SUBJECT : Rank of Anti-tank and Anti-aircraft
Artillery Regimental Commanders

LAND FORCES COM HQ (1031A)

NO : MINISTRY OF WAR

1. With reference to a discussion on 30 Oct 46 between the Inspector of Artillery and MILA concerning the rank of Anti-tank and Anti-aircraft Artillery Regimental Commanders in Infantry Division.

I appreciate that there may be special and temporary reasons that may make it expedient for the Commanders of these newly formed Regiments to have the rank of Colonel at the present moment.

I also realize that the question of the rank of these officers is a domestic one for the ITALIAN Army and one on which this Mission can advise but cannot presume to dictate.

2. I should like to put it on record however that this Mission does not consider it right in principle that Anti-tank and Anti-aircraft Artillery Regiments should be commanded by Colonels for the following reasons :-

(a) Although these units have been called Regiments they are not in any way comparable with Infantry Regiments. With a strength of just over six hundred men they are, in fact, the equivalent of an Infantry Battalion, a Reconnaissance Regiment or an Engineer Battalion which are commanded by Lieutenant-Colonels or Majors.

(b) The Infantry of a Division has two Colonels only in a force of Infantry of approximately 4,500. If the Artillery have four Colonels in an Artillery force of approximately 2,800 there is a lack of balance among the senior officers in the Division that is, in my opinion, grossly unfair to the Infantry.

Subject: Divisional artillery regiments

Further to letter 3750/Ord/1 dated 22/7/46.

1. - In issuing instructions regarding the reorganisation of the Divisional artillery regiments (see a/m letter), it was arranged that the operations concerning said reorganisation should have been ~~complete~~ completed, at the latest, by the end of November 46.

But said operations, which have begun in almost all the divisions, could not be carried out as prearranged on account of various reasons.

2. - The present situation can be summarised as follows:

a) - a group of officers and senior NCOs have already gone to units. - Others are completing tradesmen courses. We shall order the assignment of personnel still required.

b) - Junior NCOs and men - The strength existing in the units is small. Another group is completing tradesmen courses; the situation will improve by the end of November, when the new contingent of recruits will arrive.

c) - Equipment: guns have been or are being allotted. Gun tools, vehicles etc. are still required.

d) - Barrack accommodation: difficulties are met with. In some barracks, the repair works are at a good stage, but in others, they are still to be commenced; therefore, not all the barracks can be made ready by the end of November.

In view of the above, the estimated W/E reorganisation cannot be completed by the time fixed, but must necessarily be postponed for a further period.

Therefore, the system of graduality laid down in our previous letter acquires more value.

3. - Since the recruits will be posted to the units by the end of November and not all the new Rgts and Groups can complete their formation by that time for the reason stated above, the training of the contingent earmarked for these new units becomes a problem.

- 2 -

It is necessary, therefore, to solve that problem, even though continuing the carrying out of the provisions concerning the above W/E reorganisation.

To this aim, we beg the Military Territorial Command addressed above to issue instructions so that:

- for each HQ or Unit to be formed, a nucleus of personnel, strictly essential, be detailed to provide, with the graduality suggested by the circumstances, for all the operations regarding the ~~form~~ formation (organisation of the commands, withdrawal of the equipment, repair of ~~ball~~lets, etc.);
- the remaining personnel be posted to the existing units for the carrying out of the training programme schemed.

4. - Even though considering that the different situation of the units requires as ~~many~~ different provisions, we deem it advisable to suggest - as a guidance and for the purpose of having a basis of agreement - the procedure which generally could be followed for the transfer of the personnel to be trained to existing units.

And that is:

a) - Field Arty Rgt.

- . personnel earmarked for the 1st Rgt: will be posted to the two groups which will remain in the Rgt.
- . Personnel earmarked for the 2nd Rgt: will be posted to the two groups which will become part of said Rgt.

b) - Antitank Arty Rgt.

- . personnel earmarked for the HQ of the Rgt and for the two groups of 17 pdrs: will be posted to the existing 17 pdrs group.
- . personnel earmarked for the 2nd 6 pdrs group: will be posted to the 1st 6 pdrs group of which formation will have to be hastened so that it may be completed by the end of November.

c) - A.A. Arty Rgt.

- . personnel earmarked for the Rgt will be posted to the existing 40 m/m group.

5. - As soon as the formation of the new units will be completed, (arrival of material and transport) also the personnel which was assigned for training to the existing units, will be posted to them (see para a, b, and c above).

We shall be grateful to know the position by the 15th of ~~December~~ next, in order to complete the W/E reorganisation in question. -

Reply to letters N. 5609/Ord and N. 5157/1/Av dated 18 and 19 inst. respectively.

We agree on the problem of reorganisation and formation the Divisional Artillery Regts. ordered by you.-

Considering, however, the difficulties reported regarding accommodation and the present deficiency in strength of the "Folgore" Inf. Div., it is thought advisable to postpone, for said Division, the formation of the new Artillery units laid down for the Interim Army, until the strength situation improves (this is expected to occur during Nov.) and that the availability of barracks permits the accommodation of the aforesaid units.-

Reply to your SD/21/2 of 25/7/46.

- 1) We agree with your M.M.I.A. regarding the advisability of using a similar organisation and trades qualifications to those used in the British army for signal personnel. The only trade qualification of "Marconista" will be given to W/T personnel of the new Signal Corps.
- 2) Considering that:
- nearly all WEs of the Interim Army have been discussed and approved by the W.E. committee
 - part of the W.Es have been issued and part are being printed.
 - your M.M.I.A. does not think advisable to issue amendment before 6 months have elapsed from the date of approval of the W.Es (see letter SD/106 of 25th July 1946)-
- it seems advisable, at least for the time being, to postpone instructions contained in para 1 above unless your M.M.I.A. intends to cancel instructions contained in a/m letter No SD/106.-

TO : MINISTRY OF WAR
UFFICIO ORDINAMENTO E MOBILITAZIONE
INFERIORI ARTIGLIERIA

1. The recently approved R.O. of Mixed Artillery Battery of a Security Brigade contains 5 "Marconisti" (Wireless operators).

2. It was agreed some days ago by Gen. Col. DE PALMA of the "Ispettorato Artiglieria", with Major MONTESANO, R.O.M. Sig of this R.O., that the British organization and nomenclature would be followed regarding Arty Sig personnel i.e. there would be two types only - "Driver Operators (Marconisti Conduttori)" and "Signalers (Specializzati per le trasmissioni)".

3. In the British Army fully fledged Wireless Operator a "Marconista" exists only with the Royal Corps of Signals and it is strongly recommended that the same practice be followed in the Italian Army, i.e. "Marconisti" should exist only with the new Corps of Signals.

SUBJECT: Organization of Arty Directorate of MESSINAFollowing and confirming verbal message.

1. The Territorial Military HQ of PALERMO, has informed us that the factory of the ex Arty Directorate of MESSINA, formerly being used by the Allied local authorities for the repair of arms, is being cleared. The said Allied Authorities have pointed out that most of the factory will be handed back to the Italian Army, so that a good part of the excellent workers which will be made available by the cessation of the Allied work, may be employed.

Therefore, we beg MMIA to authorize the reforming of the Arty Directorate of MESSINA, as the Territorial Military HQ of PALERMO does not have an Arty Directorate to meet its own requirements.

2. W/E proposed for the a/m Directorate is as follows:

5 Officers and 17 CRs ((NCO's and Men)).

3. So as to include the a/m personnel within the authorized strength of the Arty Service, we propose to change the u/m Arty Directorates into detached Sections, reducing their present WE to the one indicated ~~MAX~~ alongside:-
