular No 18559/Ord/1 dated 22 Nov 45.

= The Rome Military Territorial Command will, in future, have two (one on the Mainland and one in Sardinia).

5. Recruits will be clothed, equipped and armed by the C.A.R.'s. The arms, however, form part of the equipment of each C.A.R. so that the recruits must hand them in before leaving the C.A.R. for any reason whatsoever.
6. It is forbidden to distract the units of the C.A.R.'s from their training activities. Participation in reviews and parades must also be under exceptional circumstances only.
The Instructors, during courses, will be excused Garrison Duties.
7. Units in training at the C.A.R.'s will be employed in duties of Public Order only in cases of extreme necessity and at all times only upon the orders of the Military Territorial Commander.
8. At the end of their Primary Training at the C.A.R.'s the recruits will be sworn in.
9. The stores required for instruction must be prepared in advance, therefore the detailed training programme must contain a list of the suitable stores for carrying out the instruction. The stores must be placed at the disposal of the instructors a useful time in advance.
10. The intervals between the departure of trained personnel and the arrival of a new contingent will be utilised for the preparation of the next course.
Leave to the instructors deserving it will be granted during these intervals.
The high moral value which is derived from the preparations for the reception of the recruits, who must immediately have the impression that everything has been planned and prepared, is to be borne in mind.
11. The Military Territorial Commands will give timely notification to the General Staff - Operations and Training Branch - of eventual deficiencies in instructors, or, if the War Establishment has been reached, will forward proposals for the replacement of those who do not turn out to be suitable.

PART II

TRAINING

12. At each C.A.R. the Permanent Staff and the recruits in training will be separated.
All the Permanent Staff personnel must be suitable to carry out the duties of Instructor.
The preparation of the instructors of each team will be carried out at the Central Military Schools, by means of appropriate courses which will be ordered by the General Staff.
13. The Instructors will be assigned, generally speaking, at the ratio of one to each ten trainees; training squads of ten men will therefore be formed. When it is necessary to exceed this number, the squads of more than ten men will be entrusted to the most capable Instructors.
14. The C.A.R.'s Recruits Training Programmes form the subject of separate instructions, and, likewise, the percentage of personnel to be trained for employment on some collective weapons.
15. The same method of instruction will be applied to all and will be that learnt by the Instructors at the Central Military Schools. It is forbidden to introduce variations to the material contained in the Programmes or to their development.
In this field the work of the Commandants is limited to the splitting up of the time, otherwise the object for which the C.A.R.'s have been instituted would be frustrated.
16. Except in cases which the superior considers his immediate intervention is necessary, it is not advisable to interrupt the Instructors when they are intent on training the recruits.
Eventual observations should preferably be made elsewhere.
During Lessons and Instruction, the Instructors will not pay compliments to their superiors, unless the visit of the latter was announced before the commencement of the period.
17. In order to obtain the best from the Instructors, the advisability should be borne in mind of avoiding their frequent transfer. It is necessary to create for them sufficiently comfortable surroundings, facilitating the settlement of their families, the setting up of Messes and as much else as is possible to eliminate uncomfortable conditions.
18. The Commandant of the Centre must carry out the duties of Corps Commander for the Permanent Staff and Training Personnel.
In respect of the training :-
(a) He will supervise the training and is responsible for its execution in accordance with the Programmes and methods laid down by the General Staff, preventing the

The Periodical Report does not exclude other Reports, which must be made immediately, such as those which reflect the morale or feelings of the troops or point out necessities which must be provided for immediately.

19. ~ 4802
The Battalion Commander controls the work of the Instructors under his command, directing their efforts towards the attainment of the object fixed by the training, reviving their energies, clarifying any doubts and avoiding erroneous interpretations of the higher authorities' instructions.

He will coordinate the Training Activities of the Companies under his command, see to the division amongst them of the Stores which the C.A.R. HQ places at the disposal of the Battalion and make timely requests to the said HQ for anything required by the Companies under his command.

19. (Continued)

Since the duration of the Training Period is contained within the limits which are strictly essential, it is necessary that he pays particular attention to avoiding loss of time, planning in advance the Instruction to be given in the event of bad weather, or of unavailability of Firing Ranges, Areas, or suitable Stores. He is, therefore, responsible for the compilation of the Programmes of the Companies under his command and his decision must be immediate especially in the case of uncertainty, on the part of his Instructors, as to the Instruction to be given.

The Battalion Commander will also supervise the issue and bringing up to date of the Publications intended for the Instructors.

20.

The Officers will supervise the training of their own men, each within the sphere of the unit which he has command.

Since the Battalion and Company Commanders cannot train their units as such, their activities will be turned exclusively to Individual Training and Squads' and Platoons' Training.

It is necessary in this field to make efforts to not intervene in the work of the Instructors of lower rank, unless particularly necessary; in any event it will be borne in mind that the tact and common sense of the Commander will be shown in the way with which the intervention is made.

Guidance to the Instructors must be given in advance of the Instruction, and always systematically. Comments will always be made collectively, assembling Officers, Senior and Junior NCO Instructors together, so that all may derive guidance for the future from them.

As always, the best impulse to be given will be the encouragement of competition amongst the Instructors whose pride must be aroused to the right extent.

21.

Those who, above all, exercise a direct training and educative influence on the troops, are the Platoon and Squad Commanders.

The Subaltern has a double duty to carry out in respect of the recruits :-

(a) Direct, with his personal bearing as Instructor of the Platoon,

(b) Indirect, with the control of the Squad Leaders.

In both cases he will have the opportunity to show his personality, which must decidedly not be suffocated by the new training system.

The Platoon Commander is the one who first gives the recruit the real impression of what an Officer is, an impression which the soldier, in the beginning at least, will not hesitate to generalise.

Without entering into a dissertation on the qualities which a Platoon Commander should possess - and which are the subject of other publications - it is as well to recall that all his characteristics, physical, intellectual and moral, are simultaneously put to proof in the training of the recruits, who will judge him as a whole, acutely and decisively.

In the event of the absence of one of the Squad Commanders,

his command and his decision must be immediate especially in the case of uncertainty, on the part of his Instructors, as to the Instruction to be given.

The Battalion Commander will also supervise the issue and bringing up to date of the Publications intended for the Instructors.

In the event of the absence of one of the Squad Commanders, it is advisable - when possible - that he himself takes over the Instruction which should be carried out by the absent NCO, rather than join two squads together.

22.

The bulk of the C.A.R.'s Instructors is made up of Senior and Junior NCOs. It is the duty of each of these to train his own squad. It is a group of personnel of the most elementary rank to which is entrusted a most delicate task.

Too much attention cannot be given to maintaining the morale of these Instructors at a high level. It will be borne in mind that, appreciating their work, bringing out their personality, making them fully aware of the responsibility given them by the entire Nation, will put them in a condition to devote all their energies to the preparation of the soldiers entrusted to them.

NCOs who do not appear to be capable of instructing the men under their command will have their replacement proposed before their work proves unfruitful and, therefore, harmful to the troops and their colleagues.

They will be lib'ally rewarded, praised, helped and advised. They will be given the impression of the importance of their duties, so that the appointment of Instructor will be sought after and constitute a reason for pride.

Ø = Or formerly present at the C.A.R. if regarding the advanced training period of the Infantry.

ff = At the end of the 2nd Period.

o

o o

The Training Centres form the base on which the whole of the new troop training organisation rests. It must be borne in mind that any deficiencies in the training at the C.A.R.'s will have an immediate repercussion in the duty units, at which it will be difficult to correct any basic faults.

The new system, adopted in concord with that in force in the Allied Armies, must lead on the one hand, to a more complete, rational, and uniform, training, and, on the other hand, to an economy in resources (imposed by the present circumstances) and time, as a consequence of the brevity of the period of conscription.

PROGRAMMES

For the training of recruits at the C.A.Rs

(1946)

FOREWORD

1. The training of recruits in the training Centres will be carried out in accordance with the "Regulations for the Functioning of the Recruit Training Centres" and on the lines of this programme.
2. All troops, no matter to which arm, corps or branch of the service they are going, must be trained uniformly and within the prescribed periods.
3. In between the training periods shown in the programmes the times to be given to interior economy, meals, and pay parades must be inserted.
4. The duration of the training periods is final and absolute: it is therefore essential to make use of the whole of the time available, making advance allowance, by splitting up the training periods as advisable, for employment on rainy days and the use of available stores, firing ranges, gymnasium and assembly rooms.
5. Seven hours of instruction will be given on each working day. Of each hour, 45-50 minutes, generally speaking, of actual instruction will actually be given, leaving breaks of from 10-15 minutes.
6. All instructors must be issued with the publications dealing with the training that they have to give the recruits.
7. Training stores must be placed at the disposal of the instructors a reasonable period in advance, and the instruction must not be of an improvised nature.

SUBJECT: War establishment of the Recruit Training Centres

- 1 - The war establishments of the ~~R.T.C.s~~ ^{CAR} laid down in circular 18559/Ord./1 off 22nd November 1945 from this S.M., have proved to be insufficient to overcome the requirements of the ~~R.T.C.s~~ ^{CAR} especially in the initial phase of installation and functioning.
- 2 - We therefore submit the necessity for a revision of the said war establishments. We enclose herewith the proposed new war establishments on which M.M.I.A. has already shown itself to be, in the main, verbally in agreement.
- 3 - The total difference between the old and the new war establishments is of 302 men, which, not at present available in the total figure of personnel assigned to training, could be temporarily covered as follows :
 - placing under the command of each ~~R.T.C.~~ ^{CAR} a company drawn from the Infantry regiment of the respective Military Territorial Command (in the case of Sicily this will be an I.S. Regiment) numbering about 160 men;
 - attaching to each ~~R.T.C.~~ ^{CAR} a telephone operators section (4789 men) drawn from the signal company of each Military Territorial Command;

- utilising the men laid down for the schools which are not being formed immediately. (Advanced Training Schools, Staff College).
- 4 - The above measures should be put into effect until the end of the first training cycle after which the ^{CAR}~~P.T.C.~~ war establishment situation should be reviewed.
- 5 - In the meanwhile we shall also study the possibility of the eventual total or partial replacement with civilian personnel of the tailors, barbers, and cobblers, laid down in the war establishment (72 men).
- 6 - While, as verbally agreed, the most urgent instructions needed for the putting into effect of the above measures have already been given, we beg of you to sanction the proposed war establishments.

1. Owing to the great demands of the Central Military Schools for the ITALIAN Army the War Ministry are finding great difficulty in providing personnel within the ceiling allowed for trg.

Although the instructional side has been fairly well covered it has become increasingly difficult to provide men for other duties.

2. The Ministry have therefore asked that a coy from each Territorial Regt be temporary att to CAR's for general duties etc thus allowing an equivalent number to be out from the WE.

3. While it is felt that this is not entirely the correct use for these coys, the importance of CAR's being fully staffed has induced this HQ to agree to the proposals as a temporary measure subject to certain provisos. (See copy of letter to Ministry att).

4. These coys are required to perform such duties as Gds, Range Storemen, Regimental Storekeepers etc.

5. It is felt that, unless very carefully watched, there is considerable danger that these provisos may be ignored and that the personnel of coys may degenerate into permanent fatigue parties.

6. BIUs are directed therefore to keep a very close watch on these detachments and to see that the provisos are enforced as far as possible. Regimental Commanders should also be encouraged to take personal interest in their detached coys and to visit them from time to time in order to satisfy themselves that their trg is being maintained.

7. (a) As permanent staffs at CAR become accustomed to their work it will be possible to reduce staffs,

- (b) Should the size of the future call-ups be less than 40,000 the duties at CAR will also decrease,

- (c) Thus it can be foreseen that these coys will not be permanently required and this HQ will urge their withdrawal at the earliest moment expedient.

1. Approval was sought by Ministry of War to the use of a company from a Territorial Regiment at each CAR. It was stated that this company would be used for such duties as Range Storemen, Orderlies, Guards, Storemen and on certain essential routine fatigues at the Centre.

2. It was further stated that the revised WE of CAR (now 871) could be reduced man for man if such a company were employed.

3. In view of the need to reduce where possible the WE of CAR this use of troops is approved with the following strict provisos :-

- (a) Companies so used would be regularly turned round, no company serving as depot company for a longer period than four months,
- (b) Adequate time is available to the employed company for full Military Duties and Practices (incl Trg) during it's term as depot company,
- (c) The period served at CAR by any company should also be considered as a period of concentration for training with the result that standards do not drop during employment,
- (d) The demonstration platoon be used solely as a demonstration platoon and not for guard duties (your letter 604/Ord/1 of 2 Feb 46 refers).
4. Will you please confirm that you are in agreement with paragraph 3 of this letter.

1. May we please be informed whether it is proposed to issue this Syllabus in Programme form (i.e. day to day, by periods) or simply as submitted to us.
2. It would appear that issued as a Syllabus it leaves much to the CAG Commander in regard to the actual lessons to be taught during each week, though within each week he would have to adhere to the general statement of hours per subject laid down by you.
3. If issued as a daily programme it would have to make provision for administrative detail such as Baths etc and Gases.
4. This HQ suggests that within each week lessons should be laid down, but that times and days should not be shown.
5. Thus, instead of a simple statement of (say) Weapon Training, 20 hours, it would be shown as 20 periods of 1 hour and against each hour would be recognised lessons or lessons from the Manual concerned.
6. This would make for greater standardisation and would give less scope for departure from the Ministry of War concept of what is needed to train the recruit.

This would entail a slight adjustment of hours during the first period of training.
3. With the Thompson the Recruit should reach the pitch of firing a few rounds.

REGULATIONS
FOR THE FUNCTIONING OF THE RECRUIT TRAINING CENTRES

4776

Chambers

REGULATIONS FOR THE FUNCTIONING OF THE RECRUIT TRAINING
CENTRES (R.T.C.)

Part 1

COMMAND OF THE R.T.C.s.

1 - The Recruit Training Centres (R.T.C.s) have been instituted to give uniform training to the conscripts, of a formal individual nature, and to train infantrymen as individual fighters and members of squads and platoons.

2 - Training at the R.T.C.s comprises two periods :

1st. period (primary training) - duration 4 weeks - the same for all recruits;

2nd. period (advanced training) - duration 8 weeks - for troops intended for :

- Infantry;
- Infantry auxilliary units;
- Central organisation;
- Military transport delegations;
- Military Geographical Institute;
- Military Tribunals;
- Military Prisons and Detention Barracks.

4775

To the above mentioned two periods (a total of 12 weeks) of actual training, will be added the time strictly necessary

(not more than two weeks) for the reception of the recruits, their clothing, the necessary prophylactic measures (vaccinations, inoculations), separation at the end of each period.

- 3 - Assignment of the recruits to the various arms and services will be made by the Commandants of the R.T.C.s at the end of the primary training in relation to the assignments tables which will be forwarded by the General Staff.

Recruits assigned to the artillery, pioneers, signals, and services, will, at the end of their primary training, be sent to the central Schools of their respective arm and speciality for their 2nd. period of training.

When the troops finish their advanced training they will be sent to the Corps and posted to units for the continuation of their conscript service, or will be sent to the central Schools for specialist courses.

- 4 - The R.T.C.s are under the direct command, for all effects, of the military territorial commands.

Generally speaking, an R.T.C. is formed for each military territorial command (1).

The war establishment of the R.T.C.s is contained in the Army General Staff's - Organisation and Mobilisation Branch - circular No. 18559/Ord/1 dated 22nd. November 1945.

- 5 - Recruits will be clothed, equipped, and armed by the R.T.C.s.

The Arms, however, form part of the equipment of each R.T.C., so that the recruits must hand them in before leaving the R.T.C. for any reason whatsoever.

(1) The Rome military territorial command will, in future, have 2 (one on the mainland and one in Sardinia.).

- 6 - It is forbidden to distract the units of the R.T.C.s from their training activities. Participation in reviews and parades must also be under exceptional circumstances only.

The instructors, during courses, will be excused garrison duties.

- 7 - Units in training at the R.T.C.s will be employed in duties of public order only in cases of extreme necessity and at all times only upon the orders of the military territorial commander.

- 8 - At the end of their primary training at the R.T.C.s the recruits will be sworn in.

- 9 - The stores required for instruction must be prepared in advance, therefore the detailed training programme must contain a list of the suitable stores for carrying out the instruction.

The stores must be placed at the disposal of the instructors a useful time in advance.

- 10 - The intervals between the departure of trained personnel and the arrival of a new contingent will be utilised for the preparation of the next course.

Leave to the instructors deserving it will be granted during these intervals.

The high moral value which is derived from the preparations for the reception of the recruits, who must immediately have the impression that everything has been planned and prepared, is to be borne in mind.

- 11 - The military territorial commands will give timely

notification to the General Staff - Operations and Training Branch - of eventual deficiencies in instructors, or, if the war establishment has been reached, will forward proposals for the replacement of those who do not turn out to be suitable.

Part 11

TRAINING

- 12 - At each R.T.C. the permanent staff and the recruits in training will be separated.

All the permanent staff personnel must be suitable to carry out the duties of instructor.

The preparation of the instructors of each rank will be carried out at the Central military schools, by means of appropriate courses which will be ordered by the General Staff.

- 13 - The instructors will be assigned, generally speaking, at the ratio of one to each ten trainees: training squads of ten men will therefore be formed. When it is necessary to exceed this number, the squads of more than ten men will be entrusted to the most capable instructors.

4772

- 14 - The R.T.C.s recruits training programmes form the subject of separate instructions, and, likewise, the percentage of personnel to be trained for employment on some collective weapons.

- 15 - The same method of instruction will be applied to all and will be that learnt by the instructors at the Central military schools. It is forbidden to introduce variations to the material contained in the programmes or to their development.

In this field the work of the commandants is limited to the splitting up of the time, otherwise the object for which the R.T.C.s have been instituted would be frustrated.

- 16 - Except in cases in which the superior considers his immediate intervention necessary, it is not advisable to interrupt the instructors when they are intent on training the recruits.

Eventual observations should preferably be made elsewhere.

During lessons and instruction, the instructors will not pay compliments to their superiors, unless the visit of the latter ^{was} announced before the commencement of the period.

- 17 - In order to obtain the best from the instructors, the advisability should be borne in mind of avoiding their frequent transfer. It is necessary to create for them sufficiently comfortable surroundings, facilitating the settlement of their families, the setting up of messes and as much else as is possible to eliminate uncomfortable conditions.

- 4771

- 18 - The commandant of the centre must carry out the duties of Corps commander for the permanent staff and training personnel.

In respect of the training :

- a) he will supervise the training and is responsible for

its execution in accordance with the programmes and methods laid down by the General Staff, preventing the introduction of any innovations or modifications;

- b) he is the chief of the instructors and will assign the said instructors to the units, splitting them up equally in relation to their capability;
- c) he will issue the general orders for the organisation of the training of the battalions, in relation to the availability of stores, firing ranges, and training areas;
- d) at the end of the training periods he will order the dispatch of the troops referred to in para.3;
- e) for each training period he will compile and forward a report to the military territorial command, showing :
 - the number of recruits reported at the R.T.C. (1) and the average strength of the squads;
 - on the development of the training programmes, stating, if such is the case, which parts have not been carried out, and why, and giving a general opinion on the knowledge gained by the recruits;
 - reporting on the instructors, naming unsatisfactory ones and proposing eventual replacements;
 - reporting on the efficiency of the training methods;
 - reporting on the stores at his disposal, indicating what are still required in the light of experience;
 - reporting on the functioning of the services;

(1) or formerly present at the R.T.C., if regarding the advanced training period of the infantry;

(2) at the end of the 2nd period.

- 4770

- the number of men proposed for each specialist branch (2);
- any other information which he considers may be usefully supplied to give the higher authorities an opportunity to perfect the organisation of the R.T.C.s.

The periodical report does not exclude other reports, which must be made immediately, such as those which reflect the morale or feelings of the troops or point out necessities which must be provided for immediately.

- 10 - The battalion commander controls the work of the instructors under his command, directing their efforts towards the attainment of the object fixed by the training, reviving their energies, clarifying any doubts and avoiding erroneous interpretations of the higher authorities' instructions.

He will coordinate the training activities of the companies under his command, see to the division amongst them of the stores which the R.T.C., H.Q. places at the disposal of the battalion and make timely requests to the said H.Q. for anything required by the companies under his command.

Since the duration of the training period is contained within the limits which are strictly essential, it is necessary that he pays particular attention to avoiding loss of time, planning in advance the instruction to be given in the event of bad weather, or of unavailability of firing ranges, areas or suitable stores. He is, therefore, responsible for the compilation of the programmes of the companies under his command and his decision must be immediate especially in the case of uncertainty, on the part of his instructors, as to the instruction to be given.

(2) at the end of the 2nd. period.

The battalion commander will also supervise the issue and bringing up to date of the publications intended for the instructors.

- 20 - The officers will supervise the training of their own men, each within the sphere of the unit of which he has command.

Since the battalion and company commanders cannot train their units as such, their activities will be turned exclusively to individual training and squads' and platoons' training.

It is necessary in this field to make efforts to not intervene in the work of the instructors of lower rank, unless particularly necessary; in any event it will be borne in mind that the tact and common sense of the commander will be shown in the way with which the intervention is made.

Guidance to the instructors must be given in advance of the instruction, and always systematically. Comments will always be made collectively, assembling officers, senior and junior NCO instructors, together, so that all may derive guidance for the future from them.

As always, the best impulse to be given will be the encouragement of competition amongst the instructors whose pride must be aroused to the right extent.

- 21 - Those who, above all, exercise a direct training and educative influence on the troops, are the platoon and squad commanders.

The subaltern has a double duty to carry out in respect of the recruits :

= direct, with his personal bearing as instructor of the platoon;

= indirect, with the control of the squad leaders.

4769

In both cases he will have the opportunity to show his personality, which must decidedly not be suffocated by the new training system.

The platoon commander is the one who first gives the recruit the real impression of what an officer is, an impression which the soldier, in the beginning at least, will not hesitate to generalise.

Without entering into a dissertation on the qualities which a platoon commander should possess - and which are the subject of other publications - it is as well to recall that all his characteristics, physical, intellectual, and moral, are simultaneously put to the proof in the training of the recruits, who will judge him as a whole, acutely and decisively.

In the event of the absence of one of the squad commanders, it is advisable - when possible - that he himself takes over the instruction which should be carried out by the absent NCO, rather than join two squads together.

- 22 - The bulk of the R.T.C.s instructors is made up of Senior and Junior NCOs. It is the duty of each of these to train his own squad.

It is a group of personnel of the most elementary rank to which is entrusted a most delicate task.

Too much attention cannot be given to maintaining the morale of these instructors at a high level. It will be borne in mind that, appreciating their work, bringing out their personality, making them fully aware of the responsibility given them by the entire Nation, will put them in a condition to devote all their energies to the preparation of the soldiers entrusted to them.

NCOs who do not appear to be capable of instructing the men under their command will have their replacement proposed before their work proves unfruitful and, therefore, harmful to the troops and their colleagues.

They will be liberally rewarded, praised, helped and advised. They will be given the impression of the importance of their duties, so that the appointment of instructor will be sought after and constitute a reason for pride.

o
o o

The training centres form the base on which the whole of the new troop training organisation rests. It must be borne in mind ^{that} any deficiencies in the training at the R.T.C.s will have an immediate repercussion in the duty units, at which it will be difficult to correct any basic faults.

The new system, adopted in concord with that in force in the Allied armies, must lead on the one hand, to a more complete, rational, and uniform, training, and, on the other, to an economy in resources (imposed by the present circumstances) and time, as a consequence of the brevity of the period of conscription.

PROGRAMMES

For the training of recruits at the R.T.C.s
(1946)

FOREWORD

- 1 - The training of recruits in the training centres will be carried out in accordance with the "Regulations for the functioning of the Recruit Training Centres" and on the lines of this programme.
- 2 - All troops, no matter to which arm, corps, or branch of the service they are going, must be trained uniformly and within the prescribed periods.
- 3 - In between the training periods shown in the programmes the times to be given to interior economy, meals, and pay parades, must be inserted.
- 4 - The duration of the training periods is final and absolute: it is therefore essential to make use of the whole of the time available, making advance allowance, by splitting up the training periods as advisable, for employment on rainy days and the use of available stores, firing ranges, gymnasiums, and assembly rooms.
- 5 - Seven hours of instruction will be given on each working day. ^{4765.} Of each hour, 45-50 minutes, generally speaking, of actual instruction will actually be given, leaving breaks of from 10-15 minutes.
- 6 - All instructors must be issued with the publications dealing with the training that they have to give the recruits.

7 - Training stores must be placed at the disposal of the instructors a reasonable period in advance and the instruction must not be of an improvised nature.
