Subject:- Denominations of the Infantry Regiments not included in a Division.

1. In the reorganisation of the denominations of Army Units, it has been considered convenient for the Infantry Regiments to retain a denomination and a number.

For the Regiments not included in a division or in Infantry Brigades - considering also the wishes of the HQs concerned - the denomination has been chosen from those of one of the glorious corps of divisions and brigades, the name of which reminds of and honour the region under the jurisdiction of the Military Territorial Command to which the Regiment is now assigned.

Therefore, w.e.f. 1st April 1947, the following denominations will be adopted:

- 157th "Liguria" Infantry Regiment
for the present 2nd Infantry Regiment of the Genoa Military Territorial Command;
- 40th "Bologna" Infantry Regiment
for the present 6th Infantry Regiment of the Bologna Military Territorial Command;
- 78th "Toscana" Infantry Regiment
for the present 7th Infantry Regiment of the Florence Military Territorial Command;
- 9th "Bari" Infantry Regiment
for the present 9th Infantry Regiment of the Bari Military Territorial Command;
- 75th "Naples" Infantry Regiment
for the present 10th Infantry Regiment of the Naples Military Territorial Command.

INF

ONLY

-2-

2. As the denomination given to the Infantry Regiment of the Naples Military Territorial Command is the same as the 76th "Naples" Regiment of the "Mantova" Division, the latter will modify its denomination adding to its number the name of the Division and assuming the relative badges.

The denomination will therefore be: 76th "Mantova" Infantry Regiment.

3. The Military Territorial Commanders will point out the important significance of the above instructions.

The 76th "Naples" Infantry Regiment, which during the war of liberation has become a part of the "Mantova" Division will be proud to assume its colours, knowing the glorious traditions of the "Naples" Division will be entrusted to the reformed 76th Infantry Regiment.

Subject: Depots for Infantry Regiments not included
in a division. -

Further to letter 6204/Ord/II dated 28/12/46. -

1. - Carrying out the programme of reorganisation of the regimental depots and bearing in mind the opinion of all the Commandants of the Infantry Regiments not included in a division, pointed out during the meeting held on the 4th January last, at this SME, we order, wef 1st April next, that the depots shown in the attached table:

- assume the denomination corresponding to that of the Regiments to which they are assigned;
- come completely under the command of the respective regimental commanders;
- be entrusted with all the tasks previously carried out by the regimental depots in the pre-war organisation, i.e.: administration, management of the materials, records. -

Following the above, the "Audit Officer" will be the commandant of the depot and will have the rank of Lt.Col. -

2. - For the carrying out of what has been laid down in the above para 1, it is necessary that the regiment and the depot have the same location.

However, in the present situation, some units cannot be located in the same place at a short notice. In such cases the concerned regimental Commanders will adopt all possible measures in order to ensure the carrying out by the depots of the tasks entrusted to them.

If absolutely necessary, some elements of the depot will

Subject: CAR Depots. -

Further to letter 3850/Ord. II dated 1/8/46. -

1. - In order to commence the carrying out of the re-organisation programme of the depots, indicated in the above referred to letter, we order that the CAR depots take on the denominations shown in the enclosure n° 1, and all the functions given to regimental depots in the pre-war W/E, i.e. admin. and material management.

2. - Consequently, w.e.f. the 1st February 1947 the CAR depots will be transferred entirely under the command of the respective CAR Commanders. The depot Commander will be the "Audit Officer" who will have the rank of Lt.Col. -

3. - In order to carry out what has been laid down in the preceding paragraph, it is necessary that the respective depots exist in the same station as the CARs.

It is therefore necessary to arrange the setting up of the following depots w.e.f. the 1st February 1947:

6 CAR Depot	- Pesaro
7 " "	- Siena
8 " "	- Orvieto

W/Es: those laid down in pamphlet 10/S (pages 52-53) limiting the employment of civilian personnel as follows:

2nd category casual employees	20 (
3rd and 4th category casual employees	16)
Temporary: General Duty personnel	8 (
Apprentice workers	1)
Cyclists	2 (19
Telephonists	3)
Drivers	2 (
Sworn Guards	3)

5292

- 2 -

The setting up will be respectively carried out using, generally, the personnel and the equipment of the following depots which will be disbanded on the 31st January 1947 :

- 11th Infantry Depot - Forlì - for the 6 CAR depot - Pesaro
-
- 1st Field Artillery depot - Foligno - for the 8th CAR depot - Orvieto

The Military Territorial Commands concerned will adopt all the provisions in order to facilitate the location, in the station of each CAR, of the respective personnel of the a/m disbanded depots. For the civilian personnel wishing to be transferred to the new stations, eventual particular instructions will be given by the General Directorate of Civilian Personnel and General Affairs.

For the transfer to Avellino of the 10th CAR depot (temporarily at Salerno) the Military Territorial Command of Naples will forward concrete proposals bearing in mind the necessity of carrying out the provisions as soon as possible; the instructions contained in the previous paras 1 and 2 prevail also for said depot.

4. - For the depots which in compliance with the present instructions change their arm of service and trade, the replacement of the military personnel need not be made immediately as the duties they carry out are on the whole identical for the depots of the various arms.

Therefore the Military Territorial Commands can gradually arrange the replacements in accordance with the exigencies of the service and, as far as possible, of the personnel in the particular present situation.

5. - For the completion of the a/m instructions, eventual particular rules will be given by the central units concerned.

6. - Upon completion of the transformation and transfer of the units in question, please inform the central units concerned. -

DATE: 1 August 1946.

SUBJECT:- Reorganisation of regimental depots and
C.A.R. depots.

1. - We forward a programme of reorganisation of regimental depots and C.A.R. depots.

As is known almost all regimental depots existing at present have no connection with the regiments of which they have the denomination as those regiments have been disbanded in the past.

The new organisation of the Army and the reduction of problems renders the reorganisation of the depots within the frame of the new structure of the Army necessary, assigning to each regiment in being a depot with the denomination corresponding to that of the unit to which it is assigned.

In the future the double reduction of the number of depots may be considered attributing only one to two inf regts of each division and one to the arty of same division.

Similarly for the brigades (already in practice for two brigades "Aosta" and "Reggio").

2. - For the C.A.R.s - which can be considered as static - it is considered advisable to place the command of the depot - for all purposes - under the commandant of the C.A.R. The commandant of the depot will therefore be a lt col and the location will be the same as that of the C.A.R.

For those C.A.R.s (from 6th to 10th see attached list) for which said coexistence has not yet been reached, the military territorial commands will forward proposals regarding the advisability of disbanding them and reforming them or transferring them to the location of the C.A.R. (question of transfer or dismissal of civilians).

The C.A.R. depot at Como will continue to deal with the questions of mobilisation of the 67th "Legnano" Inf Regt until instructions are issued assigning one depot to two inf regts of the division. 11th C.A.R. depot Palermo is also the depot of the arty and engineer units of Sicily.

5208

81

- 2 -

3. - Regarding the registration and handling of material, the question can be considered solved for the C.A.R.s, inf bdes and inf regts not in divisions as the corresponding term regiment - depot permits the application of the instructions in the regulations for the administration and accounting of corps, military institutes and establishments - 1945 edition.
It yet remains to decide the question of the handling of material at regiments of divisions; it is being studied and the conclusions will be forwarded.
4. - The substitution of personnel as a result of change of arm or trade of the depots should be effected gradually, according to the opinion of the military territorial commands concerned, taking into account the requirements of the service and as far as possible the needs at the particular moment of the personnel.
5. - Before carrying out this programme, we beg the commands addressed above to inform of their opinions and eventual proposals before the 31 August next. (46)

Subject: Disbandment of Regimental Depots.

I - Carrying on with the programme of the gradual ~~disbandment~~ disbandment of Regimental Depots no longer required in the new organisation of the Army, we order the disbandment by the 31st July 1946 of the Regimental Depots shown in enclosure one.

Military Territorial HQs concerned will arrange this. Units which will absorb the disbanded Depots and to whom relative documents, mobilisation and documentation duties regarding the a/m Units is also shown in the enclosure;

- naturally, documents in respect of released personnel will be excluded and sent to their respective districts.

Officers, NCOs and men made available but who cannot be used to complete W/E of the Units in the area will be reported in accordance with existing regulations to the competent central departments.

Civilian personnel: instructions contained in the ~~existing~~ circular from the civilian and General business General Directorate n° III3 dated the 18th/6/46 apply, to be put into effect by the 31/7/46.

Stores: will be sent to the Military Territorial HQs concerned.

Buildings: will be used by Units in the area. Any surplus to requirement will be reported in accordance with existing regulations to the competent central departments, placing a guard over them in the meantime.

2 - In order to ease the taking over of the ~~disbanded~~ depots by the units which are absorbing them, Military Terr. HQs will, where it is considered necessary, keep up to the 31/7/46 an Officer or NCO, on the strength of the depot being handed over in order to inform the unit taking over of all outstanding matters.

Subject Reorganisation of Regimental Depots.

Further to letter 343/ORD/II dated 21/1/46.

- 1°) - As already reported in the above letter, the regimental depot reorganisation programme, includes the allotment of a drivers depot to those Mil.Terr. HQs which have not one at present.
- Concerning the restoration of the peace time administration regulations this measure has been made essential and urgent in order to arrange the complete administration management and the administration of the stores belonging to M.T. service units located in each territorial area.
- 2°) - In respect of the above the driver depots referred to in the attached list will be reformed by the 1° of April, in addition to those ^{at} present (3° 8° 9° and 10°)

SUBJECT: Personnel for the Infantry Commanders Office
of the Military Territorial H.Q.s.

Further to and in modification of letter 136/Ord./1 of 18.1.46

The assignment, as a purely temporary measure, of a Brigadier Infantry Commander has been counselled by the necessity of avoiding too much work for the General 2nd.i/c who, at this particular moment, is fully occupied by the intensified activities of the districts and depots.

On the situation returning to normal, the duties of Infantry Commander will have to be assumed by the General 2nd.i/c, so that, thus, each Military Territorial Command will return to having at its disposal three General officers in addition to the Commander: the Infantry Commander (General 2nd.i/c), The Artillery Commander, and the Engineer Commander.

In the meanwhile, the Infantry Commanders posted in excess of establishment with the letter which this follows, will carry out Inspectorate and consultive duties exclusively. They must therefore depend, for the execution of their duties, on the Military Territorial Commands of which they form part, using the essential minimum of personnel ~~existing~~ on the war establishment of said H.Q. and without the formation of their own offices.

REF: 343/Ord./11

DATE: 21.1.46

SUBJECT: Organisation of military districts and regimental
 depots.

In reply to your SD/34/B of 3rd. January 1946

1) - MILITARY DISTRICTS

The present classification of the military districts under five categories is in line with that laid down in the past on the basis of the actual working requirements of each individual unit, checked over a long period of experience.

This classification is, without doubt, to be considered too minute and therefore, as already stated, we are in full agreement with M.M.I.A. on the advisability of reducing the classes of the districts to two, or three at the most.

It is essential, however, that this modification is carried out in strict relation to the strength of population looked after by each district, a strength which is at present being revised in order that, generally speaking, the boundary of each military district is the same as that of one or more provinces, or in such a way as to include, in particular cases, the entire boundaries of two or more districts within the territory of one very large and densely populated province.

In view of such complex work of revision which cannot be completed in a short period and which cannot in any event be

5267

281600

put into effect before the beginning of next year in order not to cause harm to the conscription operations, we consider it advisable to refrain, until the above mentioned period, from the projected modification of the present classification of the districts and of the war establishments laid down for them in very recent orders.

2) - REGIMENTAL DEPOTS

With the reestablishing of the peace time administrative regulations, it is necessary that all the regiments and corresponding units go back to making use of their respective depots not only for documentary matters but also for the administration and management of stores.

It is moreover necessary for the depots to still provide for the rear party activities of the numerous units formed by them (and by others formerly existent) in the past, and now disbanded.

In relation to these requirements, each regiment or R.T.C. will be assigned its own regimental depot at the same H.Q. or in another nearby.

The rear party duties in respect of the disbanded infantry units can be carried out by the same depots intended to remain functioning, but in respect of the artillery units it will be necessary, however, to transfer them not only to the depots of the few existent artillery regiments but also to at least one other artillery depot for each comiliter.

The programme for the reorganisation of the regimental depots is shown on the attached return. There will be, generally speaking :

Firstly : change of name of the Infantry and Artillery depots

in order that they will coincide with the existing regiments and to bring them as close as possible to the latter in respect of location. Changing on the spot of depots which are no longer necessary (artillery, railway and bridging engineers, light infantry, etc.) into depots planned for in the programme.

Secondly: Gradual disbandment of the excess depots (mainly in Central-Southern Italy and Sardinia) and the formation in Northern Italy of those depots which are still short in the actuation of the programme.

At present some of the measures of the first phase are being put into effect; the remainder and those planned for phase 2 will be ordered as soon as possible.

Ref my 30/34/5 dated 15 Nov 45, and the personal visit to HQ of Lt Col SALVI on the same subject.

1. Lt Col SALVI stated that it was intended in the course to reduce the number of varying types of District HQ as suggested in my a/n letter. Can this HQ now be informed, please, what action is being taken in this matter, and when the agreed consolidation will take place?
2. Lt Col SALVI also discussed the question of the very large number of redundant Depots, particularly for the Artillery (five existing Army Regts and twenty nine Arty Depots).
3. May this HQ further now be informed, please, what action has been decided by you to bring the number of Depots more closely into line with the present and probable future size of the Army?
4. The reasoning set out in my previous letter is still considered relevant.

Ref your proposals for Territorial and District
Hqs and for Depots.

1. (a) Your proposals to retain only two types of Territorial HQ is agreed.
(b) The detail of the HQ is agreed.

2. (a) Your proposals for the detailed WM of the District HQ are agreed, but with the provision that it appears to this HQ to be unnecessarily confusing to have as many as five different types of HQ. In view of the fact there are such small differences in numbers between types A and B, C and D, and E and F respectively, would it not be very much more satisfactory to have three types only: 1 Large Medium and Small, comprising on total numbers in each type, and allowing say four large type at 37 men each, fifty seven medium type at 24 men each, and thirty eight small type at 16 men each? The net increase in manpower would be only forty eight, which would be more than counterbalanced by the simplicity gained. Will you please study, and perhaps reconsider your attitude?

3. Although your detailed proposals for Depots are agreed, it is felt
(1) That an unnecessarily large number of Lieut Colonels are included in the establishment.
(2) That you are providing for far too many Depots. Incl. Inf Five (5 x 2), Internal Security Divs (2 x 2) and Internal Security Regts (11), etc.

(ii) That you are providing for far too many Depots. Incl. Inf Divs (2 x 2), Internal Security Divs (2 x 2) and Internal Security Regts (11). you have only twenty five Inf Regts.
Yet provision is made for forty six Inf Depots. For the present five Arty Regts, you allow twenty nine Depots, i.e. a total of 21 + 24 = 45 depots are provided for non-existent Regts. This is felt to be entirely excessive and wasteful at present, nor does it appear likely that any comparable

increase will be required for the eventual Army.
 Will you please re-examine this and inform this HQ of your conclusions and reasoning. A figure in the neighborhood of my ten surplus depots with establishments, not to be implemented, would seem to be the maximum possible reasonable excess over present needs.

1. Thank you for your proposals for increase in Territorial Lay-out from 2,000 personnel to 7,000 personnel. At first sight your figures appear high.
2. Will you please now submit detailed WEs, and confirm that in each case this is required for the future Italian Army. It is considered that those civilians which are still working on the records of the pre-Armistice Italian Army, should remain civilians and not be an Allied commitment for the future army.

Subject: Personnel of the Udine District.

1°) Since, as is known, it has not yet been possible to form the districts of Trieste, Gorizia and Pola, the Military Territorial H.Q. of Udine has set up at its own district, a section for each of the above-named districts. Each section comprises an officer and three civilian clerks.

2°) These sections thus formed have shown themselves to be practical and useful in the payment of allotments and other matters relating to military personnel with families resident in the territories covered by the three above-mentioned districts.

3°) We therefore beg MMIA kindly to approve the formation of the above-mentioned sections, in order temporarily to authorize the Udine District to operate on a ration strength of 9 units instead of 6.

The above-requested measure will not require any increase in the District's authorized strength, because the three ~~existing~~ surplus, ^{rations} issued as above to the Udine District, will be counted as part of the strength authorized for the not yet formed Districts of Trieste, Gorizia and Pola.

SUBJECT: Jurisdiction of Udine Mil. Territorial HQ. *50/34*

Further to letter 13994/Ord/II dated 7th inst.

1. As a result of the restrictions ordered by HQ 8 Army, the renewal of the Territorial organization authorized by you, could not be practically carried out in localities east of the Piave line.

2. On the other hand, it appears that some of the units, which were formerly existent in the area, are still functioning under the National Committees of Liberation. Full support is given by these Committees so that the work of these units be for the benefit of the populations which suffered hardships of the war. (i.e. allowances to the families of military personnel killed in action, allowances to the families of POWs, etc, the possibility of reemploying ex workers of some of the territorial establishments, etc.).

3. The functioning of these units, outside the Italian Mil. Authorities circles, still encounter difficulties (i.e. difficulties in coordination, in finance, etc.). On account of these difficulties, the National Committee of Liberation applied to Udine Territorial HQ so that these units be transferred to their command.

In accordance with rulings issued in the past by HQ 8th Army, the commander of the Udine HQ could not adhere to the request.

4. In view of the above and also in consideration of the improved situation in Venezia Giulia, we beg you to take the matter up and obtain the authority for the functioning of the Territorial organization located east of the Piave line.

This will be the answer to an obvious necessity and would be a sure contribution to the return to normal which is certainly included among the duties, to be carried out by the Allied Forces located in these territories.

REF: 13660/Ord./11

DATE: 19 May 1945.

SUBJECT: War establishment of the Districts.

1) In order to equalise the present internal organisation of the districts with the existing functional requirements it is considered advisable to submit some light modifications to the classifications now in force, a modification which would not, however, mean any increase in the total strength laid down.

2) The proposed modifications are as follows:-

a) districts of the 1st.class:are sub-divided into:-

Class 1/A:Milan - Rome (12 units each as at present) these are the districts most burdened as they are the result of the combining of the former districts of Milan 1,Milan 11,and Rome 1,and Rome 11 ,respectively;

Class 1/B:Turin and Naples(9 units each);thus,a reduction of 3 units is made to Turin(which has 12 at present) and an increase of 3 to Naples which is therefore changed from the 2nd.Class to 1.B.

b) the forming of a 5th.class(formerly existent in the old organisation): war establishments as for the 4th. class (4 units) with the exception of some modification in civilian personnel;8 districts will change over to the new class,which at present belong to the 4th.class.

With the exception of some modification to civilian personnel,no change is made in the others.

3) As a consequence of the above,the splitting up of the strength laid down for the districts in heading 15 of M.M.I.A.letter SD/94 of 7.2.1945.,will be modified as shown in column 2 of the enclosed list,while,as stated,the total remains unaltered.

n° 13660 /Ord./II di prot.

P.M.3800, li 19 maggio 1945

OGGETTO: Organico dei Distretti.-

All.n. 1

ALLA LAUD FORCES SUB COMMISSION AC (M.M.I.A.)

ROMA

1) Allo scopo di adeguare l'attuale organizzazione interna dei distretti alle reali necessità di funzionamento si ritiene opportuno proporre qualche leggera modifica alla classificazione ora in vigore, modifica ~~alla~~ che non apporterebbe, peraltro, alcun aumento alla forza totale stabilita.

2) Le modifiche che si propongono sono:

a) distretti di 1^a classe: vengono suddivisi in:

Classe I^a/A: Milano - Roma (12 unità ciascuno come attualmente); sono i distretti maggiormente aggravati per chè risultano dalla fusione rispettivamente dei vecchi distretti di Milano I, Milano II e di Roma I e Roma II;

Classe I^a/B: Torino e Napoli (9 unità ciascuno); si viene cioè ad apportare una riduzione di 3 unità a Torino (che attualmente ne ha 12) ed un aumento di 3 unità a Napoli il quale passa perciò dalla 2^a classe alla 1^a B.-

b) Viene costituita una 5^a classe (già esistente nel vecchio ordinamento): organici come per la 4^a classe (4 unità) salvo qualche modifica nel personale civile; alla nuova classe passano 8 distretti attualmente appartenenti alla 4^a.

Per tutto il resto nulla di variato a meno di qualche modifica al personale civile.

3) In conseguenza di quanto sopra la ripartizione della forza stabilita per i distretti al capo 15 del foglio di codesta M.M.I.A. numero SD/94 del 7/2/c.a. verrebbe modificata come riportata a colonna 2 dello specchio annesso, pur rimanendo invariato, come già detto, il totale complessivo.-

1. The question of the Naples Artillery Directorate has already been thoroughly discussed with HQ MMIA, and, in view of the decision not to use it in the repair scheme, no further assistance can be given towards its improvement.

2. I am well aware of the difficulties to which you refer in your letter, but, in view of the above, I regret that the only steps you can take are to ensure that the military staff is kept to the strength laid down in the Italian Army Strength State No. 2/8 (5 Officers and 14 ORs), and that the scope of the work at present undertaken is reduced accordingly.

My Dear

Reference our conversation :-

1. Herewith the list of proposed Commanders for the Territorial H.Q. in NORTH ITALY. My TS/G/12 of 26 Dec refers.
2. CERICA I told you about. He has done well at FLORENCE and has been in touch with the Patriots working in BOLOGNA area.
3. PRALORNO is a high class officer with ties TURIN way.
4. FRATTINI commanded POLCORE Div at EL ALAMEIN, so must have been considered one of their best. I liked the look of him when we met.
5. CADORNA, head of the "Corps of Liberation" in PIEDMONT. A great name and an excellent choice.
6. NEGRONI, I believe a good officer. I have not met him.
7. ARMELLINI - you know of. He has a brother with the patriots in the UDINE area, I am told.
8. The Minister of War has selected all these and the junior commanders as well personally with great care. I propose to say we approve. Do you agree?

Yours

C.O. Lt Gen ARCELLINI Quirino
 Arty Comdr Brig FERRARI Augusto
 Eng. Comdr Lt Col GRILLANTINI Ettore, director of the Works Branch
 and Acting Temporary Eng Comdr.

In the selection of these officers it has been endeavoured to follow the policy selecting officers already acquainted with the territories to which they are being posted.

A separate list will be made of the officers to be born in mind should it be necessary at a later date to appoint Deputy Generals for said Territorial HQs.

I will be very grateful for your approval at your earliest convenience in order that I may be able to issue the necessary warnings.

THE MINISTER (Sgd) A. CASATI.
