1. Ref your signal 01/03 of 15 Feb 47 copy of which is enclosed. The Italian Army is now in a position to state its exact requirements.
2. At Appendix 'A' is shown the list of films the Italians desire to be converted to Italian sound tracks. The number of copies they desire to purchase is also shown.
3. Could the War Office be asked to quote prices for these films under the following headings:
 - (a) Cost to the Italians of complete production of these films with Italian sound tracks taking into consideration that translations have already been prepared here in Italy.
 - (b) Reduction in cost of (a) should Italian technical personnel be sent to England at Italian expense to act as Italian commentators.
 - (c) Cost of the loan to Italian Army of the original English speaking negatives to permit re-production here in Italy.
 - (d) Costs of (1) the loan or (2) the sale of an English speaking "lavender" positive for each of these films.
4. The question of security control does not exist, as copies of all the films in Appendix 'A' have already been issued to the Italian Army.
5. It will be noted that the situation has changed considerably since Feb 47 and that the Italians are now in a better position to assist in re-production of these films.

Following our 5810/G/8 of 18 Aug 47, and your answer No TRG/32/LF of 25 Aug 47

1. Enclosed is a list of films which we would like to have doubled and reproduced in England, if the cost is convenient. The number of the films required is marked in the list.
2. All expenses would be paid by this General Staff. Agreements on the modalities of payment will be made with your office
3. (a) Please inform us of the cost of the reproduction and doubling of the films named in the enclosed list. These films have already been translated into Italian.
- (b) Will you kindly inform us on the reduction in price which would be made if the Italian Government sent at its expense, technical personnel to help in the doubling.
- (c) Please examine the possibility of allowing the Italian Army to see to the doubling and reproduction of these films, in Italy, by:

lending us the original negatives - English sound-track
 lending or selling Lavender positives - " " "

In such cases, will you kindly let us know the expense to be repaid.

- (d) Will you please examine the possibility of lending us some of these ^{new} films, to be shown at the CARs and units whilst waiting for the doubling and reproduction of those requested?

25 August 1947

1. The question of production of training films with Italian sound tracks was re-opened in conversation between Major Alexander - Magg. Chiarizia at S.M.E. on 22nd. and 25 AUG.

2. The following decisions were made.

- (a) S.M.E. to produce the list of films required to be dubbed with Italian sound tracks.
- (b) S.M.E. to give assurance in writing that they are prepared to pay for these films should the cost be suitable.
- (c) I.L.P.B. to ask C.H.C. to obtain the precise cost of production in England taking into account that translations have already been made here in Italy.
- (d) To ascertain what reduction in cost there would be if competent Italian officers or civilians from the Italian Cinematographic Section were sent to London at Italian expense to act as Italian commentators.
- (e) I.L.P.B. to explore the possibility
 - (1) of the loan of the original negatives to the Italian Army.
 - (2) or the loan or sale of a 'lavender' positive for each of these films.
 Reproduction of positives with Italian sound tracks would thus be made here in Italy.
- (f) In the event of (e) being acceptable to ascertain the cost such a loan or sale.

Covered

Further to letter 255/G/8/Add of 24 January last.

1. Photo-Cinematographic Section sometime ago completed the translation of those 40 training films which, in accordance with your proposal in letter TRG/32 of 12 December 1946, we would like to be dubbed in England.
2. Translation of these films has not yet been forwarded to you as, according to agreements reached on 16 January 1947 between Maj CRISTIE - Maj CHIARIZIA of this S.M.E. and Dott. OTTOLENGHI of General Directorate of Commissariat and Admin. Services, it would have been necessary to wait for the decision of the British officers concerned, as regards the payment.
3. On 17 March 1947 Maj Cristie, reopened the matter, and verbally informed us that he had not received instructions from the officers concerned.
4. Considering:
 - the importance of these films for training purposes;
 - that the schools, CARS and numerous regiments are equipped with projectors,
 we beg you to examine the possibility:
 - a) of obtaining a ruling on the payment for films to be dubbed in England,
 - b) to accept the requests referred to in para V of a/m letter (loan of other British training films - authority to purchase in England the material required for the production of the Italian training films in programme).

Training Bulletin No 1Training Films.

1. The following is the position regarding training films in the Italian Army.

(a) At Appendix 'A' is a list showing all training films held by the Central Military Schools and units. This list has been sent to the Ministry of War with the suggestion that a film library should be started so that Territorial Commands would be able to have the films on short loan. It is suggested that Territorial Commands might be able to borrow these films now on application to the Ministry of War.

(b) These films are all English speaking films and are in long loan to the Italian Army from the AKO. On the closing down of this theatre it is likely that these films will have to be returned to UK.

2. It is understood that some films are being made by the Italian Army but the scope of this project is not yet known.

3. The Ministry of War have been informed that it is possible to buy Italian speaking training films from UK. These are the normal British training films re-edited with Italian diagrams etc. and a new sound track in Italian. The films would cost the Italian War Ministry about £9 per film if bought in bulk. It is not known if the Ministry are going to buy these films or whether the scheme mentioned in para 2 will be considered sufficient.

Publications.

4. At Appendix 'B' is a list of British Publications which have been sent to the Ministry of War. The list is divided in 3 parts.

Part I - Publications which have been translated and printed.

Part II - Publications which are in the process of being translated and printed.

Part III - Publications of which the translation has not yet started.

5. BLU's should check with their Territorial Commands that they have received copies of publications which have already been printed.

TRANSLATION

FROM: Ministry of War.

REF: 255/G/8

TO: See addressees.
M.M.I.A. for info.

DATE: 24 January 1947.

SUBJECT:- Training films.

(Reference letters TRG/32 of 12.12.1946 and 7.1.1947 respectively)

Confirming verbal communications.

1. - M.M.I.A. has informed this S.M. of the possibility of dubbing and manufacturing in England the films shown in the attached list, at a varying expense, in accordance with the size of the order, from 9 to 10 pounds per 330 metres of film.
2. - The Infantry Inspectorate:
 - a) has already begun some time ago - with the personnel of the instructional method squad and officers specially detailed by the Inspectorates concerned - the recognizance of the films in question and the splitting of them into three distinct sections:
 - those for the use of the C.A.R.s, Schools and Units;
 - those for the use of the Schools and Units;
 - those particularly for only the Schools.
 - b) has proposed the formation of a cinema section at each Military Territorial Command.
3. - This S.M., in accordance with:
 - above paragraphs 1 and 2;
 - the availability of funds;has decided:
 - to dub 40 films (25 of the first section and 15 of the second);
 - to have manufactured 16 examples of each, in order to extend the distribution to the Military Territorial Commands for the training requirements of the C.A.R.s and Units.
4. - Executive procedure:
 - a) speedily complete the recognizance mentioned in para 2-a) above classifying the films, within each section, with a progressive number indicating degree of use and therefore the order of priority to be followed in dubbing and manufacture;

- 2 -

- b) send all films, as they are classified and upon approval of this S.M., to the Cinematographic Section, which will arrange for their translation into Italian (or revision if already translated) employing technical personnel, two officer translators (Capt Bifferali and 2/Lt Collini) and a representative of the Inspectorate concerned. Translation will be limited at first:
- to the first 25 films of the first section;
 - to the first 15 films of the second section;
- and will require presumably about three months;
- c) address to the Mission (this S.M. will make arrangements) successive requests for dubbing and manufacture of films, as the translation proceeds, sending copy of same translation. The consignment of the films will presumably be ~~about~~ within four months from the request.
5. - This S.M. has further requested from M.M.I.A.:
- the loan of other examples of the films shown in attached list, in order to extend distribution - should the requests mentioned in preceding para 4-c) be met with - to the C.A.R.s;
 - permission to buy in England the material required for the manufacture of the Italian films in question (5000 metres negative, 10000 m. normal positive, 4000 m. sound track - S.A.V. - and 2000 m. countertype).
6. - The Infantry Inspectorate is requested to submit proposals, after direct agreements with the Inspectorates concerned, regarding the use and distribution of the films at present available.
7. - Further information will be given regarding the formation of cinema sections at Military Territorial Commands.

1. The policy of issuing British eqpt to the Italian Army has led to considerable demand from MMIA for British Trg Films.
2. Up to now the films have been shown silent with a verbal running commentary in Italian.
3. The Films are on loan from A.K.C.
4. In order not to interrupt the Trg of the Italian Army when this theatre closes it was suggested to MMIA that the Italian Govt should purchase the necessary copies of the films they require, re dubbed with an Italian sound track.
5. On the advice of the District Manager A.K.C. an estimate of about £9 per 1000 ft of film. Based on this, The Training Branch of the Italian Ministry of War, estimate that their requirements would total between £20,000 - £30,000 this is still under consideration by the Italian Govt.
6. May this GHQ please be informed :-

1. An attempt is being made to have a large supply of BRITISH Training Films produced in ENGLAND by the A.R.C. with ITALIAN sound tracks.
2. As a result of discussions with representatives of the Ministry of War on this subject it would appear that they are very keen to have as many as possible and as these films will be paid for by the ITALIANS it is considered that the full scope of our advice should be brought to bear in assisting the Ministry in their selection.
3. Attached is a complete list of BRITISH speaking films at present held by the ITALIANS and they are prepared to order several copies of each.
4. It is requested that this list be carefully scrutinised by the Staff Officers responsible for the training carried out at the various schools and that they delete or add in accordance with their recommendation.
5. A training Film catalogue was forwarded under cover of our TRG/32 of 7 June 45 and any additions recommended to attached list should be shown as available in this catalogue.
6. It is finally ^{requested} ~~recommended~~ that this matter be dealt with as expeditiously as possible.

Subject: Training Film

Confirming a discussion at this point on 1 Dec 45 by CINCPAC -
Hq, Pacific Area, and WFOH, WFOH.

1. It is requested that you submit a film proposal as to
your requirements of British training films as soon as possible.
The proposal should include:-

- (a) List of films showing the
number of copies of each film required.
- (b) In the case of films already
in your possession, copies of the Italian speech which you wish
substituted for the English speech on the sound track of the film.
- (c) Your estimate of requirements
of undeveloped film negative should this quantity be available.

2. The placing of a large order will be dependent upon whether
the Finance Dept of your Ministry can sanction the expenditure
based on a cost of £5 for 1000 feet of film and in this connection
it is requested that their decision together with details of
the method by which it is intended the payment would be settled
should reach this office at an early date to enable us to forward
a request on general lines to the War Office London.

Should the War Office London agree to a general issue on request
a more detailed request based on the information given in your
reply to para above will be forwarded to our Cinematograph
Department in England.

Further to our msg/12 of 12 Nov 46 and your msg/37/1
of 21 Nov 46.

1. The Ministry of War, ITALIAN Army has been informed of the contents of your letter and is at present compiling details of training films required from British sources together with copies of Italian speech for the sound track.
2. A representative of the Training Branch, Ministry of War stated during a discussion at this HQ that the requirements would be approx. 200 - 300 training films with copies of each varying between 5 and 15. This based on the price, 39 per 1,000 ft of film, as quoted during telephone conversation (CHQ) training - A.A.A. Training, would mean an order of between 1,20,000 and 1,50,000. An expenditure of this amount would, of course, have to be sanctioned by the Finance Dept. of the Ministry of War and this HQ has requested that this matter be treated expeditiously.
3. Should this expenditure be authorized, this HQ will then submit a firm proposal with complete details of ITALIAN requirements together with a request that the matter be forwarded to the War Office for their authority.
4. Confirmation as to whether the price as quoted in para. 2. above, is an overall price, i.e. for the complete film with sound track in Italian, is requested, together with your views as to whether such a considerable order could be undertaken by the A.A.G.
5. It is finally requested that information be obtained as to the method by which the cost of this transaction would be recovered from the Italian Government.

MINISTRY OF WAR.

Subject: Training Films.

1. The position regarding training films is as follows:-

At Appendix "A" is a list of British training films which are on long loan to the Italian Army. They are English speaking films and were last heard of as being on charge of the Central Military Schools.

2. These or other British Training films could be produced in England in an Italian speaking version at a cost of about £ 10 per film of 1000 feet. If a bulk order is placed the films would cost about £ 9 each.

3. Pending the production of Italian speaking films it is suggested that some value could be obtained by the use of English films at the training establishments provided that an Officer was present who could explain the film. If this is agreed it is suggested that a lending library should be formed so that training units could borrow films for short periods to assist in their training.

4. If you wish to buy Italian speaking films this Mission will forward your requirements to the War Office London. A Catalogue showing all British Training Films is held at this Headquarters and could be seen here should you wish to make a selection of suitable films.

5. It is understood that there is a shortage in this country of negative for films and it might be cheaper to buy the films from England.

6. May this Mission please be informed of your views.

Ref your TRG/32 of 12th Nov.

1. Your suggestions were first put through A.K.S. and a reply has now been received from the London Office of A.K.C.
2. It is considered quite feasible.
3. It is stated however that A.K.C. require authority from the War Office, where the proposal would have to be passed by a member of branches, the most influential of which is MGOF (R) - Finance.
4. Will you please submit your proposal to this HQ and it will be recommended to MIL War Office.

If the prints are required permanently i.e. after this theatre closes it might be best for them to be purchased outright by the Italian Government, in which case fresh prints in Italian could be made from the negatives in U.K.

5. The technical aspect would have to be discussed with an expert.
6. Your proposal will have to show clearly the full scope of the scheme with particular reference to finance.
7. The delay is regretted.

Subject:- FILMS 16 m/m

1. Further to your TRG/32 dated 5th November, it is assumed that the 16mm projector referred to will be a W.D. issue, in which case a number of factors governing the employment of 16mm single equipments supplied for training purposes have to be considered before this equipment can be used for recreational purposes.
2. It has been laid down by W.O. (a) that recreational films may only be shown on dual equipments; (b) that in the case of W.D. owned equipment a charge of £.6 per performance will be made.
3. Additionally the terms of our agreement with the films renter are such as to preclude the showing of recreational films to Italian audiences.
4. It is felt that the foregoing conditions will render it almost impracticable for loan of recreational films to be made to your organisation, if however these conditions may be fulfilled we shall be happy to pursue the matter further.

Dear Colonel Medlam

Units in this area, 6th Inf. Regt., 6 C.A.R., and 5 C.A.R., all have facilities for showing films, but until the Ministry of War releases them they have no Training Films.

Would it be possible in the meantime for some of the films held at the School of Infantry to be sent on tour when not in use at the School?

This would be of valuable assistance in officer training and would help maintain the recruits' interest during the winter. From 5th - 23rd November, 6th Inf. Regt. at Modena are holding a series of exercises for all officers in the Regt. comprising lectures, sand table discussions, TENTS and finally exercises on the ground with troops, and any films of fieldcraft generally and coy. tactics in particular, would greatly help and be much appreciated, as few of the officers of the Regt. have yet been to Cesano.

Subsequently, these films could be shown to 5 C.A.R. at Modena and 6 C.A.R. at Pesaro and returned to the School.

Yours,

TRG M. M. I. A.

1. The position regarding holdings of Training films and film strips and outstanding demands for these items is not quite clear.
2. Many of the outstanding demands were submitted months ago and it must be assumed that either the items were not available or that action was not taken by the addressees or that the films have been lost in transit.
3. In order to clarify the whole question will you please submit, in duplicate, a list of all training films and film strips held by you, showing in chronological order the film number and name, leaving spaces for entering additional films as received. Will you please notify this branch as additional films are received.
4. Will you also please submit a list of films and film strips which are required, showing, in the case of those previously demanded the date and reference of the demand.

1. It is considered that 35 mm Training Films, either sound or silent, would be of great instructional value in the training of Italian recruits at 10 CAR AVELLINO.
2. This Training Depot is composed of approximately 4000 recruits who are receiving British methods of instruction on small arms, aircraft recognition etc.
3. It would be appreciated if authority could be given for the release of two or three films per week through GRV Welfare Centre NAPLES.
4. The CAR have their own 35 mm machines and operators.

1. On 8 Aug 46, Mr E.G. Bradley who is the London representative of the A.E.C. visited one of our Liaison units in MILAN to obtain information as to whether the Italian Army would be interested in obtaining certain British training films.

He was unable to visit this HQ in ROMA due to other engagements but has advised us to get in touch with a Mr Le-Trail who is located at your HQ.

2. In the interests of improving the general standard of instruction within the Italian Army it has always been our policy to obtain as many training films as possible.

3. May we please therefore be informed if contact with Mr Le-Trail would in any way increase this supply.

On 8 Aug Mr. E.G. Bradley, who is the London representative of the A.K.C. visited this HQ to obtain information as to whether the Italian Army would be interested in the showing of certain training films, previously used by the British Army.

It was pointed out to him that as this B.L.U. is only a part of K.M.I.A. that the matter should be taken up with you in RMCE, but due to other urgent engagements, he was unable to travel to ROME to see you, and so I told him that I would pass on his suggestions to you.

It would appear that, now the British Military are rapidly diminishing in this theatre, there are a number of training films, which could be made available to the Italian Army through the auspices of A.K.C. It would entail payment for the films and the script would have to be replaced by an Italian commentary.

The representative who you should get in touch with, should you feel that the Ministry of War would be interested, is Le-Trail, who is located at G.H.Q. C.M.F.

The films are made for both 16 and 35mm projectors, and would be available for modification of commentary almost immediately.

Ref. III7/R/4

Date 1/3/46.

Subject Documentary Instructional Films.

- 1) - The gradual replacement of allied documentary films is under consideration;
- with Italian documentary films;
 - with documentary films with sound track in Italian.
- 2) - The first four films which will be finished are:
- Formal training
 - P.T. training
 - Uniform, equipment and drills;
 - Use of the rifle.
- 3) - In respect of the above and in confirmation of the verbal request made, on the 25/2/46, by Maj. Chiarizia to Maj. Christie, we ask you to kindly examine the possibility:
- a) - of helping the M.of W. cinematograph section to purchase the large amount of materials required for obtaining and the reproduction in 6 copies of the first 2 documentary films, and precisely:
- negative 3.000 m
 - positive 6.000 m
 - sound track 2.000 m
- b) - of granting to R.T.Cs the temporary use of, the four a/m documentary films not being thought sufficient for the purpose, the d/m allied documentary films.
- Training;
 - Use of fire power
 - Individual camouflage and movement
 - Camouflage from the air;
 - Technique of instructing in the army.

- Be careful with ammunition
- Officers and men
- Street fighting
- 3"mortar practice.

- Hygiene:

- Camp hygiene
- You too can catch malaria
- The fly
- The louse.

Number of copies required of each documentary film, 6.

The Central Military Schools HQ has already arranged for translation into Italian of the a/m films.

In order to obtain an allotment of some of the documentary films which, according to what has been reported by the officer belonging to the B.L.T.U. at Cesano, are almost completed in England with the sound track in five languages, including Italian.

Should this be correct:

- we would be pleased to know the subjects and the estimated date of delivery;
- the request for copies of "Lavader" British documentary films, submitted during Nov. last by Col. Carpitella through the B.L.T.U at Cesano is to be considered cancelled.
