SUBJECT:- British military train - Opposition to control.

Bolzano Military Territorial Command has informed us that the British Military train 9394 coming from Rimini and going to Germany, transporting 800 German prisoners, arrived at the Brenner pass at 11.30 hrs 13 March 1947.

In agreement with what was laid down by MMIA in letter SD 50 dated 3 Oct., the border authorities wanted to make a frontier check. The escort however commanded by Lt TONNEL of the Surrey Regt A.T.T. - No 1 Special COS B.B. - C.M.I. strongly refused to let the police and finance guards on the train for customs control purposes.

The train left unchecked at 14.30 hrs in order to avoid incidents and delay.

As this is the fifth incident of this kind to occur within a few days, we would inform you of the matter for such action as your A.F.H.Q. deems fit to take.

All matters of frontier control, therefore, on the FRANCO-ITALIAN and ITALO-AUSTRIAN frontiers bounding these provinces became the responsibility of the Italian Government on that date.

2. In view, however, of strong representation from the FRENCH Government, the Italian Prime Minister, in a letter dated 29 December 1945 gave an undertaking that the Italian Government would not station troops other than CCRR anywhere within 15 miles of the FRANCO-ITALIAN frontier pending further notification from the Supreme Allied Commander.

3. Subject to the restriction in paragraph 2 above, the Italian Government are responsible for taking all measures necessary for the control of their frontiers, including action against "possible armed parties which may attempt to violate the frontier and occupy the locality".

TO : ALLIED HIGH COMMISSIONERS

1. It is reported to this HQ by Ministry of War that 4 (ENZANO) Corp. HQ, LIVORNO, has recently received a letter (not in possession of Ministry of War or of this HQ) from 277 Area stating that "all matters concerning frontier control are the responsibility of the ITALIAN Authorities".
2. Ministry of War desire elucidation as to whether this includes action against "bands of armed partisans which may attempt to violate the frontier and occupy the I. territory", as well as normal control of traffic.
3. It is desired in any case that the ITALIAN frontier is excluded from ENZANO military responsibility and that the frontier in 13 Corps area is excluded from any ITALIAN responsibility.
4. Will you please define ITALIAN responsibilities for Frontier Control, at your earliest convenience?

SUBJECT: Frontier Control.

Bolzano Mill. Terr. "HQ" has been recently informed by 4th B.L.U., that, following a similar letter from 217 Area, "All Matters concerning Frontier Control are the responsibility of the Italian Authorities".

Having requested 4th B.L.U. to kindly state whether Frontier Control means keeping only a look out for persons crossing the boundary line excluding any possible action against armed parties which may attempt to occupy the locality, the A/M Liaison Officer, after having in turn asked 217 area "HQ" for further classification, confirmed that the Italian Authorities were responsible for "all matters concerning Frontier Control".

For our guidance, we ask your Mission to kindly state whether the Italian Authorities and Armed Forces are actually responsible for preventing any armed party violating the boundaries.

Existing orders re Control of the Frontier lay down that no Italian Tps. other than CC.RR shall be located within 25 Kms. of the Frontier.

A.C.L.C. Bolzano (Col. Miller) has recently inserted a notice in the local press rescinding "restrictions" in this area, and HQ 4 Territorial Command are anxious to know how this effects the locations of their Tps.

I have informed them that to the best of my knowledge any orders emanating from A.C.L.C. are purely administrative and have no bearing whatever on existing military instructions, and that therefore the previous restrictions on the military remain unaltered i.e. no tps. to be located within 25 Kms. of the Frontier.

I would be grateful if you would confirm that my interpretation is correct.

Ref. your O1/2939/OP/A.13 dated 22 May 46.

Will you please make sure with 4 B.L.U. if the communication we have received from 217 Area, refers to the control of the frontier exclusively (as we are supposing), viz. supervision of the access of individuals across the line of demarcation, or if that communication also refers to actions of military units who may try to occupy any place up there.

We are awaiting a strictly precise statement.

The following is a translation of a letter received from the Ministry of War by HQ 4 Terr Comd.

I interpret your ruling as authority for Italian troops to take any action they wish up to the line of the frontier, in the area referred to. In view however, of the high level from which this question originates and the high policy involved it is felt that a precise ruling should be given by a higher authority than this HQ, in order that it may be passed to HQ 4 Terr Comd for onward transmission to the Italian Ministry of War.

SUBJECT: Guarding of Frontier.
TO: GOC, Land Forces Sub-Com (ISIA).

*SD**18/5.**see F. 4.*

I refer to your SD/50 of 15 May 45. Surely at this stage we should enquire from 15th Army Group and the Armies what are their intentions. The future and employment of the Italian Army is of vital importance to the Italian Government. They want to know. We - AG and Land Forces Sub-Commission - are the channel who should advise them, help them and initiate matters for them. 15th Army Group, 5th Army will very soon disappear; why should we not take the initiative, before they do something untoward with the Italian Army, and ask them.
