1. During the immediate post-war period matters of great importance to the future of the United States and many far-reaching matters of long range planning are being considered and formulated. Improper disclosure of these plans and projects would cause grave harm to the United States and seriously affect our prestige.

2. The desire of foreign nations for intelligence has reached the point where many capable professional agents are engaged in collecting information and selling it to the highest bidder. These agents are career individuals who have no patriotic motive. They are willing to go to any lengths to secure the information they think is of value in the intelligence market.

3. The provisions of AR 380-5 are designed to protect our personnel, both military and civilian, from unwittingly disclosing classified information and thus unwittingly injuring the interests of their country. Careful observance of these provisions will nullify the efforts of the espionage agent and contribute materially to efforts of the United States to insure peace.

4. Since the cessation of hostilities there has been a marked decrease in the security mindedness of all personnel both military and civilian. It has been noted that personnel newly assigned to this and other headquarters have not been properly indoctrinated in the provisions of AR 380-5.

5. The proper classification of documents is dependent upon proper judgment. Certain basic rules have been outlined in Army Regulations but these are to be used more as a guide than as a hard and fast law. Any document whose unauthorized disclosure would be prejudicial to the interest or prestige of the United States, any governmental activity, an individual; or which would cause administrative embarrassment or difficulty; or which would be of advantage to a foreign nation must be classified and safeguarded.

6. At all times, classified information will be communicated only to those whose duties require knowledge of that information. Mere presence in the same organization or office does not confer the right to knowledge of classified information to any person if such information is outside the scope of his assigned duty.

7. Army Regulation 380-5 has been revised as of 6 March 1946 and copies will be distributed shortly. All personnel who have access to classified material will be fully informed of the pertinent security safeguards and responsibilities outlined therein.

8. All non-current records and so called "dead" files will be shipped to the appropriate Records Depot in this Theater for storage or microfilming, in accordance with provisions of AFHQ Circulars Numbers 8 and 9, both 1945, and MTOUSA Circular Number 35, 1946.

9. Each Major Commander will insure that the information and instructions contained herein are brought to the attention of all members of his command. He will also insure that newly assigned personnel are indoctrinated in the proper security measures before they are given access to classified information.

10. Security personnel are available at the headquarters of each major command to assist the G-2 in carrying out security surveys and instructing all personnel on proper security precautions. It is directed that they be used more extensively for that purpose.

PART I

INTRODUCTION

a. This directive is applicable to all arrests, detentions and disposals of persons, effected by United States and British CI/I(b) agencies. No other non-Italian agency may carry out arrests for security reasons in ITALY, even of their own nationals, except the Polish Security authorities who, within areas occupied by their troops, may arrest persons considered a danger to the security of their personnel or installations. (For essential co operation with Italian Police Authorities see Part III, paragraph 4)

b Previous Allied Force Headquarters instructions governing security arrests, with the exception of those parts of instructions applicable to the arrests of Prisoners of War and War Criminals or the guarding, segregation administration, documentation and welfare of military or civil internees, are superseded and hereby cancelled. CI/I(b) instructions issued by Formations or Districts now defunct are invalid, being automatically superseded by those issued by the relative Formation or District accepting hand-over.

c. Appropriate modifications should be made to this directive by subordinate Districts or Formations for territory within Allied Military Government jurisdiction or territory declared a Military Zone under the terms of current Operational Instructions.

d Although the arrest and custody of Prisoners of War or Surrendered Enemy Personnel is not primarily a task for CI/I(b) agencies, a detailed list is given at Appendix A in order to assist in the classification of recalcitrants.

c. Special Considerations

(1) German and Austrian Nationals

German and Austrian nationals should not be arrested merely on the grounds of their nationality, but only if they are considered to be a threat to Allied Security or fall within one of the classifications of arrestable persons.

(2) Deserters and Discharged Personnel of the Fascist Republican Armed Forces.

Italian members of the Fascist Republican Armed Forces who are able to prove that, either by dismissal or desertion, they had ceased to serve the enemy armed forces at the time when they were over-run by the Allies will only be arrested if they are considered to be a danger to security or fall within one of the classifications of arrestable persons. If arrested they are accorded civilian status.

(3) Fascist and Fascist Sympathizers

Italian nationals of Fascist sympathies or background fall within the jurisdiction of the Italian epuration authorities and should therefore be dealt with by them unless they present a threat to the security of the Allied Armed Forces as specified in "Specific Classifications" (PART II paragraph b).

477

(4) Anti-Allied Propaganda.

The reasonable expression of anti-Allied sentiment by Italians within the bounds of free speech now accorded to the Italian people should not be accepted categorically as a threat to the security of the Allied Armed Forces. Cases of persistent propaganda should normally be referred to Allied Force Headquarters for consideration before arrest is made.

Ltr, AFHQ, file AG 371.2 GBI-O, dtd 13 March 46, subj: "Policy and Procedure for Security Arrests". (Cont'd)

(5) Public Disorders, Demonstrations, etc.

In the event of a public disorder constituting a threat to the security of the Allied Armed Forces, the case should be handled in accordance with extant policy expressed in separate operational instructions.

PART III CATEGORIES OF ARREST, DOCUMENTATION, PROCEDURE ETC.

1. The three categories of security arrests are:

a. Category A for trial by Allied Military Government (applicable only to persons arrested in territory under the jurisdiction of Allied Military Government)

b. Category B for internment by the Allies

c. Category C for temporary detention while investigations are proceeding.

2. Documentation required by Allied Force Headquarters for each category of arrest is:

a. For Category A arrests NO reports are required other than the usual analysis of arrests given in routine security summaries.

b. For Category B arrests the proforma AFIB/1 (specimen at Appendix B) is required.

c. For Category C arrests NO reports are required unless detention exceeds a period of 14 days. As soon as possible after the 14th day notification is required of the following particulars:-

Category of Arrest, Name, Christian names and paternity, home address (including province or area), date of original detention, designation of present prison or other detention center where held, District/Formation responsible for arrest.

If, after such notification, a detained person is arbitrarily released or transferred to another detention center, Allied Force Headquarters must be informed accordingly.

The proforma AFIB/1 must only be used for civilians in Category B and NOT for Prisoners of War, Surrended Enemy Armed Forces or civilians in categories A or C.

Ltr, AFHQ, file AG 371.2 GEL-O, dtd 13 March 46, subj: "Policy and Procedure for Security Arrests" (Cont'd)

3. No committal to an approved civilian internee camp may take place without the authority of Allied Force Headquarters. This authority must always be quoted on the relative committal proforma (AFIB/1)

4. Except in special circumstances, arrests should be made with the close co-operation of the Italian police in such a manner that in the event of the arrested person being transferred to Italian jurisdiction, acquittal would not be caused by incorrect arrest procedure or failure to present essential evidence connected with the arrest.

5. An arrested person should be given the opportunity to pack essential personal effects such as clothes, washing kit, etc. These effects should be checked before departure to ensure that there are not included any arms or instruments of escape.

6. Money and valuables will NOT be taken from an arrested person unless considered necessary in the interests of security or unless special instructions have been given. In all such cases the owner must be given a detailed receipt, a copy of which will be sent to Allied Force Headquarters.

7. War Criminals arrested by FSS (British) should be transferred as soon as possible to the custody of SIB (War Crimes)

A complaint has been received through M.M.I.A. in which it is alleged by your Headquarters that a Mitchell aircraft pilotted by General Lee of the Air Forces Sub-Commission, and accompanied by Captain Ward, landed at Malta during the second week in February, not being in possession of travel orders.

2. It is understood that neither the crew nor the passengers of the above-mentioned aircraft were, in fact, asked to show a copy of their travel orders, nor authority to land at Malta; in fact they did carry a travel order, a copy of which is attached to this letter.

Where-as A.O.C., MALTA does not intend taking any further action in this matter, he does wish the seriousness of this offence to be brought to the notice of the officers concerned.

1. Below is an extract from a letter, dated 8 Feb 46, received from CIC, PALERMO.

"It was learned from SIM, PALERMO that Major HECTOR has been here for about three months. All communications from SIM to G-2 AFHQ pass through Major HECTOR's office en route to GSI 3 District. Prior to Major HECTOR, an American Allied Commission Officer, in apparently the same official capacity, transmitted SIM communications to G-2, AFHQ. SIM claimed that when the American officer was here, all SIM communications were given to him in a sealed double envelope. Since the arrival of Major HECTOR, and at his request, SIM communications are given to him in a plain opened envelope.

"Major HECTOR, dressed in civilian clothes, stated that he had formerly been an Intelligence officer in FOGGIA."

2. As we know nothing of Major HECTOR, may this office please be informed of his official status in PALERMO and why all SIM correspondence to G-2 AFHQ is handed to him unsealed.

Disclosure of Information

15. No unpublished official document of any description may be given or shown to anyone not serving in a military office, except on the authority of the general or other officer in charge of administration. This rule applies also to papers or information which it is intended to publish, but which have not been actually issued.

16. No premature or unauthorized communication of information to which access is obtained in the course of official duties will be made to any newspaper or person, whether interested or not. Any dereliction of duty in this respect, whether the information is secret or not, is an offence under the Official Secrets Acts, and will be treated accordingly.

17. The communications against which these cautions are directed are not confined to matter still under discussion, but include also the unauthorized disclosure of matter, finally decided on, but concerned which the manner and the time of publication may be not less important than the matter itself. In all these cases THE PUBLICATION, WITHOUT AUTHORITY, OF OFFICIAL INFORMATION constitutes the offence; and the danger, to which all Governments are equally exposed, cannot be adequately guarded against if distinctions are allowed to be drawn between one kind of unauthorized publication and another.

20. Attention is drawn to section 2, sub-section (c) of the Official Secrets Act of 1911, as amended by the Act of 1920. Under this sub-section, CARELESSNESS, OR UNJUDICIOUS CONDUCT endangering the safety of (without necessarily losing) a secret document, information or article (which latter includes a key or other instrument affording means of access to secret information) is a STATUTORY MISDEMEANOUR PUNISHABLE BY UP TO TWO YEARS' IMPRISONMENT WITH HARD LABOUR.

It will be noted that this sub-section applies equally to indiscreet conversation, correspondence, or communications, within or without the office, in connection with official secrets, and the regulations relating to the treatment of secret and confidential information and documents contained in these Instructions for dealing with documents and correspondence in Military Offices will be scrupulously observed by all members of the staff.

21. All employees in military offices will bring to notice in the proper quarter an incident, wherever arising, which they have good reason to believe may indicate a breach of fidelity or discretion, or be prejudicial to the security of the Army. Delinquencies or circumstances which may have any connexion, however remote, with the security of the naval, military or air forces, especially when a breach of the Official Secrets Acts is suspected,
