Subject : Increase in W.B. for Admin. Transport Coys
Northern Italy.

Ref. : 216957/II
Date : Aug. 17, 1945

With the current recovery of all military vehicles still on loan to civilians, I foresee that the W.B.s of the Northern Italy Admin. Transport Coys may be completed rapidly.

The vehicle allowances of the W.B. Coys laid down by the orders now in force, are not sufficient to meet the requirements of the corresponding Mil. Terr. Commands; this in relation:

- to the extension of territory under the jurisdiction of the individual commands;
- to the importance of the services to be carried out;
- to the lack of other means of transport, particularly railway transport, which forces the bulk of the transport to be carried out exclusively by M.F.

Furthermore, the scarcity and the continuous use of vehicles bring about a more rapid wearing out of materials and impede the carrying out of maintenance regulations which can only be carried out during the regular rest shift.

I beg Admin. therefore, to consider the above and to permit the allowances of vehicles to Admin. Transport Coys in Northern Italy to be equalized to the real requirements.

I believe that the problem could be conveniently solved by accepting the W.B.s shown in enclosure 1.

In conclusion:

- the present W.B.s of Admin. Transport Coys in Northern Italy call for 10 cars, 60 trucks, 10 m/c, (30 for Bologna, Milan, Genova, Mil. Terr. Commands).
- the new W.B.s call for 15 cars, 75 trucks, 10 m/c.
- the number of rations assigned to the companies would remain unchanged.

I await your decisions in regard to this matter.

9 July 1945

SUBJECT: Personnel - 5th Efficient Vehicle Park and Captain
Varengo's Detachment

TO : General Officer Commanding, Land Forces Sub Commission

1. In your signal Q 361 of 16 June you authorized the transfer from Captain Varengo's Detachment all available auto mechanics and helpers to 14 Repair Unit which has been done. This detachment which was used to prepare tanks for mainland, has been robbed of efficient mechanical personnel for mainland and here. It was scheduled to be sent to the mainland. Recommend that it be either sent to mainland or absorbed in the authorized strength of the island.

2. Upon the shipment of the last vehicles to the mainland the 5th Efficient Vehicle Park are no longer required here. They have 3 mechanics and 2 assistant mechanics which we request authority to transfer to the 14 Special Repair Unit, as you are aware by our previous correspondence, Sardinia was stripped of qualified automobile mechanics. Recommend the remainder of unit be either sent to mainland or abandoned and absorbed in the authorized strength for Sardinia. Have temporarily attached them to 14 Special Repair Unit for employment. In either case advise what disposition is to be made of the vehicles assigned to them.

3. Am of the opinion that the 14 Special Repair Unit with 5 officers and 45 E.M. is sufficient for the Island providing it has qualified personnel.

July 45

TO : AFHQ

Ref your signal F16233 of 2 July cite FHGCT.

1. It is considered that 1, 2 and 3 G.T. Coys should be disbanded not later than 31 August. Their retention until that date is recommended in order that they may be employed during the interim period for the following reasons.

2. The Italian Army has not yet obtained possession of the military vehicles of Italian origin recovered in the North, which were ordered to be handed over to MMA by Allied HQs in your letter AG 386.3/163 LOG-0 (ITI-ITI) involving the selection of vehicles and personnel. The Coys completed before the 31 August.

3. Commencing on approximately 15 July, an unusual demand for transport will arise from the stocking up of ITI-ITI Supply Depots prior to the opening of ITI-ITI Distribution Depots in the North. It is appreciated that these Depots will eventually have to supply all Italian Soldiers in respective of category when Allied Depots close down. This may require assistance from Allied Transport resources in the areas VENICE - BOLZANO and MILAN - GENOA.

4. NAPLES remains the principal Base Supply Depot of the Italian Army and very heavy demands on local Italian Transport Units (operating old vehicles) has led to a decline in the lifting capacity which will not be remedied until replacement vehicles can be provided.

Allied assistance has hitherto been readily forthcoming but this is no longer available.

5. It is, therefore, recommended that the three G.T. Coys are allocated as under, for the purpose of meeting essential demands on Italian Transport resources and that each in turn be withdrawn to ORVETO for disbandment as circumstances permit.

2. The Italian Army has not yet obtained possession of the military vehicles of Italian origin recovered in the North, which were ordered to be handed over to MGA by Allied HQs in your letter AG 385.3/153 LOG-O 22 June. The work of organizing and deploying the seven Admin. Tpt Coys (ITI-ITI) involving the selection of vehicles and personnel can NOT be completed before the 31 August.

3. Commencing on approximately 15 July, an unusual demand for transport will arise from the stocking up of ITI-ITI Supply Depots prior to the opening of ITI-ITI Distribution Depots in the North. 6. As regards disposal of the vehicles held by these G.T. Coys.

In view of the number of British vehicles at present held by the Gruppi, it is for consideration (assuming such vehicles are eventually to be disposed of to the Italian Government) whether they should be regarded as a reserve to make up deficiencies in British Transport holdings of the Italian Army.

1. No 3 Italian GT Company forming under WEs NA/531/1, NA/532/1, NA/533/1 and NA/539/1 is authorised to hold six 2 - wheeled 180 - gallon Water Trailers.

2. In lieu of trailers, however, Bedford 15 cwt Water - Tank Vehicles have been issued. The WE makes no allowance for additional drivers for these vehicles and the unit will consequently be deficient of six drivers.

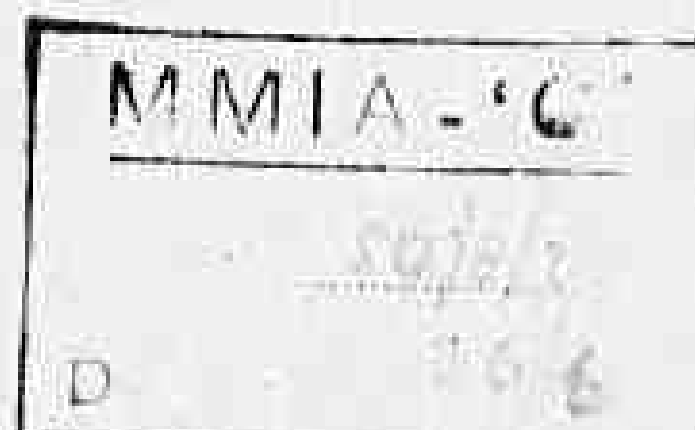

3. The RDIs allow only 12 spare drivers for each platoon which is barely adequate to cover normal leave, sickness, guard and general duties. It is requested therefore that the WE may be amended to provide for six additional drivers i/c when 15 cwt 4 c 2 Water - Tank vehicles are held in lieu of Trailers 2-wheeled.

REMARKS: IN THE MEETING THE CAPT

THEY WERE SUB-ONE, AND (MILITARY)

11/6/2

11/7/2

TO : AMIL

1. It is understood that the Special Transport Coy (from the (AM) AMIL as Auto Transport Coy) is working exclusively for the needs of CAPTAIN on other business.

2. This unit is an AMIL unit held in Category 1 (C), Section 1, Motor Transport. It is, however, employed entirely on British operations and it is understood that there will be some objections to its retention to AMIL operations.

3. At the present time there are four Special Coy (AMIL). It has been necessary recently to find other vehicles in this category for the formation of units destined for the North. Accordingly, the requirement for a Special Transport Coy has been reduced from four to three and the existing unit allocated to other units.

4. Although the Special Coy is not working for the Italian but is working on an account, it has not been possible to find the personnel from this unit and this has been forced to restrict implementation of the Special Coy. There are therefore now only three Special Coy held against the AMIL vehicles, one of which is employed on purely British account, so that only 2 are available to the Italian.

5. The figure of three coys is the minimum necessary to meet Italian commitments, and it is essential that the coys be available immediately.

6. It is therefore recommended that either:

(a) the Special Coy be transferred immediately to the AMIL category, thus releasing the existing 4 vehicles with which the Special Coy can be restored to full implementation.

It is not recommended that the personnel now with the Coy should be withdrawn, but it is most urgently requested that the Italian vehicles be replaced by British vehicles at the earliest moment.

(b) the unit, complete with personnel and vehicles, be transferred to the AMIL category.

END

A.M.L. H.C.L.

3. At the present time are four Special Ops (H-III-III). It has been necessary recently to find other, existing in this category for the Commission of trials conducted for the H-III, according to the requirement for special treatment. Ops has been reduced from four to three and the calling card allocated to other units.

4. Although H-III Special Ops is not working for the Italian but is working on it currently. It has not been possible to find the personnel from this unit and this has been forced to restrict implementation of H-III Special Ops. There are therefore not only three Special Ops Ops held against the H-III-III ceiling, one of which is employed on purely British account, so that only 2 are available to the Italian.

5. The figure of three Ops is the minimum necessary to meet Italian commitments, and it is essential that the Ops be available to collect.

6. It is therefore recommended that either:

- (a) H-III Special Ops be transferred immediately to H-III category, then releasing the ceiling & value with which H-III Special Ops Ops can be restricted to full implementation.

It is not proposed that the personnel now with the Ops should be withdrawn but it is most urgently requested that the Italian value be reduced by reducing value at the earliest moment.

- (b) the unit, complete with personnel and value, revert to H-III control.
