Reference this HQ letter TRG/63 of 2 Nov 46 and the enclosed pamphlets.

Your attention is drawn to the fact that in some of the pictures showing the web equipment fitted on a man show the belt in the wrong position i.e. with the belt above the waistline of the battle dress. The belt should coincide with the waist line of the battle dress jacket and should cover the buckle of the jacket. The belt is in the correct position in Fig 20 of the pamphlet.

It is suggested that, if you propose to reproduce this pamphlet, fresh photos should be taken to replace Fig 2, Fig 3, Fig 4, Fig 9, Fig 19.

Subject: PUBLICATIONS

Copies of the Pamphlet - Web Equipment - the Pattern 1937 - have been issued to the Ministry of War for translation. Pending the receipt of the Italian version of this pamphlet 2 copies of the British pamphlet are forwarded herewith.

It should be noted that in some of the Plates the belt has been adjusted in the old manner i.e. with the belt above the waist line of the battle dress. The belt should actually coincide with the waist line of the battle dress jacket and should cover the buckle of the jacket. The belt is shown in the correct position in fig 20 of the pamphlet and wrongly in 7 figs 2,3,4,5, and 19.

Subject:- Translation of Publications for Training.

1. In order to co-ordinate the work of translation of British Training Publications for Italian Army and to make easier the work at Ministry of War the following procedure will be adopted.
2. Addressees will prepare Lists showing those British publications which are considered suitable for translation. Such lists should be rendered monthly to Trg Branch on 1st of Month. Nil returns are requested.
3. Trg Branch will then collate Lists and if necessary procure the publications recommended from Pubs Depot, subsequently passing them on to Ministry of War.
4. In cases of special urgency demands for translations may be rendered at any time with an "urgent" chit attached, and those will receive priority over all other requests from the Branch rendering the request.
5. It is pointed out that special permission has to be obtained by IMA HQ from War Office for the translation of every pamphlet and that rendition of collated lists enables a check to be kept and should also speed up the receipt of authorities and consequently of translation.
6. Addressees will be responsible for ensuring that they are on suitable GHQ or other automatic distribution lists of publications for their Arms or Service.
7. G Trg IMA has a large library of Trg Publications for all Arms and Services. This library may be inspected at any time. General Staff Publications list is also available in G Trg.

1. This Mission is in possession of the S.A.F. Vol 1 Pamph. 9 1943 in respect of the 3" Mortar, but it is thought that this pamphlet may not be completely up to date.
2. It is known that various circulars have been issued from time to time which supplement the information given in the training pamphlet and copies of which this Mission is not in possession.
3. In order to train the Italian Army it is essential that the most up to date information should be available.
4. Please any copies of any letters or circulars which have been issued on the 3" Mortar, including modifications to the Mortar and the ammunition, be forwarded. Such publications as the Infantry Heavy weapons School Bulletin and War Office Circulars would be most useful.

SUBJECT: "Long Range" bombs for 3" mortars.

1. With a view to eliminating certain doubts which arose during the use of the 3" mortar, we beg your M.M.I.A.:-

- a) to say what are the characteristics and markings of the long range bomb for 3" mortar.
- b) to answer to the following question:-

In the 3" mortar Mark II, in order to obtain a range superior to 1600 yards, the 6x180 grains charge or the 4x280 grains charge is generally used. Both charges are superior to the charge 6x100 grains prescribed as a maximum not to be exceeded for long range bombs: Has the charge 6x100 grains the same effect also for mortar Mark II and for bombs not of "long range"?

2. We take this opportunity to point out that often neither this S.M. nor the Inspectorate concerned are in a position to answer (due to the lack of instructions and publications) technical queries forwarded by HQs of Large Formations, especially queries regarding British ammo.

We shall be very grateful to you if you will kindly examine the possibility of filling in said gap forwarding to this S.M. a copy of the most essential publications dealing with the subject.

With reference to your letter GBI.389.500/6 dated 18th April 1946, I am to inform you that there is no objection to a copy of Military Training Pamphlet No. 90 Part II, and Military Training Pamphlet No. 90 Part III being passed to the French Army (Lyons H.Q.) for translation and reproduction in French under the following conditions:-

- (a) That all copies reproduced shall have printed on the outer cover:-
"British Crown copyright reserved. Reproduced with the permission
of the Controller of His Britannic Majesty's Stationery Office".
- (b) That a royalty in respect of all reproductions shall be payable
to the Controller of His Britannic Majesty's Stationery Office.

The amount of royalty payable will depend on the number of copies reproduced, and it is requested that you will ascertain and inform this Department of the number of copies of each pamphlet the French Authorities propose to produce. In the meantime translations may proceed on the conditions stated.

I am to express regret for the delay.

1. Enclosed are 2 copies of British Army Publications relevant to Recce Units as under:-

| A.T.M. | No 8 | |
| M.T.P. | No 65 | |
| | No 35 | Parts 2 and 13 |

| M.T.P. | No 44 | Part 3 |
| M.T.P. | No 34 | Part 6 |
| A.F.V. | Recognition Part III | |

2. These publications or extracts there from may be translated and issued to Formations, Units and Personnel as required.

3. It should be noted that in some cases publications are not entirely relevant to Italian Army needs, in such cases you are advised to extract the relevant parts and discard those which are not relevant.

4. With regard to M.T.P. No 60 Parts 1 and 4 and M.T.P. No 44 Part III, none of these books by itself entirely meets the needs of the Italian Army Recce Regt, since there is a difference between the War Establishment of the various Units. This is notably on the addition of a Lorry born Infantry Coy in the Italian Recce Regt. In British w/o Lorry born Inf are part of motorised Bns.

5. We would recommend therefore that to meet the immediate urgent need for the publication of a doctrine, the Pamphlets on the Recce Regts and the Motor Bn be translated and issued as they are, though an all Italian Pamphlet to combine the two should be produced as early as possible.

6. For your information we report that Inf Div Commanders have asked our Liaison Units to let them have urgently copies of any British Pamphlets relevant to the Recce Units in their Divisions. Will you please inform us if you would like additional English copies for distribution to Divisions.

1. Tours of CAR have shown that most CAR produce a handbook in which can be recorded the results of the Recruits Training.

2. These handbooks however vary according to the ideas of each CAR Commander.

3. We would suggest the great value of a Ministry of War model handbook, issued to each recruit at his CAR and kept up to date by his various commanders during his service.

4. A.B. 142 is the British pamphlet on these lines. Your Ministry has been furnished with copies of this for examination. (See our TRG/63 of 22nd June 46, and 6 September 46.)

5. May we be informed of your views on the issue of such a pamphlet by Ministry of War.

TO : Ministry of War

1. Information has been received that difficulty is being experienced at the C.A.R's on the subject of carrying out physical training. The main handicap is the lack of a suitable pamphlet on the subject.
2. It would appear therefore that no issue has been made to C.A.R's of the most excellent pamphlet forwarded recently to this H.Q. namely the "Sinossi del Corsi di Educazione Fisica".
3. It is strongly recommended that an issue be made at an early date.

1. Ref our TRG/63 of 1 June 46 with an attached list of British Artillery Publications which this HQ considers should be given to the Italian Ministry of War for translation.
2. No reply has been received to this letter.
3. G.H.Q. (G TRG) letter under ref TRG/55/15 of 5 June 46 gave authority for the translation of a previous general list which included the majority of the publications referred to in para 1 above.
4. It has been found necessary to increase the list of Artillery Publications, to cover a release of Heavy A.A. and Medium Artillery Guns with auxilliary eqpt.
5. A list of the pamphlets for which authority is still outstanding is attached as Appendix 'A'.
6. May this authority please be given.

1. The enclosed two pamphlets are forwarded to show how lessons learnt in battle are circulated throughout the British Army.

2. It is not suggested that these pamphlets should be translated but that similar works written around the exploits and battles of the Combat groups would serve the dual purpose of advertising the work of the Italian Army and providing training material based on Italian foundations.
