Dear

Brigadier Morris Hope has asked the Training Directorate at the War Office to send a dossier of Exercises from the British S.O.S. for the benefit of the Italian School of Co-operation at CIVITAVECCHIA.

As this dossier may take some time to collect and due to the uncertainty of "R" day, Morris Hope has asked The War Office to address it to you.

If this arrives while we are still functioning would you be so kind as to send it on to the Mission.

If, after we have gone, you could pass it on to War Ministry.

Yours

DATE: 23 June 1947

SUBJECT: 4th series of addenda and corrigenda to circular  
3320/R/3 from ST dated 25 December 1946 on the  
subject: "Recruits training during 1947".

1. Expecting that the recruiting of specialized students for long period of enlistment can solve the training problem of some elements needing a long period of training, this S.M. aiming to obtain an improvement of the present personnel crisis in the Corps, orders that, with an immediate effect, the driver and motorcycleist students who are assigned to the Inf. and Cavalry units be posted from CAs to the corps and units, anyhow entrusted with the specialised training, at the end of the first four weeks of the advanced training, instead of on its completion, as it was laid down up to now.

2. Exception is made for infantry and cavalry driver students to be assigned to the units under the "Folgore" and "Mantova" Divisions, and a limited batch of those at present under training at CAs, for whom, the posting will be carried out on the completion of their training, as per signal 4070/R/3 of this SM dated 13 last and addressed only to units concerned.

3. Consequently, we beg you to make the following additions and amendments to a/m circular.

Subject: Pamphlets for ammo. - (Requested by Maj. Garufi 490178)

You know that the Gen. Directorate of Arty have in their stores a lot of Allied ammo. and also that they frequently have either to blow them up or to empty them. To this last purpose they would like to have any pamphlet dealing with the content of all the bombs, rounds, shells of any caliber used by the Allies in this Theater of Operations. May you kindly find for them any pamphlet?

For example they would like to know what is the precise content of the 3" winged bomb.

This bomb is marked with E 16 (or HE 16), has a yellow band and another band which looks white. The ogive is green and has one red band and one dark brown. If they shake, they notice that the content is a liquid.

SUBJECT:- 3" Mortar bombs - Marks.

*See Vol 51, 62,*

There are some 3" Mortar bombs in Italian ammunition depots upon which some marks are varnished.

Since this office only possesses pamphlet: "Small Arms Training - Vol I - Pamphlet 9 - Mortar (3 inch) - 1944 - 26/G.S. Publication/1099", from which the characteristics of a/m bombs are not shown, we beg your Mission to kindly supply this office particulars relative a/m bombs and, if possible, on all types of 3" bombs.

SUBJECT:- Publications.

This Inspectorate has arranged for the translation of the following British publications sent by your H.Q.:

- a)- "Notes on the maintenance and storage of ammunition and explosives in the field - Part II - Ammunition and explosives not belonging to the artillery (1941)";
- b)- "R.A.S.C. - Training Manual n.6 - Ammunition.  
Part I - Transport and distribution by ordinary road (1942);  
Part II - Identification and handling in the field (1941)".

Publication a), as regards maintenance and storage of ammunition and explosives in time of peace, refers to the publication "Magazine Regulations - Parts I and II - 1934".

Since it is indispensable to examine this question, we beg you to kindly send two copies of this publication.

In order to complete the studies for the reorganisation of the Medical Service of our Army, it would be useful to know how said service is organised in the British and American Armies.

We would therefore be grateful to receive the latest pamphlets regarding the equipment and the employment of the various Field Medical Units of the a/m Armies.
